Plat of Survey, made at the Instance of Thomas Underwood Agent, of a Tract of Land in the South West Corner of the North half of the North west fractional Quarter of Section 17 Township 28 North Range 4 West, it being that part of the Tract marked "Stephen A. Wilstach" on Plat in Book "B" page 138 lying Westward of the Road. In Tracing the North line I followed the main line of blazes running Westward, but ran Out 50 Links North of the Corner as located by Mr Levering. See Reference below, I then measured the next line from my point of intersection making it sixteen links longer than Mr Levering's Recorded measure, or found his Corner thirty four links shorter than his measure, which led me to suppose there might be some mistake in the location of the Corner by him. I therefore, as the parties Concerned were not present left the point unsettled, but in Estimating the Area took the line as run by myself,

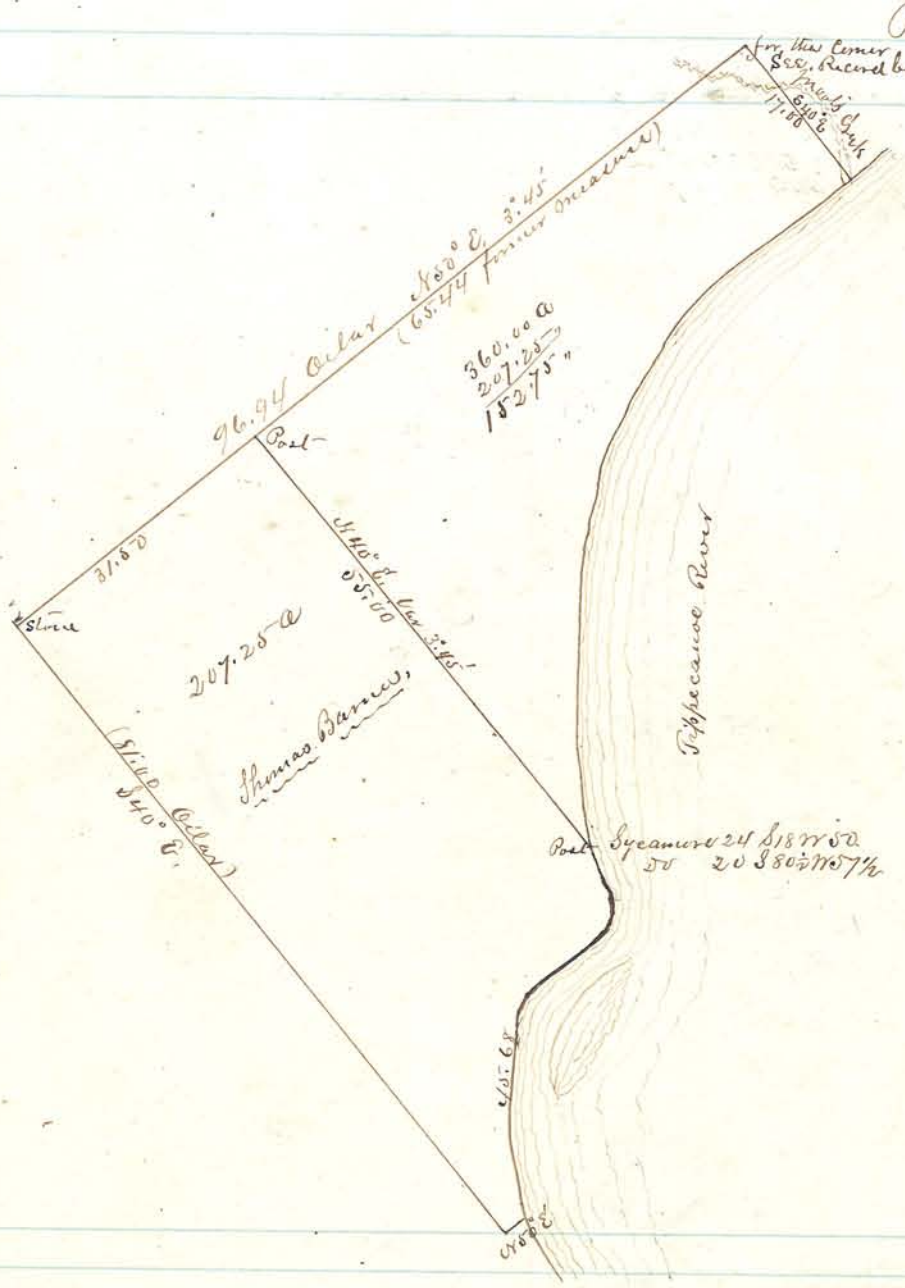
Plat of Survey made for Thomas Barnes in Section One (1) of Burnetts Reservation at the Mouth of Tesspecanoe River Town Twenty four (24) North, Range Three (3) West, Setting off 207.25 Acres in the South West Part of the Share of said Section assigned to Wm. G. & Geo. W. Ewing for which partition See final Record of Circuit Court No 8 page 109, also Surveyor's Record A. page 559.

Oct. 7. 1873

P. C. Vawter C. S.



May 10th 1875

At the Instance of Thomas Barnes I made Survey of the North West boundary line of the Tract above platted. I took the Course of the line from two corner Stones located by Henry Dilar a former C. S. for which See Record "A" page 559 Corners 3 & 4, & ran the line thence N 50° E 38.43 Chains to the intersection of the line between Sections Seven (7) & Eight (8), of Town Twenty four (24) North Range Three (3) West where I found my Meanders in agreement with the Corner there located. From thence I continued the same Course N 50° E 38.40 Chains where I found a large Stones with a flat top, about Even with the Surface of the Ground. About two Chains further & one half Chain to the left or North West I was shown another Stone Claimed to be the Corner, but as the difference in distance in distance from the Corner on this line between Sections Seven (7) & Eight (8) Mentioned above, was too great for any ordinary variation in Chaining, & also as the distance from said Stone Claimed As the Corner was about Eighteen (18) Chains, instead of Seventeen (17) Chains as Called for from the River, while the other first named Stone was in my Course, varied in distance but Ninety links from the Congressional Measure from the Corner between Sections Seven (7) and Eight (8), & also was about Seventeen (17) Chains as Called for from the River, I therefore recognized this flat Stone as the the true Corner & took bearing Trees as follows. Sycamore 16 N 2¼ E 48. Sycamore 24 S 4½ E 111½, This Stone is 1.15 chs N 50° E of the Creek as it now runs.

P. C. Vawter C. S.

Plat of Survey made for Ezra Huffman and Leander Bowers, subdividing the South East Quarter of the North East Quarter of Section Twenty One (21) Town Twenty three (23) North Range Five (5) West. For the Outside Corners of said Tract See Record B. page 161.

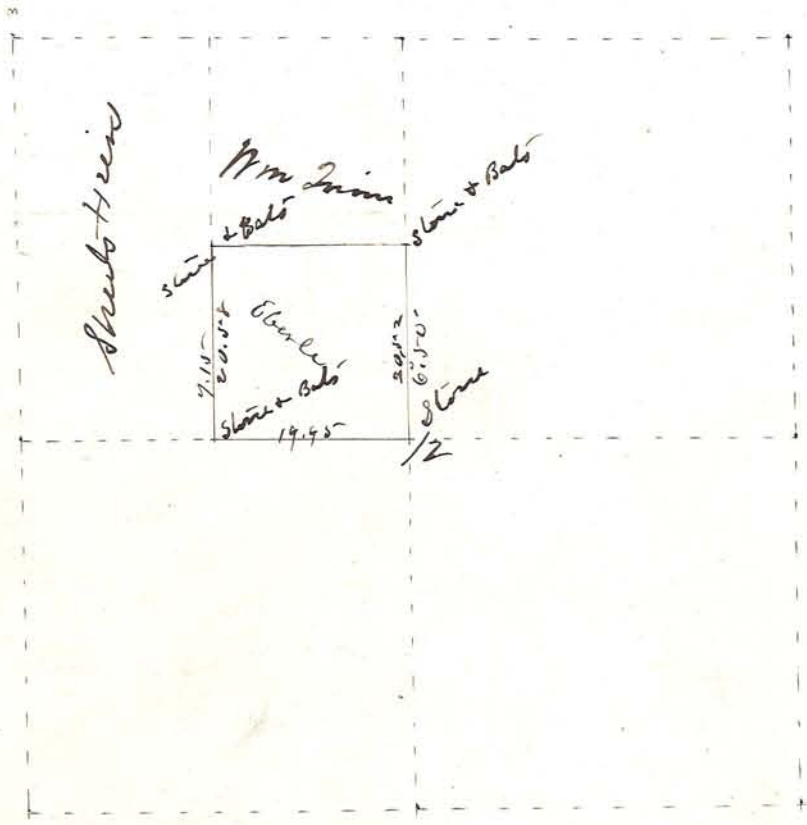
July 24th 1874

P. C. Vanater C.S.



By reference to Book B page 342 Plat of Section One, it will be seen that the North West Corner & West half mile Corner was located upon the evidence of Mr Stuly an early settler, as to the original Mounds as shown by Mr Simmons a former County Surveyor, & although the distance between said Corners was largely short of that on the plat of the Original Surveys; Yet as it corresponded very nearly with the plat of Mr Simmons's Survey as to distance, & as he claimed according to the evidence of Mr Stuly to have found the Original Mounds & Stakes, I assumed said Corners to be right. And further as the South West Corner of said Section was lost, as also the west 1/2 mile Corner of Section 12 on the South, I determined said Corner for the purpose of fixing the South line of said Section One by projecting the West line of said Section from the West 1/2 mile Corner South Forty Chains, & so fixed the South boundary. By reference to page 354 of Book B it will be seen that in a Survey for Thomas Cuniskey I found a Stone said to be the Centre of Sec. 12 & that assuming that Stone as "Correct" I found a large surplus in the North West Quarter of Section 12. I then supposed it probable that Mr Simmons Had made an Error in the South half of Section 12 - but now believe that the Chief Error & the ground work for all subsequent Errors was in the West half mile Corner of Section One said Corner as I now fully believe was set too far North & perhaps Some too far West. Thus in determining the South West Corner of Section One from said erroniously located West half mile Corner I was led to place it too far north & West, thus leaving a Surplus of Land in Section 12 When the North fractions of Section One was largely short, But as the oldest of these Surveys was made about twenty years ago & others about nine years ago, it seemed that a resurvey could not be made of the two Sections without involving Litigations, it was therefore agreed by the parties to take the tract as found & make Subdivisions accordingly

P. C. V

Plat of Survey made at the Instance of A. J. Kerr, After due & legal notice to parties Concerned, in the East half of the North West Quarter, and the West half of the North East Quarter of Section Thirty Six (36) Township Twenty one (21) North, Range Six (6) West.

Plat of Survey in the East half of the North West Quarter of Section Twenty (20) Town Twenty three (23) North, Range Five (5) West; made at the instance of John J. Parker, Peter Wolf et. al. present & consenting.

Mrs. Watson's first deed calls for Ten Acres off of the North end of the tract, which requires but 4.88 Chains from North to South for quantity.

Her second deed begins 5.00 Chains from the North West Corner & runs South 5.00 chs, East to the East line of the tract, North 5.00 chains, & West to the place of beginning, thus leaving a strip twelve links wide between her two tracts yet belonging to Mr Parker.

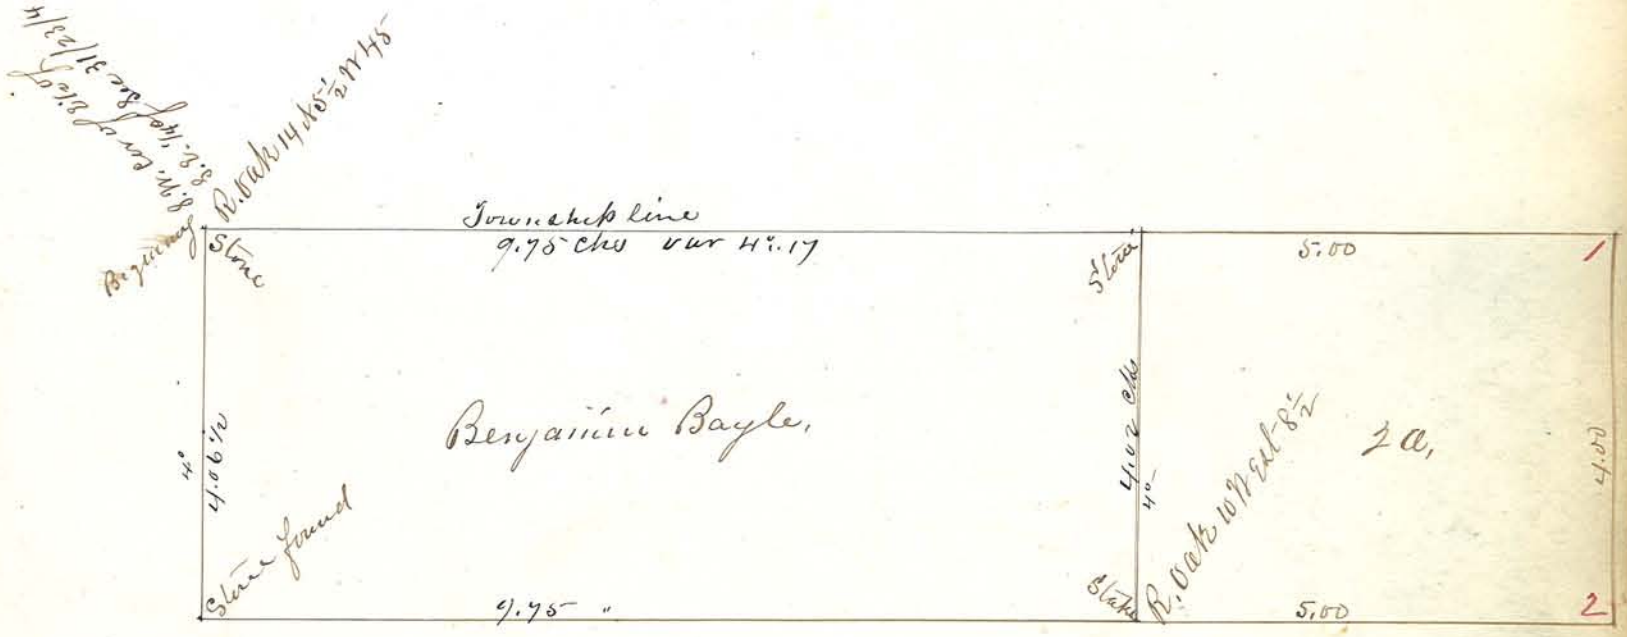
Plat of Survey of a Small Tract of land for Benjamin Bayle in the North fractional half of the North East fractional Quarter of Section Six (6) Township Twenty two (22) North, Range Four (4) West. The beginning point or North West Corner is identical with the South West Corner of the East half of the South East Quarter of Section Thirty One (31) Township Twenty three (23) North, of same Range, I found Corners located on the South line, & further found that between said line so located & the North line of the tract there was a shortage from what the Deed Called for of about 4½ links on the West end & 9 links on the East.

Jan. 1. 1875

P. C. Vautin C. S.



April 16-1878.

Made Survey for Benjamin Bayle of a 2 Acre Tract lying East of the Tract Surveyed Jan. 1. 1875 & located Corners 1 & 2. The Tract first Surveyed is described in the Deed as beginning at a point on the North line of the North fractional half of the North East Fractional Quarter of Section Six (6) 77.88 Rods East of the North-West Corner of said fraction & running from thence East on said North line 39 Rods making a distance from said North West Corner of 116.88 Rods; The Tract last Surveyed is described as beginning on the North line of said fraction 134 Rods East of said North West Corner & running from thence West 250 Rods, which as will be readily seen would lap onto the first Measured Tract 2.88 Rods; I therefore disregarded the beginning point so described & Measured off the 2 A. Tract immediately East of the former Tract, it being so held in possession & understood by the parties.

6 Stone Set for Jas. Driscoll

Plat of Survey made at the Instance of Thos. Marks for the purpose of locating & marking the East & West Centre line of Section Thirty four (34) Township Twenty two (22) North, Range six West. At the West Quarter Section Corner I found a Stone Set, & thought to be placed for the Corner by the Surveyor of Fountain County, & on running the West line of said Section I found said Stone by Measurement then Made to be twelve links North of the Middle & about the same distance West of a line run from the South West Corner of the Section to the Stone taken for the North West Corner in Survey & recorded in Book "B" page 385. But I found a Stone thirty five links West of the one found in the Survey above referred to & corresponding very nearly in line with the Stone found at the Quarter Corner, & it was thought by the parties that this Stone also was set by the Surveyor of Fountain County for the Section corner, it was therefore agreed by the parties to recognize the Stone found as the true Quarter Section Corner, and Establish the Centre line thereby, both Marks & Taylor being present & Consenting to said Corner,
