

**TIPPECANOE COUNTY COUNCIL MEETING
TIPPECANOE COUNTY COMMISSIONER MEETING
DEPARTMENT HEAD LUNCHEON
JOINT MEETING
February 13, 2008**

The Tippecanoe County Council and Commissioners held a joint meeting at 12:00 p.m. in the Tippecanoe Room. Members present were Commissioners KD Benson and John L. Knochel, Council Members Thomas P. Murtaugh, Kevin Underwood, Andrew S. Gutwein, Betty J. Michael, David S. Byers, and Kathy Vernon. Also present were Greg Guerrattaz, Financial Solutions Group, Department Heads, Auditor Jennifer Weston, Attorney David W. Luhman and Secretary Jennifer Prange. Absent were Commissioner Ruth E. Shedd and Councilmember Jeffrey A. Kemper.

Mr. Guerrettaz, Financial Solutions Group, spoke to Department Heads regarding budgets. With pending new legislation, homesteaded property would not be taxed in excess of 1% of the assessed value; thus creating a shortfall in property taxes revenue. He encouraged Department Heads to review budgets and identify areas where expenses may be cut and areas where new revenue can be generated. Mr. Guerrettaz recommended a sustainability analysis with a 3-5 year budget projection. He strongly advised departments to establish user fees for services currently offered at no cost.

- Commissioner Knochel called the Commissioner's Joint meeting to order.
- Council President Murtaugh called the County Council Joint meeting to order.
- Councilmember Gutwein moved to approve minutes from the June 12, 2007 and October 9, 2007 Joint meetings, second by Councilmember Byers; motion carried.
- Commissioner Benson moved to approve minutes from the June 12, 2007 and October 9, 2007 joint meetings, second by Commissioner Knochel; motion carried.

Mr. Guerrettaz continued with an eight point discussion on the affects of pending legislation as follows:

Operation Stay Afloat

1. Residential Tax

A homestead will not pay in excess of 1% of the gross assessed value. The amount lost by the county, as a result of the 1% cap, is not expected to be shifted to apartments and/or commercial.

2. The amount paid by the State for PTRC and Homestead credits will be eliminated.

The elimination will drive tax rates up; therefore, the State will eliminate the School General Fund, Transportation Fund, County Welfare Funds and Juvenile Incarceration. In addition, an additional 35% homestead deduction will reduce net assessed valuation and increase the tax rate.

3. Circuit Breaker Increase

The impact is estimated to be \$250,000, for Tippecanoe County. The estimate was as high as \$400,000-\$500,000. The impact is spread over the units, based on the levy.

4. Personal Income Growth Rate to influence Property Tax Revenue Growth

Revenue with spending caps refers to property taxes, local income taxes, motor vehicle excise taxes, the wheel tax, innkeeper's taxes, food and beverage taxes and county admission taxes. It is unclear, but the limit may apply to riverboat revenue and fee revenue. The balance left over (or not used) in one year must be used for property tax relief the next year.

5. Circuit Breaker Impact (1, 2, 3), what can the county do?

On average, the tax required for Round One is .20 basis points (or a 1% tax will be 1.20%). The county has the authority to pass a Local Option Income Tax (LOIT). If an income tax rate is enacted on the county level and used to replace the circuit breaker impact on each unit and a school is disproportional because of a higher general fund rate, then you could have a majority of the replacement going to one geographic location.

6. Future revenue, where do we get it?

In the event an emergency loan is needed by a township, raising the rate from 1.00% to 1.20%, the income tax rate cannot be increased by .20 if not for a circuit breaker impact. The county may have to obtain income tax bonds from here on out.

7. Introduce an Impact fee

If the cost of community services shows that homesteads cost \$1,500 per home, per year, and we only collect \$1,000, per year, then the impact up front should be \$500 times twenty years, or \$10,000.

8. Will additional homestead credits be used for additional credits or other expenses?

A homestead value of 35% is disproportionate depending on the value of the home which is capped at \$500,000. A home value over \$500,000 will not receive the additional homestead credit.

Adding a ninth point...

9. Eliminating Welfare Funds

COIT and EDIT will decrease if the abstract levy is reduced

Mr. Guerrettaz reported the next month will be crucial and once more information is received Auditor Weston and Mr. Guerrettaz will proceed with a sustainability analysis. He stressed the importance of the 3-5 year budget and the impact the analysis would have on the juvenile center.

JUVENILE CENTER

Mr. Guerrettaz calculated an estimated annual bond payment of \$1.8-\$1.9 million considering a \$20 million construction cost and \$1.5 million in architectural/design costs. Further, he explained this funding could come from EDIT funds, cautioning the Commissioners and Council to consider the affects of the legislation (as discussed) before committing to the annual payments.

Auditor Weston provided an EDIT budget projection from 2008 through 2012.

EDIT Budget

	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>
Estimated Revenue:					
CEDIT Shares	5,360,000	5,424,320	5,489,412	5,555,285	5,621,949
Interest Income	500,000	517,500	535,613	554,360	573,763
Estimated Expenses:					
Budget	4,207,173	4,895,006	4,742,493	4,794,149	4,795,900
Net (Reserve):	1,652,827	1,046,814	1,282,532	1,315,496	1,399,812
EDIT Cash Balance 12/31/07		12,229,965			

She added the 2008 figures have not been certified and the revenue estimate used is lower than projected. Mr. Guerrettaz implied future reserves will be non-existent and the impact of circuit breaker will lower bond ratings and will increase interest rates. Commissioner Knochel recommended proceeding with construction slowly.

Mr. Guerrettaz recommended reviewing options for the facility in the next 30 days and discussing the 3-5 year sustainability analysis. Also he suggested discussing all the ramifications before pursuing any further.

- Commissioner Knochel moved to adjourn.
- President Murtaugh called a recess until the regular meeting at 2:00 p.m.

TIPPECANOE COUNTY COUNCIL
REGULAR MEETING
February 13, 2008

The Tippecanoe County Council met at 2:00 p. m. Wednesday, February 13, 2008 in the Tippecanoe Room in the County Office Building. Council members present were: President Thomas P. Murtaugh, Vice President Kevin Underwood, Betty J. Michael, David S. Byers, Kathy Vernon and Kevin Underwood. Others present were: Auditor Jennifer Weston, Attorney David W. Luhman, and Secretary Jennifer Prange. Absent was Jeffrey A. Kemper.

President Murtaugh reconvened from the joint meeting with the Commissioners.

YOUTH NEEDS UPDATE – Judge Loretta Rush

Judge Rush shared her vision and the three critical needs for the juvenile center.

- Intake/Access Center – a center to accept children 24/7 with assessments/screenings
- Secure Detention – safe place to retain children in the community
- Alternative services – court ordered services to rehabilitate youth

Judge Rush recommended scaling down the project to focus on core elements. She stressed the critical needs of the community may be overlooked if the center becomes too large. Judge Rush acknowledged the possibility of the center serving 200-300 children for detention and alternative services. \$2 million was spent in 2007 for secure detention, Department of Corrections, and other detention services. She reported the county recovered \$480,000 in court ordered reimbursements from parents in 2007. She suggested the possibility of increasing the number of beds slightly to house out-of-county inmates to assist with operating expenses.
