***COMMITTEE REPORTS***

Councilmember Winger reported the Youth Center Action Team met recently to discuss a plan for youth services. He reported the team met and discussed how to address the immediate needs of the county. Three key elements were identified: the need for services, immediate action to address the issues, and additional office space. Team members agreed the first priority was to find a secure office to accommodate Intake/Assessment Officers. With the addition of the four Intake/Assessment Officers, immediate assessments will have immediate consequences for youth and allow for immediate treatment. After discussing several options for office space, the Sheriff suggested the committee consider adding a "bump-out" at the jail. The Sheriff explained to the team the additional space could serve the immediate

needs of youth services and in the future provide additional space for the communications staff. Councilmember Winger confirmed EDIT funds previously appropriated for the juvenile center would be used for construction of the “bump-out”.

Councilmember Kemper added the project would be simple and fast track. The team plans to have the design plans within 30 days and the construction bid within 60 days.

Attorney Luhman confirmed the request is not for an additional appropriation; funds previously appropriated for the youth center will be used to complete the project. The amendment changes the description of the Project #42 – Juvenile Justice Facility to include the remodeling of the existing jail space for use on an interim basis for intake and assessment programs in the amount of \$350,000. In addition, it recognizes if and when the juvenile center is constructed the space would be used to meet the Sheriff’s ongoing space needs.

The DLGF extended budget deadlines to December 1, 2008. The council opted to delay budget approval from September to November when, at budget hearings, it was discussed to revise the compensation and benefits structure.
