Statement, relating to the establishing of a part of the County Line, between Tippecanoe and Montgomery Counties, State of Indiana.

Whereas, there have been many difficulties experienced by land owners along and adjoining that part of the county line between Tippecanoe and Montgomery Counties, West of the Section Corner between Sections thirty five (35) and thirty Six (36) in Township Twenty one (21) North : of Range four (4) West, on account of many discrepancies in the Surveys and measurements which have been made from time to time, during a period of some fifteen or more Years, and which discrepancies have resulted on account of the loss, or entire obliteration of many of the landmarks made and established in the original Survey of the line mentioned, and

Whereas, The resident owners contiguous to said line did by petition, through due course of law establish a public highway upon that portion of the said county line intervening between the South west corner of Section thirty four (34) in Township twenty one (21) North : of Range five (5) West, and the quarter Section corner on the South line of Section thirty four (34) in Township twenty one (21) North of Range four (4) West, making a distance of Six and a half Miles,

And, Whereas the Survey reported by William J. Snoddy, County Surveyor of Tippecanoe County, on the 9th day of June A.D. 1856, to the Board of Commissioners of said Tippecanoe County (which Survey was made at the time of viewing said highway,) failed to Satisfy or correct any of the aforementioned discrepancies,

It was therefore Resolved and agreed upon by a Majority of the said land owners, That prior to the opening of said highway, there should be made a careful, legal Survey of that part of the said County line occupied by said highway between the points aforementioned, and with a view of instituting and carrying out said proposed Survey, the following subscription or agreement was circulated and signed by land owners adjoining said line To-wit- "We the "undersigned hereby agree to pay our proportionate part of the expense "of Surveying and thereby ascertaining the true location of the County "line dividing Tippecanoe and Montgomery Counties. 2nd. Our proportion "to be estimated according to the distance said line may run along "our lands. Dec. 31st 1856,

D. H. Montgomery	James Gregory	Oscar Park
O. P. C. Evans.	F. A. Reese	D. M. McCollister
Phillip his x mark Harter	Charles Swear	Wm. Pelt,
J. Boggs. per Evans	P. P. Singer	Joseph N. Brown

Now therefore in pursuance of the above agreement, due notice having been previously given to the resident owners along said line, We, the undersigned, John Severing, County Surveyor of said Tippecanoe County, and John Buck County Surveyor of said

Montgomery County, did on the first day of September A.D. 1857, meet by appointment, upon said line, with a view to investigate the said discrepancies and conflicting Surveys, and, if possible, restore said line to its original locatio We proceeded first to the Section Corner (on said line) between Sections thirty one (31) and thirty two, (32) in Township twenty one (21) North: of Range four (4 West, with a view to locate said corner by the field-notes of the original Survey, which notes designate at this corner, as a witness a "Large Rock S 35° W 34 links", but we failed to recognise said rock: We next proceede to examine into the correctness of a Survey made in September A.D. 1843, by Absalom Ketcham, County Surveyor of said Montgomery County. We Commenced at a rock purporting to have been set by said Ketcham in said corner last Mentioned and running eastward (using a transit instrumen with a variation of 5°30' East, we continued in a straight line to a point opposite and twenty Eight links South of the first known established Corner which could be located by the original witnesses, which was at the corne between Sections 35 and 36, in Township 21 North: of Range 4 west, as aforesaid, this corner being perpetuated by a stone planted by the said John Buck, by the aid of the original witness trees designated in the origina field-notes, at which place we adjourned until the next day, (2nd inst)

On 2nd inst met at 9 O'Clock pursuant to adjournment at the Section Corner between Sections 31 and 32, Township 21 North: of Range 4 West as aforesaid, and proceeded with corrected bearing of 5°28' to run Westward, and found in line Stones set by said Ketcham in September A.D. 1843, as aforesaid as follow. Two Stones in the South line of said Section 31; one Stone in Range line, between Ranges 4 and 5: and two Stones in the South line of Section 36, Township 21 North: of Range 5 West; Continuing Westward in a straight line, we found no reliable evidence of the existence of any original corner in said Coun line until we reached the Section Corner between Sections 33 and 34, in Township 21 North: of Range 5 West, being the corner of land owned and occupied by Addison Kendall, at which place we adjourned unti the 4th inst, to await testimony touching upon the location of said last mentioned Corner.

On 4th inst, at 9 O'Clock met pursuant to adjournment at last mentioned Corner, when Addison Kendall was Sworn by said John Severing, County Surveyor, to give evidence relating to the location of said Corner, on said (Township and) County line between Sections 33 and 34, in Township 21 North: of Range 5 West, as follows- "Have known this point about twenty two years. My "first knowledge of it was at the time my father entered this land "adjoining. It was at that time a conspicuous mound with a stake "in it, as made for corners in the original Survey. The stake remained "in the mound for about seven years after my first knowledge of it,

" when, in order to better perpetuate the corner, my brother Alfred
"Kendall, one other man, and myself, planted this stone in the
"point formerly occupied by said stake. No time intervened between
" the removal of the stake and the placing of the stone, by which
"I could have forgotten the point. This is the identical stone which
" was placed here by us at the time, which was some fifteen years
" ago. It stood unmoved since that time until some ten days ago, when
" from fear of removal on account of the ground wearing away it was
" taken up and reset in the same point, with brick-bats under it by John
" Kirkpatrick, James. M. McCollister, (both of whom are here present) and myself.
" I remember the survey made by Absalom Ketcham in 1843, was
" satisfied that he runs four or five rods south of this line as known
" to me. I told him so. He gave me no satisfactory reply. He established
" no points or corners along here. I was not with him on the survey of
" the line. He took dinner at my house when returning from points west
" of this. The owners of lands in this neighborhood did not consent
" to the survey, were not present, and were not notified that any
" survey of the line was to be made". Further witness saith not.

From this point we proceeded westward one mile, to the section corner between sections 32 and 33, Township 21 North, Range 5 West, at which corner we found a stone, which was in a line west of the corner testified to by said Addison Kendall. This corner being in position to corroborate the location of the said corner testified to by said Kendall, we took testimony, as follows, James. M. McCollister, sworn by said John Levering, and testified as follows. "I have lived in this neigh=
" =borhood about six years, have known this corner stone about
" three or four years, it was pointed out to me by Absalom Kirkpatrick
" deceased (who was an old resident in this vicinity) as the place occupied
" by the original stake and mound, as known to him for many years"
Further witness saith not.

Having full confidence in the testimony of Addison Kendall as touching the correctness of the corner between sections 33 and 34, as aforesaid, we returned to said corner, recognising it as the point indicated in the original survey. We here ascertained by measurement, that the line as run by said Ketcham in September 1843, as aforesaid, passed four $\frac{16}{100}$ poles south of said point and was therefore incorrect.

Now, with a view to permanently locate this said corner, to-wit, the south corner between sections thirty three (33) and thirty four (34) in Township Twenty one (21) North: of Range five (5) West, being in said County line, we obtained a heavy stone measuring thirty nine inches in length, and deposited it, (with brick-bats under) in the point occupied by the stone referred to in the testimony of said Addison Kendall as aforesaid, marking the same with a cross line

on the apex. We then proceeded to correct and establish said County line (the same being an original Township line) by running a straight line from said last mentioned corner to the South Section Corner between Sections thirty five (35) and thirty six (36) in Township Twenty one (21) North: of Range four (4) West as aforesaid, designating said line by driving Sundry Stakes at convenient points along the Course of aforesaid highway

th A majority of the land owners along the Course of said highway were present during the progress of the Survey and Consented to the same.

In witness whereof we the aforesaid Surveyors of said Counties. have hereunto set our hands and Seals this Ninth day of September A.D. 1857

John Levering, Co. Sur. (L.S.)
Tippecanoe Co. Ind.

John Buck Co. Sur. (L.S.)
Montgomery County. Indiana

A correct Copy of the foregoing Statement as entered on record, was Spread upon the Surveyors record of said Mont-
-gomery County. Indiand. by John Buck. Co. Surveyor of said County.

Plat of Survey of the North half of the South West quarter of Section Eleven (11) in Township twenty-four North of Range Six (6) West.

Surveyed September 21st 1857 for George N. and Milton Buck.

By John Levering C.S.

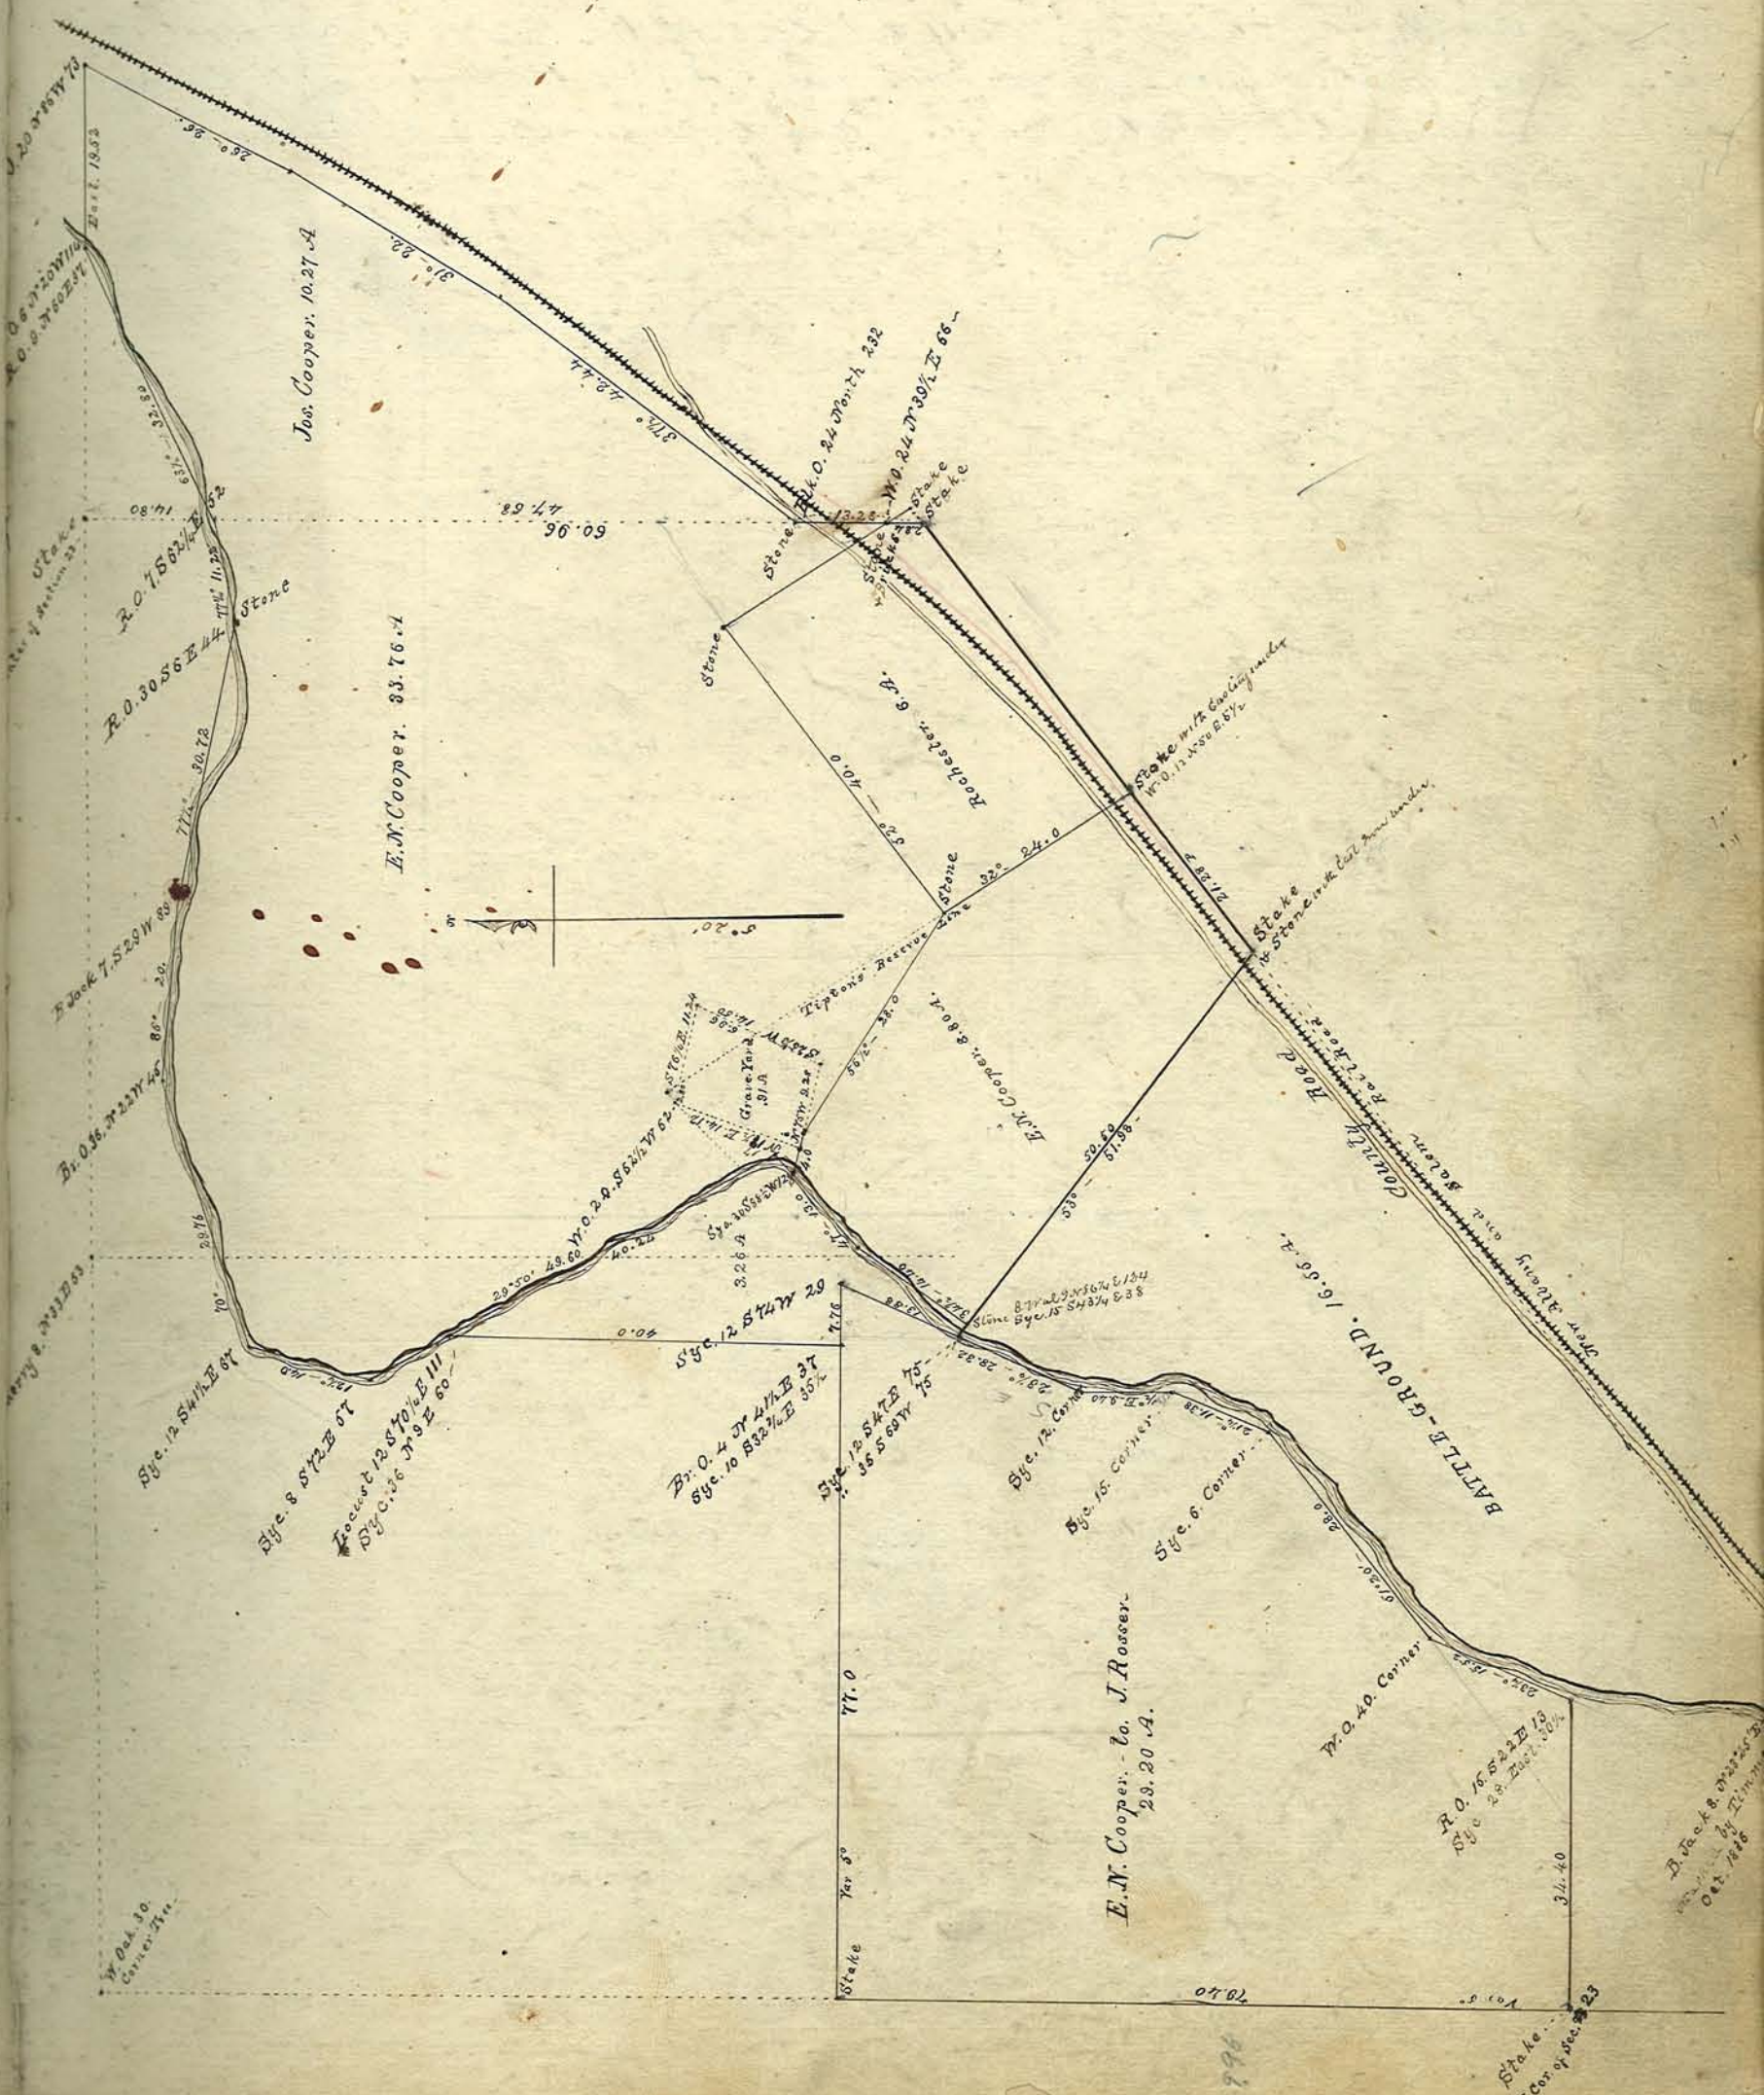
A.C. Pavoley C.S.



Plat of Survey of a part of the "Richardsville Reservation" in Town 22 North: of Range 3 West, Surveyed for Culver and others.

This Survey was made (after due notice to parties interested.) to correct an erroneous Survey made by Wm. J. Snoddy (former Co. Surveyor) on the 11½ day of November 1856, recorded in Book A. page 147. The original Subdivision of this part of said Reservation was made by L.B. Stockton, Co. Sur. in January 1830. as per field-Notes on Book A. pages 248 to 259 inclusive. Which said Notes were overlooked or disregarded by said Snoddy. The line between Wells and Lupton as designated on the plat was located by me, by authority of said field-notes, as found on Book A, page 251. The "Rocks" on corners, 2, 3, 5 & 6, were left as placed by said Snoddy, and are from 7 to 11 feet East of the lines or corners located by me. Said Snoddy, being notified, was present during the making of this survey, and acknowledged the correctness of it, and the incorrectness of the survey made by him.

Plat of Survey of the North line of Section fourteen (14), Township Twenty four (24) North: of Range three (3) West. Made Survey of the North West quarter of said Section November 18th 1857 as appears on this record, page 34. at which time I mistook a Sugar tree, with (a witness mark) standing near the quarter section corner on the north line, as the original Witness. The Error was made evident this date, by the evidence of ~~the~~ James Millison who has known this corner since the year 1832. Examination (by digging) made after taking testimony, corroborated the same satisfactorily. Corrections of Sub-division corners on north line were made to conform to re-location of corner.

Present and consenting during Survey were S.H. Baily, Jacob Bowers and Samuel Bowers. Surveyed April 30th 1858. By

John Levering C.S.

Field-notes and evidence to plat on page 54 —

In fixing the location of the corner marked 1 — being on the Range line at the South west corner of Section 19, as shown on the plat, I found two several points claimed by interested parties as the corner of said Section, (as also being the South East corner of Section 24 adjoining) both of which points were located in the Range line about two poles distant from each other. On learning that Surveys of the same corner had been made by Lawrence B. Stockton and Henry Oiler, both of whom have been County Surveyors for this county, I gave notice to said parties, as also to John Castor a resident of the neighborhood, to attend at said location on the 14th day of June 1858: all of whom were in attendance in answer to said notice on said 14th day of June, and testified as follows.

Lawrence B. Stockton: Sworn and testified as follows. "Was County Surveyor for this County for several years prior to 1835, remember distinctly having located this corner while acting in said official capacity, some time prior to 1835, by the aid of the original field notes of Fippecanoe County which designate as witness or bearing tree to this corner a White Oak 24 in. S 51° E 97 1/2 links. I recognized said tree by the witness marks made in the original Survey, remember distinctly that said Marks were plainly visible, and that I could not have been mistaken as to its identity. Located the corner by said tree according to the bearing and distance designated in said field-notes, which said location was made at this point farthest north. I remember the point south of this on the line, it was pointed out to me for the corner, but I did not recognize it as such. I found a stake in this point where I located the corner, at the time I made said Survey. — There were other trees near the witness tree but none that would answer the discription called for in the field notes.

Henry Oiler, was Sworn and testified as follows: I made a Survey of lands adjoining this corner while acting officially in the capacity of County Surveyor for this County during August 1838 — I found two several points claimed by land owners adjoining, as the true corner, by reference to the original field notes I determined the point or stake farthest north as the proper corner. I found the stump of the original bearing tree with the witness mark plainly indicated thereon. At the request of Mr Emerson or some other party then present I made a new witness tree — (The witness was then handed the Surveyors' Record of Fippecanoe County, Book A. on turning to pages 34 & 35, he further stated) This is the plat & record made by me at the completion of said Survey. It is my own writing. This record calls for an additional witness tree as I before stated, being a Cottonwood 5 in. diam. N 9° 10' E 15 links. This is the tree at my side, which I then marked and recorded. A point determined by this tree, with these field notes, will relocate the corner in the same point held by the original witness. I remember the facts as stated distinctly, they were impressed deeply upon my mind by the dissatisfaction expressed by some of the land owners, at the time the Survey was made. —

Peter Castor, was Sworn, and testified as follows: I have known this locality since the year 1824, at which time I first came to this County, I made a new fence about the year 1825 or 1826 from this place westward, at the time I first saw the place I found a mound at the point South of this point and opposite that fence. I considered it a mound made in the original Survey, it had every appearance of one, and resembled others in the neighborhood. I never knew of any other mound here, than that until this point was recognised by Mr Stockton at the time of the Survey made by him. I never knew anything about the witness tree until it was then pointed out. Standing in a grove that was over yonder. I am no Surveyor and could not have located the corner by it had I known it. I have always considered the South point as the corner because I found a mound there."

Having no further testimony offered, I ruled, that the testemony of Lawrence B. Stockton and Henry Oiler was sufficient to relocate the corner in the place designated in the original field notes as there being but one corner called for, corresponding to four Sections, and finding (in decayed condition) the stump of the said original bearing tree, by it, and the Cottonwood marked by H. Oiler I located the corner at the point farthest north to which all parties consented: and took additional witness trees, viz- Cherry 12 in. diam S 85° E 60 links; and Cherry 6- N 2° W 65 links.

John Levering Ld.

Plat of Survey of 10 acres off of the South end of the E½ of the N W¼ of Section 23 T. 24 N: R 4 W. also 6.43 acres off the North End of the E½ of the S W¼ of Same Section, and of two Several tracts of 1.35 acres and 1.65 acres respectively, off the North End of the West half of the S E¼ of Same Section, the last named tract adjoins the Town of Harrisonville.

Copy of report of a resurvey of the North line of Section 28. Township 24 North: of Range 5 West. made by order of Tipp. Circuit Court. on an appeal from a Survey made by William J. Snoddy

The State of Indiana } In the Circuit court of said
Tippecanoe County } ss. County. April Term 1858.

Philip Motsinger Et Al }
vs } Appeal from Survey
Jacob Laman Et Al }

To the Honorable Charles Test
Sole Judge of said Court:

The undersigned. John Severing. County Surveyor. of said County. to whom at the last term of said Court. it was referred to make a re-survey of the quarter Section corner on the North side of Section 28. in Township 24 North: of Range 5 West. in said County being the premises described in said cause. begs leave to submit the following

Report.

A Commission reciting the order of said Court in the premises was by the Clerk of said Court. on the 18th day of June 1858 duly issued under the Seal of said Court to the undersigned, which Commission is herewith returned marked "A". made an exhibit herein and reads in the words and figures following to-wit. (insert.) Whereupon the undersigned caused due notice of such re-Survey to be given by the Sheriff of said County to all parties to said cause both plaintiffs and defendants. said parties being the owners of adjoining lands. which notice was by said Sheriff duly Served and returned to the undersigned. and said notice. with the said Sheriffs return thereon. is herewith filed. marked "B". made a part of this report. and reads as follows. to wit. (insert.) Whereupon. on the 12th day of July 1858. the date Specified in said notice. I. the undersigned did proceed to make said re-Survey in Conformity to the order of said Court. in such cases made and provided. and as directed by the Commission and order of the Court aforesaid. and did deposit in the proper place. a Stone about thirty inches in length. and fifteen inches in diameter. placed Vertically. at the base whereof the undersigned did place. Several "brick-bats". partially vitrified. being a material highly durable. and as placed underneath the said (vertical) stone. designative of such perpetuated Corner.

A plat of which re-Survey. location. and perpet-

=uation. is herewith filed. Marked Exhibit "C". and made a part of this report. the respective distances marked thereon. expressed in poles. and hundredths of a pole. Showing the position of said quarter Section corner. in its relation to the Section corners. of said Section Twenty Eight (28): The said quarter Section corner being 21 links north of a right line drawn through said Section corners as represented. as follows. to-wit -

Made Surray pursuant to following notice. viz.

Surreyors' Office
Lafayette. Apil 25th 1859

To James A. Haggard

Sir

You are hereby notified that I shall (at the instance or request of William R. Nobes) on Tuesday the 10th day of May next, proceed to make Surrey of a certain Road way, provided for and excepted in the deed you now hold for the land you own and occupy.* Said Road way being described as follows. viz.

Beginning at a point in the north line of a tract of land heretofore owned by Ira Johns (now owned by yourself) running thence, 1st S 14° W 10.48 poles: 2nd S 32½ W 6 poles:
3rd S 58½ W 4 poles: 4th S 23½ W 2 poles:
5th S 7° W 4 poles: 6th S 7° E 2 poles:
7th S 32½ E 8 poles: 8th S 26¼ E 2 poles:
9th S 12° W 6 poles: 10th S 27° W 3 poles:
11th S 1½ E 7 poles to the South line of said tract of land.

At which time and place you may attend if you see proper so to do.

John Levering. Sur. Tipp. Co. Ind.

Said notice was delivered to L. R. Rockwell, Constable, and returned with Endorsement, as follows. viz.

"Apil 27th 1859
Served on Jas. A. Haggard by copy left at his last usual place of residence. Signed Jno R. Rockwell. Const.
"

Made Surrey on the day specified, in the above notice, having present and consenting both of the said James A. Haggard and, William R. Nobes.

John Levering Sur.
"
