Re: RED FLAG INVESTIGATION
DES # TBD
Beck Lane
Rural to Urban Conversion
Lafayette, Tippecanoe County, Indiana

NARRATIVE

Beck Lane from Old US 231 to Poland Hill Road needs to be upgraded from a rural design to urban road standards and is programmed in the TIP. A trail will be constructed on one side with a sidewalk on the other. This road is classified as a collector.

SUMMARY

INFRASTRUCTURE			
As identified below the following items of concern were found within ½ mile:			
Religious Facilities	N/A	Recreational Facilities	N/A
Airports	N/A	Pipelines	7
Cemeteries	N/A	Railroads	3
Hospitals	N/A	Trails	2
Schools	0 (see notes)	Managed Lands	2

No schools are within ½ mile of the project; however, Tippecanoe School Corporation's offices and the Tippecanoe Public Schools Foundation are both within the radius.

Seven natural gas pipelines fall within ½ mile of the project. All are owned by Vectren. All pass within 500 feet of the project at some point. Coordination with Indiana Gas will be necessary.

One railroad line runs within ½ mile of the project. The NS Railroad passes within 400 feet of the project to the east.

Two trails are within the ½ mile buffer, Armstrong Trail and the Lafayette Linear Parks Trail. Neither should be affected by construction.

Armstrong Park and Bishop Woods are the only managed lands within ½ mile of the project. Armstrong Park is managed by the Lafayette Parks and Recreation Department. Bishop Woods is managed by the Roman Catholic Diocese of Lafayette in Indiana. Both should be contacted if the construction area expands and the land will potentially be affected.

WATER RESOURCES			
As identified below the following items of concern were found within ½ mile:			
NWI - Points	N/A	NWI - Wetlands	7
Karst Springs	N/A	IDEM 303d Listed Lakes	N/A
Canal Structures – Historic	N/A	Lakes	5
NWI - Lines	N/A	Floodplain - DFIRM	1
IDEM 303d Listed Rivers and Streams (Impaired)	N/A	Cave Entrance Density	N/A
Rivers and Streams	3	Sinkhole Areas	N/A
Canal Routes - Historic	N/A	Sinking-Stream Basins	N/A

Three branches of an unnamed Wabash tributary are within ½ mile of the project. Data provided by INDOT shows their sources about 600 feet north of the project line.

Of the seven wetland areas within ½ mile, four are associated with ponds. One touches only the outside boundary of the ½ mile buffer area. The nearest wetland is roughly 700 feet west of the project line.

Five water bodies characterized as “lakes” are within ½ mile of the project. One is at Armstrong Park. One is a small pond not associated with a subdivision. Three are within subdivisions. There are no ponds within 500 feet.

A small area on the northern edge of the ½ mile buffer is in the DFIRM Flood Zone A. The DFIRM area meets only the outside edge of the buffer zone.

MINING/MINERAL EXPLORATION			
As identified below the following items of concern were found within ½ mile:			
Petroleum Wells	N/A	Petroleum Fields	N/A
Mines – Surface	N/A	Mines – Underground	N/A

There is no mining or mineral exploration within ½ mile of the project.

HAZMAT CONCERNS			
As identified below the following items of concern were found within ½ mile:			
Brownfield Sites	N/A	Restricted Waste Sites	N/A
Corrective Action Sites (RCRA)	N/A	Septage Waste Sites	N/A
Confined Feeding Operations	N/A	Solid Waste Landfills	N/A
Construction Demolition Waste	N/A	State Cleanup Sites	N/A
Industrial Waste Sites (RCRA Generators)	N/A	Tire Waste Sites	N/A
Infectious/Medical Waste Sites	N/A	Waste Transfer Stations	N/A
Lagoon/Surface Impoundments	N/A	RCRA Waste Treatment, Storage, and Disposal Sites (TSDs)	N/A
Leaking Underground Storage Tanks (LUSTs)	5	Underground Storage Tanks	3
Manufactured Gas Plant Sites	N/A	Voluntary Remediation Program	2

NPDES Facilities	N/A	Superfund	N/A
NPDES Pipe Locations	2	Institutional Control Sites	N/A
Open Dump Sites	N/A	Other (see explanation)	1

There are currently five LUST sites within ½ mile of the project. Two are at fuel stations, one is at TSC’s service center and two are left unidentified.

Two NPDES pipe locations are within the ½ mile project barrier. One is listed as a former Phillips 66 station and the other is currently a Speedway station.

Three underground tanks fall within ½ mile of the project. They are at Casey’s General Store #2356, CDK Refrigeration Incorporated and Pay Less Store #822. Data provided by INDOT locates the Pay Less tank about 225 feet from the project area. No other hazmat concern of any type is within 500 feet of the project line.

Two voluntary remediation sites are within ½ mile of the project. Both are on properties owned by Lafayette Bottled Gas Company, Incorporated.

One site was identified as a hazmat concern but was identified only as a spill in data provided by INDOT.

Ecological Information

The Tippecanoe County listing of the Indiana Natural Heritage Data Center information on endangered, threatened, or rare (ETR) species and high quality natural communities is attached. The ETR species on the state or federal registers are highlighted.

Cultural Resources

No state- or federally-registered historic structures or districts fall within ½ mile of the project area.

RECOMMENDATIONS

INFRASTRUCTURE: Coordination with Indiana Gas will be necessary. One NS-owned line passes within 400 feet of the project. The Lafayette Parks and Recreation Department and the Roman Catholic Diocese of Lafayette need to be involved if the project area expands to their managed lands.

WATER RESOURCES: N/A

MINING/MINERAL EXPLORATION: N/A

HAZMAT CONCERNS: Prior coordination is needed with Pay Less Stores (Kroger) to verify the tank location at Store #822, given the tank’s close proximity to the project line.

ECOLOGICAL INFORMATION: N/A

CULTURAL RESOURCES: N/A
