

SYNOPSIS OF

Minutes of the Regular Meeting of the Tippecanoe County Drainage Board held in the County Commissioners Room in the Court House at 9:00 a.m., on Tuesday, May 4th, 1971.

Present at Meeting Present at the meeting were Bruce Osborn, Chairman, Dale Remaly, Vice Chairman, Edward Shaw, Board Member along with A.D. Ruth, Jr., Engineer, G. Richard Donahue, Atty., Bill Martin, SCS, John Garrott, Surveyor, Larry Clerget, Deputy Surveyor, Ken Raines, Reporter and Gladys Ridder, Secretary.

Minutes Approved It was moved by Mr. Osborn, seconded by Mr. Remaly and made unanimous by Mr. Shaw to accept the minutes of the April 6, 1971 meeting with one correction.

E.W. Andrews Ditch At 9:30 a.m., there was a hearing on the maintenance report for the E. W. Andrews ditch. Three people involved in this water shed area attended. They were Mr. Charles Kerkhove, Eugene Sheets and Robert Kerkhove, all of whom felt the \$100 per acre as suggested by the Engineer in his report would be adequate and acceptable. Upon motion made by Bruce Osborn seconded by Dale Remaly and made unanimous by Edward Shaw, the Board declared the E.W. Andrews Maintenance Fund established.

Floyd S. Kerschner Ditch At 10:30 a.m., there was a hearing on the maintenance report for the Floyd S. Kerschner drain. Present at the hearing were Lorice Bails, Lina Kerschner, Glenn Heaton, W. A. Medley, Anna Hickman and Josephine Martin, all persons involved in this water shed area. After some discussion the landowners decided to try the Engineer's suggestion of \$ 1.00 per acre altho the majority felt it a bit high. Mr. Heaton asked the Board to please change the amount of acreage charged against him because of a change of tile on his farm. The tile

40

May 4th, 1971 Meeting (continued)

now causes the water to run more to another ditch and less water to this one. The Board accepted his request. Upon motion made by Mr. Remaly, seconded by Mr. Shaw and made unanimous by Mr. Osborn the Maintenance Fund of the Floyd S. Kerschner ditch was established.

Train Coe Ditch Mr. Dan Ruth suggested an informal meeting with the people in the Train Coe Ditch water shed area to see how they felt about setting this ditch up for reconstruction as it needs so much. This meeting is to be held at the next regular meeting at 2:00 p.m.

Order of Findings and Certificate of Assessments The Board then signed the Certificate of Assessments and the Order of Findings for both the E. W. Andrews and Floyd S. Kerschner ditches.

Ditches Referred to Engineer The motion made by Bruce Osborn and seconded by Dale Remaly, made unanimous by Edward Shaw to refer the following ditches for the Surveyor and Engineer's consideration; Thomas Ellis ditch (Lauramie Twp.), Elijah D. Fugate (Lauramie & Randolph Twps.), Gustave Swanson (Lauramie Twp.), Frank Kirkpatrick (Lauramie & Randolph Twps.), and Jesse B. Anderson (Lauramie Twp.). All of these ditches were to be set up for maintenance.

A. Suggestion Mr. Bill Martin, Conservationist brought out how important it was to always check the change of use of the ground in determining the run off of the water. His suggestion was to always inspect the ground carefully.

Elmer Thomas Ditch Report *** Mr. Ruth gave a progress report on his meeting with the State Highway Department with regards to the State putting the tile under State Road # 225. The State assured Mr. Ruth that when Tippecanoe County was ready to reconstruct the Elmer Thomas ditch that they would do their part in tiling under the highway.

Meeting Adjourned Upon motion by Mr. Bruce Osborn, seconded by Dale Remaly and made unanimous by Mr. Edward Shaw, the meeting adjourned.

*** Notice to Adjoining Counties Mr. Ruth presented two letters to the Board for approval. One to the Drainage Board of White County and one to the Drainage Board of Montgomery County asking them to waive their interest in the Andrew P. Brown ditch (White Co.) and the Elijah D. Fugate ditch (Montgomery Co.) both of which more than 80% of the water shed area lies in Tippecanoe County. The Board approved.

MINUTES OF THE TIPPECANOE COUNTY DRAINAGE BOARD SEPTEMBER 7, 1971.

The minutes of the regular meeting of the Tippecanoe County Drainage Board held in the Commissioners Room in the Court House at 9:00 a.m., on Tuesday, September 7, 1971.

- Present at Meeting Those present at the meeting were: Bruce Osborn, Dale Remaly, Edward Shaw, Dan Ruth, Dick Donahue, John Garrott, Larry Clerget, Byron Parvis, Gladys Ridder and Ruth Schneider.
- Minutes Approved Upon motion by Bruce Osborn seconded by Dale Remaly the minutes of the August 3, 1971 meeting were approved as read.
- Ditches Referred to Engineer Upon motion by Dale Remaly seconded by Edward Shaw the Board referred the following ditches to the Engineer to prepare for a maintenance report. Floyd Coe (Lauramie Township), Marian Dunkin (Jackson and Wayne Townships), John McCoy (Wea Township).
- Kepner Industrial Tract Mr. Ruth, Drainage Board Engineer, stated on August 5, 1971, Mr. Paul Hamman was in the office with regards to the Kepner property east of town. At that time Mr. Ruth stated, he told Mr. Hamman that a 60 inch pipe would be adequate in the area of the Kepner land if the other recommendations of Dr. Spooner's report were followed.
- Engineers Request Mr. Ruth suggested to the Board that one month we have a meeting but no public hearings. This was done so that we might catch up on uncompleted work. He preferred the month of December. The Board agreed to the suggestion and gave approval.
- John Dooley Maintenance Hearing 1:30 Those present for the maintenance hearing of the John Dooley Ditch were: H. Spencer Congram, Lawrence Treece, William P. Martin, Charles Brown, Iness L. Brown, Chester W. Dill, and Mr. and Mr. Keith McMillin. The engineer opened the hearing by reading the Engineer's report. Mrs. Keith McMillin and Larry Treece were the main objectors and spoke for the rest. They asked the Board not to establish a maintenance fund but to grant them a continuance without date.
- Replacement of Board Member Dale Remaly havein previously disqualified himself to serve in the proceedings concerning the Elmer E. Thomas Ditch and said fact having been duly certified to the judge of the Tippecanoe Circuit Court by Gladys Ridder, Board's Executive Secretary and Warren B. Thompson, Judge Tippecanoe Circuit Court having duly appointed Claude Acheson to serve as a special member of the Board in all proceedings concerning the Elmer E. Thomas Drain. The certification and order of appointment being shown in Judges Journal 138, at page 17, in the records of the Tippecanoe Circuit Court. Claude Acheson appearing is sworn and undertakes his duties and obligations as a member of the Tippecanoe County Drainage Board in the proceedings concerning the Elmer E. Thomas Ditch.
- Elmer E. Thomas Maintenance and Reconstruction Hearing 10:30 The engineer opened the hearing on the reconstruction report by explaining the plans and leaving the meeting open to a question and answer period. Those in attendance were: Dale Remaly, Roy Smith, Robert Gross, Dave E. Gross, Charles Scowden, Katherine and B. Norman DeBoy, Hazel Holmes Gephart, Lawrence Krug, C. Jeanette Dodson, Francis E. Ziegler, Marjorie A. Connolly, Nancy J. Keller, Floyd Lamb, Lucille Banes Williams, Patty W. Garrott, Chester S. Yerkes, R. J. Baker, E. E. Franklin, R. D. Franklin, E. L. Bryant, C. E. Floyd and R. D. Sterrett, of the State Department of Natural Resources, Robert Gross said if the engineer would promise him that the area would be drained and that it would take care of the spring water (that area has several springs) that he would definitely before it. Both Mr. Ruth and Mr. Martin assured them the plans were designed to take care of surface water and it would be up to the individual to see that his own spring water found its way to the drain. Floyd Lamb asked the Board to take his land out of the drainage area for he was sure none of his ground drained that way. The Engineer said he would check it and then inform him of his findings. After lengthy pro's and con's the Board decided to continue this hearing upon motion of Bruce Osborn, Seconded by Ed Shaw, they moved to continue this hearing at 9:30 a.m., on December 7, 1971. Mr. Remaly said if this area was not drained now he felt the situation would continue to get worse and eventually be a health hazard. Mr. Barnett felt if this land was properly drained it could be very valuable.
- Harrison B. Wallace 11:30 At 11:30 a.m. the engineer opened the hearing on the Harrison B. Wallace ditch by reading his report on the condition of this drain. Those in attendance were: Fred B. Pell, Lloyd Howey, representative of Home Investment Company, Inc.; Mrs. C. L. McCorkley, Mr. and Mrs. Harold Freed, and Roy A. Smith. Both the Howey's and the Pell's felt their acreage was in error and that they were double assessed, so the Engineer said we would check the records to see if this were true and notify them later. It was noted that some had taken beautiful care of their ditch while others had done nothing and that it wasn't quite fair to have to charge them all the same with the ditch in such good condition in some parts. The Board agreed to lower the assessment from \$1.00 to \$.75. Upon motion by Bruce Osborn, Seconded by Ed Shaw the maintenance fund was established.
- Mr. William K. Schroeder came to the Board with a personal problem between he and his neighbor and the Board took no action for this was not under their jurisdiction.
- The engineer opened the hearing on the Waples-McDill Drain at 1:30 p.m. by reading to the Board his recommendation. Mr. Floyd Wilcox came in prior to the hearing and ask the Engineer to check his acreage. In

Waples-McDill 1:30 doing so Mr. Ruth corrected the acreage in Section 16 from 120 acres to 40 acres due to a private ditch that drains the balance. Those attending were: Floyd Wilcox, Orville J. Parvis, Gladden Skinner, Ken Rauch, and Velma Brown. No objections had been filed so by motion of Bruce Osborn, seconded by Dale Remaly and made unanimous by Ed Shaw the sum of \$1.00 per acre was established.

Informal Meeting The engineer opened the informal hearing of the Train Coe Ditch by informing the Board that he felt the Train Coe Ditch could be reconstructed for not more than \$17.50 per acre.

Mr. *Cruik* informed the engineer that he had talked to Mr. Barton Maxwell and as he had quoted a good price for the installation of tile ask that a tile ditch be considered rather than an open ditch. He was informed that if there was any indication that a tile drain might be economical it would be given ever consideration.

The engineer told those in attendance and the Board that he would prepare plans and specifications and hold a public hearing; said hearing be perhaps early spring.

Upon motion be Bruce Osborn, seconded by Dale Remaly the Board adjourned.

Gladys Ridder, Secretary

The regular monthly meeting of the Tippecanoe County Drainage Board was held in the County Council Room in the Tippecanoe County Court House with the following members present: Bruce Osborn, Robert F. Fields, Edward Shaw, A. Dan Ruth, Jr. Fred Hoffman and Gladys Ridder.

MINUTES SIGNED

The secretary read the minutes of the May 5th, 1974 meeting and upon motion of Robert Fields, seconded by Bruce Osborn and made unanimous by Edward Shaw, the minutes were approved as read.

WADDELL BRANCH
of
ANDERSON DITCH

Mr. Arthur Waddell came before th Board asking them if it was possible to reconstruct a branch of the J. B. Anderson ditch without assessing all of the people on the ditch. The Attorney said that that branch could be reconstructed by only the property owners in the watershed being involved. The Board asked the Surveyor to begin reconstruction plans and plan to hold a reconstruction hearing when the engineering was complete. Mr. Waddell reported that a neighbor had built a dam and stopped the natural flow of the water. The attorney said any individual could be sued for doing this and the order to remove it would come from the judge.

ELMER THOMAS

The Surveyor told the Board that again he was being approached to get the Elmer Thomas reconstruction hearing ready for advertising. The Engineer was asked to determine a new cost and re-compute the assessments and advertise for a new hearing.

MCLAUGHLIN DITCH

Mr. Osborn reported that he consulted with the property owners in the area of the McLaughlin ditch and they were considering improving the ditch. An open ditch in the place of broken tile.

PETITION FOR RECONSTRUCT

Mr. Isaac Voss presented the Board with petitions for reconstruction of the Frank Kirkpatrick ditch and the Elijah Fugate ditch. The Board asked the Surveyor to prepare the necessary engineering and assessments for same and to set up a reconstruction hearing.

9:30 a.m.
MAINTENANCE HEARING ON
REBECCA GRIMES DITCH

The Surveyor opened the hearing on the Rebecca Grimes ditch by reading his report and making his recommendations to the Board. Two people attended this hearing and they were: Isaac Hoss and Arthur Waddell. Mr. Hoss said a Mr. Kirkhoff had put new tile in on his farm and paid his own bill. He also said that he needed 50 rods of 16 inch tile on his farm. After a discussion as to the benefits received from having a maintenance fund, it was decided to establish a one dollar (\$1.00) per acre assessment. Up on motion of Edward Shaw, seconded by Bruce Osborn and made unanimous by Robert Fields, a \$1.00 per acre assessment was established.

10:00 a.m.
MAINTENANCE HEARING ON
J. KELLY O'NEALL

The Engineer opened the maintenance hearing on the J. Kelly O'Neill ditch by reading his report and making his recommendations to the Board. He explained that this was the third hearing on this ditch because to add to the ditch the law requires a new hearing and that two new branches had been added by request. The Board agreed and made them a part of the Legal drain. Those in attendance were: Edward J. Purdy, Walter Holtman, R. Stanley St. John and Ruby G. St. John. All were in agreement that a maintenance fund was needed so upon motion of Bruce Osborn, seconded by Robert Fields and made unanimous by Edward Shaw, a \$1.00 per acre assessment was established.

ORDER & FINDINGS
AND
CERTIFICATES OF
ASSESSMENTS

Upon the establishment of the two ditches, namely J. Kelly O'Neill and the Rebecca Grimes, the Board signed the order and findings and the certificate of assessments. On motion made and carried the meeting adjourned.

ATTEST:
Gladys Ridder
Gladys Ridder, Exec. Secretary

The regular meeting of the Tippecanoe County Drainage Board was held on December 10, 1975 with the following members present: Robert F. Fields, Bruce Osborn, William Vanderveen, Robert L. Martin, Fred Hoffman and Gladys Ridder. Also joining our Board was Carroll Beeson, Don Yount and Sam Boots from the Montgomery County Surveyor's office and Drainage Board.

Upon the reading of the minutes of the November 26th, 1975 called meeting, Robert F. Fields moved to accept the minutes as read. Bruce Osborn seconded that motion and William Vanderveen made it unanimous.

Minutes Approved

Robert Fields opened the maintenance hearing on the John Lofland ditch (including Miller and McBeth branches) and asked the Surveyor for his report and recommendation. Don Smith, tenant for Elizabeth Steele, reported the McBeth branch was in need of reconstruction. The attorney explained to him that that would be a new hearing. Mr. Martin felt we should start at the outlet and work on the other branches as time would allow. The Kellerman-Leaming watershed that is the outlet for many branches such as Romney Stock Farm, Lofland, Fugate, Kirkpatrick, Morin, etc., needs to be dredged first and then as the outlet is made operational then take care of the branches according to those most in need.

9:30 a.m.

Those in attendance were: Isaac Bercovitz, Jack DeVault, Don Smith and Larry Bennett.

Maintenance hearing

J. Lofland ditch

All in attendance had one thing in common and that was to get something started in the area before things got any worse. In the years past nothing had been done and all felt the time to do something was now!

The Drainage Board instructed the Surveyor to get the necessary engineering work done and hold a hearing for reconstruction as soon as the figures are available.

Richard Donahue for

Richard Donahue, Attorney for Robert Gurnick, came before the Board and asked the Board to remove a dam on the right-of-way of the S. W. Elliott ditch. The "dam" had been caused by Maurice House's tenant plowing too close to the ditch.

R. Gurnick

The Drainage Board said they had taken the advice of the County Attorney inasmuch as this was a legal problem and not one of the Drainage Board. The S. W. Elliott ditch had not been damaged in any way, only the run-off water could not get to it because of the earthen dam.

Eugene Johnson for Daugherty ditch

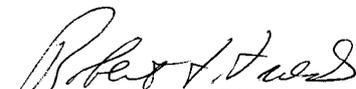

E. Eugene Johnson came before the Board with a request to replace approximately 1000 feet of tile on the Chas. Daugherty ditch and replace it in a new location close to the legal drain but in a place where the coverage would be better. It was discussed as to whether Mr. Johnson would take it upon himself with the hope of collecting from the others involved or ask the Surveyor to set up a reconstruction hearing. To relocate the ditch to acquire greater fall and coverage, as was suggested by the SCS office, was also discussed and the Board said that could be done at the reconstruction hearing.

Mr. Martin said he would meet with Mr. Jack Wisley and Mr. Johnson at 2:30 p.m. on Thursday so they could discuss it further.

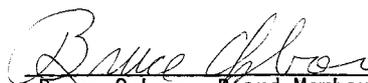

Arthur Waddell on Anderson branch

Mr. Arthur Waddell came before the Board and said a year ago he had carried a petition to reconstruct a branch of the Jesse B. Anderson ditch and the Board had instructed the former surveyor to do the necessary engineering. The Board reiterated that request to the new surveyor and when the work is done and estimates ready to hold a reconstruction hearing according to benefits and damages.

Upon the motion of Robert Fields, seconded by Bruce Osborn and made unanimous by William Vanderveen the Board adjourned.

Gladys Ridder, Executive Secretary

The Tippecanoe County Drainage Board met in regular session on Wednesday, January 8, 1986 at 8:30 A.M. in the Tippecanoe County Office Building, Community Meeting Room, 20 North Third Street, Lafayette, Indiana.

Chairman Bruce V. Osborn called the meeting to order. Those in attendance were: Bruce V. Osborn Chairman, Eugene R. Moore and Sue W. Scholer, Board Members, Michael J. Spencer Surveyor, Fred Hoffman Drainage Attorney, and Matalyn D. Turner Executive Secretary.

Chairman Osborn turned the meeting over to Attorney Fred Hoffman for the election of officers.

Mr. Hoffman ask for nominations from the floor for President of the Board, Eugene Moore nominated Bruce V. Osborn President of the Board, seconded by Sue W. Scholer, there being no other nominations, Sue Scholer moved the nominations be closed, seconded by Eugene Moore. Mr. Osborn was unanimously elected President of the Drainage Board for 1986. Bruce Osborn ask for nominations for Vice-President, Sue Shcoler nominated Eugene R. Moore Vice-President, unanimously approved that Eugene Moore serve as Vice President.

334

January 8, 1986 Regular Meeting Continued

Sue W. Scholer was nominated by acclamation as Secretary of the Board. Sue W. Scholer moved to appoint Maralyn D. Turner Executive Secretary, Mr. Fred Hoffman Drainage Attorney, and George Scholte Drainage Engineer. Unanimously approved by the Board.

986
SSESS-
ENTS

1986 ASSESSMENTS:

Fred Hoffman attorney read the list of 1986 Ditch Assessments for approval. Those to be made active are Charles Daughtery, Thomas Haywood, F.E. Morin, William Walters, Luther Lucas ditch to be assessed two consecutive years (1986&1987). Those that will continue to be active are: Jesse Anderson, E.W. Andrews, Julius Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, N.W. Box, A.P. Brown, Buck Creek (Carroll County) Orrin Byers, County Farm, Darby Wetherill (Benton County) Marion Dunkin, Christ Fassnacht, Martin Gray, E.F. Haywood, Harrison Meadows, Lewis Jakes, Jenkins, James Kellerman, Frank Kirkpatrick, John A. Kuhns, Calvin, Lesley, Mary McKinney, Wesley Mahin, Samuel Marsh (Montgomery County) J. Kelly O'Neal Emmett Raymon (White County) Arthur Richerd, John Saltzman, Abe Smith, Mary Southworth, William A. Stewart, Gustaval Swanson, Treece Meadows, Lena Wilder, Wilson-Nixon (Fountain County), Simeon Yeager, S.W. Elliott, and Dismal Creek. Sue W. Scholer moved that the ditch assessment list for 1986 be approved as read, seconded by Eugene R. Moore, Unanimous approval given. A letter to the Auditor with attached list of 1986 Ditch Assessments will be forwarded.

ODRIDGE
UTH

WOODRIDGE SOUTH

Michael Spencer surveyor, presented the drainage plans for the Woodridge South, at the December 4, 1985 board meeting it was decided that the landowners would take care of the detention basin behind the two lots and they they would check into increasing the release rate from a 10 year storm event to 25 year storm to make the basin smaller. George Schulte has looked at the plans and finds the plans in order, Michael Spencer recommended the board give final approval to the detention area for Woodridge South. Eugene Moore made motion to give final approval to Woodridge South, seconded by Sue W. Scholer, Unanimous approval.

Sue W. Scholer ask the board to review Allen County's proposed section pretaining to Subdivisions in their Drainage Ordinance, the board members agreed to study.

JAMES
KIRPATRICK
DITCH

JAMES KIRPATRICK DITCH

Need to assess landowners within the James Kirpatrick watershed in order to get back \$6,000.00 spent for the drainage study in 1981, December. State Board of Accounts requested this be done.

MCLAUGHLIN
DITCH

MCLAUGHLIN, JOHN DITCH

A letter needs to be sent to Montgomery County requesting total amount of expenses to date on the John McLaughlin ditch so that we can collect our share of expenses in Tippecanoe County.

ATTEST: 
Maralyn D. Turner, Executive Secretary

TIPPECANOE COUNTY DRAINAGE BOARD
WEDNESDAY, JANUARY 6, 1988

The Tippecanoe County Drainage Board met Wednesday, January 6, 1988 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana 47901.

Chairman Bruce Osborn called the meeting to order at 8:30 A.M. with the following being present: Eugene R. Moore and Sue W. Scholer Boardmembers, Michael J. Spencer Surveyor, Mark Houck Drainage Consultant, J. Frederick Hoffman Drainage Attorney, and Maralyn D. Turner Executive Secretary. Others present are on file.

This being the first meeting of the year Chairman Osborn ask Mr. Hoffman to preside over the meeting to conduct the election of officers.

Mr. Hoffman asked for nominations for Chairman, Sue W. Scholer nominated Bruce V. Osborn Chairman, seconded by Eugene R. Moore, there being no other nominations Mr. Osborn was elected Chairman of the Board.

Mr. Hoffman asked for nominations for Vice-Chairman, Sue W. Scholer nominated Eugene R. Moore, seconded by Bruce V. Osborn, there being no further nominations Eugene R. Moore was elected Vice-Chairman of the Board.

Sue W. Scholer moved to appoint J. Frederick Hoffman Drainage Board Attorney, seconded by Eugene R. Moore, unanimous approval.

The Board had agreed to have Mark Houck as Drainage Board Consultant.

Sue W. Scholer moved to appoint Maralyn D. Turner as the Executive Secretary of the Drainage Board, seconded by Eugene R. Moore, unanimous approval.

Mr. Hoffman read the Active Ditches for the year of 1988. E.W. Andrews, Juluis Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, M.W. Box, A. P. Brown, Buck Creek (Carroll County) Train Coe, County Farm, Darby Wetherhill (Benton County), Christ Fassnacht, Marion Dunkin, Christ Fassnacht, Issac Gowen (White County) Martin Gray, Thomas Haywood, E.F. Haywood, Harrison Meadows, Lewis Jakes, Jenkins, James Kellerman, Frank Kirkpatrick, John A. Kuhns, Mary McKinney, Wesley Mahin, Samuel Marsh (Montgomery County) F.E. Morin, Hester Motsinger, Audley Oshier, Emmett Raymon (White County) a letter of January 5, 1988 is on file from White County requesting ditch be active, Arthur Rickerd, Abe Smith, Gustavel Swanson, Treece Meadows, Wilson-Nixon (Fountain County) Simeon Yeager, S.W. Elliott, Dismal Creek, and Shawnee Creek.

Ditches which have been inactive and need to be made active are Jesse Anderson, Dempsey Baker, Floyd Coe, Shawnee Creek.

Inactive ditches John Amstutz, Delphine Anson, Newell Baker, Nellie Ball, A.P. Brown, Alfred Burkhalter, Orrin Byers, Grant Cole, J.A. Crips, Chas Daughtery, Fannie Devault, Jess Dickens, Thomas Ellis, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Fred Hafner, E.F. Haywood, George Ilgenfritz, George Inskeep, Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, James Kirkpatrick, Calvin Lesley, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Starrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohay, John VanNatta, Harrison Wallace, Sussana Walters, William Walters, McDill Waples, J&J Wilson, Franklin Yoe.

Luther Lucas ditch is made inactive and to be combined into the Dismal Creek ditch.

Mr. Osborn asked if first and second alternates could be appointed to be representatives for Tri-County ditches? Mr. Hoffman advised the board to go ahead and appoint them, if this isn't proper action can be taken later. The following representative and alternates were appointed for the following ditches.

Hoffman ditch, Eugene R. Moore, Sue W. Scholer was appointed first alternate and Bruce V. Osborn second alternate.

McLaughlin ditch, Bruce Osborn, Eugene R. Moore first alternate, and second alternate Sue W. Scholer.

Michael stated he had received a letter from Benton County in regards to the Darby Wetherhill ditch and he asked the board to appoint a representative and alternates for this ditch. Sue W. Scholer is representative, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Otterbein Ditch representative will be Sue W. Scholer, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Michael asked that the Secretary send letters to each county informing them of the appointments.

Michael Spencer presented a Petition received from Purdue Research Foundation to vacate a portion of the Dempsey Baker Ditch lying south of the north right-of way line of County Road 350 North and lying in the east half of the southeast quarter, Section 1, Township 23 North, Rge 5 West, and the North 50 acres more or less of the West half of

January 6, 1988 Drainage Board Meeting Continued

the south west quarter, Section 6, Township 23 North, Range 4 West, all in Wabash Township, Tippecanoe County, Indiana.

Michael stated a hearing date would have to be set when assessment list is received.

Bruce Osborn asked where they were going with the water? Michael stated he felt it was through holding ponds then metered out to the same place it has always gone, Hadley Lake.

Bruce Osborn stated the board has never vacated a portion where it still drains through the existing legal drain. Mr. Hoffman answered no, if they are going to use the drain they can't vacate, if they are not going to use it then it can be vacated. Mr. Hoffman stated there would be a question of taking them out of the Watershed in regards to assessments. They will still have to pay their assessment as they are remaining in the watershed, the Purdue Research should be notified of this. If this is for the upper end this will help. Mark Houck stated there is a problem of metering at the same rate, but it will increase the volume of water going to Hadley Lake. They will have to meet the ordinance.

Many questions need to be answered before action is taken.

VALLEY FORGE

Valley Forge

Michael J. Spencer informed the board that a letter of Credit for \$62,000.00 to cover half the cost of installation of the permanent drainage system, this was through Tippecanoe Development Corporation. Roy Prock is new owner of Valley Forge he wants to substitute a new \$62,000.00 letter of credit for the other one since he is the new owner. Michael has talked with Mr. Hoffman there will be no problem to do this, accept the construction bond needs to be secured for deposit for Mr. Prock just like originally had been presented by Tippecanoe Development Corporation before the old one can be released and except new one from Mr. Prock. Mr. Hoffman stated they will have to present an agreement along with the Letter of Credit then the other can be released.

MEETING TIME CHANGE

Eugene Moore moved to change meeting time of the Drainage Board from 8:30 A.M. to 9:00 A.M., seconded by Sue W. Scholer, motion carried.

JOHN HOFFMAN DITCH

JOHN HOFFMAN DITCH

Bruce Osborn called the meeting to order at 9:15 A.M.

Tri-County Board representatives are Eugene R. Moore Tippecanoe County, William Lucas Clinton County, and Charles Sutton Carroll County.

Mr. Hoffman conducted election of officers.

William Lucas nominated Eugene R. Moore as Chairman, seconded by Charles Sutton, there being no other nominations Eugene Moore was elected Chairman.

Eugene R. Moore nominated William Lucas as Vice-Chairman, seconded by Charles Sutton, there being no other nominations William Lucas was elected Vice-Chairman.

Eugene R. Moore nominated Maralyn D. Turner as Secretary, seconded by Charles Sutton, there being no other nominations Maralyn D. Turner was elected Secretary.

Mr. Hoffman was chosen to serve as the Attorney for the board when the board was first formed, he will continue to serve.

Mr. Osborn thanked the property owners for coming to this informal meeting. He informed them that nothing would be decided officially, it is an opportunity for the property owner to see what has happened up to this time.

After Michael J. Spencer presents the project questions may be asked.

Michael J. Spencer, surveyor introduced those present Maralyn D. Turner, Secretary, J. Frederick Hoffman Attorney, Sue W. Scholer, Bruce V. Osborn, and Eugene R. Moore Tippecanoe County Commissioners, William Lucas Clinton County Commissioner and Neal Conner Clinton County Surveyor, Grover West Carroll County Surveyor, and Charles Sutton Carroll County Commissioners, and Mark Houck Tippecanoe County Drainage Consultant.

Mr. Spencer presented Construction Estimates in Phases I, Alternate I, Alternate II, Alternate III, and Alternate IV, and Phase II. This estimate was done by Robert Gross engineer with Stewart Kline and Associates.

Mr. Spencer asked for questions.

Bob Power asked if there was tile in there at the present time? Answer yes, Phase I the tile would come out. Alternate I would be to dig the tile out approximately 6" below the existing tile, under Alternate II lowering it 4'. This is to gain grade. The area being discussed on the ditch is at 900 E.

Lola Harner asked how are you digging 4' and stopping at 900 East wouldn't you have to continue on west? Michael answered they would have to continue west of 900 East, this wouldn't be to far west as the ravine system drops off.

Mr. Power asked if a bridge would have to be put across 900 East? Michael stated they

felt the culvert was the right size and would carry the water, it is just too high.

Mr. Power asked if a tile could be put in without tearing up the road? Michael stated he did not think this could be done without tearing up the road.

Mr. Moore asked how many acres in the watershed? Total acres 2420. There may be a difference of 80 acres, this would be checked.

Mr. Power asked how much is coming out of maintenance fund? There is no maintenance fund on the ditch at this time, if a tile hole breaks it is up to the landowner to do the repairs.

Jesse Barr asked would the soil change? Answer the dirt will not be changed, just better drainage. Mr. Barr asked if the ditch was going to be the same size at 1025 East. Answer at the road 1025 108" round pipe, two 72" round pipe, two 84" and at 900 East 14'10" X 9'1" structural plate pipe arch.

Neal Dexter asked how much water will come down into Coffee Run ditch. Michael stated the same amount of water would be coming down. Mrs. Harner and Mr. Dexter were concerned about the erosion and damage.

Mr. Hoffman asked if there was a positive outlet. Answer it goes into a ravine system that eventually gets to the Wildcat creek. Mr. Hoffman asked how far from the end of the legal drain to the Wildcat. Answer give or take one and half to two miles.

LaVonne Scheffee had concern of gravel and the culvert being closed shut. Michael stated this is the reason he has pointed out the culvert sizes at the different road crossings.

Elwood Burkle asked that the cost be discussed. Mr. Spencer pointed out that the last page of the estimate summarizes the cost.

Mr. Spencer explained the Indiana Drainage Codes to the landowners. The decision is made by the property owners.

Mr. Barr asked who is responsible for drainage on property? County is responsible for the road crossings, property owners is responsible for drainage on their own property.

Elwood Burkle asked what depth would tile be? Answer some of the cuts would be 10-11 feet deep from the existing ground. Banks would be a lot higher than they are now. Michael stated at 900 East 1/4 mile east it is 5 feet below the bottom of the existing water way.

Mr. Hoffman stated the property owners should consider extending the legal drain down to the Wildcat to maintain the valleys, as there is problems if you don't have a positive outlet especially one with this size. There is no control over the valleys as it is now. He felt this would not add that much to the cost.

Jerry Frey stated he is constantly fixing blow holes. It is getting continuously worse. They are finding that the tiles are shifting. He feels the major problem is at the outlet. It has been severely neglected. There are tree roots and tiles that have floated up out of the system. He feels the first thing to do would be fixing and opening up the outlet.

Mr. Power asked in the estimate has consideration been taken in the area west of 900 East? No. Mr. Power felt this would be essential. Michael answered until a legal drain is extended down that way they can't do anything with it, they can do some corrective measures directly downstream from the road. He has to work with the starting and stopping points of the ditch, this is what he had to work with.

At this point Mr. Hoffman explained the procedures of making legal drain west of 900 East.

Malcomb Miller stated he agrees with Jerry Frey's statement. Mr. Miller's concern is the hardship the assessments would make for the property owners.

Jerry Frey stated they can't seem to hold the blow holes, each spring they are back and bigger holes. Mr. Frey doesn't know what causes this except another ditch was added about four years ago this makes more pressure from the upland it's coming down in such a velocity causing the problem.

Debbie Lineback asked what kind of time frame are you talking about as she carried petition in 1982. Mr. Hoffman stated it probably wouldn't take the time that he did previously.

Mr. Moore asked the feeling of the property owner.

LaVonne Scheffee asked if there was any rules in regards to health and sanitation? Thirty years ago when they purchased their property you couldn't jump over the ditch, now there is refrigerators and other debris making the ditch level. She doesn't understand why the farmer doesn't have to keep it cleaned out. She complained about the road grader grading gravel making a wall at the ditch.

Mr. Osborn stated the board is powerless in regards to debris in the ditches until there is a maintenance fund set up. Maintenance fund is needed.

January 6, 1988 Drainage Board Meeting Continued

Jerry Frey asked who has authority? Mr. Hoffman explained the board is the authority.

Mr. Frey is for starting a legal drain with a maintenance fund, but he feels that the money should be brought forward to be spent on opening up the outlet and fixing the main tile. Try to get by with what they have with maintenance.

Malcomb Miller supports Mr. Frey's statement.

Mr. Moore asked Michael if a maintenance fund could be set up and just clean or does it come under reconstruction?

Michael stated they would be maintaining what there is now.

Mrs. Scheffee asked how this would help? Mr. Hoffman stated it would be taking the ditch back to it's original condition.

Mr. Lucas asked if there was an estimate for a maintenance clean out? NO. Michael felt it would just take a week to get an estimate put together. Mr. Lucas stated it would probably take two years to get a maintenance fund set up. Michael stated for a few years the fund could be set at a high figure and then lowered.

Debbie Lineback stated when she carried the petition around and 80-90% of the property owners stated it should be an open ditch, it never worked from day one.

Elwood Burkle stated that those living north and east of the Clinton and Carroll County line would receive no benefits by opening the bottom portion yet they would be paying for it. There are too many obstruction.

Dale Fossnock stated: His ancestors stated that when the ditch was put in, it never worked.

Glen Kelly stated there were six of them that worked on the ditch where the tile comes out. This was 30 years ago.

Mrs. Glen Kelly stated it cost her \$100.00 to get a petition in 1982 out of her pocket. She was informed that there is a standard petition form now and there would be no cost for the petition. Mrs. Kelly stated they have willows and to get rid of them the water has to be taken care of.

Glen Kelly stated there are two 6" raises in the ditch, one is on the Bogan property and the woods.

Question was asked was it constructed that way? Yes. When the ditch was built it was built by the people.

Michael stated the grade can be checked.

Mr. Barr would agree to keep the water going.

Mr. Scheffee stated when they first came to the area there were no problems he feels it has to be open all the way.

Mrs. Kelly stated they have two ponds on their property, water is over the road most of the time, getting out is a problem most of the time. Even when it was dry this summer it was wet.

Mrs. Harner stated this has been a problem for many years.

Mrs. Scheffee stated a lot of the problem was created when 900 East was reconstructed.

Grover West asked how many small acreages were in the watershed. His concern is the break down in lots and acreage.

Mrs. Harner stated the assessment doesn't seem fair.

Kenneth Walker stated there is peat in the area of the Ford property, reason for so much water in the area.

Neal Conner stated that it would be spring of 1989 to get a maintenance fund in to affect.

After much discussion Mr. Spencer asked for show of hands.

Phase I Alternate I, Phase II Dig Open ditch up to where the two branches come together and tile system. Approximate Cost \$200.00 acre. Vote 7.

Open Ditch all the way. Approximate Cost \$242.00 per acre. Vote 8.

Maintenance. Assessment per acre to be set possible classifications. Vote 5.

The vote going for an open ditch all the way Mr. Spencer will get estimates and hold another meeting to present findings to the property owners.

There being no further business the meeting adjourned at 10:30 A.M.

TIPPECANOE COUNTY DRAINAGE BOARD
WEDNESDAY, JANUARY 4, 1989

The Tippecanoe County Drainage Board met in regular session Wednesday, January 4, 1989 at 9:00 A.M. in the Community Meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana.

The meeting was called to order by J. Frederick Hoffman, County Attorney for the reorganization of the Drainage Board for 1989. Those present were: Bruce V. Osborn, Eugene R. Moore, Sue W. Scholer, Michael J. Spencer, J. Frederick Hoffman, and Maralyn D. Turner, others in attendance are on file.

Mr. Hoffman asked for nominations for Chairman of the Board. Bruce V. Osborn nominated Eugene R. Moore as Chairman seconded by Sue W. Scholer, there being no further nominations Eugene was elected Chairman of the Board.

Mr. Hoffman asked the newly elected Chairman Eugene R. Moore to preside over the meeting.

Eugene Moore asked for nominations for Vice-Chairman, Bruce V. Osborn nominated Sue W. Scholer for Vice-Chairman, seconded by Eugene R. Moore, there being no further nominations Sue W. Scholer was elected Vice-Chairman.

Eugene R. Moore asked for nominations for Secretary, Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Eugene R. Moore, no further nominations from the floor for secretary Maralyn D. Turner was elected.

Bruce V. Osborn moved to appoint J. Frederick Hoffman as Drainage Attorney for the year 1989, seconded by Sue W. Scholer, unanimous approval.

Mr. Hoffman read the Ditch Assessments for Active and Inactive ditches. The following ditches being Inactive for 1989 are: John Amstutz, Jesse Anderson, Dempsey Baker Newell Baker, Nellie Ball, A.P. Brown, Orrin Byers, Floyd Coe, Grant Cole, J.A. Cripe, Fannie DeVault, Jess Dickens, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Geo Ilgenfritz,

George Inskeep, Lewis Jakes, E.Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, John A. Kuhns, Calvin Lesley, Luther Lucas, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm. A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, Lena Wilder, J&J Wilson, Franklin Yoe.

The following ditches read are Active Ditches: E.W. Andrews, Delphine Anson, Juluis Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, N.W. Box, Buck Creek (Carrroll County), Train Coe, County Farm, Darby Wetherill (Benton County), Marion Dunkin, Crist/Fassnacht, Issac Gowen (White County), Martin Gray, E. F. Haywood, Thomas Haywood, Harrison Meadows, Jenkins, James Kellerman, Frank Kirkpatrick, Mary McKinney, Wesley Mahin, Samuel Marsh (Montgomery County), Hester Motsinger, Aduley Oshier, Emmett Raymon (White County), Arthur Richerd, Abe Smith, Mary Southworth, Gustavel Swanson, Treece meadows, Wilson-Nixon (Fountain County), Simeon Yeager, S.W. Elliott, Dismal Creek, Shawnee Creek.

The following ditches read were made Active for 1989: Alfred Burkhalter (Clinton County), Charles Daugherty, Thomas Ellis, Fred Hafner, James Kirkpatrick, F. E. Morin, William Walters, and Kirkpatrick One. Michael Spencer wanted the Martin Gray to be included in the Active, it had been read as active, but for the records read in the Make Active. Sue W. Scholer moved to activate the ditches as read, seconded by Bruce V. Osborn, unanimous approval.

Alfred Burkhalter ditch joint with our County the Board secretary should send a letter to the Tippecanoe County Auditor and the Clinton County Auditor.

Michael stated in June 1987 a hearing was held to combine the Treece Meadows branch with S. W. Elliott ditch. These maintenance funds need to be combined and treated as the S.W. Elliott ditch. Sue W. Scholer moved to combine the maintenance funds on the Treece Meadows with the S. W. Elliott ditch treat them all as one, seconded by Bruce V. Osborn, unanimous approval.

J. Frederick Hoffman asked if the Treece Meadows was considered designated branch under the S. W. Elliott ditch? Michael answered it is; Treece Meadows has a beginning point and ending point.

Michael Spencer received a letter signed by two property owners, Malcomb Miller and Jerry Frey on the John Hoffman requesting that the board set up a maintenance fund. A hearing was held in 1988 for reconstruction, this did not go too well. Some were going to try to contact the downstream property owners to make it a legal drain all the way down to Coffee Run. Hearing nothing these property owners are requesting a maintenance fund.

Mr. Hoffman stated this is the ditch that does not have a positive outlet. Correct. They hope to make a positive outlet with the maintenance funds.

Michael will have to make a maintenance report before a hearing can be held. Discussion continued.

Jim Strother property owner 3876 Kensington Drive concerned about drainage of the Orchard Park Subdivision. Michael told Mr. Strother he had received Preliminary submittal that was requested from the engineer to supply with more information, but that

HOFFMAN
DITCH

information has not been received. Michael will notify Mr. Strother when he receives the information and when the project comes before the board.

Sue W. Scholer asked Don Sooby, of the Lafayette City Engineer office where are we on McCarty Lane, is it progressing. Mr. Sooby stated a public hearing will be held January 26, 1989, no other meeting has been set up.

There being no further business the meeting adjourned at 9:25 A.M. Next meeting will be February 1, 1989.

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR Meeting January 3, 1990

The TIPPECANOE County Drainage Board met Wednesday, January 3, 1990 in the Community Meeting room of the TIPPECANOE County Office Building 20 North Third Street, Lafayette, Indiana.

Those present were Bruce V. Osborn and Sue W. Scholer, Board Members; Michael J. Spencer, Surveyor; Todd Frauhiger, Drainage Consultant; J. Frederick Hoffman, Drainage Attorney; and Maralyn D. Turner, Executive Secretary, others present are on file.

The meeting was called to order at 9:00 a.m. by Drainage Attorney J. Frederick Hoffman. Mr. Hoffman stated that it is time for election of officers for a new year.

Bruce V. Osborn nominated Sue W. Scholer for chairman of the board, seconded by Sue W. Scholer, motion carried, there being no other nominations from the floor Sue was elected Chairman of the Board.

Sue W. Scholer chairman continued the meeting asking for nomination for Vice Chairman, Sue W. Scholer nominated Bruce V. Osborn as Vice-Chairman, seconded by Bruce, motion carried, there being no other nominations from the floor Bruce was elected Vice-Chairman.

Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Sue W. Scholer, there being no other nominations from the floor Maralyn was elected Executive Secretary.

Bruce V. Osborn moved to accept J. Frederick Hoffman's continued services as Drainage Attorney for the year 1990, seconded by Sue W. Scholer, motion carried.

Michael J. Spencer recommended to continue the services of the Chris Burke Engineering, LTD as Drainage Engineer Consultant for the year 1990. Bruce V. Osborn moved to accept Michael's recommendation, seconded by Sue W. Scholer, motion carried.
1990 DITCH ASSESSMENTS

Fred Hoffman read the following ditches to be made Active for assessments in May 1990. Jesse Anderson, A.P. Brown, Orrin Byers, John McFarland, Ann Montgomery, and the J. Kelly O'Neal.

Ditches that are In Active are: John Amstutz, Dempsey Baker, Nellie Ball, N.W. Box, Alfred Burkhalter, Floyd Coe, Grant, Cole, J. A. Cripe, Fannie Devault, Marion Dunkin, Jess Dickes, Martin V. Erwin, Crist/Fassnacht, Elijah Fugate, Rebecca Grimes, Harrison Meadows George Ilgenfritz, George Inskeep, Lewis Jakes, Jenkins, E. Eugene Johnson, F. S. Kerschner, Amanda Kirkpatrick, James Kirkpatrick, John A. Kuhns, Calvin Lesley, John McCoy, Mary McKinney, Absalm Miller, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Arthur Richard, Alexander Ross, James Shepherdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, J. & J. Wilson, Franklin Yoe, and Shawnee Creek.

Ditches that are Active are: E. W. Andrews, Delphine Anson, Herman Beutler, Michael Binder, John Blickenstaff, Buck Creek (Carroll County), Train Coe, Darby Wetherill (Benton County), Thomas Ellis, Issac Gowen (White County), Martin Gray, Fred Hafner, E.F. Haywood, Thomas Haywood, James Kellerman, Frank Kirkpatrick, Wesley Mahin, Samuel Marsh (Montgomery County), Hester Motsinger, Audley Oshier, Emmett Raymon (White County), Abe Smith, Mary Southworth, William Walters, Wilson-Nixon (Fountain County), Simeon Yeager, S. W. Elliott, Dismal Creek, and Kirkpatrick One.

Bruce V. Osborn moved that the ditches that were read to be made active become active on the May 1990 Assessment, seconded by Sue W. Scholer, motion carried.

COUNTRY CHARMS

John Fisher asked that this be continued until next meeting February 7, 1990.

TRASH TRANSFER

John Fisher presented site drawings. Outlet goes into the Flood Plan. Mr. Hoffman asked who owns the Flood Plan? Leroy Barton. Question as to if it would increase the flow and the speed onto Barton. Question do you have permission from Mr. Barton? Answer - No. Mr. Hoffman stated that permission should be received from Leroy Barton. Mr. Fisher stated they are providing rip-rap, it will not increase the velocity. Mr. Fisher pointed out that they had met with the Soil Conservation and have worked out the one condition of erosion control. Mr. Hoffman asked if Mr. Barton knew about this meeting? NO. Presentation and discussion continued.

Bruce V. Osborn asked John Fisher to explain the plans to the Barton's.

Michael stated that the water is tributary to that area now, it will go through a pond now instead of sheet drainage.

Mr. Hoffman stated they should have their chance to object, so that they can't say we are damaging their property.

Sue W. Scholer stated there are two recommendations made.

1. The erosion control. 2. The calculations.

Bruce V. Osborn moved to give approval to the drainage control for the Trash Transfer with exception of #9 and the other recommendations as stated in the Christopher Burke

DIMENSION CABLE

CABLE

George Schulte engineer from Ticen and Associates presented site plans. Property is located in the Treece Drainage Watershed area. The water shed area was analyzed to determine the high water elevation that would be in the channel. Their detention storage volume that they calculated was above the high water elevation of the ditch along north property line. They did decrease the allowable release rate from 2.11 cfs down to .4 cfs, there is about 3.3 acres in the site. They are increasing the volume required for storage on site.

Sue W. Scholer asked about the plans for maintenance on that ditch? Basically they are assuming that the owner would maintain the entire site, this is reason for putting 3-1 slopes on the ditch.

Mr. Hoffman asked if it was a new ditch, George again stated it is an existing ditch. The ditch at this time is full of brush, weeds, etc, it is not a legal drain.

George stated they are asking for final drainage approval.

Mr. Hoffman asked if George's client would be willing to participate in the cost of a more substantial drainage improvement in the area. Mr. Shulte stated he could not answer that question, but he feels he would be willing.

Bruce asked if conditions had been met? Michael Spencer answered, no, there is one other conditions and that is that the City of Lafayette review this project, as of January 2, 1990 this area is in side the City Limits as is Wal-Mart.

Mr. Sooby has not seen the plans presented. Discussion continued.

Mr. Hoffman stated this is not a subdivision, but should have the same kind of restriction as subdivisions. Mr. Hoffman asked that a letter be received from the developer stating they will participate in their fair share of the improvement when the major improvement is made. Michael asked if he was talking about facility on site. Answer-yes. Maintenance on site and that they would assist in making that area a part of the legal drain, and that they will participate in the cost of improving the Wilson Branch. Michael asked if they should provide a letter stating that they will maintain their on site system. Mr. Hoffman stated he would like for it to be in form that can be recorded, so it will run with the land should the land be sold.

George asked what things are needed for approval? 1. Participate in the improvements of the Wilson Branch. 2. Cost of improvements. 3. Maintain the one on the premises, and if they don't the County would have the right to maintain it and assess the cost. Incorporate the existing drain on the north side of the site into the Treece drain or Wilson Branch.

A letter is needed from the owner for the above mentioned items to Michael. Michael asked that the city review and give their approval be added as they are involved.

Sue asked if the board understands correctly that the City still wants that maintenance to run to the County on the regulated drain. Mr. Sooby answered, he thinks that is correct.

Bruce V. Osborn moved to give approval with the four recommendations being met, seconded by Sue W. Scholer.

WAL-MART

WAL- MART

Clifford Norton representing Wal-Mart and George Davidson of Horne Properties presented drainage plans. Michael stated the plans meet the county restriction on the limited release rate. Michael pointed out at the last meeting Mr. Long was present and brought up the fact of emergency routing for drainage which is a problem in this area, and at that time Michael stated he had Christopher Burke Engineering LTD looking at the Wilson Branch from Ross Road where the Simon improvement would end with the 100 year design flow in the channel. He had him look all the way up through Treece Meadows on what design would be required or Channel section would be required to get from Ross Road up to Treece Meadows. Michael has received the report this morning. Basically what he says in his report is to properly move the 100 year storm event from the north end of Treece Meadows or where open channel turns and goes back west through the Subdivision, looking at approximately 40 foot bottom width on the channel and 2-1 side slopes from there down to the Wilson Branch in some fashion. They have had some preliminary locations for the channel so he would have some idea for lengths to work with as far as grades to get the water down there, basically at this time to pass the 100 year storm event is to provide a 40 foot bottom width channel with 2-1 side slopes down to the Wilson Branch, then continue down the Wilson Branch taking out the trees and re-grading the bottom and side slopes down to Ross Road in order to get the water to the regional detention facility that will be constructed. Michael stated this is a starting point as there are allot of alternatives that can be put in there. This is basically what Channel section they are looking at. The crossings of Creasey Lane and McCarty Lane will need bridge openings of approximately 600 square foot openings to pass the 100 year storm event. Bruce asked if this was visible? Mr. Norton stated anything is visible. Bruce asked if this was to go in during the other construction? Michael answered it would take a petition for re-construction of the Wilson Branch of the Elliott ditch. Michael feels that we are at the point now where a petition is needed from the watershed area. More study is needed. While the land is open is the time to get something started. Cost estimates and plans will have to be put together. Michael can not put a time element on it, the area is hot enough for development and something needs to be done. Discussion of petition.

WAL-MART CONTINUED
JANUARY 3, 1990 DRAINAGE BOARD MEETING

Mr. Davidson stated that Wal-Mart has no problem at all to work with the rest of the watershed and are willing to pay their fair share of the assessment.

Tom McCully representing Long Tree Limited went over what Long Tree Limited went through when they were developing Burberry Subdivision. The problem is at the South end at Treece drain and Wilson Branch, pipe put in 1978 creates constriction of everything upstream from there. Discussion of Cost in 1978, and the over all problem of the area. At that time the owners agreed to put an assessment based upon the cost, which amounted to approximately \$1,000.00 per acre. Today's presentation does try to address the problem all the way from the north end of Treece down to the Wilson Branch on down to the Elliott ditch. Tom stressed that if we don't look at an over all picture we are not going to get anything accomplished. What has to be done is as property is developed everybody agrees to participate to get the problem corrected. At this time we have an open ditch going into a 24" pipe. Discussion continued.

Tom McCully stated that probably this should be an Urban drain not a rural drain. Convert to Urban drain and reconstruct. Long Tree Limited is willing to cooperate. Again he stressed that everybody is going to have to be in agreement that the problem needs corrected and go from there. The longer this goes the more expense it is going to be. Discussion continued.

Michael stated that in the interim there is a plan that could be done temporarily to get the emergency routing out of the Subdivision. This is going to take cooperation from the people involved.

Bruce asked Mr. Norton if they are going to be asking for road cuts on Creasey, answer yes, they have two entrance, and one on Highway 26.

Mr. Hoffman stated Wal-Mart will have to have some type of document stating they will participate in and pay their fair share of the cost of the improvement, and maintain what else they will be putting in there, if they don't the county will have the right to go in and maintain, then assess them for the cost.

Sue Scholer suggested that Michael call a meeting with all property owners involved in the development.

Michael stated that Burke Engineering brought to his attention that this could be a lengthy project, but in the mean time the board should look at a temporary diversion swale, not a major structure. Mr. Hoffman asked if there was a place for it and Michael replied it can be done, however it will not be easy. Michael stated this would be everybody north of Treece Meadows who wants to develop. Michael wanted more time to think. Mr. Sooby was concerned about property owner saying let the other guy do it.

Mr. Davidson asked Michael if he was satisfied with their drainage analysis, answer - yes.

Mr. Norton stated there are two ways that Wal-Mart can go. He asked if the board could give approval subject to meeting the qualifications to avoid another meeting or bring up all the criteria that they need to submit and have another meeting.

Sue W. Scholer stated that the board would be requiring all the essential things stated and final approval passed would be subject to all things presented to Michael and approved by the attorney and the City of Lafayette. Sue stated possibly the board should make a requirement as Wal-Mart goes through the process of their development some of the other things needed will be based on getting a meeting and something temporary with all people involved who are developing in that area.

Mr. Davidson again stated they would agree in participating in what ever effort is made out in that area. They would like to leave the meeting this morning with some idea of construction cost so they can build their budget. He stated they could have a letter back to Michael tomorrow committing to the things the board is trying to accomplish.

Michael Spencer and Don Sooby will work together to come up with satisfactory proposals. Don stated that lionslyng share of the burden may fall on Wal-Mart to do something temporary, as no body wants to do anything until their development is ready to move. Wal-Mart wants to move ahead with their development and if the interim facilities are necessary for this to get board approval, but not the total cost is going to fall on Wal-Mart. Discussion continued.

Michael asked if a credit could be given back to Wal-Mart at a later date of what they would put in on the interim? Mr. Sooby stated that the interim facility is not going to contribute much toward the long term, it really isn't a down payment on the ultimate facilities.

Mr. Davidson asked how will the development fully affect the Treece Meadows. Michael answered hopefully up to a 100 year storm event by calculations it should reduce the downstream affect, its above the 100 year storm event that is of concern. Currently there is 80 cfs coming off for a 10 year storm. Discussion continued.

Sue W. Scholer asked what needs to be done to get the total process going?

Mr. Hoffman stated if Michael feels there is a need for reconstruction as an Urban drain Michael should report that to the Board and then the process can start for making it an Urban drain for reconstruction. That's on the long term. A Petition is not needed all that is necessary is a letter from Michael Spencer surveyor stating that it needs to be an Urban drain and it can be done as an Urban drain. Statement should state that if it is reconstructed as an Urban drain it will drain the area properly. Michael should present a letter to the Board.

Mr. Hoffman agreed with Mr. Sooby's statement that Wal-Mart is going to have to pay most of the cost of the temporary facility as the other property owners can say they are not ready to develop and we don't see the need for this until we develop. Discussion continued.

Items needed from Wal-Mart are: Letter of Commitment for Maintenance of the drain facilities that they build. In the letter a commitment for participation in the original program and that Wal-Mart pay their fair share of reconstruction and if they do not maintain the drainage on their property the county would have a right to come in and do the maintenance and make assessment for the cost. Mr. Hoffman wanted this to be in a recordable fashion so it will run with the land.

The Wal-Mart was asked to come back Tuesday January 9, 1990 at 9:30 A.M. for re-convened session. Due to not having a quorum of Board Members the January 9 meeting was postponed until Wednesday January 17, 1990 at 9:00 A.M..

STATE ROAD

STATE ROAD 38 PROJECT AGREEMENT

38 PROJECT AGREEMENT

Agreement with the State on Hwy 38 the detention pond and drainage. The County will receive \$50,000.00 if it is installed prior to the time the State goes to work on the 38 Project, if the County does not have it installed the County does not get the \$50,000.00 and the State puts it in. This is based on when the work starts. Discussion.

Fred stated that he and Michael had reviewed the agreement and it meets the standards. This goes along with the meeting held October 1988 on the Highway 38 Project. Agreement is on file.

Bruce V. Osborn moved to accept the agreement of State Highway 38 and the water problems, seconded by Sue W. Schuler, unanimous approval.

ORCHARD

ORCHARD PARK

PARK

Michael Spencer Surveyor, presented Fee Proposal prices to provide field survey for the Orchard Park Legal Ditch Project. Earlier two different companies had presented prices for doing surveying work for the project. There was quite a bit of difference in the prices submitted so a more defined scope of work was presented to different companies and Michael has received the following submittals.

Todd Frauhiger read the Companies and their figures this is for the entire watershed area. This would include aerial mapping, contour map for the watershed, all existing pipes within the water shed, their reaches and sizes, inverts, the ravine system all the way down to the Wildcat creek.

Ticen Shulte and Associates	\$31,900.00
John E. Fisher	\$22,372.00
MTA	\$21,680.00
Vester's and Associates	\$24,990.00

The services that were included are:

Aerial Control Survey. Vertical and Horizontal survey to provide control for aerial mapping will be provided.

Establish Baselines. Baselines will be established, referenced, and tied to the horizontal mapping control. These base lines will follow, as closely as possible, the flow lines of the defined ravines.

Investigation of Existing Storm Sewer Facilities. Existing storm sewers and culverts within the watershed will be located, identified and surveyed for length and elevation. This information will be provided in the form of survey field notes. Aerial Mapping of the ravine will be provided, scribed on mylar. Contours will be at one foot intervals, scale will be 1"=100' or as other wise specified. Baselines will be superimposed on the mapping.

THE ITEMS READ ARE NEEDED FOR THE ENTIRE WATERSHED

Descriptions of Easements. Descriptions of proposed easements from each land owner involved will be provided. Easements will most likely be described as a horizontal distance beyond a specified elevation on the bank of the ravine.

Todd stated the quicker the surveyors could get started the better they could get a proper survey, each would like to get to it as soon as possible and no later than February as leaves will be starting and they can not get a true picture. One of the figures presented is only good through February. After that date it may increase the aerial photography figure. If it is delayed longer it could be late 1990 before work could be completed.

Time is needed to go through the presentations, Michael will come back at the next meeting with findings.

Meeting recessed until Tuesday January 9, 1990, January 9, 1990 meeting was re-scheduled for Wednesday January 17, 1990.

**TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
FEBRUARY 5, 1992**

The Tippecanoe County Drainage Board met Wednesday, February 5, 1992 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Keith E. McMillin calling the meeting to order.

Those present were: Keith E. McMillin, Chairman, Nola J. Gentry and Hubert Yount, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Chris Burke Consulting Engineers, J. Frederick Hoffman, Drainage Board Attorney, and Dorothy M. Emerson, Executive Secretary Drainage Board.

The first item on the agenda was to approve to the minutes of the meeting for the last Drainage Board meeting on January 8, 1991. Nola Gentry moved to approve the minutes, seconded by Hubert Yount. Unanimously approved.

CARROLL COUNTY JOINT DRAIN

Mike Spencer, County Surveyor stated Keith McMillin and Hubert Yount needed to be appointed to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Nola Gentry motioned to appoint Keith McMillin and Hubert Yount to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Hubert Yount, seconded. Motion carried.

DRAINAGE BOARD ATTORNEY CONTRACT

Mike presented the Board with a contract for the Drainage Board Attorney J. Frederick Hoffman, that needed to be executed for 1992.

Hubert Yount moved to approve the contract between Tippecanoe County Drainage Board and J. Frederick Hoffman as Attorney for said group.

Nola J. Gentry, seconded. Motion carried.

ACTIVE AND INACTIVE DITCHES

Nola Gentry moved to include the active and inactive ditches into the February minutes and mail the appropriate notices to the surrounding counties. Hubert Yount, seconded. Motion carried.

The following is a list of the active and inactive ditch assessment list for 1992.

DRAINAGE BOARD ASSESSMENT LIST				
DITCH No.	DITCH	TOTAL 4 YEAR ASSESSMENT	1991	1992
1	Amstutz, John	\$5,008.00	Inactive	Inactive

DISCUSSION ON TILE BIDS

Mike Spencer presented a tile bid that had been inadvertently returned to the bidder. Fred Hoffman opened the bid.

Mike stated he had received two proposals for Professional Services on the Berlovitz Watershed Study, one from Christopher Burke Engineering and one from Ticen, Schulte and Associates. Mike recommended Christopher Burke Engineering the lowest bidder.

Nola moved to approve the proposal from Christopher Burke Engineering for the Berlovitz Ditch Study. Hubert, seconded. Motion carried.

JOHN HOFFMAN DRAIN

Mike stated to the Board that work will be done on the Hoffman Drain at a cost less than \$25,000.00. Since it was under \$25,000.00 Mike requested quotes be done on the project rather than bids since quotes are faster.

Mike read the proposal into the minutes.

TO WHOM IT MAY CONCERN:

The Tippecanoe County Drainage Board is interested in taking quotes for maintenance work on the John Hoffman Ditch, beginning at the tile outlet which is located along County Road 900 East just north of State Road 26 East.

Work will consist of dredging approximately 1000 feet of channel down stream of the tile outlet, cleaning out road culvert under 900 East. Then clearing trees over and along the tile for some 4000 feet to the east.

After the clearing all tile holes will be fixed and or wide joints patched, then the waterway over the tile will be graded as directed by the Surveyor. When all work is completed all disturbed areas will be seeded.

There will be a pre-quote site visit held at the site on February 19th, 1992 at 9:00 am.

Written quotes will be on a per foot basis for dredging, clearing and grading of waterway.

Tile repair will be on time and material basis. Seeding will be lump sum.

Quotes will be due on March 4th at 11:00 am in the Tippecanoe County Auditors Office.

For further information please contact the Tippecanoe County Surveyor, Mike Spencer at 423-9228.

Discussion followed.

Hubert Yount moved to accept quotes for the John Hoffman Drain. Nola, seconded. Motion carried.

HADLEY LAKE DRAIN

Mike stated that West Lafayette Wetland Delineation Study will be done on February 15. We need to have that before we advertise for the proposals for engineering work.

PINE VIEW FARMS

Roger Kottlowski, Weitzel Engineering and Tom Stafford, Melody Homes presented their drainage plans for Pine View Farms to the Drainage Board.

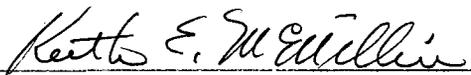

Discussion followed.

Mike Spencer recommended preliminary approval to the Board.

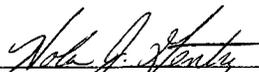

Nola moved to grant preliminary approval contingent on completion of restrictions and receipt of the recorded easements or agreements.

Hubert Yount, seconded. Motion carried.

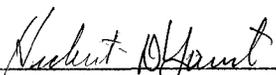

Being no further business, Hubert Yount moved to adjourn the Drainage Board meeting. The next regular scheduled meeting will March 4 at 8:30 AM and will reconvene at 11:00 AM for quotes on the John Hoffman Drain.

Keith E. McMillin, Chairman

Nola J. Gentry, Member

Hubert D. Yount, Member

Tippecanoe County Drainage Board
Minutes TRANSCRIPT
Regular Meeting
January 6, 1993

The Tippecanoe County Drainage Board met Wednesday, January 6, 1993 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana, with Nola Gentry calling the meeting to order for the re-organization of the Board. She then turned it over to J. Frederick Hoffman, Drainage Board Attorney to preside.

Those present were: Nola J. Gentry, Hubert Yount, Bill Haan, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Christopher Burke Consulting Engineer, J. Frederick Hoffman, Drainage Board Attorney, Hans Peterson, Paul Elling, Project Engineers SEC Donohue, Greg Griffith, Great Lakes Chemical Corporation, Josh Andrews, West Lafayette Development Director, Opal Kuhl, West Lafayette City Engineer, and Shelli Hoffine Drainage Board Executive Secretary.

J. Frederick Hoffman, Drainage Board Attorney asked for nominations from the floor for the Board President. Commissioner Gentry nominated Commissioner Haan for President, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman then turned the meeting over to Commissioner Haan to preside over the remainder of the meeting.

Commissioner Haan asked for nominations from the floor for the Board Vice President. Commissioner Haan nominated Commissioner Gentry for Vice President, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan asked for nominations from the floor for the Board Executive Secretary. Commissioner Gentry nominated Shelli Hoffine for Executive Secretary, seconded by Commissioner Yount. Unanimously approved.

The first item on the agenda was to approve the minutes of the meeting for the Drainage Board meeting on December 2, 1992. Hubert Yount moved to approve the minutes of December 2, 1992, seconded by Commissioner Gentry. Unanimously approved.

Hire the Attorney

Commissioner Gentry moved to appoint J. Frederick Hoffman as Attorney for the Drainage Board, seconded by Commissioner Yount. Motion carried.

Active and Inactive Ditches for 1993

Mr. Hoffman suggested putting the active and inactive ditches in the January minutes. Mr. Hoffman also read them aloud to the Board.

Storm Water Drainage Improvement Plan

Hans Peterson and Paul Elling from SEC Donohue presented the Stormwater Drainage Improvement Plan for the Cuppy-McClure watershed. Mr. Peterson discussed the project overview and objectives, project design criteria and constraints, hydrologic/hydraulic analysis, alternative improvements and recommendations, permits, and the schedule.

Mr Peterson discussed the alternative improvements.

Alternative #1 Low flow pipe and high flow channel.

The cost of the low flow pipe and high flow channel - \$930,000.00

The pipe in this alternative would be two to three feet deep under the ground from the Celery Bog to U.S. 52 then opens up and flows under US 52 with the existing pipe, then drops down into another pipe and flows on down to Hadley Lake.

Mr. Hoffman asked how big the pipe would be?

Mr. Peterson answered the pipe ranges in size from 36 inches to 42 inches.

Alternative #2 All pipe improvements.

The cost of all pipe improvements - \$1,570,000.00

Pipe size ranges from 54 inches to 60 inches.

This alternative would run completely under the ground from Celery Bog to Hadley Lake that is the main reason for the high cost. Mr. Peterson said this would look the nicest after it is complete.

Alternative #3 All channel improvements.

The cost of all channel improvements - \$755,000.00

This alternative does not have any pipe. It is a standard open channel all the way from Celery Bog down to Hadley Lake. There would have to be a concrete lining treatment at the bottom of the channel.

Mr. Peterson recommended alternative was #1 the low flow pipe and high flow channel.

Mr. Hoffman asked on these changes of easement are they giving and taking from the same landowners or taking from some landowners and giving others?

Mr. Peterson said based on the assessment map that we have, it is generally give and take on the same properties except for one parcel. Parcel #13 looks like we are taking.

Mr. Hoffman assumed there will be a petition for reconstruction to make those changes in easement.

Commissioner Gentry answered there will be a reconstruction hearing.

Discussion followed.

Bening no further business Commissioner Gentry moved to adjourn until February 3, 1993 at 8:30 a.m., seconded by Hubert Yount.

Meeting adjourned.

William D. Haan, President

Nola Gentry, Vice President

Hubert Yount, Member

ATTES: 
Shelli Hoffine, Executive Secretary

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 5, 1994

The Tippecanoe County Drainage Board met Wednesday January 5, 1994 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Hubert D. Yount; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Jon Stolz and Drainage Board Secretary Shelli Hoffine.

ELECTION OF 1994 OFFICERS

Mr. Hoffman asked nominations for the President of the Tippecanoe County Drainage Board. Commissioner Haan nominated Commissioner Gentry, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman turned the meeting over to Commissioner Gentry to preside.

Commissioner Gentry asked nominations for Vice President of the Tippecanoe County Drainage Board. Commissioner Gentry nominated Commissioner Haan, seconded by Commissioner Yount. Unanimously approved.

-APPOINTMENTS-

Commissioner Haan moved to appoint Shelli Hoffine for Executive Secretary of the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan moved to appoint J. Frederick Hoffman as Attorney for the Tippecanoe County Drainage Board pending an agreement of a contract, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved to extend the existing contract into 1994 for Christopher Burke Engineering, LTD. to provide engineering services to the Tippecanoe County Drainage Board pending review of the contract, seconded by Commissioner Haan. Unanimously approved.

-MEETING DATES FOR 1994-

January 5, 1994	July 6, 1994
February 2, 1994	August 3, 1994
March 9, 1994	September 7, 1994
April 6, 1994	October 5, 1994
May 4, 1994	November 2, 1994
June 1, 1994	December 7, 1994

Commissioner Haan moved to accept the meeting dates for the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved approve the minutes from the last Drainage Board meeting held December 1, 1993. Seconded by Commissioner Haan. Unanimously approved.

Joe Bumbleburg asked the Board to approve a resolution for vacation of a drainage easement located on a part of lot 5 in Capilano By the Lake Subdivision, Phase I. The drainage easement ended up in the middle of lot 5 when it was replatted.

Mr. Spencer stated he has been out to the site, Mr. Cunningham of Vester and Associates checked the easement and it definitely will not cause a problem with the lot or any of the adjoining lots. Mr. Spencer recommended the vacation of the drainage easement in lot 5, Capilano By the Lake Subdivision, Phase I.

The petition and the resolution to vacate a portion of a drainage easement on lot 5, Capilano by the lake subdivision, Phase I is on file in the Tippecanoe County Surveyor's Office.

Commissioner Yount moved to approve the resolution to vacate a portion of an easement on lot number 5, Capilano by the Lake Subdivision, Phase I, seconded by Commissioner Haan. Unanimously approved

HAWKS NEST SUBDIVISION, PHASE I

Greg Hall, Intercon Engineering, asked the Board for final approval of Hawks Nest Subdivision, Phase I and the detention ponds for the entire project. Mr. Hall also, requested a variance for exceeding the four foot of depth in Basin A.

Mr. Spencer stated he recommended approval of Phase I and the detention ponds.

Mr. Hall stated there will be eighteen lots in Phase I, one detention basin will be located in this phase.

Commissioner Haan asked if the permits from the IDNR have been processed?

Mr. Stolz stated that the portion that was requiring a permit has been moved from the floodplain and no longer requires a permit.

Commissioner Yount moved to grant the variance to exceed the maximum four foot depth in Basin A, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to grant final approval of Hawks Nest Subdivision, Phase I and the detention basin for the entire project, seconded by Commissioner Haan. Unanimously approved.

TRIPLE J POINTE SUBDIVISION

Bob Grove, representing Smith Enterprises, asked for preliminary approval of Triple J Pointe Subdivision, which involves fifteen acres with 75 lots, located off Old Romney Road and County Road 250 South. The proposal is to detain the water offsite which will hold seventy two acres of offsite runoff, then take the ten year flow through the subdivision to a basin that will hold the 15 acres of developed subdivision, a pipe will carry the runoff from the basin to an existing structure of Ashton Woods Subdivision detention system. The ditch will be used as overflow for runoff that exceeds the 10 year flow.

Commissioner Yount asked if pipe along Old Romney Road would be in the road right-of-way if so, has the County Highway Department approved a permit for the pipe?

Mr. Grove stated yes, we are proposing to put the pipe in the right-of-way and no, we have not obtained a permit from the Highway Department.

Mr. Spencer stated the Highway Department has a set of plans, but he has not heard a report from them.

Commissioner Yount asked about the use of the pond offsite easement?

Mr. Grove stated that G. Mark Smith will be preparing an agreement for the easement.

Mr. Spencer stated John Fisher did a drainage study of the Wea-Ton drainage area, in the report it shows the watershed area delineated certain runoff values for sub-areas within the watershed area. Ashton Woods kept in compliance with the idea for sub-areas to be within the watershed area, at that time, the Board accepted the idea. Ashton Woods created an outlet for the Wea-Ton watershed area and during construction they have created the outlet channel and incorporated their storage area with Old Romney Heights storage area. In the study, there are recommendation about how water moves to the east as development progresses. A pipe was sized under Old Romney Road at the end of the channel to pick up water to the east. Triple J Pointe Subdivision does not comply with this idea as far as construction of proper pipe size under Old Romney Road to convey the water from the east.

Mr. Grove stated Smith Enterprises asked John Fisher for the drainage study, but were not able to obtain a copy. It was decided to make an alternate route from the project's outlet to go along the east side of Old Romney Road in an easement just outside the right-of-way, provide a manhole and a crossing based on a 10 year predeveloped flow from the Wea-Ton area.

Commissioner Gentry suggested getting a meeting set up between the Commissioners, the Surveyor, Smith Enterprises, Mr. Gloyeske, and Mr. Fisher.

Commissioner Yount moved to continue Triple J Pointe Subdivision with Mr. Grove's consent until after the above meeting has been held, seconded by Commissioner Haan. Unanimously approved.

HARRISON & MCCUTCHEON HIGH SCHOOLS IMPROVEMENTS

Kyle Miller, Triad and Associates, presented the Board with the plans to improve Harrison High School and McCutcheon High School. Harrison and McCutcheon will be adding approximately one acre of roof to the existing structures over what is now parking lot signifying no increase in the volume of runoff for either plan. Harrison's storm sewer pipes run around the perimeter of the school, some of the pipe are undersized and will be replaced along with all new pipe to go around the perimeter of the constructed area. All roof drainage will run into the storm sewer then to an existing pipe and discharge into the **Cole Ditch/"Burnett Creek"**. Mr. Miller indicated a portion of one existing outfall pipe will be replaced and a permit from the IDNR is required for construction in the floodway area.

Commissioner Gentry asked what the design is of the outfall pipe into the creek?

Mr. Miller stated there will an end section on the pipe and that rip-rap will be placed on both sides of the banks.

Mr. Miller explained that McCutcheon High School storm sewer pipes run the perimeter of the existing structure and outlets into the **Wea Creek**. The

improvements will replace what is now asphalt and the storm sewer pipe around the perimeter of the constructed area.

Commissioner Yount moved to approve Harrison High School's final improvement plan subject to the approval of the permit from the IDNR, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to approve McCutcheon High School's final drainage improvement plan, seconded by Commissioner Haan. Unanimously approved.

OTHER BUSINESS

Mr. Spencer asked if section six, letter F of the Drainage Ordinance, Submittal and Consideration of Plans, could be clarified to clear up questions pertain to the twenty days submittal deadline being twenty working days or twenty calendar days.

Commissioner Yount suggested changing the twenty days to thirty calendar days and requiring a review memo from the County Engineering Consultant to the petitioner, ten days prior to the hearing date.

Mr. Hoffman stated he will write an amendment to the Drainage Ordinance, letter F in section six, Submittal and Consideration of Plans, to change the twenty days submittal to thirty calendars days and the Surveyor will make a report to the petitioners not less than ten days prior to the hearing date.

GREAT LAKES CHEMICAL

Mr. Spencer stated all the landowners along the proposed channel have been informed of the Great Lakes project, the County has a complete set of construction plans, a drainage report, and Army Corp of Engineers permit. The County does not have IDNR or the IDEM, but those have been filed and should be approved soon. Ken Baldwin had some question for insurance reasons on fencing around the sediment basin before the water goes into **Hadley Lake**. The County will contribute \$700,000.00 dollars out of that the County has spent approx \$150,000.00 on Engineering, the Engineer's construction estimate is 1,040,000.00.

Commissioner Gentry asked what the time table is on advertising for reconstruction, and does the project have to be advertised before the bidding or concurrent with the bid process?

Mr. Hoffman stated the advertising has to be done before the bid processing. The County would have to give thirty to forty day notice and then have the hearing, if approved the bidding can go out, all that together would take about three months.

Judy Rhodes asked if there was any legal document showing West Lafayette committing to an agreement of participation in this project?

Commissioner Gentry stated that the County has a signed worksheet by Nola J. Gentry and Mayor Sonya Margerum showing the break down of contribution between the State of Indiana, Tippecanoe County and the City of West Lafayette for Great Lakes Chemical Corporation/**Cuppy McClure** watershed project

Ms. Rhodes asked and received a copy of the worksheet.

Being no further business Commissioner Yount moved to adjourn until February 2, 1994, seconded by Commissioner Haan. Unanimously approved.

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 1, 1995

The Tippecanoe County Drainage Board met Wednesday February 1, 1995 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney pro-tem David Luhman; and Drainage Board Secretary Shelli Muller.

The first item on the agenda was to approve the minutes from the last Drainage Board Meeting held January 4, 1995. Commissioner Gentry moved to approve the minutes, Seconded by Commissioner Jones. Motion carried.

ACTIVE AND INACTIVE DITCH LIST 1995

Mr. Luhman read the active ditch list into the minutes.

97	McLaughlin, John		
101	Hoffman, John	72105.03	55880.51

Mr. Spencer stated the John Hoffman Ditch is on a three year assessment which started in 1991 with a ten dollar an acre assessment. It is now necessary for the Board to schedule a meeting between Clinton, Carroll and Tippecanoe Counties to reduce the assessment.

Commissioner Haan appointed himself and Commissioner Gentry to serve on the Tri County Board.

CHRISTOPHER B. BURKE ENGINEERING CONTRACT

Mr. Luhman stated after reviewing the original contract from Christopher B. Burke Engineering a few items were discussed and changes were made. The contract was revised with one exception on page 6 paragraph 24. The suggested revision was if a contractor was doing work based upon the Engineers plans the contractor would indemnify Burke for any damages to Burke because of the contractors negligence. Also suggested was to include Burke as a named insured on the insurance policy. Mr. Luhman explained the main reason for the suggestion was so the County and Christopher B. Burke Engineering would not be held liable.

Commissioner Gentry moved to approve the contract with Christopher B. Burke Engineering, LTD., and authorize the President of the Board to sign the contract, seconded by Commissioner Jones. Motion carried.

OTHER BUSINESS

Mr. Spencer presented the Board with the reforestation proposal for the Cuppy-McClure Drain, which will comply with the DNR requirements for a 2 to 1 mitigation on tree removal. The Parks Department for the City of West Lafayette suggested sites for the trees replacement. Mr. Spencer explained he wanted the Board to be aware of the progress and that Mr. Ditzler of J.F. New will submit the plan to Dan Ernst of the Indiana Department of Natural Resources.

Being no further business, Commissioner Gentry moved to adjourn until March 1, 1995, seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 3, 1996

The Tippecanoe County Drainage Board met Wednesday January 3, 1996 in the Commissioners Meeting Room of the Tippecanoe County Courthouse, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, and Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Dave Eichelberger, and Drainage Board Secretary Shelli Muller.

ELECTION OF OFFICERS

The first item on the agenda was to elect new officers for 1996.

Mr. Hoffman opened the floor to nominations for President.

Commissioner Haan nominated Commissioner Gentry.

Commissioner Haan moved to close nominations for president, seconded by Commissioner Jones. Motion carried, Commissioner Gentry was elected.

Mr. Hoffman turned the meeting over to the President.

Commissioner Gentry asked for nominations for Vice President.

Commissioner Haan nominated Commissioner Jones for Vice President.

Commissioner Haan moved to close nominations for Vice President, Commissioner Gentry seconded. Motion carried, Commissioner Jones was elected.

APPOINTMENTS TO THE BOARD

The next item on the agenda is to renew the contracts with Hoffman, Luhman & Busch as the law firm.

Commissioner Haan moved to renew the 1995 contract with Hoffman, Luhman and Busch, seconded by Commissioner Jones. Motion carried.

Mr. Spencer presented the Board with two proposals for the contract with Christopher B. Burke Engineering Limited.

- 1) A proposal for professional engineering services on a varied rate depending on specified standard charges.
- 2) a proposal for professional engineering services on a fixed rate of \$50.00 per hour.

Commissioner Gentry asked for a report on the number of engineering review hours in 1995 for all the projects submitted in 1995. The discussion of which contract to be used will be continued at the February meeting.

Commissioner Haan moved to extend the 1995 contract with Christopher B. Burke Engineering Limited for one month into 1996, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to reappoint Shelli Muller as Drainage Board Secretary for 1996, seconded by Commissioner Jones. Motion carried.

1996 ACTIVE/INACTIVE DITCH LIST

Mr. Hoffman asked for the active and inactive ditches to be placed in the minutes.

Commissioner Haan moved to place the 1996 active/inactive ditch list the minutes, seconded by Commissioner Jones. Motion carried.

1996 - ACTIVE/INACTIVE DITCH LIST

ACTIVE

E.W. ANDREW, ANSON-DEPHINE, JULIUS BERLOWITZ, BEUTLER-GOSMA, ANDREW BROWN, TRAIN COE, COUNTY FARM, THOMAS ELLIS, FASSNACHT-CRIST, REBECCA GRIMES, HARRISON MEADOWS, EUGENE JOHNSON, JAMES KELLERMAN, AMANDA KIRKPATRICK, FRANK KIRKPATRICK, JAMES KIRKPATRICK, CALVIN LESLEY, MARY MCKINNEY, F.E. MORIN, KESTER MOTSINGER, J. KELLY O'NEAL, AUDLEY OSHIER, FRANKLIN RESER, SKINNER RAY, JOSEPH STERRETT, GUSTAV SWANSON, JACOB TAYLOR, JESSE DICKENS, DISMAL CREEK, SHAWNEE CREEK, SAMUEL ELLIOTT, JOHN HOFFMAN, BUCK CREEK, DARBY-WETHERHILL, ISSAC GOWEN, SAMUEL MARSH, EMMETT RAYMAN, WILSON-NIXON, SOPHIA BRUMM, H.W. MOORE, MARY THOMAS, ARBEGUST-YOUNG

INACTIVE

JOHN AMSTUZ, JESSE ANDERSON, DEMPSEY BAKER, BAKER VS NEWELL, NELLIE BALL, MICHAEL BINDER, JOHN BLICKENSTAFF, NATHANIEL BOX, ALFRED BURKHALTER, ORIN BYERS, FLOYD COE, GRANT COLE, JESSE CRIPE, CHARLES DAUGHERTY, FANNIE DEVAULT, MARION DUNKIN, MARTIN ERVIN, ELIJAH FUGATE, MARTIN GRAY, FRED HAFNER, E.F. HAYWOOD, THOMAS HAYWOOD, GEORGE INSKEEP, LEWIS JAKES, FLOYD KERSCHNER, JOHN KUHN, JOHN MCCOY, JOHN MCFARLAND, WESLEY MAHIN, ABSOLEM MILLER, ANN MONTGOMERY, PARKER LANE, CALVIN PETER, PETER RETTERETH, ARTHUR RICHERD, ALEXANDER ROSS, JAMES SHEPHERDSON, JOHN SALZMAN, ABE SMITH, MARY SOUTHWORTH, WILLIAM STEWART, ALONZO TAYLOR, JOHN TOOHEY, JOHN VANNATTA, HARRISON WALLACE, SUSSANA WALTERS, WILLIAM WALTERS, WAPLES-MCDILL, LENA WILDER, J&J WILSON, SIMEON YEAGER, FRANKLIN YOE, JENKINS, KIRKPATRICK ONE, MCLAUGHLIN, JOHN HOFFMAN

Commissioner Gentry mentioned the ditches that are in red:

COUNTY FARM, REBECCA GRIMES, FRANKLIN RESER, GUSTAV SWANSON

Mr. Spencer read a letter he received from Betty J. Michael.

"December 29, 1995

Nola J. Gentry, President
Board of Commissioners

Michael J. Spencer
County Surveyor

Re: Interest on Drainage Funds

At the Fall County Auditor's Conference held by the State Board of Accounts, a session was held concerning drainage ditches, charges, billings, investments, interest, etc.

The County Board of Accounts supervisors instructed the Auditors and personnel concerning the above issues. We were informed that most Counties put interest earned on Drainage funds into the County General Fund since County general pays for expenses such as tax bills, Surveyor and Drainage Board Budgets.

An alternative in some cases is to credit this interest to the County Drain Fund (unapportioned). When we inquired about the feasibility of apportioning the monthly interest into more than 100 separate drainage funds, the answer was a dead silence of incredibility that this was being done.

We have double-checked this information with District Board of Accounts personnel and have been told that there is nothing in the statutes that mandates interest should go into each Drain fund or even into the County General Drain Fund.

Therefore, as of January 1, 1996, we will be willing to allocate the monthly interest to either the General Drain Fund or to the County General Fund but NOT to each individual Drain account. Please let me know your preference.

Sincerely,

Betty J. Michael"

Mr. Hoffman stated the ditches are trust funds and the landowners in the watershed areas know the ditches are earning interest, it would not be appropriate to discontinue the investment.

Commissioner Haan moved to direct Mr. Hoffman to write a letter stating per the agreement that was made when the ditches were established the interest was to be allocated, but the Board is willing to distribute the interest on a semimonthly bases to coincide with the spring & fall settlements, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to approve the 1996 Drainage Board schedule, seconded by Commissioner Jones. Motion carried.

APPROVAL OF MINUTES

Commissioner Haan moved to approve the minutes from the December 6, 1995 Drainage Board meeting, seconded by Commissioner Jones. Motion carried.

BRENTWOOD COMMUNITY

Mr. Spencer stated Brentwood Manufacture Home Community is located off US52 West, South of the Elk's Country Club. They asked for preliminary drainage approval, which he recommended as long as the IDNR approved the construction within a floodway. There are approximately 280 lots on 60 acres with a dry bottom retention pond.

Mr. Spencer explained the retention pond does not comply with the Ordinance therefore the developer is asking for a variance. The Ordinance requires a 48 hour discharge time, the plans actual peak discharge is closer to 75 hours.

Commissioner Haan moved to grant preliminary approval to Brentwood Community contingent on the approval of construction in a floodway from IDNR, revised calculations and the request for the variance to the Ordinance, seconded by Commissioner Jones. Motion carried.

SOUTHERN MEADOWS

Mr. Spencer recommended granting Southern Meadows Subdivision final approval. The development is located at the corner of South 18th Street and 350 South within the City of Lafayette. Mr. Spencer explained the development needs approval from the County Drainage Board because it drains to the Elliott Ditch. At the Urban review meetings it was determined any development below the railroad tracks draining into Elliott Ditch would be allowed to direct release into the Ditch without onsite detention. The development includes a water amenity onsite, which water will flow into and out, but is not being planned as a detention pond and does not comply with the requirements of the Ordinance. Mr. Spencer had a question as to whether or not the pond would have to comply with the requirements of the Ordinance.

Mr. Hoffman stated the pond would not have to meet the Ordinance requirements as long as it does not affect the drainage.

Mr. Spencer explained the site drains to the pond.

Commissioner Haan stated if the majority of the site drains to the pond it is a retention pond and should meet the requirements of the Ordinance.

Ron Miller, Schneider Engineering, stated the current discharge in a one hour storm duration to Elliott is 2.7 hours. With the installation of a 42 inch pipe draining from the water amenity discharge into the Elliott in a one hour storm will be a little over an hour.

Commissioner Haan moved to grant final approval of Southern Meadows Subdivision with the condition the pond meets the Drainage Board Ordinance requirement for a non-fenced pond, seconded Commissioner Jones. Motion carried.

VILLAGE PANTRY #564R

Mr. Spencer introduced Village Pantry #564R, which is located at the corner of Brady and Concord, East of the existing Village Pantry. Weihe Engineering submitted final drainage plans and after the review it was recommended to grant final approval with the variance of a 12 inch pipe to a 10 inch concrete pipe for the outfall of the proposed detention area in order to limit the discharge.

Commissioner Haan moved to grant the variance of the Ordinance from a 12 inch required pipe to a 10 inch proposed pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to grant final approval of Village Pantry #564R, seconded by Commissioner Jones. Motion carried.

PETITION TO ESTABLISH O'FERRALL LEGAL DRAIN

Mr. Hoffman excused himself from the meeting 9:45 a.m.

Mr. Spencer asked the Board to acknowledge the petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch as a valid petition.

Commissioner Haan moved to acknowledge the petition as a valid petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch and the petition represents over 10 percent of the effect landowners, seconded by Commissioner Jones. Motion carried.

Mr. Hoffman returned to the meeting at 9:57 a.m.

ALEXANDER ROSS DITCH EASEMENT REDUCTION

Mr. Spencer explained on the Meijer site two branches of the Alexander Ross Ditch were described, one on the Southeast corner of the site and the other along the West side of the site. After the construction of the site it was discovered the pipe described along the West side of the site is not actually on the Meijer site. Meijer is asking the description of the pipe on the West side be corrected and the easement on the Southeast corner be reduced from 75 feet to 25 feet center of the pipe either side.

Mr. Hoffman stated Mr. Spencer will have to define the easement as only being on the Southeast corner of the site and redefine the easement on the West side of the property.

Commissioner Haan moved to reduce the easement of the Alexander Ross Ditch located at the Southeast corner of the Meijer site from 75 feet to 25 feet either side of the center of the pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to direct Mr. Spencer to correct the Survey maps to show the actual location of the Alexander Ross Ditch and document that the ditch does not run through the West side of the Meijer property, seconded by Commissioner Jones. Motion carried.

Commissioner Gentry asked Mr. Spencer to do a field check on the erosion of the Alexander Ross Ditch bank behind Meadowbrook Subdivision.

SANWIN APARTMENTS

Bob Grove presented the Board with Sanwin Apartments drainage plan and asked for preliminary approval. Located North of US52 West and East of County Road 250 West, the site consist of 3.11 acres and is planned to include a multi-family development with 63 units and a commercial area along the highway. After review from Christopher B. Burke Engineering consultant a revised preliminary plan was submitted addressing the concerns of the memo. The majority of the site, in the

revised plan, drains to the Northeast and Ken Baldwin will provide a 20 foot easement for a 12 inch outlet pipe that runs from the Northeast corner of the site to the existing McClure Ditch.

Commissioner Haan moved to grant preliminary approval of Sanwin Apartments, seconded by Commissioner Jones. Motion carried.

Cuppy-McClure - update

Mr. Spencer stated the notices for the hearing to be held February 7, 1996 on the reconstruction of the Cuppy-McClure Drain were sent January 2, 1996.

Mr. Spencer stated RUST Environmental & Infrastructure has submitted several proposals for construction inspection.

Commissioner Gentry suggested Mr. Spencer get other bids for the construction inspection or consider in-house inspections.

Being no further business Commissioner Haan moved to adjourn until February 7, 1996, seconded by Commissioner Jones. Meeting adjourned.

DRAINAGE BOARD MINUTES JANUARY 3, 1996 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 5, 1997

The Tippecanoe County Drainage Board met Wednesday February 5, 1997 in the Tippecanoe Room of the Tippecanoe County Office Building, Lafayette, Indiana with Commissioner Hudson calling the meeting to order.

Those present: Tippecanoe County Commissioners Kathleen Hudson and Gene Jones, Tippecanoe County Surveyor Michael J. Spencer, Tippecanoe County Drainage Board Attorney Cy Gerde, Engineering Consultant David Eichelberger, and Drainage Board Secretary Shelli Muller.

Commissioner Hudson stated Commissioner Chase resigned Monday February 3, 1997 which created a vacancy in the position of Vice President to the Drainage Board. She nominated Commissioner Jones to fill the vacancy, seconded by Commissioner Jones. Motion carried to elect Commissioner Jones as Drainage Board Vice President.

The first item on the agenda was to approve the minutes from the meeting held December 11, 1996. Commissioner Jones moved to approve the minutes, seconded by Commissioner Hudson. Motion carried.

Commissioner Jones moved to approve the minutes of the last meeting held January 8, 1997, seconded by Commissioner Hudson. Motion carried.

Mr. Gerde asked for the active and inactive ditch list to be placed in the minutes and a motion be made to approve the list.

ACTIVE DITCH LIST 1997

Commissioner Jones moved to approve the active and inactive ditches for 1997, seconded by Commissioner Hudson. Motion carried.

1997 CONTRACTS

ENGINEERING CONTRACT

Mr. Gerde stated he commends the contract written for Christopher B. Burke Engineering, Limited, but some verbiage was changed to better protect the County's interest.

Mr. Eichelberger stated the changes will be made and the contract ready for signature at the March meeting.

ATTORNEY CONTRACT

Mr. Gerde stated the contract for Drainage Board Attorney is ready for approval and the signature of the Drainage Board. The contract is the same format as Mr. Hoffman's contract with a few changes; date, name and hourly rate changed to \$140.00 per hour also, the last paragraph was added to the contract.

Commissioner Hudson read the paragraph that was added:

"All parties hereto agree not to discriminate against any employee or applicant for employment with respect to his hire tenure, terms, conditions or privileges of employment or any matter directly or indirectly related to employment, because of his race, religion, color, sex, disability, handicap, national origin or ancestry. Breach of this convenient may be regarded as a material breach of the contract."

Commissioner Jones moved to approve the contract for Drainage Board Attorney, seconded by Commissioner Hudson. Motion carried. The entire contract is on file in the County Surveyor's Office.

JAMES N. KIRKPATRICK DITCH

Mr. Spencer asked that the **James N. Kirkpatrick Ditch** proposal discussion be continued until the March meeting allowing time to fill the vacancy of the third Drainage Board member.

Commissioner Hudson moved to continue the discussion of the James N. Kirkpatrick Ditch proposals until the March Drainage Board Meeting, seconded by Commissioner Jones. Motion carried

OBSTRUCTION OF DRAINS

Mr. Spencer referred to the following "PETITION TO TIPPECANOE COUNTY DRAINAGE BOARD TO REMOVE OBSTRUCTION IN MUTUAL DRAIN OF MUTUAL SURFACE WATERCOURSE" the "DRAINAGE BOARDS POWER EXTENDED TO PRIVATE DRAINS" article in "Indiana Prairie Farmer" and Indiana Code amendment act No. 1277. All of these documents are on file in the County Surveyor's Office. Mr. Spencer wanted the Commissioners to be aware of and have a discussion on this issue. Mr. Spencer felt this law was to protect against man-made obstructions and asked Mr. Gerde to examine the possibility of the law including natural obstructions.

Mr. Gerde gave an example of where this law could be taken into effect. The first being on North 9th Street Road, north of Burnetts Road, the current condition causes water to travel across the road producing a hazardous condition. The reason for the water across the road is due to drainage problems outside the County Road Right-of-Way.

Mr. Steve Murray, Executive Director, Tippecanoe County Highway Department, stated another persistent problem is 200 South, east of the South fork of the Wildcat Creek. Mr. Murray explained no actual source of funding is available to work on obstruction of drains which do not have a maintenance fund. Mr. Murray asked the Drainage Board to consider creating a fund which would help the Surveyor's Office and the Highway Department to determine what action could be taken. Mr. Murray stated when a problem becomes severe enough the County Highway Department will clean out an obstruction that is off county road right-of-way to protect the road way, but the funds used for the clean-up are funds that could be used elsewhere.

Commissioner Jones stated Steve Wettschurack told him that FEMA was going to help out with the situation on North 9th Street.

Mr. Murray pointed out with the older residential subdivision the storm water system were allowed to outlet into privately owned ravines, there is no funding available to help with maintenance on these situations. If the storm water system becomes plugged or breaks down causing the streets to flood the County Highway Department has repaired the problem, using funds that were not intended for that type of repair.

Mr. Gerde's understanding is that in the majority of those situation the County does not have an easement, which cause a legal problem for the County.

Mr. Spencer stated in all cases where the County has worked out side the easement a complaint was filed therefore the landowners are willing to grant entry onto their land.

MARCH DRAINAGE BOARD MEETING DATE

Mr. Spencer explained the March 1997 Drainage Board meeting date needs to be changed, if possible. Mr. Gerde is going to be out of town on the scheduled meeting date of March 5, 1997.

Discussion of the next Drainage Board Meeting, after an agreed date and time, Commissioner Hudson stated the next Drainage Board meeting will be Tuesday, March 11, 1997 at 9:00 a.m.

Being no further business Commissioner Hudson moved to adjourn until Tuesday, March 11, 1997 at 9:00 a.m., seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD

February 4, 1998

regular meeting

Those present were:

Tippecanoe County Commissioners Ruth Shedd, and John Knochel, County Surveyor Mike Spencer, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Shelli Muller.

The Tippecanoe County Drainage Board met Wednesday, February 4, 1998, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Shedd calling the meeting to order.

The first item on the agenda was to approve the minutes from the October 15, 1997 and December 19, 1997 regular Drainage Board meetings. Commissioner Knochel moved to approve the minutes, seconded by Commissioner Shedd. Minutes Approved.

MIKE MADRID COMPANY

Bob Gross, and Craig Rodarmel of R.W. Gross and Associates, presented the Board with final drainage plans of Mike Madrid Company, located west of I-65, in the northeast portion of the intersection of Swisher Road and the Rail Road. Mr. Gross explained at the south end of the site an existing 15 inch culvert under Swisher Road is the outlet. In the post-developed condition the same 15 inch pipe will be used for the outlet of the site with two sub basin. The sub basin at the north and east sides of the site will outlet into a 12 inch pipe under the driveway and then flow into the 15 inch outlet pipe under Swisher Road. The second sub basin will be at the south end of the site and outlet through a 12 inch pipe with a 4.25 inch diameter orifice on the end to restrict the flow before outletting into the 15 inch pipe under Swisher Road. Mr. Gross explained neither of the two basins will be very deep, but they will be spread over a large area.

Mr. Spencer stated he recommends final approval with the condition the applicant receives approval from the County Highway Department for use of the road right-of-way as site detention.

Commissioner Shedd asked where the emergency overflow will go and who owns the property the overflow will go on?

Mr. Gross stated Mike Madrid Company owns the property for the proposed emergency overflow.

Commissioner Knochel moved to grant final approval of the Mike Madrid Company drainage plan with the condition the applicant receives approval from the County Highway Department, seconded by Commissioner Shedd. Motion carried.

DRAINAGE BOARD 1998 CONTRACTS

Attorney

Mr. Spencer presented the Board with a 1998 contract from Hoffman, Luhman and Busch Law Firm for their services to the Tippecanoe County Drainage Board.

Commissioner Knochel moved to approve the 1998 contract with Hoffman, Luhman and Busch Law Firm, seconded by Commissioner Shedd. Motion carried.

Engineering Consultant

Mr. Luhman presented the Board with a 1998 contract from Christopher B. Burke Engineering, LTD. for engineering consultant services for the Tippecanoe County Drainage Board.

Mr. Luhman suggested continuing the 1998 contract with Christopher B. Burke Engineering, Ltd. until some language is included, which is in the agreement from January 3, 1995 contract. Christopher B. Burke Engineering, Ltd. could copy the 1995 contract and update it to include the current rates.

Commissioner Knochel moved to continue the 1998 engineering consultant contract with Christopher B. Burke until the March 4, 1998 Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

1998 ACTIVE AND INACTIVE DITCH LIST

Mr. Luhman read the 1998 active and inactive ditch list.

Commissioner Knochel moved to approve the 1998 ditch assessment list, seconded by Commissioner Shedd. Motion carried.

OTHER BUSINESS

Mr. Spencer brought to the Board's attention a public notice from the Corp. of Engineers regarding the proposed wetland constructed above a county regulated tile drainage system the **John McCoy Ditch** located south of Wea School along County Road 200 East. Mr. Spencer explained there have been some concern from the property owners in the watershed area with what the Corp. has proposed. Mr. Spencer asked the Board if the County should have an informational meeting regarding the wetland?

Commissioner Knochel moved to have an information meeting with all the effected landowner in the area of the proposed wetland, seconded by Commissioner Shedd. Motion carried.

Mr. Spencer asked if the 30 day requirement for a public notice would be in affect with this meeting only being an informational meeting?

Mr. Luhman stated no, not for an informational meeting because it is not being reconstruted, the assessment is not going to change and there is not going to be any legal affect on the landowners.

MINUTE BOOK

Mr. Luhman explained that there was a question as to whether or not a ledger size minute book was required to be used, if not, than could the minute book be changed to a letter or legal size. Mr. Luhman stated he could not find any statue where a ledger size book had to be used.

Commissioner Shedd granted approval to change the size of the minute book from ledger to letter, beginning with the 1998 Drainage Board minutes.

Being no further business, Commissioner Knochel moved to adjourn until March 4, 1998, seconded by Commissioner Shedd. Meeting adjourned.

Ruth Shedd, President

Shelli Muller, Secretary

Kathleen Hudson, Vice President

John Knochel, Member

TIPPECANOE COUNTY DRAINAGE BOARD

February 3, 1999

Regular Meeting

Those present were:

Tippecanoe County Commissioners Ruth Shedd and John Knochel, County Surveyor Mike Spencer, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Shelli Muller.

The Tippecanoe County Drainage Board met Wednesday, February 3, 1999, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Shedd calling the meeting to order.

The first item on the agenda is to approve the 1999 Active and Inactive Ditch Assessment List. Mr. Luhman read the list.

Commissioner Knochel moved to approve the list of Active and Inactive Ditch Assessment for the year 1999, seconded by Commissioner Shedd. Motion carried.

WATKINS GLEN SUBDIVISION, PHASE 4, PART 3

Tim Beyer of Vester and Associates, asked the Board for preliminary approval of Watkins Glen Subdivision, Phase 4, Part 3 located off County Road 400 East. The proposed subdivision consists of 9 lot on a 5 acre site. Mr. Beyer asked for a variance from the Drainage Ordinance that requires on-site detention. The majority of the proposed plan drains to an existing pipe and then to an existing detention facility for Watkins Glen South, Part V. The facility has the capacity to handle the additional runoff of Phase 4, Part 2.

Mr. Spencer recommended granting the variance for no on-site detention and preliminary approval of the drainage plan for Watkins Glen, Phase 4, Part 3.

Commissioner Knochel moved to grant preliminary approval of Watkins Glen, Phase 4, Part 3 and to grant the variance allowing no on-site detention, seconded by Commissioner Shedd. Motion carried.

SEASONS FOUR SUBDIVISION, PHASE III

Roger Fine, of John E. Fisher and Associates, asked the Board for approval of the outlet pipe for Seasons Four Subdivision, Phase III. The City of Lafayette requires the project to receive approval from the Tippecanoe County Drainage Board because of the outlet pipe into the **Elliott Ditch**. Mr. Fine informed the Board a DNR permit is pending for work in the floodway.

Mr. Spencer recommended approval of the outlet pipe, subject to the project receiving the DNR permit.

Commissioner Knochel moved to approve the outlet pipe into **the Elliott Ditch** for Seasons Four Subdivision, Phase III, subject to the approval of the DNR permit, seconded by Commissioner Shedd. Motion carried.

Being no further business, Commissioner Knochel moved to adjourn until March 3, 1999 at 10:00 a.m., seconded by Commissioner Shedd. Motion carried.

Regular Meeting

Those present were:

Tippecanoe County Commissioners Kathleen Hudson, John Knochel and Ruth Shedd, County Surveyor Stephen Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Doris Myers.

The Tippecanoe County Drainage Board met Wednesday, February 9, 2000, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Kathleen Hudson calling the meeting to order.

The first item on the agenda is to approve the minutes from the January 12, 2000, Regular Drainage Board Meeting and minutes from the January 21, 2000, Special Drainage Board Meeting. Commissioner Knochel moved to approve the minutes of January 12, 2000, Regular Drainage Board Meeting and January 21, 2000, Special Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

Commissioner Hudson welcomed Stephen Murray, as new County Surveyor, to his first meeting with the Drainage Board.

CROSSPOINTE APARTMENTS SUBDIVISION

Wm. R. Davis with Hawkins Environmental gave presentation for Crosspointe Apartments Subdivision. This site is located east of Creasy Lane, south of Weston Woods Subdivision and east of the **Treعه Meadows Relief Drain**. The applicant proposes to construct apartments and associated parking. The stormwater management plan for this area was the subject of previous studies conducted as part of the Amelia Avenue extension over the **Treعه Meadows Relief Drain**. Two issues from C.B. Burke Engineering report to be discussed. First issue is ponding of waters on project. The parking lot plans were intended to pond 7" of water. Second issue concerning previously discharge channel that has been schematic approved for the drainage of this site. Their intention is to use this channel for draining this site. If not approved as is a modification can be brought before the board.

Commissioner Hudson asked Dave Eichelberger to explain about the wet bottom ponds.

Dave Eichelberger, Drainage Board Engineering Consultant, stated the previous stormwater management plan indicated that portions of this development would drain to proposed wet-bottom ponds prior to discharging to the **Treعه Meadows Relief Drain**. However, it does not appear these ponds are proposed as part of this subject development on their plans. Are these ponds already in place, are they going to be constructed as part of this project or are they going to have some interim outlet to the **Treعه Meadow Relief Drain** between now and then? If are wanting final approval may need to have condition that proposed ponds are constructed or proposed outlet is approved.

Steve Murray asked Wm. R. Davis what was their intent.

Wm R. Davis commented there is another project that has risen to this area. The project is not moving very rapidly. They want to get these projects temporarily constructed as did in schematic approval of wet-bottom channel as part of this project.

Commissioner Hudson asked if these outlets would be the ones carrying water over parking lot. Answer was no.

Commissioner Hudson asked what was going to be done about the water ponding over the parking lot area.

Steve Murray stated 7" water ponding over parking lot is allowable by ordinance. This is backwater from 100-year flood as composed to conventional ponding for storage in the lot.

Steve Murray asked if there was a duration limit.

Dave Eichelberger stated none that he is aware of.

Commissioner Knochel moved to grant final approval to Crossepoint Apartments Subdivision subject to the outlets being constructed as part of this project, seconded by Commissioner Shedd. Motion carried.

WABASH NATIONAL SITE DETENTION

Wm. R. Davis with Hawkins Environmental gave presentation for Wabash National Site Detention. This is a 340-acre site located north of C.R. 350 South, between Concord Road and U.S. 52. This is a schematic design for Wabash National and is the second time for reviewing this site. We are trying to come up with an overall plan for final development of Wabash National property. They are not placing structures, etc, but are determining the amount of improved surface they can have, what areas need to be stoned, types of drainage, etc. Currently there is a tile branch of **Elliott Ditch** traversing this property. At present a lot of water stands on this property. We are proposing how to move this water in a developed condition. Will be stoning parts of the property after constructing diversion ditches. Will be removing tile in the **Elliott Ditch** Branch and make open drain. The present detention pond is adequate for future use. Wm. R. Davis is asking for approval of schematic design for Wabash National Site Detention.

Dave Eichelberger suggests preliminary approval of the ditch network and final approval of the continued use of the existing detention pond.

Commissioner Knochel moved to grant preliminary approval of the ditch design for the Wabash National Site Detention and final approval for the drainage pond, seconded Commissioner Shedd. Motion carried.

WILLIAMS COMMUNICATIONS – FIBER OPTIC CABLE

Harold Elliott with Williams Communications gave presentation to install fiber optic cable communication system. This cable will stretch from Atlanta, Cincinnati, Indianapolis and through Chicago. Part of this system will go through a portion of Tippecanoe County. Have received permits for the road crossings. Had been working with Mike Spencer for permits on drainage ditches. They had sent a letter earlier, recommended by Mike Spencer, explaining what they were going to do. Mr. Elliott stated he thinks they should have a permit due to all the bonding, etc. Mr. Elliott's purpose for being here today is to go over project, find out for sure what they do want, and get bond, etc. ready for the next meeting.

Commissioner Hudson asked Mr. Elliott if he received Dave Luhman's letter.

Mr. Elliott's comment was yes. Mr. Elliott stated they have included what Mr. Luhman asked for. Mr. Elliott had a question on drawing for each ditch. Can they use what we use as a typical ditch crossing with it put to the ditch we are crossing? Instead of a complete profile of each ditch.

Dave Luhman asked if it would be similar to what is used on highways. If so, that would be adequate. Mr. Elliott commented yes. Williams Communications will furnish drainage board with a complete list of where line is as built.

Steve Murray stated he would like Mr. Elliott to give as much information possible to the contractor, so they can narrow down their area to start being aware that there may be a legal drain there.

Mr. Elliott commented there would be a crew out to survey each of the legal drains so contractor knows exactly where they start and will be. They are running a minimum of 42" below ground. Some of the survey work is being done now.

Steve Murray asked if they would trench or plow the lines.

Mr. Elliott stated the plan was to plow. When you go across ditches we know you can't plow. So we will be trenching these lines.

Steve Murray stated they would want the cable trenched not plowed. When you trench you can see turned up broken tiles. When you plow there is no visible evidence of broken tiles. May be 3 to 5 years before drain collapses and backs up. A lot of counties have gone too only allowing trenching now days as opposed to plowing.

Commissioner Knochel stated his concern was when turning up some private tiles who will repair. They want someone who is knowledgeable to do the field tile repair.

Mr. Elliott commented he had talked with Mike and would like for the drainage board to hire someone in our county to act as an inspector to find the legal drains and bill Williams Communications for that service.

Steve Murray commented his concern is finding an inspector. It doesn't matter if the drainage board hires or if Williams Communications hires. Stephen thinks it would be better if drainage board hired the inspector.

Mr. Elliott asked about a pay scale agreement. This can all be worked out when I come back for the next meeting.

Steve Murray asked what is your construction schedule.

Mr. Elliott stated this year, this spring. It depends on all the permits coming in and all the easements that are being required one way or the other.

Steve Murray felt comfortable with this if they are willing to work under the drainage board conditions.

Mr. Elliott suggested the \$5,000 bond might not be large enough. There is more potential damage than \$5,000.

Dave Luhman recommends \$25,000.00 bond. Wait on final draft at the March 1, 2000 meeting for details.

Mr. Elliott will return for the March 1, 2000, meeting with final draft and details.

2000 ACTIVE AND INACTIVE DITCH ASSESSMENTS

Mr. Luhman read the 2000 active and inactive ditch list

ACTIVE

Jesse Anderson	Delphine Anson	Julius Berlovitz	Michael Binder

Commissioner Knochel moved to approve the list of Active and Inactive Assessment for the year 2000, seconded by Commissioner Shedd. Motion carried.

OTHER BUSINESS

PETITION FOR ENCROACHMENT ON UTILITY & DRAINAGE EASEMENT LOT 63, RED OAKS SUBDIVISION

Steve Murray gave presentation of this petition for encroachment on utility & drainage easement Lot 63, Red Oaks Subdivision. The petition for encroachment reads as follows: The undersigned, John L. Maloney, who owns 609 Bur Oak Court, does hereby request permission of the Tippecanoe County Commissioners and the Tippecanoe County Drainage Board to encroach 25 feet into the utility and drainage easement at the rear side of their home on Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, Indiana, as shown on the diagram hereto attached and made a part of this petition. Diagram will be on file in surveyor's office. Stephen commented the real concern is the 25 feet encroachment will be too far down the bank and into the water level. This could be an obstruction if maintenance needs to be done to the bank for erosion purposes or pipe out fall. A 10-foot encroachment will bring to the top of bank. Stephen stated he would not recommend any more encroachment then to the top of the bank.

Commissioner Hudson asked if 10 foot would encroach into the utility and drainage easement.

Steve Murray commented without an actual survey tying the house to the lot lines we wouldn't know for sure. It would appear the 10-foot at the top of bank is roughly the easement line that they want to encroach into. If we do not grant requirement for encroachment they can not go any further than the top of bank.

Commissioner Hudson asked if Bill Augustin of Gunstra Builders was aware of this being on the agenda.

Steve Murray commented he had talked to Bill Augustin this week and thought he was aware of the agenda.

Commissioner Knochel asked if they wanted to build a deck and if it was already built.

Steve Murray answer was didn't believe so. Chris from surveyor's office had been out in the last month and took pictures. No deck was in the pictures.

Dave Luhman asked if they wanted to resubmit this petition for an amendment asking for a lower amount of encroachment. If the Drainage Board denies this petition they can resubmit another petition.

Commissioner Knochel moved to deny request for 25 foot encroachment on utility and drainage easement for Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, seconded by Commissioner Shedd. Motion carried.

CHICAGO TITLE INSURANCE COMPANY

Dave Luhman gave presentation regarding request of letter from Drainage Board to Chicago Title Insurance Company. The property is located at 3815 SR 38 E known as the **Kyger Bakery**. There has already been a dry closing on the sale. There are 2 buildings that come within the 75-foot easement. The Chicago Title Insurance Company in order to issue their title insurance need letter from Drainage Board acknowledging that buildings on this property were constructed prior to the requirement of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Have tax records from Fairfield Township Assessors Office that show these structures were built in 1948. Dave Luhman presented Commissioner Hudson with letter on Drainage Board stationery for signature stating these structures were built prior to the requirements of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Dave Luhman has reviewed this with Mr. Bumbleburg, who represents Kyger, and has his approval.

Commissioner Knochel moved president of Drainage Board to sign this letter stating the building were built before 1965 and do not constitute illegal encroachments, seconded by Commissioner Shedd. Motion carried.

Being no further business Commissioner Knochel moved to adjourn meeting, seconded by Commissioner Shedd. Meeting adjourned.

Kathleen Hudson, President

Doris Myers, Secretary

John Knochel, Vice President

Ruth Shedd, Member

Tippecanoe County Drainage Board
Minutes
January 8, 2003
Regular Meeting

Those present were:

Tippecanoe County Drainage Board KD Benson President, Ruth Shedd Vice President, and John Knochel member, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, and Drainage Board Executive Secretary Brenda Garrison.

Election of Officers

Drainage Board Attorney Dave Luhman opened the floor for nominations for President of the Drainage Board. John Knochel nominated Ruth Shedd and K.D. Benson seconded the motion. Dave then accepted nominations for Vice President. K.D. Benson nominated John Knochel for Vice President and Ruth Shedd seconded the nomination. With no other nominations Dave then ruled the nominations closed. Ruth Shedd will be President and John Knochel Vice President for the calendar year of 2003.

Approval of December 10th, 2002 Minutes

John Knochel made the motion to approve the December 10th 2002 minutes as written. K.D. Benson seconded the motion and the minutes were approved.

Release of Easement River Bluffs Subdivision

Tim Beyer of Vester & Associates appeared before the Board seeking a Release of Easement for the River Bluffs Subdivision Part 2, replat of Lot 13 Part 1 and River Bluffs Subdivision Part 4, replat lots 14-16 Part 1. He began his request by showing the Board a map of River Bluffs Subdivision. Part 1 had been platted in the 1970's and had never been built upon due to lack of sewer service to those lots. The replat of the lots would allow sewer service and cause the need to vacate easements for Utility and Drainage on the old plat, as portions of the replatted lots were platted inside the old easement. A Release of Easement would be sought from the Utilities also. There were no residences or streets located within the Easement. After review of the plat, the Surveyor recommended the release be granted. An easement for utility and drainage would be replatted along with the subdivision. A Drainage Plan would be submitted to the Board in the future for the replatted area of the Subdivision.

John Knochel moved to grant the Release of Easement presented and also authorize the President to sign the Release submitted. K.D. seconded the motion and the motion carried. The signed easement request would be placed within the official minutes book. The original request along with the replat would be placed within the Subdivision file.

Steve Murray

25% Increase of Assessments

The Surveyor addressed the Board concerning County Regulated Drains that he felt warranted a one-time increase of assessment by 25 %. The one time increase was covered by I.C. 36-9-27-42. Attached to the list were letters from Montgomery County, which had waived their rights concerning their listed joint drains. The Surveyor stated he would also request a Waiver of Rights from Fountain and White Counties concerning this process for those joint drains affected by the increase. He then reviewed those drains on the list for the Board and discussed future work needed and/or planned. Most of those assessments were set many years ago and the cost of maintenance had risen greatly. The assessments listed were very low and many balances were in the hole. A few of those drains listed would eventually need a hearing to raise the rate even higher, as the maintenance work needed was extensive. The drain's assessment would become inactive automatically once the account reached the new 4-year assessment total. At that time Ruth Shedd asked for comment from the public and Mr. Bill Easterbrook Lauramie Township Trustee approached the Board.

Bill was concerned about the Frank Kirkpatrick Ditch, which was on the list. Bill agreed with the Surveyor an increase would help facilitate the maintenance of drains in his township. This would eventually improve the drainage for Lauramie Township.

John Knochel asked if notification to the public was warranted. Dave Luhman informed the Board notification was not required by statute due to the one time increase. At that time John made the motion to approve Resolution #2003 -01-DB. K.D. Benson seconded the motion. Dave then read the Resolution. With no objections, the Resolution was passed. The Resolution and list of drains known as Exhibit A would be placed within the official minutes book.

Petition to Remove Obstruction/Baxter

The Surveyor reported to the Board on the investigation into the Petition to Remove Obstruction submitted by Mr. & Mrs. Ronald Baxter. The obstruction was located at 1237 West 625 South in a manmade surface watercourse. The drainage in that area was very poor and much growth was shown in the pictures presented. A crew went out to the area in question and shot elevations to determine if a blockage could be determined. The elevations showed an approximately 150 foot area was relatively flat. The alleged complaint was the person to the East had done some filling. It would appear the swale had been filled naturally or by someone and was not properly draining. With a nominal amount of work a .83% grade would allow proper drainage of the area. A positive flow to the side ditch on 625 South would be the result. Dave then advised the Board to schedule a hearing date. John Knochel moved to hold the public hearing on Feb. 5th, 2003 at 10:45 a.m. K.D. seconded the motion and the hearing was set. Certified letters would be sent out by the secretary to inform the parties.

The Surveyor informed the Board he hoped to have a list outlining those drains in need of Reconstruction, Periodic Maintenance and Reclassification as Urban Drains at the February meeting. He stated that a resolution was required to reclassify drains to Urban Drains. He then gave copies of Section 18 of the County Drainage Code to the Board members which allows for the determination of impacted drainage areas.

He also informed the Board he would submit a list of all County Regulated Drains to be active or inactive for 2003 at the February meeting.

OTHER BUSINESS

Drainage Board Meeting Dates And Time for 2003

A list of the Drainage Board Meeting Dates and Times was presented with the following changes: December 3, 2003 changed to December 10, 2003. The September 3, 2003 was changed to September 10, 2003. All other meetings would be held the first Wednesday of each month at 10 a.m. John Knochel made the motion to approve the list with the changes noted. K.D. Benson seconded the motion and meetings for 2003 were set. The list would be posted within the official minutes book following the minutes from the present meeting.

With no other business before the Board, John Knochel made the motion to adjourn and K.D. Benson seconded the motion. The meeting was adjourned.

Ruth E. Shedd, President

John Knochel, Vice President

Brenda Garrison, Secretary

K.D. Benson, Member

Tippecanoe County Drainage Board
Minutes
February 2, 2005
Regular Meeting

Those present were:

Tippecanoe County Drainage Board President Ruth Shedd, Vice President John Knochel, member KD Benson, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering Limited, County Highway Engineer Tim Wells, and Drainage Board Secretary Brenda Garrison. GIS Technician Shelli Muller was absent.

Approval of January 5, 2005 Minutes

John Knochel stated the January 5, 2005 minutes reflected his attendance. As he was absent for that meeting, he made a motion to approve the minutes with a correction indicating his absence. KD seconded the motion and the January 5, 2005 Drainage Board Regular minutes were approved with the correction as stated.

Comprehensive Stormwater Management Ordinance

Steve Murray updated the Board regarding compliance with the Federal Clean Water Act through Rule 13 and Rule 5 in Indiana. Part C was to be filed November 4, 2004. However an extension was requested and IDEM (Indiana Department of Environmental Management) granted an additional ninety days. February 4, 2005 was the extended deadline. IDEM granted an additional thirty-day extension. The filing deadline of Part C was now March 4, 2005. The following entities were on track to adopt and pass the Comprehensive Stormwater Management Ordinance in accordance with the federal guidelines; Lafayette, West Lafayette, Dayton and Battleground, as well as Tippecanoe County. Cost sharing was utilized between the entities.

The ordinance was patterned off of the existing Stormwater Ordinance, which addressed stormwater quantity. Provisions were added to address stormwater quality, and the various control measures as required by the aforementioned rules. A steering committee, project team and subcommittee reviewed technical standards. The Surveyor stated a majority of the local engineering companies were included in this process. Implementation of the federal guidelines had been a two to three - year process. The Drainage Board Attorney and Surveyor reviewed the ordinance and made appropriate corrections. The Surveyor stated he felt the ordinance was a good product for the community.

Pat Jarboe approached the Board and asked when the ordinance would be implemented and what would be the length of the interim period. The Surveyor stated he was unable to answer, as it was a federal mandate and would depend on legal aspects of the federal guidelines. The Surveyor felt once the ordinance had passed both readings, it would take precedence over the existing ordinance at that time. Copies of the proposed ordinance were available for public review at this time. It was discussed whether it should be on the web page, however the Surveyor felt it should be available by CD at this time only.

At that time, the Surveyor presented Ordinance No. 2005-04-CM amending Tippecanoe County Code, repealing Section 155.01, and adding the new Section 155.01 Comprehensive Stormwater Management Ordinance. Exhibit A was the Stormwater Ordinance guidelines as well as the Technical Standards Manual. John Knochel made a motion to approve and pass Ordinance No. 2005-04-CM on first reading. KD Benson seconded the motion. The following voted as indicated: KD Benson- yes, John Knochel-yes, Ruth Shedd-yes. Ordinance No. 2005-04-CM regarding Comprehensive Stormwater Management was passed on first reading unanimously. It was agreed to place the ordinance on the next Drainage Board meeting agenda for the second reading, followed by a Special Commissioners' Meeting for a second reading also.

Water Safety Committee

Mike Wylie of Schneider Engineering approached the Board as a member of the previously established Water Safety Committee. He stated he was in attendance to today give an update to the Board on the Committee's progress. The committee was formed to look at public safety issues, both in design and education. A design subcommittee and an educational (outreach to schools etc.) subcommittee were formed out of the main committee members. Mike stated he would like to review the outcome of these committees at the next Drainage Board meeting in March. A Power point presentation would likely be made at that time. The Surveyor stated safety recommendations from the subcommittee were included in Ordinance No. 2005-04-CM. The Surveyor also stated Mike would be added to the March meeting Agenda of the Drainage Board.

Other Business

Classification of Drains

In accordance with I.C. 36-9-27-34, the Surveyor presented a Report of Drains to the Board. The report listed classification of drains, drains in need of reconstruction, urban drains, drains in need of periodic maintenance, and drains with insufficient maintenance funds. He then reviewed the report for the Board. (A copy of which would be included in the official minutes book.)

Drains in need of Reconstruction: He stated reconstruction for the Berlowitz Drain was in the initial process. He noted an informal meeting regarding the Jakes Ditch had been held this past year with the benefited landowners. The original tile had eroded out and an open ditch had been created at the lower end. The upper end of the tile was exposed. Elliott Ditch had been a part of an ongoing planning process, specifically Branch #11 and the F-Lake detention facility behind Ivy Tech. Branch #11 of S.W. Elliott Ditch had been designed and would go to construction in the near future. J.N. Kirkpatrick's lower end had been reconstructed. In anticipation of a large industrial park near the upper end, a preliminary plan was in place for reconstruction from Concord Road to 450 East for the J.N. Kirkpatrick. Investigation of the Anson drain had been done. It was anticipated the drain would be presented for reconstruction or an assessment rate increase sometime this year. The J.B. Anderson, which served Clarks Hill, had another round of flooding the past couple of weeks. The Frank Kirkpatrick drain was also in need of reconstruction.

Urban Drains: In accordance with Indiana Code, the Surveyor designated drains that are in need of reconstruction and served an urban or urbanized area as Urban Drains. The drains listed were: S.W. Elliott, Berlowitz, J.N. Kirkpatrick, and the Alexander Ross which ran roughly behind the Super Wal-Mart located on S.R. 26.

Drains in need of Periodic Maintenance: The D. Anson, J. Blickenstaff, A. Brown, Burkhalter, T. Coe, County Farm, C. Daugherty, M. Dunkin, T. Ellis, M. Erwin, R. Grimes, F. Haffner, E.F. Haywood, L. Jakes, F. Kerschner, A. Kirkpatrick, F. Kirkpatrick, C. Lesley, F.E. Morin, H. Mottsinger, F. Resor, M. Southworth, J. Vvannata, and the H.B. Wallace were all drains listed in need of periodic maintenance. The Surveyor stated for the most part, these drains had their assessment rates set in the late 1960's. The present and future costs of construction projects required an increase of assessment rates from roughly \$1.00 an acre closer to \$2.00 - \$3.00 an acre, for adequate maintenance. KD Benson requested a GIS presentation of the drains listed on the report in the near future as time permits. John Knochel made a motion to accept the 2005 Report of Drains submitted by the Surveyor. KD Benson seconded the motion and the Board accepted the 2005 Report of Drains as submitted by the Surveyor.

The Surveyor presented Tippecanoe County Drainage Board Resolution No. 2005 – 01-DB to the Board for their approval. In accordance with I.C. 36-9-27-42, the Resolution increased assessments by twenty-five percent (25%) for the following drains: J. Blickenstaff, A. Brown, T. Coe, C. Daugherty, M. Dunkin, T. Ellis, M. Erwin, F. Haffner, F. Kerschner, A. Kirkpatrick, C. Lesley, H. Wallace, and S. Yeager. The drain had an insufficient maintenance funds in place. The Surveyor stated either the tile was in need of a significant amount of maintenance, or cleanout of the open ditch was warranted. He stated every ten to twelve years an open ditch should be cleaned out. In response to K.D.'s inquiry, the Surveyor stated a letter would be sent to White County regarding their acceptance of the proposed assessment increase of the Andrew Brown Joint Drain. John Knochel made a motion to adopt Resolution No.2005-01-DB as presented. KD. Benson seconded the motion. The Board adopted Resolution No.2005-01-DB, a Resolution Increasing Assessments for the Periodic Maintenance of Regulated Drains.

Maintenance Bonds

Prophets Ridge Phase 1 / Prophets View Subdivision Phase 1 / Paramount Lakeshore Subdivision

The Surveyor presented the following three Maintenance Bonds for acceptance; Maintenance Bond No.4175907 in the amount of \$37,060.00 for Prophets RIDGE Subdivision Phase 1 from Fairfield Contractors, Maintenance Bond No. 69839855 in the amount of \$2000.00 for Prophets VIEW Subdivision Phase 1 (located on Pretty Prairie Road) from Norma G. & Rita A. Deboy, and Maintenance Bond No. 400TF4545 in the amount of \$23, 329.70 for Paramount Lakeshore Subdivision from Milestone Contractors. The Surveyor stated the subdivisions had been completed and approved. John Knochel made a motion to accept the three Maintenance Bonds as presented by the Surveyor. K.D. Benson seconded the motion. The Drainage Board accepted the aforementioned Maintenance Bonds.

Professional Engineering Services for Engineering Review Contract

The Surveyor presented the annual contract from Christopher B. Burke Engineering for professional engineering review service. The cost of their service was in turn billed to the developer of projects submitted for review. Dave Eichelberger from Christopher B. Burke Engineering stated the rate per hour was raised from \$70.00 per hour to \$75.00 per hour. John Knochel made a motion to approve the contract between the Tippecanoe County Drainage Board and Christopher B. Burke Engineering LTD. as presented. K.D. Benson seconded the motion. The contract between the Tippecanoe County Drainage Board and Christopher B. Burke Engineering LTD. was approved as presented to the Board.

Lewis Jakes Ditch

While researching the status and condition of Jakes Ditch, it was discovered the Drainage Board approved a rate increase from \$1.00 an acre to \$2.00 an acre in April of 1983. Research indicated the present assessment of \$1.00 per acre was never changed accordingly. After conferring with the Board’s attorney, it was agreed the rate of \$2.00 per acre set in the April 1983 meeting was valid. The Surveyor requested a formal vote in order for the increase to be activated by the Auditor’s office. John Knochel made a motion to approve the \$2.00 per acre assessment rate as set in the April 1983 Drainage Board meeting. In addition the said rate be in effect starting with the 2005 tax season. K.D. Benson seconded the motion. The Lewis Jakes Regulated Drain assessment of \$2.00 per acre was formally approved beginning with the 2005 tax season.

Public Comment

As there was no public comment, John Knochel made a motion to adjourn the meeting. KD seconded the motion. The meeting adjourned.

Ruth Shedd, Vice President

John Knochel, Vice President

Brenda Garrison, Secretary

KD Benson, Member

Tippecanoe County Drainage Board
Minutes
March 24, 2006
SPECIAL Meeting

Those present were:

Tippecanoe County Drainage Board President KD Benson, Vice President John Knochel, member Ruth Shedd, County Surveyor Steve Murray and Drainage Board Secretary Brenda Garrison. Drainage Board Attorney Dave Luhman was absent.

Classification of Drains (Partial)

The Surveyor presented the Classification of Drains (Partial) report to the Board. A copy of which would be included (excluding Exhibit A- see file) in the official Drainage Board Minutes book. The Surveyor stated he has completed and presented a Classification of Drains (Partial) report to the Board previously in 2003 and 2005. He stated this year he had expanded it with more detailed information as "Exhibit A". He stated as it was not feasible for his office to know the condition of every regulated drain under County Maintenance, he relied on the farmer to report the condition of a drain .Often calling upon them for a review of the drain's condition and noted his office receives maintenance request calls in the fall and spring when farmers are in the field.

He reviewed his report with the Board as follows:

1.) Drains in need of Reconstruction

a. Berlovitz, Julius (#8) (Includes Felbaum Branch)

1. Declared Drainage Impact Area by Resolution 2006-02-DB

The Surveyor stated the Board was very familiar with this Drain.

b. Kirkpatrick, J.N.(#46) (Watershed above (east) of Concord Road

1. Declared Drainage Impact Area by Resolution 2006-01-DB

The Surveyor stated he had met with the landowners on the Upper JN Kirkpatrick Regulated Drain. It was decided they would provide their own regional detention and the County would construct a positive outlet. He noted the design would be completed within a couple of months and was hopeful to start the bidding process at that time. Right of Entries would be required from the landowners which they had verbally agreed to.

c. Elliott, S.W. (#100)

1. F-Lake Detention Facility

The Surveyor stated EDIT monies was planned for this facility, however the Berlovitz Regional facility would take precedence over F-Lake.

2. Branch #11 (at S.R.38 near Tractor Supply)

The Surveyor stated Branch#11 of the S.W. Elliott served the property north of State Road 38. Previously the Brands were told they would have to reconstruct Branch #11 themselves. The reconstruction cost proved too much- as two 60" inch pipes were required under State Road 38. INDOT would not agree to place the pipes at their expense. The Surveyor suggested a formal reconstruction to the owners as INDOT would then have to shoulder the expense for the pipe installation under State Road 38. A landowner meeting concerning the reconstruction would be organized as soon as time allows.

d. Anderson, J.B. (#2) (Clarks Hill portion)

The Surveyor stated a conceptual reconstruction plan was completed by Christopher B. Burke through the Lauramie Creek Watershed study. The original estimate was in excess of two million dollars, however the Surveyor had reviewed costs and was able to decrease that to approximately half a million dollars.

e. Kirkpatrick, Frank (#45) (Portion East of C.R. 450E)

The Surveyor stated the Frank Kirkpatrick Drain was located in the southeast portion of the County with a portion east of C.R. 450East. This portion was investigated and found to be purposely laid uphill. The Surveyor stated he felt the reconstruction cost would not be acceptable by the landowners. However he noted it would continue to deteriorate over time and would be in need of the reconstructed in spite of the cost.

2.) Hearing and rates established in 2005

a. Anson, Delphine (#4) Reconstruction rate, periodic maintenance rate and maintenance rate after reconstruction set by hearing on August 29, 2005

b. Jakes, Lewis (#40) Reconstruction rate, periodic maintenance rate and maintenance rate after reconstruction set by hearing on August 29, 2005

The Surveyor informed the Board there was a SEA 368 Review scheduled in the near future for the Lewis Jakes Drain. The drain outlet at Indian Creek. He explained if work was reconstruction and the length of a drain greater than ten miles on the USGS map, a review (SEA 368) by IDNR, IDEM and Army Corps of Engineers was required. They will walk the drain with the Surveyor and give their requirements for said reconstruction.

- 3.) Urban Drains (per I.C. 36-9-27-68 Urban Drains are classified as in need of Reconstruction)
 - a. S.W. Elliott (#100)
 - b. Berlowitz, J. (#8) (Include Filbaum Branch)
 - c. Kirkpatrick, J.N. (#46)
 - d. Ross, Alexander (#48)

The Surveyor noted extensive maintenance work on the Alexander Ross drain.

- 4.) Drains in need of Periodic Maintenance
Please see attached sheet Exhibit A

The Surveyor noted the Exhibit Sheet A indicated maintenance amounts from 1990 to date on each regulated drain and referred the Board members to the exhibit for review.

- 5.) Insufficient Funds
 - a. Blickenstaff, John (#11)
 - b. Crist Fassnacht (#29)
 - c. Grimes, Rebecca (#33)
 - d. Harrison Meadows (#37)
 - e. Kerschner, Floyd (#38)
 - f. Kirkpatrick, Frank (#40)
 - g. Lesley, Calvin (#48)
 - h. Morin, F.E. (#57)
 - i. O'Neal, Kelly (#59)
 - j. OShier, Audley (#60)
 - k. Saltzman, John (#70)
 - l. Dickens, Jesse (#91)

The Surveyor stated the most common reason for insufficient funds was the low originally established assessment rate. The rate was set many years ago and due to inflation did not meet present maintenance costs.

- 6.) Proposed Drains for hearing in 2006
(Request these drains be referred to Surveyor for preparation of maintenance report)
 - a. Brown, Andrew (#13)
 - b. Coe, Train (#18)
 - c. Haywood, E.F. (#35)
 - d. Harrison Meadows (#37)
 - e. Kirkpatrick, Frank (#45)
 - f. Morin, F.E. (#57)
 - g. Mottsinger, Hester (#58)
 - h. Parker, Lane (#61)
 - i. Resor, Franklin (#65)
 - j. Southworth, Mary (#73)
 - k. Vannatta, John (#81)
 - l. Yoe, Franklin (#90)
 - m. Dismal Creek (#93)
 - n. Beutler Gosma (#95)
 - o. Romney Stock Farm (#109)

The Surveyor stated these drains assessment rates were more critical in his view. There was a limited amount of monies within the General Fund available for general use. For example the Andrew Brown in the northeast portion of the County was tile and open ditch. A portion of the open ditch was cleaned this spring due to the submerged outlet at the headwall. (Generally open ditches should be cleaned or dipped and cleared an average of ten to twelve years.) The cost for a three thousand foot open ditch at \$6.00 per foot would be approximately \$18,000.00. It would take approximately 4-5 years to

repay the general fund. The Harrison Meadows Drain had maintenance work done in the mid nineteen-nineties and owed the General Fund over \$6000.00 to date. The four year total assessment for this drain was only \$1915.70.

- 7.) Drains recommended to be raised by 25%
 - a. E.F. Haywood (#35)
 - b. O'Neal Kelly (#59)
 - c. Oshier, Audley (#60)
 - d. Resor, Franklin (#65)
 - e. Yoe, Franklin (#90)
 - f. Kirkpatrick One (#96)

The Surveyor noted this recommendation was a temporary fix. Raising the maintenance assessment 25% in his opinion was a proactive action in the interim.

- 8.) Petitions for New Regulated Drain Referred to Surveyor
 - a. Fred Whaley/Norm Bennett
 - b. Todd Welch

The Surveyor noted additional investigation was required for the Fred Whaley/Norm Bennett Petition as the tile drain was submerged which made it difficult to evaluate properly. He felt the most cost effective way was to set up a maintenance fund before additional investigation was done. Investigation on the Todd Welch petition would be completed as time allowed.

- 9.) Existing Drains Referred to Surveyor for Report
 - c. Upper JN Kirkpatrick (#46)
 - d. J. Berlowitz (#8)

The Surveyor stated these drains had existing maintenance funds and was conferring with Christopher Burke on their reports.

- 10.) Drain that should be vacated
 - a. That portion of Branch #5 of the J.N. Kirkpatrick which runs along the East side of Promenade Drive in Stones Crossing Commercial Subdivision.

The Surveyor stated this portion of the tile was presently functioning as a storm sewer for Promenade Parkway on the west side of Wal-Mart and should be vacated as it no longer functions as a county regulated tile.

In summary the Surveyor stated a new drainage layer and map was close to completion and would eventually be available to the public. He reviewed the layer utilizing GIS for the Board. A red dash tile was a county tile or open ditch: a solid blue label indicated it had a maintenance fund, a green label indicated it did not have a maintenance fund. He added a database (individual drains historical information to date) was being maintained as well. He informed the Board he will give a presentation the first Wednesday of April to the District SWCD Board concerning County Drains.

As there was no additional information for the Board, John Knochel made a motion to adjourn. Ruth Shedd seconded the motion. The meeting was adjourned.

KD Benson, President

John Knochel, Vice President

Brenda Garrison, Secretary

Ruth Shedd, Member

Tippecanoe County Drainage Board
March 14, 2012
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board President David Byers, Vice President Thomas Murtaugh, member John Knochel, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering Limited, and Drainage Board Secretary Brenda Garrison.

Approval of Minutes

Tom Murtaugh made a motion to approve the January 4th Regulated Drain Hearing and the January 4th Regular Drainage Board Meeting minutes as written. John Knochel seconded the motion. The December 7th Regulated Drain Hearings and the December 7th Regular Drainage Board Meeting minutes were approved as written.

Winding Creek Section 6

Clem Kuns from TBird Design Services appeared before the Board to present Winding Creek Section 6 for final approval. The site was located south of County Road 600 North and west of County Road 75 East on approximately 25 acres. He noted a master drainage plan for this area was approved in 1998 by the Board. This Section was the last section of the overall development. The northern boundary of this section adjoined the Coyote Crossing Golf Course. The onsite detention facility was originally designed to accommodate a portion of this section as well. The existing pond outlet would be modified with stormwater quality measures. Part of the northern portion drained uncontrolled to the Cole Ditch after passing through the Coyote Crossing Golf Course. All minor modifications of the existing pond were indicated on the construction plans. Plans called for lowering the existing spillway 2 feet (presently a grassy Berm). Regarding crossing the Golf Course, they were presently looking for wetlands in the area which may need to be accommodated or mitigated. A signed agreement was obtained from the Golf Course owners in order to proceed with the construction and permitting process. The construction plans were reviewed with the Golf Course owners. The exhibit which indicated the exact locations of the proposed crossings was reviewed with them specifically. IDEM and DNR permitting was presently in the process phase. Responding to Mr. Knochel's inquiry, Clem stated safety signs and flotation equipment were proposed for the pond ramp area. However, the ramp was not on the property being developed for this section. Therefore additional safety accommodations were not included in the plans. He noted there were future development plans for a clubhouse close to the area of the pond. After a lengthy discussion with the Board Attorney, the Board concluded additional pond safety requirements would be addressed at the clubhouse project's drainage approval presentation.

A variance regarding the TSS removal rates was requested and he noted several stormwater quality measures for the majority of the site were planned. He asked for approval of the variance and project at that time. Responding to Tom Murtaugh's inquiry, Clem stated the L-shaped outlot indicated on the plans was designed for Utility and Drainage Easements. A mound was proposed to be located there to block the view of the treatment plant. It was noted American Suburban and Indiana American Water both have infrastructure in this area. Tom Lawrence, 8 Grapevine Court West Lafayette 47906- Lot 118 of Winding Creek Subdivision Section 1, appeared before the Board as the Homeowners Association Representative for Winding Creek Subdivision. He stated the clubhouse project was indefinitely delayed until more monies were collected by the Association. Mr. Byers stated pond safety was very important to the Board and it was prudent to address this before construction on the clubhouse was started. The Board would address this at that time. The Surveyor stated while the pond was designed and approved under the 1998 Drainage Ordinance, efforts were made to achieve the current TSS required rate for this section of the project. In addition, he noted a meeting had been held to specifically discuss certain issues of them being the safety and TSS rate. As a result of the meeting, he stated measures taken were sufficient and recommended approval of the variance request. Tom Murtaugh made a motion to grant the variance as requested. John Knochel seconded the motion. Winding Creek Section 6 was granted a Variance to the Stormwater Quality requirement. After confirming safety measures were currently on the plans, Tom Murtaugh made a motion to grant Winding Creel Section 6 final approval with the conditions as stated on the March 9, 2012 Burke memo. John Knochel seconded the motion. Winding Creek Section 6 was granted final approval with conditions as stated on the March 9, 2012 Burke memo.

Reserve at Raineybrook Phase II

Kyle Betz of Fisher and Associates appeared before the Board to present Reserve at Raineybrook Phase II for final approval. The site was located west of the new U.S. 231 South and north of County Road 500 South and consisted of 7.48 acres. Original plans called for 39 units for this phase of the project; however the revised and current plan indicated 30 single family residential units to be located on site. The Overall Raineybrook development was approved by the Board in January March 14, 2012

2001; Phase II was included in the plans submitted at that time. Drainage for this phase of the project was served by two existing outlets. Approximately 1/3 of the project site drained into the southwest corner through a previously constructed drainage outlet and the remaining runoff drained into a natural pond known as Corley Pond. Runoff from this phase eventually discharged to Little Wea Creek. Kyle stated the schematics had not changed from the original drainage plan for the site. No modifications were planned for the natural pond with the exception of the installation of an outlet pipe and the associated materials for its placement. Responding to Mr. Knochel's inquiry, Kyle stated while the developer acknowledged safety concerns, the pond was not located on the developer's property. Kyle stated he felt it was best to discuss signage and safety box issues with the Home Owners Association or the developer of Raineybrook Subdivision. He stated it would be a better benefit to serve all the lots adjacent to the pond and not just the five new lots associated with this phase only. Responding to John Knochel, he stated the Raineybrook development project was presented to the Drainage Board in 1994 and prior to any County Pond Safety Ordinances. The Reserve at Raineybrook development project was included in the Master Drainage Study and then presented to the Board in 2001. The Surveyor stated the uniqueness of this pond was that it was natural and not manmade. Kyle stated due to the natural uniqueness of the pond it was likely the slopes did not follow the present day ordinance standards. The pond was located in a conservation easement- as a wetland covered most of the pond.

The Board Attorney, Dave Luhman, inquired whether the width of the easement at the discharge pipe location into the pond was wide enough for emergency vehicles to access. Kyle confirmed the easement was wide enough for emergency vehicles to access the pond during an emergency. He stated there was common area which a blanket easement covered. Dave Eichelberger noted due to the blanket easement a variance was not required. However, where there was not a building pad indicated on the plans, the blanket easement should be indicated throughout the plans when submitted. Kyle agreed with Mr. Murtaugh in that a mulch trail circled the pond. Mr. Eichelberger suggested the mulch trail should be changed to a hard surface wide enough to accommodate emergency vehicles as well as pedestrian traffic. Kyle noted they were reviewing making a portion of the trail -where the drainage easement crossed -a hard surface and leaving the remaining trail mulch. Mr. Eichelberger stated he did not feel that area alone would be sufficient for vehicle traffic in emergency situations. The Attorney stated this would be an ongoing issue for the Board as developers use ponds existing prior to the Safety Ordinance and with different ownership as outlets. Most ponds existing prior to the Safety Ordinance did not have safety ramps, safety boxes etc. as it was not required when the projects were presented for approval by the Board. In this case the pond was surrounded by existing homes on the east and the south sides which made it difficult to access in an emergency. Emergency vehicles would have no choice but to access this pond from the west side. Requiring a total hard surface on the trail surrounding the pond would accommodate emergency vehicles. Responding to Mr. Betz, Mr. Murtaugh noted the open lots adjacent to the pond was indeed wooded, very steep and would not be suitable for access to the pond. He noted he thought the most northern portion of the pond at the service road location would be the best access area to the pond.

The Surveyor stated precedent had been set on new phases or sections of a project -approved prior to the current Stormwater Ordinance- regarding the current TSS rate requirement. Developers should attempt to reach the required 80% TSS removal rate on all subsequent phases/sections of a previously approved project. Based on the March 9, 2012 Burke memo comments, it appeared there was no attempt to reach the 80% TSS rate (stormwater quality requirement). Therefore, from a technical standpoint he could not recommend the variance be granted. He informed the Board his office did discuss the safety issues surrounding the pond (warning signs, rescue equipment etc.) with Mr. Betz in a meeting prior to the Burke memo stated. The comment Mr. Betz made at that time was "They would take the issue under consideration". It appeared none of the suggestions regarding safety were included in the most recent plans. To do nothing as far as safety concerns because the pond was under different ownership was worrisome and bothersome to him. Therefore he would not recommend the variance as requested to the Board. As the remaining conditions on the memo were minor, he recommended project approval with the conditions as stated on the March 9, 2012 Burke Review Memo. Hearing no motion for the approval of a variance, the request was not approved by the Board. Responding to Mr. Murtaugh' inquiry, Dave Luhman stated the Board could not require safety measures around the natural pond adjacent to the project site. Had the pond been a constructed detention pond owned by the same developer, the Board would have that option. The Board could (although not required) request the developer in a good faith effort volunteer to provide safety signs in adjoining areas of the pond. Mr. Murtaugh asked if the developer would be willing to install safety signs and safety boxes where appropriate on their site. Mr. Greg Milakis developer of the project and present, stated he would be willing to add safety measures such as signs and safety equipment boxes. Due to this agreement, Tom Murtaugh made a motion to grant final approval with the conditions as stated in the March 9, 2012 Burke Review memo. John Knochel seconded the motion. Reserve at Raineybrook Phase II was granted final approval with conditions as stated on the March 9, 2012 Burke memo. The conditions included the agreed addition of safety signs and safety boxes to be located in the common area near the pond and the 5 lot locations which adjoined the pond indicated on the plans.

Zachariah Beasley /Inspection Results: Hawthorne Ridge Subdivision

The Surveyor noted the Homeowner Assoc. President for Hawthorne Ridge Subdivision and a couple landowners appeared before the Board in January 2012. They discussed several drainage concerns they had within the subdivision regarding what they felt was drainage from adjoin tracts. He noted his office made a site visit to the areas of concern. He gave a power point presentation to the Board of the inspection. He stated, the developer of St. Andrews Church reminded him at the 2006 Drainage Board Meeting it was a condition of approval the developer walk the downstream conveyance system and take photographs of the current condition before the church was built. Dale Snipes Stormwater Coordinator within the Surveyor's office walked the downstream conveyance area as was done before the church was constructed. The power point presentation included the developer's 2006 photographs with the 2012 photographs taken by Mr. Snipe's inspection. The photographs were taken roughly every 500 feet and stopped at County Road 500 North. He noted the photos indicated the channel itself was still relatively straight. He informed the Homeowners Association debris from yards such as yard clippings, brush etc. should be removed from side slopes of the ditch. The debris kills vegetation which would cause erosion to the ditch at a faster rate. Noticeable erosion occurred during this time at the manhole location. However this amount of erosion was not uncommon as the time frame between photographs was 6 years. He noted a landowner had armored the bank with rip rap which was a good practice. At the private bridge location (Martins Blueberry Patch site) there appeared to be silt built up since the 2006 photographs were taken. This had caused some obstruction of the stream's flow. Responding to Mr. Byers' inquiry, the Surveyor noted this was a private stream/creek therefore his office could not maintain it. D.N.R. would allow a private landowner with a required permit to remove the built up silt. He concluded the presentation by stating based on the 2006 current condition photographs and present day photographs; it did not appear a substantial problem was created by the St. Andrews Church project. The stream looked no different than any other stream in the county would during a 6 year time frame. With the armoring of the ditch in some locations using rip rap it actually was in better shape than a lot of private ditches within the county. He stated did not feel St. Andrews Church project have caused a negative impact on this subdivision drainage. The Church was built as designed and approved by the Board in 2006. Regarding the homeowners specific concerns he stated the orifice plate and aqua swirl were in place as designed. The Surveyor noted this was a large watershed area as there was approximately 700-800 acres if not more. He informed the landowners the Revised Stormwater Quality Ordinance was revised this year (Jan. 2012) to control the more frequent storm events and was confident it would assist in the drainage of future developments.

Zachariah Beasley/Petitions

The Surveyor presented four Petitions to Encroach submitted by Duke Energy regarding their Line Relocation project. The project started roughly around the Town of Concord south of Lafayette and extending south of Tippecanoe County into Montgomery County crossing 4 regulated drain locations involving 3 regulated drains, with one drain being encroached in two areas. The following drains were being encroached upon: Frank Kirkpatrick (2 Locations), Train Coe and Romney Stock Farm Regulated Drains. The Surveyor noted his office met the Duke Representatives on site and the tile locations were marked for them. Duke Energy was very cooperative in this process. The Surveyor recommended approval for the Encroachment Petitions as submitted. Tom Murtaugh made a motion to grant approval for the Duke Energy Line Relocation project's Petitions to Encroach on the Frank Kirkpatrick, Train Coe and Romney Stock Farm Regulated Drains. John Knochel seconded the motion. The Petitions to Encroach on the Frank Kirkpatrick, Train Coe and Romney Stock Farm Regulated Drains were approved as submitted.

The Surveyor presented a Petition to Encroach on the S.W. Elliott Regulated Drain #100 Branch #14 submitted by TBird Design Svc. for the Warehouse of Lafayette project. The location was east of Concord Road and south of Brady Lane. The Surveyor recommended approval of the petition as submitted. Tom Murtaugh made a motion to grant approval for the Warehouse of Lafayette Petition to Encroach on the S.W. Elliott #100 Branch #14 Regulated Drain. John Knochel seconded the motion. The Petition to Encroach on the S.W. Elliott #100 Branch #14 Regulated Drain submitted by TBIRD Design Svc. Regarding the Warehouse of Lafayette project was approved as submitted.

Zachariah Beasley/ BONDS

The Surveyor presented Performance Bond #B-0353260 for the Tippecanoe County Indoor Soccer Facility in the amount of \$85,700 and submitted by JBD Builders for approval by the Board. Tom Murtaugh made a motion to approve Performance Bond # B-0353260 for the Tippecanoe County Indoor Soccer Facility in the amount of \$85,700 and submitted by JBD Builders. John Knochel seconded the motion. Performance Bond # B-0353260 for the Tippecanoe County Indoor Soccer Facility was approved as submitted. Performance Bond #105534123 for the Duke Energy Line Relocation Project in the amount of \$20,000 was submitted by Duke Energy for approval by the Board. Tom Murtaugh made a motion to approve Performance Bond #105534123 for the Duke Energy Line Relocation Project in the amount of \$20,000 submitted by Duke Energy. John Knochel seconded the motion. Performance Bond #105534123 for the Duke Energy Line Relocation Project in the amount of \$20,000 and submitted by Duke Energy was approved by the Board. Maintenance Bond #105717687 for the

Harrison High School project in the amount of \$21,000.00 and submitted by MacDougal & Pierce. Tom Murtaugh made a motion to grant approval for the Maintenance Bond #105717687 for the Harrison High School project in the amount of \$21,000.00 and submitted by MacDougal & Pierce. John Knochel seconded the motion. Maintenance Bond #105717687 for the Harrison High School project in the amount of \$21,000.00 and submitted by MacDougal & Pierce was approved as submitted. Maintenance Bond #105717693 for Huntington Farms Section 4 in the amount of \$5055.10 and submitted by Fairfield Contractors for approval by the Board. Tom Murtaugh made a motion to grant approval of Maintenance Bond #105717693 for Huntington Farms Section 4 in the amount of \$5055.10 and submitted by Fairfield Contractors. John Knochel seconded the motion. Maintenance Bond #105717693 for Huntington Farms Section 4 in the amount of \$5055.10 and submitted by Fairfield Contractors was approved by the Board.

Regulated Drain Updates

Responding to Mr. Knochel's request, the Surveyor stated he would be willing to continue the status update on the following drains. Moses Baker #113, John Blickenstaff #11, John Saltzman #70 /2 Stage Ditch Regulated Drains. As there were no landowners present to comment regarding the drains, the aforementioned drain updates were continued to the April 4, 2012 meeting as requested.

John Hengst Regulated Drain #117 Amended Findings and Order

The Attorney noted after review of the Findings and Order from the March meeting regarding the John Hengst #117 Regulated Drain Reconstruction, there were two typographical errors that need to be corrected. Those changes were the total watershed acreage amount (492.085 acres) and the amount of reconstruction assessment (\$150.00) due from Kopf Jerry W Patricia W State Key #79-08-23-300-004.000-009/ Previous Parcel #112-02300-0199. Therefore he read the **Amended Findings and Order** into the record as follows:

BEFORE THE TIPPECANOE COUNTY DRAINAGE BOARD- IN THE MATTER OF THE JOHN L. HENGST DRAIN #117:
FINDINGS AND ORDER FOR RECONSTRUCTION AND ANNUAL MAINTENANCE AMENDED

This matter came to be heard upon the reconstruction report and schedule of assessments prepared by the Tippecanoe County Surveyor and filed on July 15, 2011 and **amended on March 13, 2012**. Certificate of mailing with notice of time and place of original hearing to all affected landowners was filed. Notice of publication of time and place of hearing in the Lafayette Journal & Courier, Lafayette Leader were filed. Remonstrances were filed. Evidence was presented by the Tippecanoe County Surveyor and landowners affected were present at original hearing date and time. A list of those present is filed herewith. After consideration of all the evidence, the Board does now FIND THAT:

- (1) The reconstruction report of the Tippecanoe County Surveyor and schedule of assessments were filed in the office of the Surveyor on April 18, 2011.
- (2) The Petition for Establishment of the John L. Hengst Drain as a regulated drain was filed November 30, 2010 and thereafter referred to the Tippecanoe County Surveyor for a report.
- (3) Notice of filing of the reconstruction report and the schedule of assessments and their availability for inspection and the time and place of this hearing was mailed to all those landowners affected more than thirty (30) and less than forty (40) days before the date of this hearing.
- (4) Notice of the time and place of this hearing was given by publication in the Journal & Courier and The Lafayette Leader newspapers of general circulation in Tippecanoe County, Lafayette Indiana more than ten (10) days prior to this hearing.
- (5) The legal drain consists of 200.00 feet of open ditch.
- (6) The legal drain consists of 9100 lineal feet of main tile and 2815 lineal feet of branch tile.
- (7) The present condition of the ditch is poor and in need of repair.
- (8) The ditch needs the following maintenance at present:
Replace 2800 lineal feet of 18"(inch) tile and clearing.
- (9) There is now \$2626.16 owed to the General Drain Fund for past maintenance on this ditch.
- (10) **The total watershed acres was amended on March 13, 2012 by the Tippecanoe County Drainage Board to correct a clerical error only and reflect the true and correct amount of 492.085 acres of which the ditch drains.**
- (11) Estimated annual benefits to the land drained exceed repairs and maintenance costs and consists of general tile replacement.
- (12) A fund for annual maintenance should be established.
- (13) In order to provide the necessary maintenance fund, a reconstruction assessment of \$26.00 per Acre and a \$150.00 minimum over a five year period is recommended. This will generate \$12,832.50 per year and a total of \$64,164.00 over a five year period. Assuming the reconstruction and improvements are complete and the General Drain Fund has been repaid after the five year period,

the Tippecanoe County Surveyor recommends the per acre assessment be lowered to a maintenance rate of \$12.00 per acre with a \$75.00 minimum.

(14) The assessment list filed herewith was amended to reflect the true and correct schedule of payment for the following landowner: Kopf Jerry W Patricia W State Key #79-08-23-300-004.000-009/ Previous Parcel #112-02300-0199. The amended schedule of assessment was due to clerical error on this parcel only.

(15) The amended assessment list filed herewith is fair and equitable and should be adopted.

(16) The amended assessment should be collected starting with the **May 2012** taxes.

NOW, THEREFORE, IT IS ORDERED THAT:

(1) The John L. Hengst is a Regulated Drain under the provisions of Indiana Code 36-9-27, et seq.

(2) In order to provide the necessary maintenance fund, a reconstruction assessment of \$26.00 per acre and a \$150.00 minimum over a five year period is recommended. This will generate **\$14,026.18** per year and a total of **\$70,130.90** over a five year period. Assuming the reconstruction and improvements are complete and the General Drain Fund has been repaid after the five year period, the Tippecanoe County Surveyor recommends the per acre assessment be lowered to a maintenance rate of \$12.00 per acre with a \$75.00 minimum.

(3) The **March 13, 2012 Amended Schedule of Assessments** filed herewith is adopted and made a part thereof.

(4) The first annual assessment shall be collected with the **May 2012** taxes.

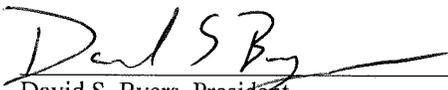

DATED at Lafayette, Indiana this **13th day of March 2012**. Tippecanoe County Drainage Board signature lines and attested by the Secretary. Tom Murtaugh made a motion to approve the Amended Findings and Order on the John Hengst #117 Regulated Drain as presented by the Attorney. John Knochel seconded the motion. The Amended John Hengst #117 Regulated Drain Findings and Order was approved as presented.

Hearings

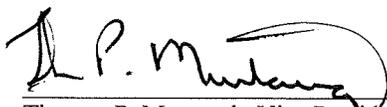

The Surveyor requested a reconstruction hearing date for the Combs Ditch located in Perry Township. His office received a Petition to Reconstruct for this ditch. Tom Murtaugh made a motion to schedule May 4, 2012 for a reconstruction hearing regarding the Combs Ditch to immediately follow the regular scheduled Drainage Board meeting on that date. John Knochel seconded the motion. May 4, 2012 immediately following the regular scheduled meeting, the Combs Ditch Reconstruction Hearing was scheduled.

Public Comment

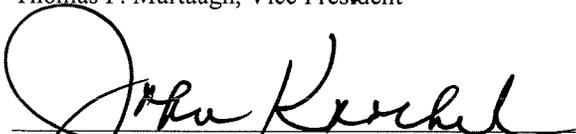

As there was no public comment, Tom Murtaugh made a motion to adjourn. The meeting was adjourned.

David S. Byers, President

Thomas P. Murtaugh, Vice President

John Knochel, Member

Brenda Garrison, Secretary

Tippecanoe County Drainage Board
February 5, 2014
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board President David S. Byers, Vice President John Knochel, member Thomas P. Murtaugh, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. James Butcher, County Surveyor's Office Project Manager and Evan Warner County Surveyor's office G.I.S. Technician were also in attendance.

Approval of Minutes

John Knochel made a motion to approve the January 8, 2014 regular minutes as written. Thomas Murtaugh seconded the motion. The January 8, 2014 regular meeting minutes was approved as written.

Annual Tile Bids

The Board Attorney stated there were three submissions for the Annual Tile Bids Requested by the Surveyor's Office for the Board. The first submission was received from Advanced Drainage Systems. The total amount was \$8,067.21. The second submission was received from Baughman Tile Company. The submitted bid did not include a total amount therefore the Attorney read the amounts as follows: 10" Poly Smooth-Line Dual Wall w/Bell Solid Perf-\$3.75, 12" as same-\$4.38, 15" as same-\$5.58, 18" as same-\$8.53, 24" as same-\$13.86, 30" as same-\$21.49, 36" as same-\$26.10, 42" as same-\$37.94, 48" Poly Smooth-Line Dual Wall w/Bell Solid Perf -\$45.83, 10" Smooth Tee-\$43.81, 12" as same--\$58.82, 15" as same-\$82.54, 18" as same-\$122.49, 24" as same-\$178.60, 30" as same-\$289.41, 36" as same-\$444.41, 42" as same \$643.12, 48" Smooth Tee-\$753.31, 10" Outside/Split Coupling Band- 10"- \$4.59, 12" as same-\$5.83, 15" as same \$10.00, 18" as same-\$14.05, 24" as same- \$24.53, 30" Outside/Split Coupling-\$39.56, 36" Mar-Mac Coupling Band- \$117.00, 42" as same-\$125.00, 48' Mar-Mac Coupling Band-\$135.00. The final submission was from CPI Supply. The submitted bid did not include a total amount the Attorney read the amounts as follows: Corrugated Dual Wall Poly Pipe prices as follows: 10" -\$4.46, 12" -\$5.26, 15" - \$6.95, 18" -\$9.46, 24" -\$15.72, 30" -\$23.77, 36" -\$30.60, 42" -\$44.69, 48" -\$48.38, 60" - \$99.66. Prices for Pre-Manufactured HDPE Poly Tees as follows: 10"-\$63.44, 12"-\$101.54, 15"-\$142.87, 18"-\$206.28, 24"-\$249.02, 30"-\$517.63, 36"- \$630.63, 42"- \$1,057.03, 48"- \$1,325.25. Tees requiring couplers were priced as follows: 10"- \$5.89, 12"- \$7.31, 15"- \$14.05, 18"- \$27.27, 24"- \$33.79, 30"- \$62.23, 36"- \$141.39, 42"- \$204.78, 48"- \$293.32. 1-1/2"x 1/4" Spiral Corrugated Pipe prices as follows: *Galvanized Pipe*: 6" 18 Gage-\$5.85, 8" 16 Gage-\$9.03, 10" 16 Gage-\$9.91, *Aluminized Pipe* : 6" 16 Gage-\$8.99, 8" 16 Gage-\$11.83, 10" 16 Gage-\$14.88, *Asphalt Coated Pipe*: 6" 16 Gage-\$11.31, 8" 16 Gage-\$14.98, 10" 16 Gage-\$18.78. *Aluminum*: 6" 16 Gage-\$9.23, 8" 16 Gage-\$12.61, 10" 16 Gage-\$16.66. *Notes: Standard connecting bands are priced as two (2) feet of pipe.* The Attorney noted a round and arch pipe standard price list was also submitted with the bid. Responding to President Byer's inquiry, the attorney stated the Board may accept all three bids for review at this time. John Knochel made a motion to accept the bids as submitted for review. Thomas Murtaugh seconded the motion. The bids would be reviewed by the County Surveyor's Office Project Manager. There was no public comment. To be continued to the end of today's meeting.

2014 Legal Services Contract/Hoffman Luhman Masson PC

John Knochel made a motion to accept the 2014 Contract for Legal Services with Hoffman, Luhman and Masson PC. Thomas Murtaugh seconded the motion. The 2014 Hoffman Luhman Masson PC Legal Service Contract with the Tippecanoe County Drainage Board was accepted as presented. There was no public comment.

Berlowitz Detention Pond #3 Final Design Professional Services Contract/Christopher B. Burke Engineering LLC

The Surveyor presented the Berlowitz Pond #3 Final Design Professional Services Contract with Christopher B. Burke Engineering LLC for approval by the Board. He stated he had reviewed the contract and recommended approval by the Board. There was no public comment.

John Knochel made a motion to approval the contract as presented by the Surveyor to the Board. Thomas Murtaugh seconded the motion. The Berlowitz Pond #3 Final Design Professional Services Contract with Christopher B. Burke Engineering LLC was approved by the Board.

Beck Property

Todd Starr of Starr and Associates appeared before the Board to present Beck Property to the Board. The site was located on the west side of Co. Rd. 775 East north of State Road 26 and consisted of approximately 3.6 acres. Two new buildings were proposed with the project as well as removing the existing old concrete foundations and pads. Notifications to downstream

landowners were sent and documentation was presented to the Secretary for the project file record. The runoff discharges from northeast corner of the site along the west property line along the southern portion in existing drainage patterns. Due to no net increase in flow, a variance to Chapter 8 of the Stormwater Quality Ordinance regarding Stormwater Treatment (for projects less than 3 acres) was requested. As existing drainage patterns would be utilized and there were no practical locations on site for post-construction BMP measures, the aforementioned variance was requested for the project.

Responding to Thomas Murtaugh's inquiry, Mr. Starr stated the septic mound areas known as lagoons were currently a vegetative area and for this project treated as impervious areas. He stated further at this time they are not noticeable as over time vegetation has grown and the areas are not detectable. The owners would have to get septic approval when they apply as an office area is planned onsite. Ron Noles was aware of the plans and was willing to work with the owners on this issue. Responding to the Surveyor Mr. Starr provided the Secretary with downstream owner notifications required by Ordinance. The Surveyor stated his office recommended the variance as requested. There was no public comment.

John Knochel made a motion to grant a variance as requested. Thomas Murtaugh seconded the variance. A variance to Chapter 8 of the Stormwater Ordinance was approved as requested. The Surveyor stated they had reviewed the project and recommended approval with the conditions as stated on the January 17, 2014 Burke memo. John Knochel made a motion to approve Beck Property with the conditions as stated on the January 17, 2014 Burke memo. Thomas Murtaugh seconded the motion. Beck Property was approved with the conditions as stated on the January 17, 2014 Burke Memo.

Legado Development Phase 1

Clem Kuns from TBird Design appeared before the Board to present the Legado Development Phase 1 project for approval. The site was located southwest of Conservation Club Road on the northwest side of Schuyler Avenue and consisted of approximately 11.5 acres. Springvale Cemetery was located on the west side of the proposed development. He stated a Master Drainage Plan which included the future expansions of the site was proposed. The adjoining properties' drainage - the tire site and the Cemetery - was also taken into consideration with this plan. A large detention basin constructed onsite would act as an infiltration system for the project site as well as the adjoining property aforementioned. A new entrance to Schuyler Avenue was planned removing the current entrances to the site at present. He requested approval from the Board. The Surveyor asked for clarification of the phasing of the site. Clem stated this initial phase included a 6,000 square feet commercial building and 12,000 square feet engineering research building and associated parking and drives. This current phase also included the detention basin (pond). Commercial and indoor sports facility buildings for future phases along with parking and drives were anticipated in the near future and would also require Board approval. A master plan for the entire area was completed so that the future site plan approvals would adhere to the master plan presented today. The Surveyor noted soil testing, perk results, etc. had been completed and submitted for review. The Surveyor pointed out the detention basin would capture all the rain events for the area up to and including the 100 year. With the basin's design, the drainage of the Cemetery would improve immensely as this site's runoff would no longer drain onto the Cemetery tract during high-frequency rainfall events. However, if we get a 6-8 inch rainfall within 24 hours the pond would overflow and run onto the tract and follow the same current path. He noted if the pond was at a 100 year capacity, the area's flood plain would have water in it as well. The Surveyor recommended approval with the conditions as stated on the January 30, 2014 Burke memo. There was no public comment.

John Knochel made a motion to grant approval for Legado Development Phase 1 with the conditions as stated on the January 30, 2014 Burke memo. Thomas Murtaugh seconded the motion. Legado Development Phase 1 was approved with the conditions as stated on the January 30, 2014 Burke memo.

Burnett Creek Elementary- Additions and Renovations

Pat Jarboe from TBIRD Design appeared before the Board and presented the Burnett Creek Elementary Additions and Renovations project for approval. The site was located on the west side of Co. Rd. 50 West south of Co. Rd. 600 North and Additions were planned on the north and south side of the existing building. He noted the approved drainage analysis was completed in 1997 with a beat the peak methodology. This method was not incorporated in the current Stormwater Ordinance. He noted beat the peak methodology did not go well with stormwater storage however both analysis were met. This resulted in a reduction of the overall release rate outletting into the County Regulated Cole Ditch and ultimately outletting into Burnett Creek. Due to the fact the developer utilizes a stormwater mgmt. plan that incorporated stormwater detention which lowered peak discharge and keeping the "Beat the Peak" methodology, Mr. Jarboe requested a variance from the current Stormwater Ordinance. He then requested a variance and approval noting the developer was in agreement with the conditions as stated on the January 29, 2014 Burke memo. The Surveyor recommended approval of the Variance and noted the "Beat the Peak" methodology was used in the previous approvals for this project site. He stated his office recommended the variance as well as approval with the conditions as stated on the January 29, 2014 Burke memo. There was no public comment.

John Knochel made a motion to grant a variance to the Stormwater Ordinance as requested. Thomas Murtaugh seconded the motion. John Knochel made a motion to grant approval with the conditions as stated on the January 29, 2014 Burke memo. Thomas Murtaugh seconded the motion. Burnett Creek Elementary School Additions and Renovations was granted a variance as well as approval with the conditions stated on the January 29, 2014 Burke memo.

Zach Beasley

Waiver Request/White County Drainage Board

The Surveyor presented a waiver request from the White County Drainage Board regarding a maintenance project for the J.C. Vannatta Branch #03 of the Joint Emmet Rayman Regulated Drain for approval. He stated as a Bi-County Drain between White County and Tippecanoe County the larger amount of acreage within the watershed is located within White County therefore White County is in charge of the administration of the drain. He spoke with the White County Surveyor concerning the maintenance project. The request was a courtesy to the Board as a Landowner Hearing was not required for completion of the project. He spoke with one landowner Mr. Haan and noted the project was located on two properties within White County. With that being said, he recommended the Board grant the waiver as requested by White County Drainage Board. The White County Surveyor Office stated they would provide this County with pertinent information of the project for our record. There was no public comment.

John Knochel made a motion to grant the waiver request to White County as requested by White County Drainage Board. Thomas Murtaugh seconded the motion. The waiver for a Joint Drainage Board regarding the maintenance project of the J.C. Vannatta Branch #03 of the Emmet Rayman Regulated Joint Drain was granted as requested. The Secretary would notify White County of the approval for the Waiver.

Bonds

The Surveyor presented Maintenance Bond #1028326 written by Hanover Insurance and submitted by Atlas Excavating for Winding Creek Section 5 in the amount of \$16,428.90 for acceptance by the Board. John Knochel made a motion to accept the Maintenance Bond #1028326 written by Hanover Insurance and submitted by Atlas Excavating for Winding Creek Section 5 in the amount of \$16,428.90. Thomas Murtaugh seconded the motion. Maintenance Bond #1028326 written by Hanover Insurance and submitted by Atlas Excavating for Winding Creek Section 5 in the amount of \$16,428.90 was accepted by the Board as presented by the Surveyor.

2014 Regulated Drain Classification /Status Report

The Surveyor presented his 2014 Regulated Drain Classification /Status Report for approval. He noted Indiana Code stated "from time to time" a classification report of the County Maintained Regulated Drains would be presented to a Drainage Board by a County Surveyor. He noted while he submitted this report yearly it was not required by Code to do so. He reminded the Board the report included information regarding drains in need of reconstruction, those submitted for a one-time rate increase (25% allowed by Code) or proposed drains in need of a landowner hearing, a list of urban drains as well as a list of drains to be vacated if any.

John Knochel made a motion to accept and approve the 2014 Classification Report with the 2014 Regulated Drain Status List. Thomas Murtaugh seconded the motion. The 2014 Regulated Drain Classification /Status Report were approved by the Board. (The secretary would submit to the Auditor for 2014 collection of regulated drain assessments as the list reflects.)

Frank Kirkpatrick #45 and Elijah Fugate #30 Joint Regulated Drain Reconstructions

The Surveyor requested the Board schedule a Regulated Drain Landowner Hearing on May 7, 2014 immediately following the scheduled monthly meeting. He clarified the need for two separate hearings- one for each drain as stated. He informed the Board his office had sent a Waiver Request to Montgomery County regarding waiving their right to a joint drain board. He felt since there was very little acreage in Montgomery County they would adhere to the request.

John Knochel made a motion to hold a Reconstruction Hearing on the Frank Kirkpatrick #45 Regulated Drain Reconstruction on May 7, 2014 and immediately following the scheduled 10:00 a.m. meeting of the Board. Thomas Murtaugh seconded the motion. Frank Kirkpatrick #45 Regulated Drain Reconstruction Hearing was set for May 7, 2014 immediately following the regular monthly meeting of the Board. John Knochel then made a motion to hold a Reconstruction Hearing on the Elijah Fugate #30 Regulated Drain on May 7, 2014 and immediately following the scheduled Frank Kirkpatrick Regulated Drain Reconstruction Hearing. Thomas Murtaugh seconded the motion. Elijah Fugate #30 Regulated Drain Reconstruction Hearing was set for May 7, 2014 immediately following the scheduled Frank Kirkpatrick #45 Reconstruction Hearing on same date.

Other Business

Mary McKinney Regulated Drain #52 Update

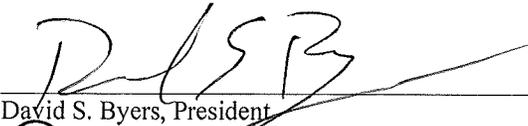

The Surveyor informed the Board his office sent 2 Waiver requests; one to Warren and one to Benton County Drainage Boards regarding waving their right to a Joint Drainage Board Hearing for the Mary McKinney#52 Regulated Drain Reconstruction planned project. Benton County waived their right to the joint board however Warren County did not. Since Warren County did not agree to the waiver a joint board was in order. Tom Hetrick Warren County Drainage Board President was elected to serve on the Joint Drainage Board for the landowner hearing of the Mary McKinney#52 Regulated Drain Reconstruction. He noted a member was also appointed from White County Drainage Board for Benton County. The member was Steve Burton, currently White County Drainage Board President. A Board member from Tippecanoe County was required for the Joint Board. He recommended a member be appointed to the Joint Board as required from Tippecanoe County Drainage Board as required. John Knochel made a motion to appoint Thomas Murtaugh. Thomas Murtaugh stated he would not be available that day. Thomas Murtaugh then made a motion to nominate David Byers to serve on the Joint Board for the Mary McKinney Regulated Drain #52. John Knochel seconded the motion. David Byers was elected to serve on the Tri-County Joint Board at the March 5, 2014 Mary McKinney #52 Regulated Drain Reconstruction Hearing. There was no public comment.

Continued /ANNUAL TILE BIDS

John Knochel made a motion to accept the annual tile bids which were submitted to the Board for acceptance. Thomas Murtaugh seconded the motion. There was no public comment. The Annual Tile Bids submitted were accepted as submitted by the Board.

Public Comment

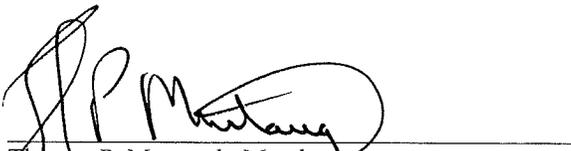

As there was no public comment, John Knochel made a motion to adjourn. The meeting was adjourned.

David S. Byers, President

John Knochel, Vice President

Thomas P. Murtaugh, Member

Brenda Garrison, Secretary

Tippecanoe County Drainage Board

May 7, 2014

Frank Kirkpatrick Regulated Drain #45

Hearing Minutes

Those present were:

Tippecanoe County Drainage Board President David S. Byers, Vice President John Knochel, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Project Manager James Butcher and G.I.S. Specialist Evan Warner were also in attendance. Member Thomas P. Murtaugh was absent. Landowners who attended signed in. A copy of the sign in sheet will follow these minutes in the official Drainage Board Minutes Book for future reference.

President David Byers opened the hearing and noted the Board had received a Waiver of Rights letter sent from the Montgomery County Drainage Board regarding this Drain Reconstruction Hearing. He then referred to the Surveyor for his report to the Board. The Surveyor read the following for the Board and attendees: Frank Kirkpatrick Regulated Drain #45 Reconstruction Report March 11, 2014-The Frank Kirkpatrick Regulated Drain was organized on December 3, 1936 by the Tippecanoe County Circuit Court - Case No.6081, File box 664, Order Book No.85 and Page 172 in Tippecanoe County, Indiana. The drain and its watershed are located in Sections 21 and 28, Township 21 North and Range 4 West in the political township of Randolph, Tippecanoe County, Indiana, Sections 27, 34 and 35, Township 21 North and Range 4 West in the political township of Lauramie, Tippecanoe County, Indiana, also Sections 2 and 3, Township 20 North and Range 4 West in the political township of Madison, Montgomery County, Indiana. The watershed area currently contains a total of 984,427 acres with 110,531 acres in Montgomery County and 873,896 acres in Tippecanoe County. A maintenance rate of \$1.00 per acre was established on August 5, 1971 by the Tippecanoe County Drainage Board. In 2003 the maintenance rate was increased by 25% to \$1.25 per acre in accordance with I.C. 36-9-27-42. I have personally walked, driven, talked with landowners and inspected the Frank Kirkpatrick drainage system per the request of the landowners. Based on my investigation, it is my professional judgment that to accomplish the wishes of the landowners a new open ditch will be constructed downstream of the current subsurface tile junctions of the Frank Kirkpatrick and Elijah Fugate tile systems. This open ditch will be approximately 1,909 lineal feet in length and serve as the new outlet for the Frank Kirkpatrick and the Elijah Fugate tile systems and outlet into the Romney Stock Farm Regulated Open Ditch North of CR 1200S. Both tile systems will have their own tile outlet into the new open ditch. Landowners in the Frank Kirkpatrick and Elijah Fugate watersheds will share the cost of the new open ditch because they are both benefitted by the new outlet. There will also be approximately 11,006 lineal feet of new tile, sizes ranging from 24" to 15", installed from the new outlet continuing upstream and ending on the East side of CR 300E. This will provide the positive flow requested by the landowners. Note: Only the benefitted acres within the F. Kirkpatrick watershed will pay for the new 18" inch tile installation. It is the judgment of the Tippecanoe County Surveyor that a sum of approximately \$230,474.05 is needed to reconstruct and improve the Frank Kirkpatrick drainage system. Note: The previous referenced dollar value is the sum of the tile installation and the shared cost of the open ditch construction. After completion of the project there will be 15,224 lineal feet of main tile, 11,313 lineal feet of branch tile and 1,000 lineal feet of open ditch under maintenance. The existing 24" concrete tile starting at the outlet into the Romney Stock Farm Open Ditch traveling upstream approximately 3,360 lineal feet is hereby vacated. An assessment of \$47.00 per acre and a \$50.00 minimum over a five (5) year period is recommended. This will generate \$231,367.95 over a five (5) year period. Assuming the reconstruction and improvements are complete and the General Drain Fund has been repaid after the five (5) year period, the Tippecanoe County Surveyor recommends the per acre assessment be lowered to a maintenance rate of \$6.00 per acre and a \$25.00 minimum, with an 8 year collection total. Damages will be awarded for loss of tillable land due to the new open ditch construction. The cost of damages will be shared by both watersheds (F. Kirkpatrick and E. Fugate), because both watersheds are benefitted by the open ditch. The shared cost for damages to the F. Kirkpatrick watershed landowners is $984.477 \text{ ac.} / 1799.122 \text{ ac.} = 0.5472\%$ of the total damages. The cost for damages to the E. Fugate watershed landowners is $814.695 \text{ ac.} / 1799.122 \text{ ac.} = 0.4528\%$ of the total damages. \$8,000.00 per acre was used as the value of the damaged land. This value was selected based on an average from recent sales of farm land in the area. Please see schedule of damages for additional details- this schedule was

provided to the Board in their packets. He stated he was open for questions. There were no questions from the Board. David Byers asked for public comment. There was none. He referred to the Board Attorney.

The Attorney read the following into the record: Before the Tippecanoe County Drainage Board, in the matter of the Frank Kirkpatrick #45 Regulated Drain Findings and Order for reconstruction and annual maintenance This matter came to be heard upon the reconstruction report and schedule of assessments with benefits and damages as prepared by the Tippecanoe County Surveyor and filed on March 11, 2014. The Certificate of Mailing of notice of time and place of hearing, to all affected landowners was filed. Notice of publication of time and place of hearing in the Journal and Courier, Tippecanoe County Lafayette Indiana and in the Journal Review, Montgomery County, Crawfordsville Indiana were filed. Remonstrances were not filed. Evidence was presented by the Tippecanoe County Surveyor and landowners affected were present. A list of those present is filed herewith. After consideration of all the evidence, the Board does now FIND THAT:

- (1) The reconstruction report of the Surveyor and the schedules of damages and benefits as determined by the Board have been filed and are available for inspection in the office of the Surveyor .
- (2) Notice of filing of the reconstruction report and the schedule of assessments with benefits and damages and their availability for inspection and the time and place of this hearing was mailed to all those landowners affected more than thirty (30) and less than forty (40) days before the date of this hearing.
- (3) Notice of the time and place of this hearing was given by publication in the Journal & Courier newspaper of general circulation in Tippecanoe County, Indiana and in the Journal Review newspaper of general circulation in Montgomery County, Indiana more than ten (10) days prior to this hearing.
- (4) The legal drain consists of 1,000 lineal feet of open ditch and 26,537 lineal feet of tile.
- (5) The present condition of the ditch is in need of reconstruction.
- (6) The ditch needs the following reconstruction and maintenance at present:
New open ditch construction and new tile installation
- (7) There is now \$21,780.65 owed to the General Drain Fund for past maintenance on this ditch.
- (8) The ditch drains 984.427 acres total. This total includes 110.531 acres located in Montgomery County and 873.896 acres located in Tippecanoe County Indiana.
- (9) Estimated cost of reconstruction is \$230,474.05.
- (10) Estimated annual benefits the land drains exceed reconstruction costs.
- (11) A fund for reconstruction and annual maintenance should be established.
- (12) In order to provide the necessary reconstruction and maintenance, a reconstruction fund should be established at the annual rate of \$47.00 per acre and \$50.00 minimum and the maintenance fund re-established at the annual rate of \$6.00 per acre and \$25.00 minimum for an eight (8) year period.
- (13) The schedule of damages and assessments in the reconstruction are accurate and the Board hereby incorporates them by reference.
- (14) The assessment lists filed herewith are fair and equitable and should be adopted.
- (15) The assessments should be collected with the May 2015 taxes.

Now, therefore it is ordered that:

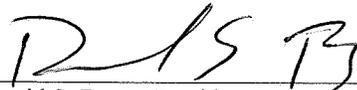

- (16) A reconstruction and maintenance fund is established for the Frank Kirkpatrick #45 Regulated Drain. The reconstruction fund is established at the annual rate of \$47.00 per acre and a \$50.00 minimum and the maintenance fund is re-established at the annual rate of \$6.00 per acre and a \$25.00 minimum for an eight (8) year period. The maintenance fund assessments should start collection after the five (5) year period of reconstruction is complete.
- (17) The schedule of damages and assessments for the reconstruction and annual maintenance filed herein are adopted and made a part hereof.

(18) The first annual assessment shall be collected with the May 2015 taxes.

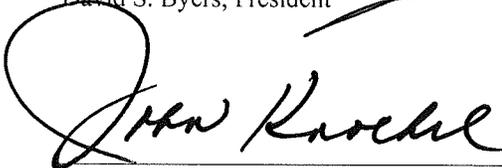

Dated at Lafayette, Indiana this 7th day of May, 2014. Tippecanoe County Drainage Board signature of members and attest by the secretary.

John Knochel made a motion to approve the Findings and Order as read by the Attorney. David Byers seconded the motion. There was no public comment. The Frank Kirkpatrick #45 Regulated Drain reconstruction and annual maintenance was approved by the Board as presented by the Surveyor.

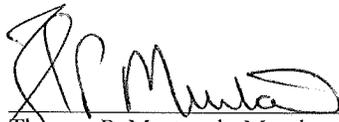

John Knochel made a motion to adjourn. The meeting was adjourned.

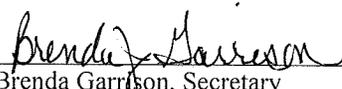

David S. Byers, President

John Knochel, Vice President

Thomas P. Murtaugh, Member

Brenda Garrison, Secretary

Tippecanoe County Drainage Board
July 9, 2014
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board President David S. Byers, Vice President John Knochel, member Thomas P. Murtaugh, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC.

Contracts BIDS Opening

The President opened the meeting. He referred to the Attorney for the reading of Contract Bids for two projects. The Attorney read the first project known as the F. Kirkpatrick #45 and E. Fugate #30 Regulated Drain Reconstruction bids as follows: Rinehart Excavating \$356,939.45.45, Maxwell Farm Drainage Inc. \$314,644.00, Dwenger Excavating Contractors Inc. \$356,377.40. The Attorney recommended the bids be taken under advisement for review. John Knochel made a motion to take the submitted bids under advisement and review. Tom Murtaugh seconded the motion. Motion carried. The President thanked the companies who submitted bids on this project. The Bids would be reviewed and the contract awarded at the end of this meeting.

The Attorney then read the Contract Bids for the Berlowitz Pond 3 project. He read the bids as follows: Atlas Excavating Inc. \$754,486.80, Rinehart Excavating Inc. \$769,143.51, F&K Construction Inc. \$771,192.00, Thieneman Construction Inc. \$749,000.00, Fairfield Contractors Inc. \$574,263.00. He recommended the bids be taken under advisement for review. John Knochel made a motion to take the bids under advisement and review. Tom Murtaugh seconded the motion. Motion carried. The President thanked the companies who submitted bids on this project. The Bids would be reviewed and the contract awarded at the end of this meeting.

Approval of Minutes

John Knochel made a motion to approve the June 2, 2014 minutes as written. Tom Murtaugh seconded the motion. Motion carried. The June 2, 2014 meeting minutes was approved as written.

Other Business:

The Surveyor presented the Berlowitz Regional Detention Pond #3 Construction Observation Contract from Christopher B. Burke Engr. LLC in the amount of \$58,331.00 for approval by the Board. Historically the Surveyor office and Drainage Board have utilized Christopher B. Burke Engineering LLC. for the larger urban projects. The Surveyor noted as his office is very busy with agricultural drain reconstructions, Christopher B. Burke Engineering LLC. would assist in the preparation of the Urban Drain Reconstructions. This included the day to day construction observation of those urban projects. John Knochel made a motion to approve the Berlowitz Regional Detention Pond #3 Construction Observation Contract from Christopher B. Burke Engr. LLC in the amount of \$58,331.00 as presented. Tom Murtaugh seconded the motion. Motion carried. The Berlowitz Regional Detention Pond #3 Construction Observation Contract from Christopher B. Burke Engr. LLC in the amount of \$58,331.00 was approved as presented. There was no public comment.

Bonds:

The Surveyor presented Maintenance Bond #9122945 submitted by Gradex Inc. for the Meijer #186 West Lafayette Indiana and dated June 11, 2014 in the amount of \$103,846.00 written by Fidelity and Deposit Co. of Maryland and recommended approval by the Board. John Knochel made a motion to approve the maintenance bond as presented by the Surveyor. Tom Murtaugh seconded the motion. Motion carried. The Maintenance Bond #9122945 submitted by Gradex Inc. for the Meijer #186 West Lafayette Indiana and dated June 11, 2014 in the amount of \$103,846.00 written by Fidelity and Deposit Co. of Maryland was approved as presented by the Surveyor. The President asked if this project's runoff would negatively affect Indian Creek. Due to the drainage issues in the past which both the Board and the Surveyor's office have dealt with, the Surveyor noted the rates were actually less than the current Ordinance allows. The Surveyor reminded the Board an Indian Creek Drainage Impact Area Resolution was in force. This resolution included a stricter release rate and meetings with Meijer's engineers resulted in plans which followed those rates. The rates are actually much smaller than what the current Ordinance allows. The project in no way adds to the issues currently at hand in the Indian Creek watershed. The new store

would not make the drainage issues worse. The Surveyor stated the Maintenance Bond reflected on the Agenda regarding the S.W. Elliott Branch #11 Reconstruction project should be stricken. The Bond when reviewed was not in order as the amount was not correct. The Bond would be presented at a later date.

Petition to Establish a New Regulated Drain

The Surveyor requested a public hearing to be held in September regarding the Petition to Establish a New Regulated Drain presented by Brian Keene for Shepherds Point Subdivision. The location of which was Salisbury Road and County Farm Road in the southeast corner of the intersection. He reminded the Board; they had previously accepted the aforementioned Petition and directed him to submit a report for consideration of establishing a new regulated drain. His office was ready to go forward with the process. He noted the existing pond in this location was in need of maintenance at this time. John Knochel made a motion to conduct a landowner hearing for Shepherds Point Petition to Establish a New Regulated Drain on September 3, 2014 immediately following the regular scheduled meeting on that day. Tom Murtaugh seconded the motion. Motion carried.

Contracts

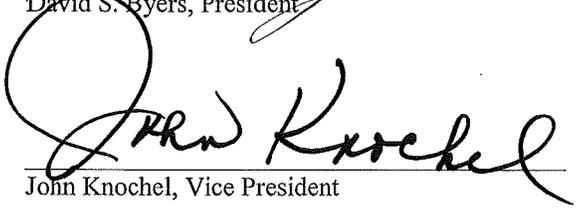

The President asked for the results of the Contract Bids at hand. James Butcher Surveyor Office Project Manager confirmed Maxwell Farm Drainage was the low bidder for the F. Kirkpatrick #45 and the E. Fugate #30 Regulated Drain Reconstruction in the amount of \$314,644.00. John Knochel made a motion to award the F. Kirkpatrick #45 and the E. Fugate #30 Regulated Drain Reconstruction project to Maxwell Farm Drainage. Tom Murtaugh seconded the motion. Motion carried. Maxwell Farm Drainage was awarded the F. Kirkpatrick #45 and the E. Fugate #30 Regulated Drain Reconstruction project by the Board. James Butcher Surveyor Office Project Manager confirmed Fairfield Contractors Inc. was the low bidder for the Berlowitz Pond #3 project. John Knochel made a motion to award the Berlowitz Pond #3 project to Fairfield Contractors Inc. in the amount of \$574,263.00. Tom Murtaugh seconded the motion. Motion carried. Fairfield Contractors Inc. was awarded the Berlowitz Pond #3 Construction project by the Board.

Public Comment

As there was no public comment, John Knochel made a motion to adjourn. The meeting was adjourned.

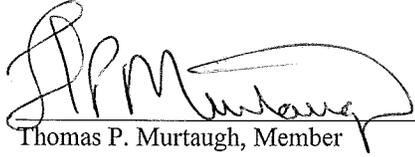

David S. Byers, President

John Knochel, Vice President

Brenda Garrison, Secretary

Thomas P. Murtaugh, Member

Tippecanoe County Drainage Board

August 6, 2014

Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board President David S. Byers, Vice President John Knochel, member Thomas P. Murtaugh, County Surveyor Zachariah Beasley, Drainage Board Attorney Doug Masson, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Project Manager James Butcher and Surveyor's Office G.I.S. Technician Evan Warner were also in attendance.

Approval of Minutes

John Knochel made a motion to approve the July 9, 2014 regular minutes as written. Tom Murtaugh seconded the motion. Motion carried.

CSXT Raub Siding

President Dave Byers stated the CSXT Raub Siding project was rescheduled for the September 3, 2014 Drainage Board meeting.

G.E. Aviation Mass Grading

Jim Pence from Schneider Corp. appeared before the Board to present the G.E. Aviation Mass Grading project. The project consisted of approximately 45 acres west of the U.S. 52 and Co. Rd. 450 East intersection. The project was located within the City of Lafayette and would outlet into the J.N. Kirkpatrick Regulated Drain #46. Mr. Pence informed the Board the J.N. Kirkpatrick Regulated Drain was located across the southern portion of the tract. He presented a petition to reduce and encroach upon the drainage easement of said drain for approval by the Board. He stated he had reviewed the August 1, 2014 Burke review memo and was currently working on the comments noted within the memo. He stated the project's construction plans would be submitted at end of this month as it was planned to present the complete project for drainage approval at the October meeting of the Board. He stated he agreed with all the conditions stated on the August 1, 2014 Burke memo and asked for approval of the site's mass grading as presented.

The Surveyor stated the Petition to Reduce and Encroach into the easement of the J.N. Kirkpatrick Regulated Drain must include verbiage for the underground gas line with all utilities involved and the planned landscape berm. In addition, a Maintenance Agreement would be required prior to a final approval. The Surveyor stated the exhibit was not clear and needed to be revised to reflect the area of reduction and encroachment with the aforementioned additions. Mr. Pence agreed to revise the petition and the exhibit as required. Mr. Pence stated with the reduction requested- the walking trail and emergency spillway would not be involved.

The Surveyor then recommended approval of the Petition to Reduce and Encroach on the J.N. Regulated Drain Easement; with the condition of the added verbiage within the petition document and the additions to the exhibit as previously stated. John Knochel made a motion to approve the Petition to Reduce the Easement on the JN Kirkpatrick Regulated Drain with the conditions as stated by the Surveyor. Tom Murtaugh seconded the motion. Motion Carried. John Knochel made a motion to approve the encroachment as presented. Tom Murtaugh seconded the motion. Motion carried. John Knochel made a motion to grant approval for the G.E. Mass Grading with the conditions as stated on the August 1, 2014 Burke memo and those which the Surveyor stated today. Tom Murtaugh seconded the motion. Motion carried.

Frank Kirkpatrick Regulated Drain #45 Amended Schedule of Assessments

The Surveyor informed the Board there was a clerical error on the (previously approved by the Board) Frank Kirkpatrick #45 Reconstruction and Maintenance Schedule of Assessments. A duplicate parcel/key number was included. He stated the duplicate key/parcel number and corresponding information had been deleted. He requested approval by the Board for the Amended Schedule of Reconstruction and Maintenance Assessments on the Frank Kirkpatrick Regulated Drain #45. John Knochel made a motion to grant approval of the Amended Schedule of Reconstruction and Maintenance Assessments on the Frank Kirkpatrick Regulated Drain #45. Tom Murtaugh seconded the motion. Motion carried.

Petitions

F.E. Morin Regulated Drain #57/ Petition to Reconstruct

The Surveyor presented a Petition to Reconstruct the F.E. Morin #57 Regulated Drain submitted to his office by landowner Les Christianson. He recommended approval to complete a Surveyor's Reconstruction Report for the Board and present it at a later date. John Knochel made a motion to grant approval for a Surveyor's Reconstruction Report to be completed on the F.E. Morin Regulated Drain #57 and presented at a later date. Tom Murtaugh seconded the motion. The motion carried.

S.W. Elliott #100- Branch #13 Amended Petition to Encroach on Easement

The Surveyor informed the Board a Petition to Encroach on the S.W. Elliott #100 Branch #13 and submitted by Buffalo Wild Wings Restaurant (located within City Limits of Lafayette Indiana) was approved by the Board. During the project's construction a storm sewer pipe was located in a different area than previously thought. This affected the Drainage Board's approval of the petition approved at that time. Therefore the Surveyor required an amendment to the petition with the correct location of the storm sewer pipe. He recommended approval of the Amended Petition to Encroach on the S.W. Elliott #100 Branch #13 Regulated Drain as presented. John Knochel made a motion to grant approval of the Amended Petition to Encroach on the S.W. Elliott #100 Branch #13 Regulated Drain. Tom Murtaugh seconded the motion. Motion carried.

S.W. Elliott #100- Wilson Branch/ Petition to Reduce and Encroach on Easement

The Surveyor presented a Petition to Encroach on the S.W. Elliott #100 Wilson Branch Regulated Drain. The site was located on the Bob Rohrman property at 1600 South Creasy Lane Lafayette Indiana. The Treece Meadows Relief Drain crossed Creasy Lane immediately north of the St. Elizabeth Hospital site and this ditch was south of that location and west of Creasy Lane. He noted the project was also within the City of Lafayette's limits. The easement reduction would be from the current 75 feet to 25 feet. He stated he reviewed the petition and recommended approval for it by the Board. John Knochel made a motion to grant the easement reduction on the S.W. Elliott #100 -Wilson Branch Regulated Drain. Tom Murtaugh seconded the motion. Motion carried. John Knochel made a motion to grant approval for the Petition to Encroach on the S.W. Elliott Regulated Drain #100 Wilson Branch as presented by the Surveyor. Tom Murtaugh seconded the motion. Motion carried.

Maintenance Agreements

The Surveyor submitted an Amended Maintenance Agreement on the S.W. Elliott #100 Branch #13 Regulated Drain submitted by Buffalo Wild Wings Restaurant Lafayette Indiana. He noted this was in conjunction with the aforementioned Amended Petition presented earlier in meeting and approved for the project site. This Amended Maintenance Agreement would take the place of the previously recorded agreement from Buffalo Wild Wings. The Amended Maintenance Agreement when recorded would be cross-referenced with the originally recorded agreement. He stated he recommended approval by the Board. John Knochel made a motion to approve the S. W. Elliott #100 Branch #13 Regulated Drain Amended Maintenance Agreement with Buffalo Wild Wings Restaurant as presented. Tom Murtaugh seconded the motion. Motion carried.

The Surveyor presented a Maintenance Agreement for the S.W. Elliott #100 Wilson Branch located on the Bob Rohrman Creasy Lane project site. He noted this too was in conjunction with the aforementioned Petition presented earlier in meeting and approved for this project site. He stated he had reviewed the agreement and recommended approval by the Board. John Knochel made a motion to approve the Maintenance Agreement for the Wilson Branch of the S.W. Elliott #100 Regulated Drain. Tom Murtaugh Seconded the motion. Motion carried.

Bonds/Letter of Credit

The Surveyor presented a Maintenance Bond #929593016 in the amount of \$62,268.38 for the S.W. Elliott Br#11 Reconstruction and recommended approval. John Knochel made a motion to approve the Maintenance Bond for the S.W. Elliott #100 Branch #11 Reconstruction project as presented. Tom Murtaugh seconded the motion. Motion carried.

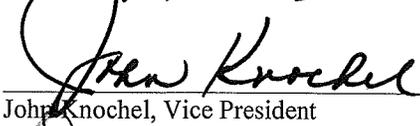

The Surveyor presented Maintenance Bond #929593017 in the amount of \$11,300.00 for the Harrison Highlands Ph. 2 Sec. 2 project and recommended approval. John Knochel made a motion to grant approval of the Maintenance Bond for the Harrison Highlands Phase 2 Section 2 project. Tom Murtaugh seconded the motion. Motion carried.

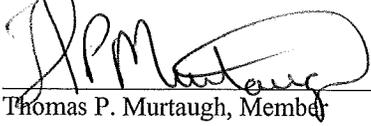

The Surveyor presented Letter of Credit #S503912 in the amount of \$4000.00 for the Proaxis 2nd Expansion project and recommended approval. John Knochel made a motion to grant approval for the Letter of Credit #S503912 in the amount of \$4000.00 for the Proaxis 2nd Expansion project. Tom Murtaugh seconded the motion. Motion carried.

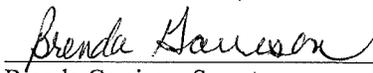

Public Comment

The President asked for public comment. There was none. John Knochel made a motion to adjourn. The meeting was adjourned.

David S. Byers, President

John Knochel, Vice President

Thomas P. Murtaugh, Member

Brenda Garrison, Secretary

Tippecanoe County Drainage Board
November 5, 2014
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board President David S. Byers, member Thomas P. Murtaugh, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Evan Warner, G.I.S. Technician and James Butcher, Project Manager for Surveyor Office were also in attendance. Vice President John Knochel was absent.

Approval of Minutes

Tom Murtaugh made a motion to approve the October 1, 2013 regular minutes as written. David Byers seconded the motion. Motion carried.

Zach Beasley/Bonds

The Surveyor gave the Board an update on the F. Kirkpatrick #45 and E. Fugate #30 Reconstruction project and noted it is in the last phase of completion. He presented Maintenance Bond#601078418 in the amount of \$31,464.40 submitted by Maxwell Farm Drainage and written by Ohio Casualty Insurance for acceptance by the Board. Tom Murtaugh made a motion to accept the F. Kirkpatrick#45 and E. Fugate #30 Reconstruction Maintenance Bond as submitted by the Surveyor. David Byers seconded the motion. Motion carried.

The Surveyor presented Stones Crossing Section 4 Phase 2- Maintenance Bond#1033015 in the amount of \$29,342.20, submitted by Atlas Excavating Inc. written by the Hanover Insurance Company and recommended acceptance. Tom Murtaugh made a motion to accept the maintenance bond for Stones Crossing Section 4 Phase 2 as presented by the Surveyor. David Byers seconded the motion. Motion Carried. The Surveyor presented Winding Creek Section 7 Maintenance Bond#106174172 in the amount of \$21,374.90 submitted by Fairfield Contractors and written by the Travelers Casualty and Surety and recommended acceptance. Tom Murtaugh made a motion to accept the maintenance bond for Winding Creek Section 7 as presented by the Surveyor. David Byers seconded the motion. Motion Carried. The Surveyor presented Blackthorne Phase 2 Part 2 Maintenance Bond #106174171 in the amount of \$5,368.00 submitted by Fairfield Contractors and written by Travelers Casualty and Surety and recommended acceptance by the Board. Tom Murtaugh made a motion to accept the maintenance bond for Blackthorne Phase 2 Part 2 as presented by the Surveyor. David Byers seconded the motion. Motion Carried. The Surveyor presented Wake Robin Phase 3 Maintenance Bond#106174173 in the amount of \$27,276.70 submitted by Fairfield Contractors and written by the Travelers Casualty and Surety and recommended acceptance by the Board. Tom Murtaugh made a motion to accept the maintenance bond for Wake Robin Phase 3 as presented by the Surveyor. David Byers seconded the motion. Motion Carried.

Public Comment

As there was no public comment Tom Murtaugh made a motion to adjourn. The meeting was adjourned.

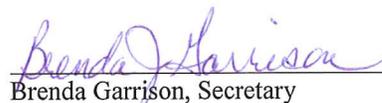

David S. Byers, President

ABSENT

John Knochel, Vice President

Thomas P. Murtaugh, Member

Brenda Garrison, Secretary

Tippecanoe County Drainage Board
February 1, 2017
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board Vice President David S. Byers, member Tracy Brown, County Surveyor Zachariah Beasley, Drainage Board Attorney Doug Masson, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Evan Warner-G.I.S. Technician and James Butcher-Project Manager, both with the Surveyor Office, were also in attendance. President Thomas P. Murtaugh was absent.

Approval of Minutes

Tracy Brown made a motion to approve the January 4, 2017 regular Drainage Board Minutes as written. David Byers seconded the motion. Motion carried.

Franklin Yoe #90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Opening

David Byers referred to the Attorney for the reading of the submitted bids regarding the Franklin Yoe #90 Regulated Drain and the G. Swanson #76 Regulated Drain Maintenance Projects. Attorney Masson read the following:
Regarding the Gustav Swanson Regulated Drain #76 Maintenance Project the bids were as follows:
Tony Garriott submitted a bid in the amount of \$49,595.80; ADI submitted a bid in the amount of \$14,594.00; Huey Excavating submitted a bid in the amount of \$24,672.00

Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once bids were reviewed for compliance by the Surveyor's office Project Manager, the Gustav Swanson #76 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

Attorney Masson read the Franklin Yoe Regulated Drain #90 Maintenance Project bids as follows:
ADI submitted a bid in the amount of \$18,563.00; Tony Garriott submitted a bid in the amount of \$33,234.56 Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once the bids were reviewed for compliance by the Surveyor's office Project Manager, the Franklin Yoe #90 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

Drainage Board 2017 Professional Engineering Assistance Contract

David Byers referred to the Surveyor regarding presentation of the 2017 Drainage Board Professional Engineering Assistance Contract. Surveyor Beasley noted he as well as Attorney Masson had reviewed the contract. He stated contract's rates had not changed from the past 3-4 years and he saw no additional changes. He recommended approval by the Board. Responding to Tracy Brown's inquiry, the Surveyor stated this was indeed at a cost savings to the county. He had previously in years past reviewed this issue. The cost for the services was approximately \$75,000 annually versus a minimum of \$130,000 cost for the exact work by an office staff member. Tracy Brown made a motion to approve the Drainage Board Engineering Assistance Contract as presented by the Surveyor. David Byers seconded the motion. Motion carried.

Lafayette YMCA

David Buck from BFS appeared before the Board to present the Lafayette YMCA for drainage approval. The site was located within the City of Lafayette at the existing Point East Mobile Home Park. The Board would review this project today for drainage purposes only. Mr. Buck stated a Petition to reduce the drainage easement on the S.W. Elliott Branch #13 was submitted for approval as well. The reduction in the drain maintenance easement would leave a 30 foot easement for maintenance of said branch. He noted they had received the January 12, 2017 Burke memo and was in agreement with the conditions as noted. He requested approval at that time for both the Petition and the project's drainage.

The Surveyor stated the Board's actions today were to approve the aforementioned Petition and the project's drainage only. He noted the project site drained to Branch #13 of the S.W. Elliott drain and continued southwest along Creasy Lane and eventually to the F-Lake Detention Basin. He recommended approval to the Board for the Petition to Reduce the Easement on the S.W. Elliott Branch #13 Drain as well as approval per the January 12, 2017 Burke memo recommendation. Tracy

presented. David Byers seconded the motion. Motion carried. Tracy Brown then made a motion to approve the Lafayette YMCA per the January 12, 2017 Burke memo recommendations. David Byers seconded the motion. Motion carried.

Belle Tire (Lot 4A 26 Crossing Subdivision)

Kyle Betz of Fisher and Associates appeared before the Board to request approval for the Belle Tire project. The site was located within the City of Lafayette and more specifically on Lot 4A in 26 Crossings Subdivision approximately ¼ mile from the interchange of I-65 and SR26. The site consisted of approximately 0.94 acres. This site was adjacent to the Alexander Ross Detention Basin. The site would drain entirely to the F-Lake detention facility. He stated they agreed with the January 25, 2017 Burke memo and requested approval for the project. The Surveyor stated the project had been reviewed and noted calculations were missing from their submittal. David Eichelberger stated calculations for the detention storage were not provided to date and that would need to be provided as soon as possible. The Surveyor agreed with the Consultant and reiterated those calculations should be provided and his recommendations were contingent on this. Mr. Betz agreed to review the report and provide those calculations to the Consultants as soon as possible. Tracy Brown made a motion to grant conditional approval as stated in the January 25, 2017 Burke memo. David Byers seconded the motion. Motion carried.

USGS Geological Stream Gages WREC Contract Support

Stan Lambert from Wabash River Enhancement Corp. (WREC) appeared before the Board to request financial and administrative support of the stream gages contract with the USGS Geological Services. He stated he was requesting to share the cost of the USGS Stream Gage Contract with the Tippecanoe County Partnership for Water Quality (TCPWQ). The streams were: Little Wea at Co. Rd. 800S, S.W. Elliott Ditch at old Romney Road and Little Pine Creek at Co. Rd. 850E with the contract covering the period of Jan. 23, 2017 through Sept. 30, 2017. He noted the data collected would be available on the USGS stream monitoring site on an hourly basis. This information was used as part of Water Quality monitoring by WREC and Purdue University. He noted Sara Peel from his office presented this to the TCPWQ and was given approval by their Board to go forward with support. The Surveyor stated he would review the TCPWQ Board minutes as the MS4 Coordinator to confirm the TCPWQ's intention was to contribute up to \$10,000.00 toward the overall cost of the contract. Tracy Brown made a motion to approve the contract amended \$10,000.00 amount as submitted with the condition the Surveyor as MS4 Coordinator confirms the TCPWQ support. David Byers seconded the motion. Motion carried.

Franklin Yoe#90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Award

Tracy Brown referred to Attorney Masson for the results of the submitted bids on the F. Yoe #90 and G. Swanson #76 Drain Maintenance Projects. Attorney Masson stated the bids were in order and the recommendation was to accept the low bid on each project. Tracy Brown made a motion to grant approval of the bid from ADI regarding the Gustav Swanson #76 and the F. Yoe Regulated Drain #90 Maintenance Projects as the low bidder on each project. David Byers seconded the motion. Motion carried.

2017 Classification Report/2017 Drain Assessment Activity Report

The Surveyor presented an active and inactive drain assessment list regarding county regulated drains with maintenance funds for approval by the Board. He reviewed the annual process for the Board. Tracy Brown made a motion to approve the Active Inactive Drain list as submitted by the Surveyor. David Byers seconded the motion. Tracy Brown made a motion to approve the 2017 Classification Report provided by the Surveyor. David Byers seconded the motion. Motion carried.

Zach Beasley/Other Business

Appointment of Drainage Board member to Tri-County Board

The Surveyor stated he was contacted by Benton County Surveyor David Fisher regarding the Sophia Brumm Joint Drain. The landowners have requested a joint meeting to discuss reconstruction of several lineal feet of the tile within the S. Brumm Drain watershed. The proposed time was February 21, 2017 at 10:00 a.m. at the Benton County Courthouse. An appointment from this Board was requested. David Byers noted there was a Commissioner Meeting at the same date and time. Tracy Brown made a motion to appoint Commissioner David Byers to the Sophia Brumm Tri-County Drainage Board as requested pending a new date and time is set due to conflict. David Byers seconded the motion. Motion carried.

Outstanding Reconstruction Assessments

The Surveyor informed the Board the five year reconstruction payment cycle was coming to a close on a few of the drain reconstruction projects. With that said there were a few landowners who had not paid any payments during this five year period. His understanding was these properties which had outstanding debt for the reconstruction of a drain should be included in the tax sale. He read Indiana Code 36-9-27-86 i.e. regarding the sale of the property due to outstanding drain

reconstruction assessments and referred to Attorney Masson for his direction. He stated he was seeking a recommendation from the Board to proceed as the code dictates in these situations. He noted financially, the deficit could adversely affect the General Drain Improvement Fund and future drain maintenance and reconstruction projects.

Attorney Masson clarified that only the land affected by the delinquency could be sold, that this was not a personal judgement but a liability which stayed with the land only. He would speak with the Auditor and Treasurer to clarify the issue and start utilizing the process in this county from which the code dictates. A lien on the property not the land would be sold. Attorney Masson would follow up on this issue and those landowners who may be affected by this code. He requested authorization to contact landowners who were affected by this regulation. He stated he would work with both the Treasurer and Auditor to set the process which this County can utilize to automatically go forward with the property lien sale when warranted. There was no public comment.

Tracy Brown made a motion to give authorization to the Attorney to begin the process by sending out delinquent reconstruction assessment letters to those landowners who were delinquent as well as listing them on the tax sale when appropriate. David Byers seconded the motion. Motion carried.

Tracy Brown made a motion to adjourn. The meeting was adjourned.

Below is the Surveyor's 2017 Classification Report less Exhibit A:

Classification of Drains

Per IC 36-9-27-34

February 2017

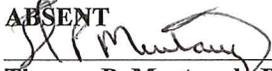

- 1.) Drains in need of Reconstruction
 - a. Elliott, S.W. (#100)
 - b. J.B. Anderson (#02) (Clarks Hill Portion)
 - c. Edwards (Not Maintained)
 - d. McBeth (Not Maintained)
 - e. F.E. Morin (#57)
 - f. Marion Dunkin (#25)
 - g. Huffman-Weimert (Not Maintained)
- 2.) Hearing and Rates Established in 2011, '12, '13, '14, '15 and 2016
 - a. Michael Binder (#10)
 - b. John Blickenstaff (#11)
 - c. Train Coe (#18)
 - d. Fred Haffner (#34)
 - e. E.F. Haywood (#35)
 - f. Mary Southworth (#73)
 - g. Franklin Yoe (#90)
 - h. Jess Dickens (#91)
 - i. Romney Stock Farm (#109)
 - j. John Hengst (#117)
 - k. Calvin Lesley (#48)
 - l. Audrey Oshier (#60)
 - m. Combs Ditch (#118)
 - n. Leader Newton (#115)
 - o. Thomas Ellis (#27)
 - p. John McFarland (#51)
 - q. Hester Mottsinger (#58)
 - r. J. Kelly O'Neal (#59)
 - s. Franklin Resor (#65)
 - t. Harrison Wallace (#82)
 - u. Eldora K. Lois (#119)
 - v. Frank Kirkpatrick (#45)
 - w. Elijah Fugate (#30)
 - x. Mary McKinney (#52)
 - y. Harrison Meadows (#37)
 - z. Shepherds Point (#121)

- aa. James Kellerman (#42)
 - bb. Alonzo Taylor (#77)
 - cc. Clymer Norris (#122)
 - dd. Crist Fassnacht (#29)
 - ee. Peter Rettereth (#66)
 - ff. Ann Montgomery (#56)
 - gg. Gustav Swanson (#76)
 - hh. Nathaniel W. Box (#12)
 - ii. Lydia Hopper (#124)
 - jj. Amanda Kirkpatrick (#44)
 - kk. John McLaughlin (#97)
 - ll. Martin Erwin (#28)
 - mm. Waples McDill (#85)
- 3.) Urban Drains
(I.C. 36-9-27-68 Urban Drains are classified as in need of Reconstruction)
- a. S.W. Elliott (#100)
 - b. Julius Berlowitz (#8) (Include Filbaum)
 - c. Alexander Ross (#48)
 - d. Cuppy McClure
- 4.) Drains in need of Periodic Maintenance
Please see attached sheet-Exhibit A
- 5.) Insufficient Maintenance Funds
- a. E.W. Andrews (#03)
 - b. Floyd Kerschner (#43)
 - c. F.E. Morin (#57)
 - d. John Saltzman (#70)
 - e. Ray Skinner (#71)
 - f. Abe Smith (#72)
 - g. Joseph Sterrett (#74)
 - h. William Stewart (#75)
 - i. John Toohey (#79)
 - j. John Vannatta (#81)
 - k. Suzanna Walters (#83)
 - l. J.B. Anderson (#02)
 - m. Dismal Creek (#93)
 - n. Moses Baker (#114)
 - o. Grant Cole (#19)
 - p. Shawnee Creek (#94)
 - q. Kirkpatrick One (#96)
- 6.) Proposed Drains for hearing in the near future / Request these drains be referred to Surveyor for preparation of Maintenance Report)
- a. Andrew Brown (#13)
 - b. F.E. Morin (#57)
 - c. Parker Lane (#61)
 - d. John Vannatta (#81)
 - e. Dismal Creek (#93)
 - f. Beutler Gosma (#95)
 - g. Jacob Taylor (#78)
 - h. E.W. Andrews (#03)
 - i. Suzanna Walters (#83)
 - j. Jesse B. Anderson (#02)
 - k. Floyd Kerschner (#43)
 - l. Joe Sterrett (#74)
 - m. Moses Baker (#114)
 - n. Grant Cole (#19)
 - o. Shawnee Creek (#94)
 - p. Kirkpatrick One (#96)
 - q. John Saltzman (#70)

- r. Ray Skinner (#71)
 - s. Abe Smith (#72)
 - t. William Stewart (#75)
 - u. John Toohey (#79)
- 7.) Drain Assessments recommended to be raised 25% starting May 2015
No Maintained Regulated Drains Applicable in 2017
 - 8.) Petition for New Regulated Drain referred to Surveyor
 - a. Huffman Weimert Drain (Town of Buck Creek)
 - 9.) Existing Drains referred to Surveyor for Report
 - a. Julius Berlovitz(#08) (Remaining Phases)
 - b. F.E. Morin (#57)
 - c. Huffman Weimert (Not Maintained)
 - d. Marion Dunkin (#25)
 - 10.) Drain that should be vacated
 - a. That portion of the Felbaum Branch (Part of Julius Berlovitz #08 Regulated Drain) East of County Road 550East

Please see Classification of Drains- Exhibit Aon file in the Tippecanoe County Surveyor office and Office of the Tippecanoe County Auditor
