In Grant Coordinator Laurie Wilson's absence, President Murtaugh said the request is for permission to apply for a grant for Court Services. The cost is \$533.32 with an 80%/20% split between ICJI and Court Services.

Lisa Smith, Court Services Coordinator, said the ICJI encourages applying for the grant. Court Services has the funds for the required 20% match.

- Commissioner Knochel moved to approve permission to apply for the grant as presented, second by Commissioner Byers; motion carried.

The grant money is available to the LEPC until the end of September. Sam George is the only qualified person in the state of Indiana of which Director Fahey is aware to do the commodity flow studies. ### ***ORDINANCE 2012-15-CM***

#### **Anti-Nepotism Policies and Procedures**

Attorney Masson said the ordinance is designed to comply with House Bill 1005, passed by the General Assembly, requiring certain standards for anti-nepotism policies and procedures. The intent of the ordinance is to avoid government employees being in a direct line of supervision by a relative. The phrase “direct line of supervision” used by the General Assembly is clarified to mean “*an elected official or employee who is in a position to affect the terms and conditions of another individual’s employment, including making decisions about work assignments, compensation, grievances, advancement, or performance evaluation*”. The ordinance doesn’t include general supervision by the Council or

Commissioners when making decisions for the County regarding salary ordinances, budgets, or personnel policies. Employees who are employed as of July 1, 2012 are grandfathered. It contains a provision exempting employees from losing their job when a relative is elected into office. There is some discretion given to the County regarding an employee being promoted into a position which puts an elected official who is a relative into the direct line of supervision. A personnel policy can be adopted to cover the promotion issue. To comply, there are contracting policies regarding a relative of an elected official or purchasing agent. When contracting with a relative of an elected official or purchasing agent, disclosure and representation is required explaining the reason for doing so. The State will require County officials to certify to the State Board of Accounts that the policies are in place before the Department of Local Government Finance (DLGF) will approve ensuing budgets.

- Commissioner Knochel moved to approve Ordinance 2012-21-CM, second by Commissioner Byers.

President Murtaugh asked for public comments regarding the Ordinance.

Paul Wright – 4523 S. County Line Rd. W., West Point – Mr. Wright asked what the existing policy is regarding an elected official having a relative as an employee. President Murtaugh said the existing policy stated a relative/employee of an elected official could work together if the employee is part-time or seasonal. They are grandfathered in if they are employed when the official is elected. Commissioner Byers commented a seasonal employee working currently could not return next year if they are a relative of an elected official. President Murtaugh said a contract employee working for a precinct election is exempt.

Ordinance 2012-21-CM passed 3-0 on second and final reading.

Shirley Mennen, Human Resources Coordinator, said due to the ordinance just passed, she is proposing an update to the Nepotism policy. The County policy will mirror the State policy with a restriction stating that two family members cannot work under the same direct line of supervision within the same

department. Attorney Masson said the policy change should become effective as of July 1, 2012 to comply with House Bill 1005 .

- Commissioner Knochel moved to approve the policy change effective July 1, 2012 as presented, second by Commissioner Byers; motion carried.

***RESOLUTION 2012-15-CM***

**Determining to Sell Excess Property, Trailers**

Attorney Masson said when Wildcat Creek Solid Waste Management District (WCSWMD) dissolved, certain personal property reverted to Tippecanoe County ownership. This property is 5 semi- trailers used for storage that are no longer needed. Indiana statute provides a procedure for disposal without going through the public bidding process if the combined value is less than \$5,000. The Resolution identifies the property, states the fair market value, and determines the trailers will be sold at private sale.

- Commissioner Knochel moved to approve Resolution 2012-15-CM as presented, second by Commissioner Byers; motion carried.

***DECLARATION OF EMERGENCY BAN ON OPEN FIRES***

**DECLARATION OF EMERGENCY  
BAN ON OPEN FIRES  
IN TIPPECANOE COUNTY**

**WHEREAS**, The County of Tippecanoe, State of Indiana is in a prolonged period of drought; and

**WHEREAS**, the safety and welfare of the residents of the County of Tippecanoe requires a declaration of a local emergency banning open fires in Tippecanoe County as provided for in IC 10-14-3-29; that the Tippecanoe County be declared an emergency fire hazard area; and that the Declaration of Emergency should continue in effect until further order of this Board.

**NOW, THEREFORE, IT IS HEREBY ORDERED** that Tippecanoe County is an emergency fire hazard area; and that open burning and the discarding of matches, ashes or any burning materials from a vehicle are prohibited in the emergency fire hazard area until further notice.

**IT IS FURTHER ORDERED** that the President of the Board of Commissioners of Tippecanoe County, as principal executive officer of the County of Tippecanoe is hereby authorized and directed to issue on behalf of the Board of Commissioners a Declaration terminating the ban on open fires in the event he determines that the conditions giving rise to the issuance of the Declaration of Emergency no longer exist, and the safety and welfare of the residents of the County of Tippecanoe no longer requires the banning open fires in Tippecanoe County.

**IT IS FURTHER ORDERED** that a copy of this Declaration shall be filed in the offices of the Tippecanoe County Clerk, the Tippecanoe County Auditor, and with the clerk of each incorporated municipality in the county as soon as practicable.

**THIS DECLARATION** is to be effective as of the date and time of its adoption.

Marty Webb, TEMA Deputy Director, presented the Declaration of Emergency Ban on Open Fires in Tippecanoe County. There has not been a significant amount of rainfall in the county. Tippecanoe County is under a moderate drought; counties north of Tippecanoe are under a drought emergency. Tippecanoe County is five inches below the normal amount of rain and the forecast is for less than a tenth of an inch in the next week. All the area lakes and streams are far below normal; some are below the gauge and a reading isn't possible.

Jim Lewis, Deputy Chief, Wabash Township Fire Department and President of the Tippecanoe County Fire Chiefs Association, said the concern is multiple fires similar to what happened last week in Buck Creek when a spark from the train started a fire. At this point, even a discarded cigarette is a hazard.

Attorney Masson said President Murtaugh has the authority to declare the ban lifted without the need for a public meeting.

- Commissioner Knochel moved to approve the Declaration of Emergency Ban on Open Fires, second by Commissioner Byers; motion carried.

Deputy Director Webb will prepare a release for the media today.
