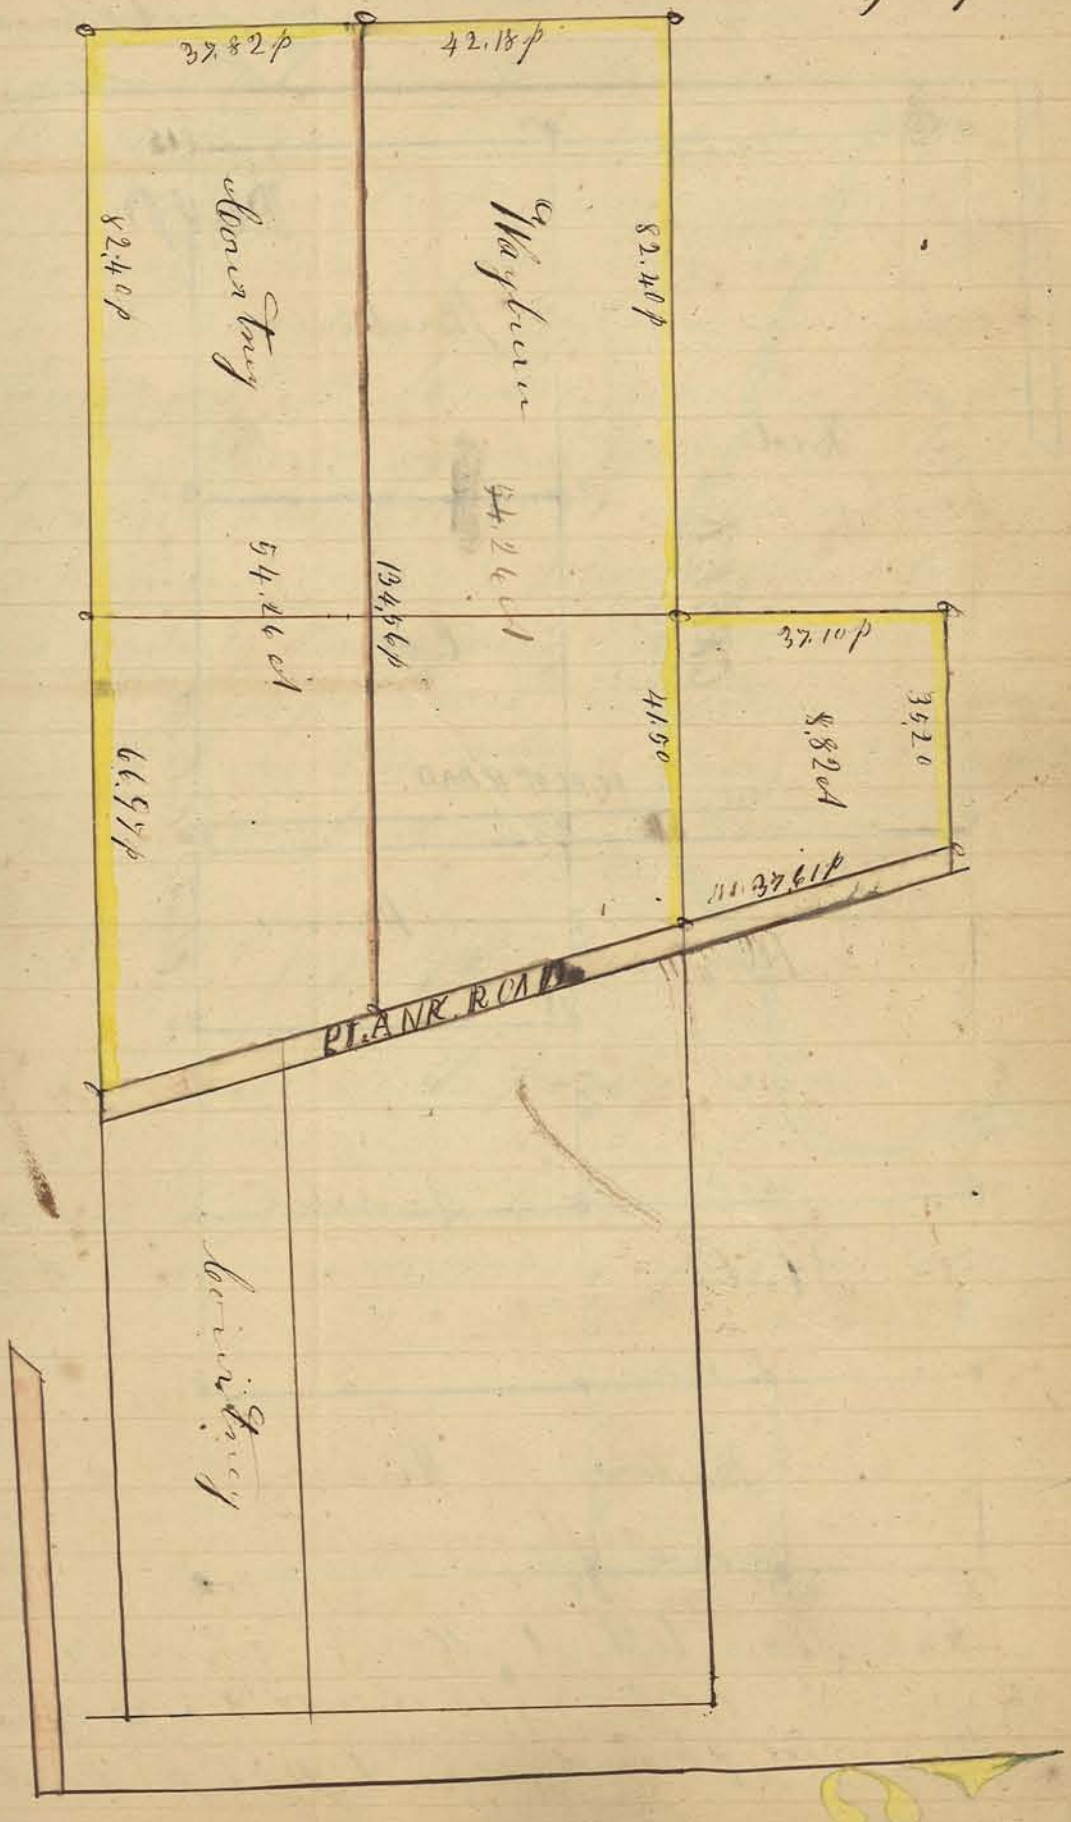
A plott of a part of the S½ of the W½ of the S.E. quar of Sect 6 Township 22 N. Range 4 W. also a part of the N.W. quart of the same Section, Surveyed by request of Dr. Courtney Sept 18th 1855

A. N. Snoddy Dep. G.S.



A plat of Sections two and three in Township twenty four 24. Range five 5 W. 2 pm meridian surveyed Oct. 10th & 12 1855. by request of the holders

A. N. Sneddy Dep. U. S.

Rock deposited at all the corners

Corners, 1. 2. 3. 5. 7. 8. 14. 15. 16. 17. & 18 Owned Mound found, and perpetuated

* Having been Called upon to alter a Corner previously Set by myself viz the qr S Corner on the E Side of S. 28 in T 24 N of R 5 W of 2 Meridian and after hearing several witnesses not satisfactory to me I wrote to the Surveyor General for directions in the Case and on reciving an answer; I according to appointment on the 30th day of October 1855 Met at said North qr S Corner and no further witness being introduced I left the Corner Standing where I previously Set it; according to directions given I then proceeded to the South qr S Corner and on hearing the testimony of Mr Jordan; and an examination by diging the mound open I found the old Stake under ground some 10 or 12 inches and on the top of which a large Rock planted (by I Suppose) a previous County Surveyor I therefor altered my Corner and put it 3.40 poles west to the original Corner believing it to be the true Corner, which alteration is mark[d] on the plot in final Record

See plot page 92

In the above case all the parties concerned in all the Corners of the above discribed Section were notified privately previous to the time of Setting the above corners; and many of them were present

W F Smoddy C. S.

5. " 45° 45' " ——

Surveyed in 1829
By G. L. Rinnard

A true Copy.

To the Honorable the Board of Commis-
-sioners of Tippecanoe County. Sept. Session
1845.

The undersigned having been appointed
viewers in two cases for the purpose of viewing
two several proposed changes in the State Road
leading from Lafayette to Chicago, via. Sugar Grove.
Respectfully represent to the Honorable Board that
whereas the aforesaid changes occur in the
same immediate neighborhood, and the routes
so materially effect each other, that one change
is all that can be effected under these circum-
-stances. The undersigned beg leave to embody
their proceedings in one and the same report.
(to wit) After being duly qualified according to
law, we proceeded to view the route prayed for
by Thigate Timmons and others, and also the
route by Wendall Brown & others and after due
consideration and comparing the various routes
distances and other circumstances are of
opinion that the route proposed by Timmons
and others is the most eligible of the three
routes ~~proposed~~ under consideration. by this
route the distance will be diminished some 38 poles
the ground being favorable for a road, in the other
case the distance will be increased about 16 poles
and less favorable ground. The old route laying
between the two new routes and less favorable ground
than either on account of the creek.
The route by us selected commences at an angle
in the State Road on the east line of the W 1/2 of NW
E 1/4 of Section 35. T 24 N. Range 6 W. running thence N 76° 45'
W 18 po. thence N 48 W 87.20 po to the West line of said lot.
thence North 46.80 poles to the North West Cor. of the same.
whole distance 152 po. "plat over"
