ASSESSOR – Linda Phillips**New Positions**

Assessor Phillips requested approval for new positions which will be an important part of cyclical reassessment. The last reassessments were completed by contractor Tyler Technologies; costing \$1.8 million. Each year, 25% will be completed for four years; then the process starts over. The reassessment is not optional; it is a state law. The least expensive way to complete the reassessments is in-house with our own employees. Utilizing Assessor employees requires hiring two new employees; one would be a Reassessment Team Leader at a COMOT IV level; the second would be a COMOT I Reassessment Team Member. Both positions have been approved by the Personnel Committee. Other than the two new hires, the reassessments will be completed by current staff and part time employees. Assessor Phillips said her original plan called for four full time staff members but she believes it can be accomplished with two full time and part time. Budget projections through 2020 were provided for the project. The project and the two new positions can be funded with the reassessment levy as it exists.

- Commissioner Murtaugh moved to approve the new positions for the Assessor as presented, second by President Byers; motion carried.
