MAINTENANCE REPORT ON THE FANNIE DEVAULT DITCH

JACKSON TWP.

It is the judgment of the Drainage Engineer that a sum of approximately \$ 940.00 ( \$ 941.70 exactly ) would appear adequate to maintain the Fannie Devault ditch. This is based upon an assessment of \$1.00 per acre over an area of 940.17  $\bar{A}$  acres.

The main line consists of 9232 feet of main line tile and 4,900 feet of branch tile.

At this time there appears to be no charges against this ditch.
