

MINUTES OF THE AUGUST 3, 1971 MEETING.

Minutes of the Regular Meeting of the Tippecanoe County Drainage Board held in the County Commissioners Room in the County Court House at 9:00 a.m., Tuesday, August 3, 1971.

Present at Meeting Those present at the meeting were: Bruce Osborn, Dale Remaly, Edward Shaw, Richard Donahue, Dan Ruth, John Garrott, Larry Clerget, Gladys Ridder and Ruth Schneider.

Minutes Approved Upon motion made from Dale Remaly, seconded by Edward Shaw, the minutes of the July 6, 1971 meeting were approved as read.

Ditches referred to Engineer The Board referred the following ditches to the Engineer for a Maintenance Fund set up: Moses Baker, Lauramie township; Jacob Taylor, Jackson and Wayne townships; Hester B. Motsinger, Wabash township, Romney Stock Farm, Lauramie and Randolph townships.

9:30 a.m. Herman Beutler Hearing At 9:30 a.m., the Chairman of the Board opened the hearing on the Herman Beutler Ditch. Those attending this meeting were as follows: Arnold Burkhardt, Albert Albright, H. S. Congram, Robert L. Smith, Ralph Booher, and R. L. Leonard. There were no remonstrances filed on this ditch. Mr. Congram suggested a channel was needed to protect the main headwall from collapsing. Mr. Ruth said the Drainage Board would be glad to work with the SCS Office to help plan a new open drain. The Engineer recommended \$1.00 per acre assessment be placed on this ditch. Most of those present felt it was hardly enough and asked for the maximum. Therefore the maintenance fund was set at \$1.10 per acre.

10:30 a.m. Crist & Fassnacht Hearing At 10:30 a.m., the Board's Chairman opened the hearing on the Crist & Fassnacht Ditches. Those present at said hearing were: James L. Primmer for Percy McDill, Omer Murphy, Ada Lewis, Everett Berninger, Harry Smith, John Brown and Dale Brown. The Engineer read all remonstrances and his recommendations to the Board. George Berninger's acreage on his notice, should have read 55 acres instead of 80 acres. By Board action these two ditches were combined into one ditch now known as the Crist-Fassnacht Ditch. Although the Engineer felt 75¢ per acre was needed, all persons present were in favor of an assessment of 50¢ per acre. The Board agreed that the maintenance fund be established at 50¢ per acre.

11:30 a.m. Fugate Hearing At 11:30 a.m., the Engineer open the Fugate Ditch Hearing by reading of the maintenance report. There were no remonstrances filed. The following persons were present at said meeting: H.S. Congram, Roy A. Smith, Max DeVault, and Geneva DeVault and Mary Kitsmiller. Mr. Roy Smith stated that there were 70 rods of broken tile; one mile south of county line on Ralph Wise's property. During the discussion it was agreed that the repair of the 70 rods would not come under maintenance but would be a reconstruction project. The Engineer suggested that the Fugate and Kirkpatrick Ditches be combined but those present didn't agree. Because the Kirkpatrick Ditch was in better condition than the Fugate Ditch those people did not want their money to pay for maintenance on the Fugate Ditch. Therefore the ditches were not combined. All land owners attending were in favor of \$1.00 per acre maintenance fund. On motion made and carried the Board established the maintenance fund of \$1.00 per acre.

Order & Findings and Cert. of Assessment Signed Upon establishment of maintenance funds on the aforementioned ditches, the Board signed the Order and Findings and the Certificates of Assessment.

1:30p.m. Frank Kirkpatrick At 1:30 p.m., the Chairman of the Board opened the hearing on the Frank Kirkpatrick Ditch by reading of the maintenance report. Those attending the hearing were: Roy Smith, Mabel McDill Andrews and Mrs. Mary Kitsmiller. In discussing the pros and cons on both Fugate and Kirkpatrick Ditches, it was agreed not to combine them. Because of the condition of the Fugate Ditch it wasn't fair to take maintenance from the Kirkpatrick Ditch to fix the Fugate Ditch. All of the owners were in favor of the \$1.00 assessment. On motion made and carried the Board established the maintenance fund at \$1.00 per acre.

2:30 p.m. McFarland and Oshier Branch Ditch At 2:30 p.m., the Board's chairman opened the hearing of the McFarland and Oshier Branch Ditch. The maintenance report and remonstrances were read by the Drainage Engineer. Those attending said hearing were: Anna Boesch, Marshall Farms representative, Lynn Hawkins, Audley Oshier, and Mark Briar. The land owners on the Oshier Branch wanted to remain by themselves. Attorney Richard Donahue, suggested to continue the hearing until November 2, 1971.

Upon motion by Edward Shaw, seconded by Bruce Osborn, the Board adjourned.

Bruce Osborn, Chairman

Dale Remaly, Vice Chairman

Edward Shaw, Board Member

ATTEST:

Gladys Ridder, Secretary

MINUTES OF THE TIPPECANOE COUNTY DRAINAGE BOARD DECEMBER 1, 1971.

The minutes of the regular meeting of the Tippecanoe County Drainage Board held in the Commissioners Room in the Court House at 9:00 a.m., on December 1, 1971.

Upon motion by Dale Remaly, seconded by Edward Shaw the Board approved the minutes of the November 3rd meeting as read.

Present
at
Meeting

Those present at the meeting were: Bruce Osborn, Dale Remaly, Edward Shaw, Claude Acheson, Dan Ruth Jr., Richard Donahue, John Garrott, Larry Clerget, Gladys Ridder, and Bill Martin.

Ditches
Referred to
Engineer

Upon motion by Bruce Osborn, seconded by Dale Remaly the Board referred the following ditches to the Engineer to prepare for a maintenance fund: George Ilgenfritz, Wea & Sheffield Townships, William A. Ortman, Wea Township, John L. Hoffman, Perry Township, William A. Stewart, Perry and Washington Townships and Calvin Lesley, Perry and Washington Townships.

9:30 a.m.
Hearing
on
Elmer Thomas
Ditch

The hearing on the Elmer Thomas Ditch was opened by Dan Ruth the Engineer. Those attending said meeting were as follows: Floyd Lamb, Lucille B. Williams, Hazel Holmes Gephart, Francis E. Scowden, Charles R. Scowden, Kathryn DeBoy by Norman DeBoy, Marjorie A. Connelly, Lawrence Krug, Francis Zeigler, E. E. Franklin, Curtis Vanderkleed, Robert G. Gross, Janet M. Buker, Robert Franklin, Dorothea M. Franklin, Edward L. Bryant, Martha R. Yerkes, Chester S. Yerkes, Forrest Williams, Patty Garrott, Dale Remaly, Bill Martin. Mr. Buker, showed slides of the area involved and Mr. Bill Martin of the SCS office explained the involvement of his office in this project. The question was again raised as to whether Mr. E. E. Franklin's dam in the Harrison Creek, into which the Elmer Thomas ditch empties, changed the water flow enough to cause the ponding. Also the information from the Dept. of Natural Resources could find no permit having been given to build the dam in the first place and said they would check further. Also the Engineer said he still needed a few answers and told some of the members he would go out and walk the area with them.

Changes
in
acreage

He had checked elevations on Mr. Marjorie Connelly's, Mr. Alice Halstead's and Lawrence Krug's property and recommended the Board change their acreage. The Board so moved. The acreage changes are as follows: Connelly's 11.80 acres to 1.50 acres; Halstead's 2.69 acres to no acres; Krug's 19.79 acres to 3 acres.

The Board then moved the hearing be continued until February 2, 1972, as Mr. Shaw said he felt he could not vote intelligently on this project as yet. As this hearing continued on into the time allotted for others the motion by Edward Shaw, seconded by Claude Acheson to adjourn was made unanimous by Bruce Osborn.

Hearing
on
Floyd
Coe
Ditch

Bruce Osborn, Chairman of the Board opened the hearing by asking the people present namely: Albert Kochert, Mabel Hault, Mary C. Bocher, V. L. VanAsdall for N & W Railway Co., Betty Howey, and Robert Kirkpatrick if they had made any decisions since their first hearing. Mr. Kirkpatrick said he could speak for about fourteen of the thirty in this watershed area. When asked if they still wanted the Board to abandon their drain they said definitely not but didn't want a maintenance fund established at this time. The Board moved to give them a year and then they would have to do one or the other.

Upon motion by Bruce Osborn seconded by Dale Remaly this hearing was tabled until the December meeting of 1972.

Hearing
on Oshier and
McFarland
Ditch

The meeting was opened by the Drainage Engineer explaining to those attending the maintenance hearing on the McFarland-Oshier Branch of the three alternatives they could take in determining the water shed area of these two ditches. Those attending were: John VanHoy, Lynn P. Hawkins, Merrill McCahan, I.J. Pflug by William Rowe, and Mark Briar.

Those on the Oshier Branch wanted to be a separate legal drain and said they would assume the care of the short length of ditch that they use jointly with the McFarland people. The Engineer made it clear that the Oshier Ditch to be a legal drain would only be the main channel as designed by the SCS Office and not any of the laterals.

The Engineer told the Board he would write a new legal description for both ditches if all concerned wanted to remain separate. The Engineer also recommended a change in acreage **

Upon motion by the chairman, seconded by Mr. Shaw the Board moved to make the Oshier Ditch a legal drain and to establish a 50¢ per acre maintenance fund on both ditches outlining the water shed area per the Engineers new description.

Order and
Findings

The Board signed the Order and Findings and certificate of assessments on the Oshier and McFarland Ditches.

*** in the Anna Pearl Boesch property from 60A to 45A.

Opening
of Bids

At 1:00 p.m. the Chairman of the Board opened the bids received from the fill dirt, back hoe, cement tile, corrugated metal pipe and drag line.

DRAG LINE BIDS:

- * Fauber - Small Lima Crane with operator & helper --- \$ 33.00 per hour
- Davis - Northwest, Model 41 with operator & helper---\$ 45.82 per hour

BACK HOE BIDS:

- * Davis - Model 450 - 6.0 cu. ft. bucket, reach 13.8 feet ---\$29.85 per hour
- * Cohee - 580 Case - 36" or 24" bucket, reach 14 feet -----\$22.00 per hour

FILL DIRT BIDS:

- * Davis - 50¢ per cu. yds + 8¢ per cu. yd. per mile

METAL PIPE BIDS:

Young Metal Products Co. (Ladoga)
Logansport Metal Culvert Co.

It is my recommendation that the bids with the * adjacent to them be accepted. In the case of the metal Pipe Bids it is my recommendation that both bids be accepted.

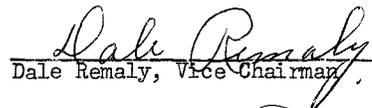

Mr. Paul Hamman

A discussion was held concerning the Paul Hamman property east of the By-Pass. No real progress could be made due to the fact that Mr. Hamman could not be present. It was the Boards feeling that Mr. Hamman needed to be present to express his views.

Upon motion by Edward Shaw, seconded by Bruce Osborn the Board adjourned.

Bruce Osborn, Chairman

Dale Remaly, Vice Chairman

Edward Shaw, Board Member

Attest:

Gladys Ridder, Secretary

THE REGULAR MEETING OF THE TIPPECANOE COUNTY DRAINAGE BOARD HELD SEPTEMBER 14, 1977

The tippecanoe County Drainage Board met in the Commissioner's Room at 9:15 a.m. with the following members present: William Vanderveen, Robert F. Fields, Bruce Osborn, Robert L. Martin, Kenneth Miller, Fred Hoffman, Grady Jones, Ethel Kersey, Mike Spencer and Gladys Ridder.

Minutes Approved

Upon the motion of Bruce Osborn, seconded by Robert F. Fields and made unanimous by Robert Fields, the minutes of the August 3rd and 15th, 1977 were read and approved.

New Hearing Arthur Rickerd Ditch

The only person to attend the hearing to increase the maintenance funds was Robert F. Fields who excused himself from the Board. He asked the Board to consider a \$3.00 per acre assessment in preference to the \$4.00 suggested assessment. He said his neighbors were unhappy with as much as \$4.00. Mr. Osborn moved to increase the assessment per acre on the Arthur Rickerd ditch to \$3.00 per acre. William Vanderveen seconded the motion. Mr. Fields abstained from voting because part of his land lay in this watershed.

The Chairman opened the new hearing on the Audley Oshier ditch by asking for the remonstrances that might have been filed. As there were none filed he then asked those in attendance how they felt about the increase and explained it was necessary because the ditch was in the red.

Those in attendance were: Mary E. Pflug, Elizabeth J. Briar, Arthur Hawkins, Lynn Hawkins, Mr. & Mrs. Audley Oshier, Leon R. Cyr and Bruce E. Conrad with Indiana State Highway Commission.

New Hearing Audley Oshier Ditch

The objection of most of those present was that no care had been taken to clean the open ditch and so much money had been spent without their knowledge. Some said they would like to pay whatever indebtedness was due then vacate the ditch. They discussed this prospect among themselves and Mr. Cyr voiced his feelings of leaving the amount at the present rate until they were out of debt and then petition the Board to vacate. Mr. Cyr asked Mr. Martin, the Surveyor where the money had been spent. Mr. Martin said he didn't know. Mr. Lynn Hawkins said he had watched W & W Contracting work and it took them a week to do what he felt should have been done in two days at the very most.

All agreed to follow Mr. Cyr's suggestion so the Board moved that the present rate be continued with the agreement that there would be no more work done on this ditch. William Vanderveen seconded the motion and Mr. Fields made it unanimous.

Dr. Robert Buker came before the Board with slides and drawings showing his findings on the Elmer Thomas Ditch that goes through his property and is adjacent to State Road No. 225.

Elmer Thomas Ditch

He asked the Surveyor to dig down and locate the blockage or to give him permission to dig down and try to locate the problem. Mr. Martin had given him a work order to do whatever he felt necessary. Dr. Buker brought with him some of the things he found. A piece of badly damaged 6 inch pipe and slides of the pea gravel that had been placed in the tile ditch. He also asked the Board to consider retribution for his expense in doing the digging as well as his lost crops damaged by a obstruction placed in the tile of the Elmer Thomas legal drain.

Mr. Hoffman told Dr. Buker that he would have to do a research of the law to see what could be done to help him. Dr. Buker had the Statutes before him and read the one he felt covered his situation.

Mr. Weast, from the Indiana Gas Company said the Gas Company felt they had no responsibility here for they had complied with the wishes of the County Officials at the time the installation was done. Mr. Hoffman asked which County Official would have given permission and he was not sure just who was involved. Dale Remaly was in attendance and said he had been a County Commissioner at the time the work was done and certainly had no authority to give permission to do anything on a State Highway Right-of-Way.

Mr. Hoffman said he felt it was a clear case of neglect on the part of the Indiana Gas Company and that they should correct the problem they caused. He said he would serve an order on the Gas Company to that effect and if the work was not done then he would sue by writ of mandate.

It was so moved to send an order to the Indiana Gas Company to repair the damage done by their company and to remove all obstructions. The motion came from Bruce Osborn, seconded by Robert Fields and made unanimous by William Vanderveen.

Harrison Creek

Dale Remaly spoke to the Board about taking a twelve inch fill out of Harrison Creek. Mr. Remaly said it would be approximately eighty rods that needed to be cleaned. He said the new Junior High School have asked permission to take their run off water through John Garrott's land then eventually it will reach Harrison Creek. Mr. Garrott had given the permission. Mr. Remaly asked the Board to please consider the cleanout in their budget in the near future for it was most necessary.

It was moved by the President for the Surveyor to take readings and make a full report back to the Board of the needs of Harrison Creek. Motion seconded by Robert Fields and made unanimous by Bruce Osborn.

John Fisher

John E. Fisher, Surveyor, appeared before the Board asking advice on what to do about the old John Boes ditch located in Wabash Township. He explained that many homes were built over the top of the old Boes ditch but that it was still a legal drain. John said his client has the intentions of developing part of the land in that area. The Board said they felt the wisest thing to do at this point was to petition to vacate. John thanked them for the suggestion.

John's second question was what to call the drainage project in the old Layden branch of the S. W. Elliott ditch. William Vanderveen suggested "The Layden Urban Drain" and all present agreed it would be a good name.

After establishing a new rate of assessment on the Arthur Rickerd ditch, the Board signed the "Order and Findings" and the "Certificate of Assessments".

With the days business completed, Bruce Osborn moved to adjourn. That motion was seconded by William Vanderveen.

February 4, 1987

February 4, 1987
Tippecanoe County Drainage Board

The Tippecanoe County Drainage Board met Wednesday February 4, 1987 at 8:30 A.M. in the Community Meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Chairman Bruce V. Osborn calling the meeting to order.

Those present were: Chairman Bruce V. Osborn, Board Member Sue W. Scholer, Surveyor Michael J. Spencer, Drainage Attorney J. Frederick Hoffman, and Executive Secretary Maralyn D. Turner. Others present are on file.

BRAMPTON APARTMENTSBRAMPTON
APRTMENTS

Dennis Grump engineer of Schneider Engineering representing Cardinal Industries, Inc. project Brampton Apartments. Mr. Grump turned the meeting over to Richard Bovey attorney as he is the counsel for Cardinal Industries, Inc. Mr. Grump also introduced Jack Cogley Land Representative, Bill Martin District Representative, and Don Thomas from Cardinal Industries, Inc.. Jack Southerland Director of Engineering Services and Bruce Nicholson Registered Professional Engineer from Schneider Engineering Corporation.

Richard Bovey attorney representing Cardinal Industries, Inc. the developer of Brampton Apartments Phase I. They are requesting the board to fulfill its commitment to the developer to issue final approval of the plans for the drainage for Phase I. The records of the hearings held June 1986, through December 1986, and January 7, and January 12, 1987 reflects that the board has basically committed upon one final condition to issue clearance for the development of Phase I provided the developer submit a petition to reconstruct the legal drain namely Branch 13. The developer has met these conditions, it did retain counsel, it did cause a petition for reconstruction to be drafted prepared to be duly signed and notarized by one of the effected landowners involved. Mrs. Janet Lanie, Trustee of Krick Land Trust who owns more than 10% of the land involved that petition was submitted and filed on January 29, 1987 in the surveyor's office at 3:50 P.M. They are now requesting final clearance from the board. The developer is very anxious to get along with the construction of Phase I. Phase I has approximately 4 acres. There are not other Phases being developed at this time.

Bob Gross from H. Stewart Kline Associates reviewed the storm calculations for the area, he had prepared a drainage map and stated that it is close to what Dennis Grump had presented. Mr. Grump agreed, however area 5, they had more area going back to the basin. Mr. Gross stated he used the rational method to get the predeveloped condition, came up with a Q 10 of 4.8 cfs. Mr. Gross stated that post development uncontrolled runoff would be 1.8 cfs, therefore the post development release rate would be 4.8 cfs minus 1.8 cfs uncontrolled leaving 3 cfs as their post development release rate from the basin. Mr. Grump's calculations showed 2.2, this was less than the 3. Storage volume would be 1.33 acre feet. Using that storage volume the depth would be about elevation 42.5. Dennis Grump stated that their invert where the water flows out was elevation of 40 and storing (about) to elevation 42.05, storing about 2 feet in the detention area. Mr. Gross said the only problem is with the out flow control device with that much head of 42.5 you are pushing down over the capacity of the tile. The way he arrived the capacity was from the ACS tile drain. Mr. Grump ask what he arrived at for the tile capacity? For a new tile capacity between 1.6 and 2.5. Mr. Grump stated that they were indicating under manning's equation for that type of material they were indicating a 2.58. Mr. Gross's concern is the amount of acreage draining into the tile, the minimum drainage coefficient is $\frac{1}{4}$ per 24 hours and the maximum area that will drain into the tile at full capacity would be around 200 acres. if he were to design a tile for 200 acres he would use $\frac{1}{2}$ " drainage code efficient which would put it into an 18" tile. The present tile is a 14". Question was does it drain more than 200 acres, the answer is yes Michael doesn't think there is 200 acres upstream from the development as the tile goes down stream it is obviously larger, 18" at the outlet. Mr. Osborn ask Judith Hammon how many acres she had in her development, she has 90 acres. Michael stated that what Mr. Gross has told us the predevelopment run offs are fine, after development are fine, detention basin is sized right, release rate is alright except what they have on the plans. Dennis Grump again stated the fact all understand that this is an agricultural tile and this is why Cardinal is committed to spearhead the petition in order to get something done. The area is beginning to develop and the drain will not be adequate for an urbanized situation. He doesn't disagree about the large amount of water in the area. Judith Hammon ask question. Not only is the area inadequate for development as she understands it if they are putting that much water into the tile in their holding pond, the acreage above that tile that uses the tile won't be able to do so. The development would be hurt from the first tile down flow, but the agricultural tile will have to hold water longer than what it usually does. Therefore it isn't only urbanization that is being the problem. Agricultural land is hurt too. Mr. Grump agreed to some degree with Judith Hammon, but it is important to look at the time frame with which the different areas contribute to the tile. Subsurface drains that the tile provides to the agricultural area typically the maximum capacity of that pipe is achieved approximately a day after the rain because the water is absorbed through the ground. In their situation they get a detention area and a direct link to the tile. In a matter of 4-6 hours are contributing and then it begins to decrease long before the agricultural drain or agricultural requirement is achieved. Bruce V. Osborn asked about reconstruction? Michael Spencer stated a petition has been received that is more than 10% of the watershed area. A hearing will have to be set, notify all landowners which will take 30-40 days, have the hearing, this could be 6 months to a year by the time engineering is completed and physically have the construction done. Judith Hammon ask if all the overland came to this pipe through Branch 13? She stated right now predeveloped all is overland water which flows onto her land. Schneider Engineering personnel stated not necessarily does the overland water go onto her land, just as it exists now. Judith stated they are getting overland water off of Haggerty Lane into her property. Will this tile system take care of the overland water? Answer was it was not designed to when it was installed. Surface drainage and subsurface drainage water can't get into the tile unless it seeps through the ground or has an open inlet. Judith ask what the development overland water was going to do with this system. The overland water in two basin would flow into inlets which does come back to an overland situation, but it is the same water that she is getting now. They will be solving the area in building the experience would be no worse that what it has been. The condition that is happening now is preventing Maple Enterprises from developing, this is a constant battle. Question is: This isn't a natural drainage course. It is a common drainage procedure handle offsite water.

Mr. Grump stated he was not saying that there would not be any overland water he is saying that the rate that it goes to Judith's land will be no worse than it is now. This has been explained above. Some of the area does go into the culvert therefore some is backed off and routing it back through the Brampton Apartment system. Sue W. Scholer ask how long it would take to drain their detention area? Take between 6-10- hours from beginning of rainfall. Judith Hammon is concerned about the overload on the branch. Until the branch is reconstructed this is a potential situation. Bruce Osborn ask if Ms. Hammon's land was on the west side of Ross. Property is on both sides of Ross. The thin narrow line between Ross Road and 38, then 70 acres on the other side to 52. Branch 13 and Wilson Branch of the Elliott ditch converge on her property. She is dealing with two watersheds. Judith explained that the overland water from the area in question goes under a 12' culvert under 38 and then spews openly onto a 13 acre strip between 38 and Ross Rd, at the present time it is agricultural, it either stands or eventually drains through Branch 13. Sue W. Scholer ask what total acreage was in the watershed? Michael is not sure how many acres are above 38 or below 38.

Mr. Hoffman stated that Mr. Bumbleburg is going to take his name off the petition for reconstruction and Richard Bovey's name as attorney will appear, a letter to that fact was attached to the petition. With these changes Mr. Hoffman found the petitions to be in order.

Sue W. Scholer stated the board is obligated to go on with Phase I, the board can not allow any more Phases to be developed until reconstruction of Branch 13 is underway. The board is addressing additional problems that are associated with development as it moves farther into the watershed area. Mr. Hoffman ask the total number of acres on the petition. Michael Spencer stated that the property owners who signed have more than 10%.

Sue W. Scholer ask about additional right of way was dedicated she wanted to know if it was 50' from the center line. Correct. There is a 100' total right of way for road reconstruction, at least 50' on their side. Mr. Cogley stated his engineers have told him they are going to allow for four lanes with ample room to construct. He stated they are a very short distance from road that merges with State Road 38 if there is an issue of necessary or increased roadway beyond project after preliminary approval he doesn't feel this is another issue that will affect their development. Mr. Osborn just wanted everybody to understand so if something happens later you can't come back and say we did not tell you.

Michael Spencer stated the only comment he might have which could be a personal one is: He would still like to see Cardinal petition even though they do not have 10%. Representative of Cardinal stated Cardinal Industries, Inc. filed the petition in the Recorders office 2/3/87. Michael J. Spencer's recommendation is that Cardinal Industries, Inc. not be allowed to outlet into the tile. Their surface run off and their release rate is less than their 10 year before development run off.

Dennis Grump commented that he had discussed this with Michael Spencer surveyor and George Schulte who at that time was with H. Stewart Kline and Associates about using the tile understanding that they had an agricultural tile and the detention would have to be provided. This discussion was back in 1986, it was decided to proceed that way. Drainage Board gave preliminary approval at that point they proceeded to use the tile and want to continue to do so.

Mr. Bovey ask to make a few brief comments. It is Cardinal's understanding after a fairly long process of going through repeated hearings that after the last hearing January 12, 1987 the only condition would be the submission of the petition for reconstruction of legal drain Branch 13. No other conditions. That condition has been filled and on file. They are willing to place it on record, Cardinal's signature. He felt it improper and certainly beyond commitment they do consider it to be a binding commitment made at the January 12, 1987 meeting with Cardinal Industries, Inc. and any new conditions be added with respect to final approval of drainage plan for Brampton Apartments Phase I. This was the only issue properly before the board today.

Mr. Osborn ask if he wasn't going to have problems with Michael Spencer's statement? Mr. Bovey said there was some mention that they couldn't use the outlet. If that new condition is thrown in now it will cause a whole new scheme. They don't feel this is appropriate or proper. Mr. Osborn stated, drainage isn't an ordinary element. You have to live together and give. Mr. Bovey stated Cardinal has been a very responsible developer. They have in good faith complied, but if conditions continue to be added to final conditions they will never get out of a never ending battle. This has gone too long and the developer is anxious to be a good neighbor. They are not out to hurt anybody down or up stream. It is obvious that there is an inadequate situation with respect to the existing legal drain. They are willing to cooperate and work with all people involved after a cost benefits study is done by the County Surveyor, they will do their fair share. They feel their 4 acres which is less than 1% will not create adverse impact upon any one.

Mr. Hoffman wanted to make sure that petitions had been signed. Cardinal Industries, Inc. has signed and there's was recorded the petition signed by Mrs. Janet Lanie has not been recorded, it is in the surveyors office.

Judith Hammon stated that 200 acres southeast of Lafayette are creating alot of drainage problems. A Task Force has been developed to address the problems in 1600 acres. Extensive research has been done. She isn't trying to stop the project, she is asking for a sense of responsibility. Mr. Cogley and a witness sat in her office as she tried to explain the problems. Mr. Cogley stated he didn't have the time nor did he care. She cares about the community and the development. It was her understanding and she will check with George Schulte as she understands he always advised against the use of agricultural tile for urban development. If thats how it is used a year before reconstruction there will be alot of problems. She feels the problems can be worked out, but the kind of cooperation from Mr. Cogley hasn't been satisfactory. She feels that we can't have 12 acres cause so many problems in a large area and act like no one else is around. She was ask in what way does she want cooperation?

Sue W. Scholer made the statement that everybody has to realize that there are many problems facing the board in the drainage area and they will have to be looked at differently. she feels that what Ms. Hammon is asking and the board would ask as well that once the approval is given your concerns and interest remain at the same level.

Sue W. Scholer moved to give final approval to Brampton Apartments Phase I drainage plans as submitted and petitions for reconstruction of legal drain Branch 13 be in and recorded.

Mr. Osborn apologized to Cardinal Industries, Inc., mistakes have been we are all human, it was an effort to stop Cardinal Industries to keep it in proper context only to save them money. After this statement Unanimous approval was given to the motion.

TWYCKENHAM

TWYCKENHAM
M

Robert Grove engineer representing Twyckenham Building Company requested Preliminary approval for drainage plans in residential area in the South portion of Twyckenham Estates. Northern portion contains Twyckenham Apartments is no longer in Twyckenham Building Company. It is held by the Lafayette Bank and Trust Company bank. Back in 1981 the whole design process with approval of all calculations at that time John Smith felt he would continue into the residential area with economy the project sat. The area is in the City as well as in the County. This will complicate things in some ways. Three basins are planned, one at the outlet point which is to the Ortman Legal drain across Ortman Lane it is an open ditch. They are reducing their flow down to 52 cfs through the detention system. Aslo picking three points up stream (offsite) for 10 yeare predevelopment flow conditions, they are not detaining, roughly a 100 cfs from offsite runs through the system. When they develop they have to detain and cut their flow down. when this was done it was based on a Master Plan instead of trying to piece meal. There is R-3 and R-1 even though it is in the County the potentials are there for the development. Main concern at this point is the process of vacating the Ortman legal drain. An area of main drain has been vacated, but the Ortman drain has not. Mr. Grove stated they are asking for preliminary approval of everything. Later they will come in and ask for final approval of Construction Plans on the first three sections at that time once work is completed they would like to have the drain vacated with surveyor inspecting, making sure that the tiles are tied back into the system properly. Nextion section would work same, eventually the entire drain would be vacated upon completion of the project. Michael Spencer stated there would be a problem of vacating a piece out in the middle of a legal drain or vacating an outlet of a legal drain and leaving it a leagl drain upstream. He has a problem with the stroage area on the plan, he realizes it will be in the City, but still a problem. He prefers one large basin down by the outlet structure at Ortman Lane. Like to see something done south of 300 south. In other words let's see something that shows the open channel on the south side of 300 sourth, this will handle the proposed runoff. Ortman drain is legal and has had no maintenance done. John Smith ask to make comment concerning the existing drain. The existing drain is not working very well it is full of dirt (for more). When they put in the new pipe with manhole so you can see in and be able to clean out with whats there now this can't be done. Sue W. Scholer stated that Michael is recognizing that system. They are going to have to study what will be happening later. Michael doesn't want something something happening down stream because of new flow and new pipe. He wants to make sure the downstream will be able to handle the flow that the developer will be putting in. Michael has not walked the drain. Mr. Smith stated it had plenty of flow line.

Mr. Hoffman stated he did not like the fact that they were going to have a ditch without a positive outlet. Control is a concern where there isn't a legal drain, it is Mr. Hoffmans recommendation that there be a legal drain through the entire area or vacate the whole thing. Mr. Smith ask since they were going to take the storm drain to County Road 50 East, the pipe being 36" they would be intercepting the two existing tiles with one being 10" and the other 8" run into 36" the people upstream should not object. The last time the developer came before the board they did not want to vacate the drain, this is the reason they were proceeding with the present system. Michael stated that all should be vacated. A petition to vacate will have to be presented and a hearing, this process will take approximately 2-4 months. They feel that there are only 3 property owners involved. Mr. Grove feels that there will be no problems this will help their drainage system later. Mr. Smith stated he really did not want to run a large pipe over to the ditch, but he has no choice.

Michael ask how the City felt in regards to the problem? Mr. Grove has gone through all the calculations with Mr. Callahan City Engineer, his comments were that he had no problems. His only concern was that the developer make sure they bring in South 9th Street at Ortman Lane (the storm water into the system). The way it is now it runs down side ditch. A letter was to have been sent to the Drainage Board from Mr. Callahan. The letter was basically to say they accept the plans and the concerns. Michael stated the plan does meet the Drainage Ordinance as far as run off and providing outlet upstream the only question City acceptance of plan and vacation of the legal drain, Ortman.

Sue W. Scholer moved to give preliminary approval on Twykenham Drainage Plans with the condition that the petition to vacate Ortman drain be filed and granted, and a letter be received from the City of Lafayette accepting the plan, unanimous approval was given.

ACTIVE DRAINS AND INACTIVE LEGAL DRAINS

ACTIVE
INACTIVE
LEGAL
DRAINS

Mr. Hoffman ask Sue W. Scholer to read the letter to the County Auditor in regards to ditch assessments for 1987. A list is compiled and on file in the surveyors office. Those ditches made active for 1987 assessment were: Train Coe, Thomas Ellis, Hester Motsinger, Audley Oshier, and Shawnee Creek. Ditches made inactive for 1987 were: Jesse Anderson, A.P. Brown, James Kirkpatrick, and John Saltzman.

Sue W. Scholer moved to send this notification to the auditor, motion carried.

ELLIOTT DITCH

ELLIOTT
DITCH

Mr. Hoffman presented a petition received from the Lafayette City Controller requesting the Auditor, Assessor and Treasurer of Tippecanoe County to petition the State Board of Tax Commissioners for Cancellation of Certain taxes on City property, a copy is on file. Mr. Hoffman stated this was on the streets and a couple pieces of property. Mr. Hoffman stated that the laws stated that the County Highway has to pay, therefore there are no exceptions for the City. His recommendation was that the petition be denied. Sue W. Scholer moved that based on the research done by Mr. Hoffman Drainage Attorney, not finding any legal reason to grant the petition the board deny the City's petition for removing real estate from the ditch assessments, unanimous approval was given. A letter should be sent to the City of Lafayette in regards to the denial.

VALLEY FORGE BOND

VALLEY
FORGE

Sue W. Scholer read and presented letter and bond for Valley Forge Phase II, Sec. I. This is for the addition of 14 lots. The board agreed to this only if they secured

a Construction Bond and petitioned for a legal drain, this has been done. A hearing will be set soon in regards to the petition. Bons is post for half the total cost on the detention basin.

Sue W. Scholer moved to accept the Construction Bond secured by Depoist from Tippecanoe Development Corporation for Vally Forge Phase II, Sec. I as submitted, unanimous approval was given. Mr. Hoffman ask that the board have the bond recorded and present it to the Auditor.

After discussion in regards to a form for Secured Deposit Bonds the board ask Mr. Hoffman and Mr. Joseph Bumbleburg to work together in forming a Standard Form for Secured Deposit Bonds.

ELLOITT
DITCH
TASK
FORCE

ELLIOTT DITCH TASK FORCE

Sue W. Scholer announced that the next meeting would be March 9, 1987 at 9:00 A.M.. They would like to set the week of March 16, 1987 for a hearing, with Michael setting the final date and use the Fairgrounds. Sue had a rough cover letter to send with the Notice of Hearing. They will present slides at the hearing as the video they are preparing will not be completed at that time. The rough cover letter was sent by Sue's request to some members of the Task Force on Wednesday, February 4, 1987, a copy is on file.

The board discussed the presence of George Schulte County Engineer, in the Drainage Board meetings. They feel that since he is most familiar with the Drainage Ordinance and his involvement with the County Highway he should receive the agenda and attend the meetings.

There being no further business the meeting adjourned at 10:10 A.M.

Bruce V. Osborn

ATTEST: Maralyn D. Turner
Maralyn D. Turner, Executive Secretary

TIPPECANOE COUNTY DRAINAGE BOARD
WEDNESDAY, DECEMBER 2, 1987

The Tippecanoe County Drainage Board met Wednesday December 2, 1987 with Chairman Bruce V. Osborn calling the meeting to order at 8:30 A.M. in the Community Meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana .

Those present were Eugene R. Moore and Sue W. Scholer Boardmembers, J. Frederick Hoffman Drainage Attorney, and Maralyn D. Turner Executive Secretary, others present are on file.

VALLEY FORGE

Robert Grove engineer representing developer of Valley Forge stated he has had review processes with George Schulte and Michael Spencer, changes have been made in the inlet configuration. He ask to continue this till the January Board meeting and ask for final approval at that time.

Sue W. Scholer moved to honor the request of continuance till the January meeting, seconded by Eugene R. Moore. Unanimous approval given.

SHERWOOD FOREST III

Robert Grove engineer representing Chuck Sherwood requested preliminary approval of drainage plan for Sherwood Forest III consisting of 11 acres. Mr. Grove stated meetings have been held in regards to the drainage plans, two meetings were with the board and the other was with Mark Houck drainage consultant and Michael Spencer. He presented a revised submittal with the detention basin from what had previously been submitted. Previous submittal was a dry bottom basin that only handled the flow from the proposed subdivision. Concerns are with the downstream people of what they are and how they are handling the water. After talking with Mr. Sherwood it was decided that everyone would benefit if they made an effort to retain or detain water from the entire watershed. Proposal now is to handle all the waters of the undeveloped area from the 79 acres from the 164 acres, 164 acres does not have direct run off it has to through the road culvert system. How this effects the downstream area is not certain. The 79 acres does have a direct routing to the subdivision. Mark and Michael had two concerns: 1. The developer show they are handling the additional runoff from the 100 year storm in the developed area. 2. Some idea to the generation of hydrograph of what is going up stream. Mr. Grove presented study.

They are proposing to reduce run off from a peak of around 18 cfs to 2 cfs. The second thing they are looking at a wet bottom basin which would be a permanent pool (lake), reason for doing this they would get much more volume by starting from a flat surface from wet bottom. Second consideration was to contain everything in the 79 acres plus additional flow from the subdivision south. They chose a 15 cfs outlet which is a combination of 12 inch pipe which is put in to handle the subdivision with an elliptical pipe to handle the upstream area. Mr. Grove explained the permanent pool elevations. A dyke would be built 30 feet across the base which would help to elevate problems downstream, this will some point and time overflow, it will effect the peak flow that the people downstream will see from the entire watershed. They feel this will help everyone. Mr. Grove ask the board to consider the ordinance requirements that they are to reduce only the flow from the development itself. He pointed out the natural swale area.

Mr. Hoffman asked how deep will the water be? Answer 6 feet deep was proposal could be deeper.

Mr. Hoffman asked if a fence would be around the lake? No. Mr. Grove stated it was not a requirement on that type of lake. Construction plans have bank treatment around lake, there will be safety shelves. This will be presented in final plans.

Tom Jordan homeowner representing himself and other homeowners in Sherwood Forest stated he and the neighbors have concerns about the proposal. The memo of November 16, 1987 to the Drainage Board in second paragraph is concern.

They had Mr. Dan Pusey look at the plans, because of illness in Mr. Pusey's family he was unable to attend today's meeting. Mr. Jordan submitted notes of Mr. Pusey's concerns in his study of the plans. They are:

1. It is obvious to me that the reason for a permanent pool is that Mr. Sherwood needs soil to build up pad elevations for the new house sites. (This is just a statement).
2. No information is given relative to the proposed depth of the permanent pool on outlot #1.
 - a) One should question the depth.
 - b) the safety of a pond in this local.
 - c) who is going to maintain the storm water storage facility.
 - d) is it going to be deep enough for prevention of a eutricification.
3. They did not address the relative elevations of adjoining properties immediately South of OL-4-3&2. The relative pad elevations (Minimum floor elevations) should not be higher than yours. No information provided as to your protection.
4. The present flood way is being constricted by the new fill proposed for building sites. Has this decrease in potential storage been addressed in the Pool storage area.
5. The only reason I can see for digging a pool is the need

- for dirt. Economics of construction. A dry bottom storage facility would be safer, but more costly to develop due to the need to haul in fill dirt.
6. I wonder if the half foot protection grade above the spillway grade is adequate to hold back flash runoff. I was always taught that 18"-24" was needed for what is termed free board. What is the capacity of the spillway before total overspill.
 7. No dimensions on drawing?
No North arrow on drawing?
No scale on drawing?
No vicinity map.?
 8. What is flow rate of spillway before total overspill?
Will 52" CMP and ditch carry the outlet pipes plus the spillway?

Mr. Jordan stated the property owners concerns are the safety of the pond and in number 2 b,c, and d. The third one is one of his personal concern and interest. They did not address the relative elevation of the new properties in relation to adjacent homeowner properties. He is immediately South of Lot 4. Concern is elevation which Mr. Jordan has addressed the board in an earlier meeting which is on record. It is a concern of other property owners. Again Mr. Jordan requested a study to be made.

Again Mr. Jordan stressed the concern in regards to the pond in safety, health, and hazards.

John Schwab property owner representing himself and other property owners. His concern was the runoff of the subdivision with the new holding pond. Another personal concern is: What kind of protection does the property owners have against their property becoming a swamp?

Mr. Jordan asked is it legal to build up land to create a low spot in neighborhood? Mr. Hoffman stated he did not think there was anything wrong with building land up as long as water doesn't run on someone else.

Mr. Jordan is not satisfied with proposal.

Mr. Jordan asked the board on behalf of his neighbors and himself to address the eight points of Mr. Pusey's and his concerns. He stated he has talked to all the neighbors and there is no one against Mr. Sherwood developing. They are not here to stop development, but want their concerns addressed.

Michael Spencer left notes which Mr. Osborn read. His concern: Need to prove that the lowest pipe from the lake will detain the water from the development (per the Ordinance) before the upper pipe begins to run water.
Free board rip-rap etc, maintenance of water level, and water fall.

Mr. Grove addressed some of the questions, after much discussion. Mr. Jordan asked who would maintain? Mr. Grove stated that the Homeowners Association of Sherwood III would.

After much discussion, Sue W. Scholer moved to have Michael Spencer, and Mr. Grove meet with the property owners and continue this meeting Friday, December 11, 1987 at 8:30 A.M.

Mr. Spencer is to contact Mr. Jordan for meeting date.

PARKER DITCH/200 South

George Schulte gave report on 200 South and Parker Ditch. He had attended meeting with Utilities, County Highway Department, Indiana Department of Highway, Department of Commerce and other people involved with Parker Ditch project. The County Highway Department is getting involved in it due to requirements of drainage with the new roadway. Planning to improve 200 South from 475 East to Dayton Road. At this time talking about existing capacities that will be provided in the proposed Parker Drain. It is his understanding that S.I.A. is limited to a certain release rate approximately 180 cfs, he isn't sure of the exact numbers. There is an access of approximately 50 cfs in the proposed Parker drain, it goes from a 66" to 72". In order to build a County Road 200 South an outlet will be needed. A study is being made of what the County's needs are. The thing that concerns Mr. Schulte is the 72" pipe going in it is going straight, the out flow and possible developments for anybody in the same area. The capacity of 50 cfs isn't much. He doesn't know what the watershed area is. He is guessing 200-250 acres. Mr. Schulte's recommendation to the property owners in the area would be to put an open channel from the Interstate to County Road 650 East. Grant it the channel is going to be deep, going to take a lot of right-of-way or easement for maintenance, but there will be adequate capacity to provide for future development, and to give adequate drainage off of property. Another concern is the area lying to the Northeast of the Interstate and North of 200 South which Mr. Carr is involved. It needs to be considered to, make sure that has an adequate outlet. When you start putting pipe structures in that pretty well restricts what you can do unless it is more economical. Usually as a general rule it is more economical to go in with an open channel than it is with pipe. Presently they are utilizing the 72" pipe having excess capacity with about 50 cfs more than the S.I.A. requirements. He feels this may create some problems for the future development occurring in that area. He feels the best way to address that is possibly increase the size of pipe underneath the Interstate, and provide an open channel east of the Interstate rather than the pipe structure to County Road 650 East.

Mr. Osborn asked if there were other questions.

Mr. Osborn stated: What Mr. Schulte is stating there isn't going to be much excess

capacity. Correct. Mr. Schulte stated even if the area develops and complies with the Drainage Ordinance they will still have a hard time obtaining adequate drainage. Mr. Schulte stated what needs to be proven is that the excess capacity is at least adequate for future development. Some drainage problems would be created like alot of ponding, water standing, etc.

Kelly Carr commended Mr. Schulte on his report and thanked him for looking at the future in a long range view point on the project.

Mr. Schulte stated it is a fine line when you get a development coming into the community. How far and what are their responsibilities as far as providing and eliminating existing problems. There is an existing drainage problem there now. You may not know it now, but if you over develop the property you soon find out there are problems. Again there is a fine line of how much we tell I.E.D.C. what we want done. From his stand point and as far as the County is concerned we would work with I.E.D.C. and pay our fair share to make sure that we have an adequate outlet through the Parker Ditch. Mr. Schulte stated that the pipe was put in to serve S.I.A. only. The County is looking at resolving some other problems, therefore the county wants to say to I.E.D.C., "Hey we have other problems and want to resolve at the same time you are providing a positive outlet for S.I.A.". Mr. Osborn stated which was caused by S.I.A. in the fall out process. Mr. Schulte stated basically you might say this, but at some time or other it would occur. It has come to a head quick because of S.I.A.. Mr. Schulte stated what is there now is a surface outlet.

Mr. Carr stated he would like to hear what Mr. Frauhiger has to say in regards to Mr. Schulte's recommendations. Mr. Frauhiger stated he didn't totally agree with everything said, therefore he would rather not make any comments.

STATE ROAD 38/I-65

Allen Egilmez representing Indiana Highway Department stated the board has the calculations and what he wants to present today is Alternates to the Areas.
Area A

Area starts from future 475 East west to Elliott ditch. Three alternatives were submitted:

1. Storing water to 100 year storm runoff in the ditches. The way the ditches were designed they were not able to handle the runoff.
2. Considered Vaughan's property on North side of 38 close to Elliott ditch at the end of the drainage path where they would like to put detention ponds. Problems with the easements and the narrow strip left in and came in with a pond they would end up taking the whole property, even though they would not be using the whole property for the detention pond. This would result in property damages on the North side of 38.
3. Mrs. Louise Schroeder on south side of 38 at the end of the drainage path, the drainage flows from 475 East down to Elliott ditch. They got as close to Elliott ditch outside the 75' easement to build a detention pond. They made it long and narrow in order to provide her frontage and minimize the damage on her property. Calculations were included in the last packet presented.

Area B

The area had three areas.

1. Triangle SR 38/CR 475 East and Elliott Ditch. Drainage area starts at the West ramp entrance along 38 all the way to County Rd 475 East. Problem with the area which was appropriate location, was routing the water from the east side of Elliott ditch over to the pond and then back to Elliott ditch. More or less a pump station would have to be built to get the water to the triangle.
2. Between SR38 & RR east of Elliott ditch North of 38 (SIA property). Ponds along SR38 on both sides, this would result in multiple ponds, this they want to get away from because of maintenance.
3. Ditches. Would be able to store 100 year storm water runoff within the ditches because of the length of the ditches.

Area C

Area of the Interstate.

1. Interstate loops. Problems of liability caused by standing water inside the loop, outlet problems, limited depth in the loop, multiple ponds much lower ditch elevations.
2. North of County Road 200 South. Not enough area without pond extending over Parker ditch. Larger pipe under 200 South.
3. Ditches along I-65. Would require more right-of-way along I-65. Not able to back up water because of pipe at M mile Marker 169. Not able to store 100 year runoff with standard ditches.
4. S.I.A. In the agreement the existing ponds would be filled in for future plan expansion. New Detention ponds was needed S.I.A. offered ditches along I-65, however not able to handle 100 year storm runoff would jeopardize S.I.A.'s ISPCB

permit as water is monitored and can't use 66" outlet pipe. New pipe under 200 South resulted in larger pipe at I-65. Main reason they didn't build on S.I.A. property is that 87% of the drainage area is on the east side of the Interstate. If the detention pond was put on the west side there would be a problem of rerouting water back across to pond where the water is being monitored..

This concluded Mr. Egilmez presentation.

Bruce V. Osborn stated the Department of Highways has fulfilled their obligation relative to the Ordinance. Mr. Osborn asked for questions.

W. Kelly Carr and Lewis Beeler asked questions and they were answered by the representatives of Indiana Department of Highway.

W. Kelly Carr asked the Drainage Board to have Michael Spencer to check the acreage as he feels the acreage isn't accurate. After checking figures and if it is found that the figures are correct and if the Board would approve the plan, the Board should ask them to include in their arrangement the opportunity for Mr. Carr to drain water through the detention pond into the pipe to the north and they should be instructed to give Mr. Carr a written agreement to this effect. Mr. Frauhiger stated that he and Mr. Carr need to pursue that further.

Area C addendum states that Mr. Carr's property has access to a positive outlet to Parker Ditch through Department of Highway he detention pond for the 10 year undeveloped flow. When Mr. Carr develops the property he will be responsible for building a pond system to detain the 100 year storm. Discussion continued.

Loren Schroeder representing his mother Louise Schroeder asked the representatives questions and expressed their concerns of maintenance, damages, the 75' easement, and turning the pond around the narrow end being to the front. State Highway representatives answered questions asked.

Mr. Schroeder asked if Elliott ditch was going to be recut and have enough volume to drain all the adjoining land. Mr. Osborn and Sue W. Scholer stated that a Task Force is studying the Elliott ditch and it is 80% completed. Upon completion a report will be submitted to the Drainage Board.

Eugene R. Moore asked Mrs. Schroeder if she had had all her questions answered. She stated that at the present time she has no drainage problems and she has great concern of having problems in the future with the changes being made. The 75' foot easement, maintenance and damages she was instructed by Mr. Egilmez to put them in writing and send her concerns to the District office. Mr. Frauhiger wants to meet with Mrs. Schroeder and have discussion in regards to field tiles.

Mr. Osborn stated taking, in consideration of Mr. Carr and Mr. Beeler's statements, in concern about the mileage, the total acreage he entertained a motion for approval of plans submitted by the Indiana Department of Highway.

Sue W. Scholer moved to give Indiana Department of Highway approval for the final drainage plans submitted contingent upon Michael Spencer's confirming acreage and mileage to Mr. Carr's property as being correct, seconded by Eugene R. Moore. Unanimous approval.

OSHIER DITCH

OSHIER DITCH

A letter received from Audley Oshier signed by Bernice Hawkins etal, Gene Brummet, Lynn Hawkins Trust Farm by Wayne Buck requesting an added tax be added on the present rate of .50¢ per acre assessment. The Oshier ditch needs to be finished up on a clean out as existing tiles in some areas are beneath the existing ditch bottom. The letter ask the board to give this immedaite attention to prevent future crop damage. The board will set a hearing date in early 1988 and act accordingly. Letter was dated November 9, 1987.

There being no further business to come before the board, the meeting was recessed at 10:40 A.M. and will reconvene Friday, December 11, 1987 at 8:30 A.M.

ATTEST: *Maralyn D. Turner*

Maralyn D. Turner, Executive Secretary

TIPPECANOE COUNTY DRAINAGE BOARD
WEDNESDAY, JANUARY 6, 1988

The Tippecanoe County Drainage Board met Wednesday, January 6, 1988 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana 47901.

Chairman Bruce Osborn called the meeting to order at 8:30 A.M. with the following being present: Eugene R. Moore and Sue W. Scholer Boardmembers, Michael J. Spencer Surveyor, Mark Houck Drainage Consultant, J. Frederick Hoffman Drainage Attorney, and Maralyn D. Turner Executive Secretary. Others present are on file.

This being the first meeting of the year Chairman Osborn ask Mr. Hoffman to preside over the meeting to conduct the election of officers.

Mr. Hoffman asked for nominations for Chairman, Sue W. Scholer nominated Bruce V. Osborn Chairman, seconded by Eugene R. Moore, there being no other nominations Mr. Osborn was elected Chairman of the Board.

Mr. Hoffman asked for nominations for Vice-Chairman, Sue W. Scholer nominated Eugene R. Moore, seconded by Bruce V. Osborn, there being no further nominations Eugene R. Moore was elected Vice-Chairman of the Board.

Sue W. Scholer moved to appoint J. Frederick Hoffman Drainage Board Attorney, seconded by Eugene R. Moore, unanimous approval.

The Board had agreed to have Mark Houck as Drainage Board Consultant.

Sue W. Scholer moved to appoint Maralyn D. Turner as the Executive Secretary of the Drainage Board, seconded by Eugene R. Moore, unanimous approval.

Mr. Hoffman read the Active Ditches for the year of 1988.
E.W. Andrews, Julius Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, M.W. Box, A. P. Brown, Buck Creek (Carroll County) Train Coe, County Farm, Darby Wetherhill (Benton County), Christ Fassnacht, Marion Dunkin, Christ Fassnacht, Issac Gowen (White County) Martin Gray, Thomas Haywood, E.F. Haywood, Harrison Meadows, Lewis Jakes, Jenkins, James Kellerman, Frank Kirkpatrick, John A. Kuhns, Mary McKinney, Wesley Mahin, Samuel Marsh (Montgomery County) F.E. Morin, Hester Motsinger, Audley Oshier, Emmett Raymon (White County) a letter of January 5, 1988 is on file from White County requesting ditch be active, Arthur Rickerd, Abe Smith, Gustavel Swanson, Treece Meadows, Wilson-Nixon (Fountain County) Simeon Yeager, S.W. Elliott, Dismal Creek, and Shawnee Creek.

Ditches which have been inactive and need to be made active are Jesse Anderson, Dempsey Baker, Floyd Coe, Shawnee Creek.

Inactive ditches John Amstutz, Delphine Anson, Newell Baker, Nellie Ball, A.P. Brown, Alfred Burkhalter, Orrin Byers, Grant Cole, J.A. Crips, Chas Daughtery, Fannie Devault, Jess Dickens, Thomas Ellis, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Fred Hafner, E.F. Haywood, George Ilgenfritz, George Inskeep, Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, James Kirkpatrick, Calvin Lesley, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Starrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohay, John VanNatta, Harrison Wallace, Sussana Walters, William Walters, McDill Waples, J&J Wilson, Franklin Yoe.

Luther Lucas ditch is made inactive and to be combined into the Dismal Creek ditch.

Mr. Osborn asked if first and second alternates could be appointed to be representatives for Tri-County ditches? Mr. Hoffman advised the board to go ahead and appoint them, if this isn't proper action can be taken later. The following representative and alternates were appointed for the following ditches.

Hoffman ditch, Eugene R. Moore, Sue W. Scholer was appointed first alternate and Bruce V. Osborn second alternate.

McLaughlin ditch, Bruce Osborn, Eugene R. Moore first alternate, and second alternate Sue W. Scholer.

Michael stated he had received a letter from Benton County in regards to the Darby Wetherhill ditch and he asked the board to appoint a representative and alternates for this ditch.
Sue W. Scholer is representative, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Otterbein Ditch representative will be Sue W. Scholer, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Michael asked that the Secretary send letters to each county informing them of the appointments.

Michael Spencer presented a Petition received from Purdue Research Foundation to vacate a portion of the Dempsey Baker Ditch lying south of the north right-of way line of County Road 350 North and lying in the east half of the southeast quarter, Section 1, Township 23 North, Rge 5 West, and the North 50 acres more or less of the West half of

January 6, 1988 Drainage Board Meeting Continued

the south west quarter, Section 6, Township 23 North, Range 4 West, all in Wabash Township, Tippecanoe County, Indiana.

Michael stated a hearing date would have to be set when assessment list is received.

Bruce Osborn asked where they were going with the water? Michael stated he felt it was through holding ponds then metered out to the same place it has always gone, Hadley Lake.

Bruce Osborn stated the board has never vacated a portion where it still drains through the existing legal drain. Mr. Hoffman answered no, if they are going to use the drain they can't vacate, if they are not going to use it then it can be vacated. Mr. Hoffman stated there would be a question of taking them out of the Watershed in regards to assessments. They will still have to pay their assessment as they are remaining in the watershed, the Purdue Research should be notified of this. If this is for the upper end this will help. Mark Houck stated there is a problem of metering at the same rate, but it will increase the volume of water going to Hadley Lake. They will have to meet the ordinance.

Many questions need to be answered before action is taken.

VALLEY FORGE

Valley Forge

Michael J. Spencer informed the board that a letter of Credit for \$62,000.00 to cover half the cost of installation of the permanent drainage system, this was through Tippecanoe Development Corporation. Roy Prock is new owner of Valley Forge he wants to substitute a new \$62,000.00 letter of credit for the other one since he is the new owner. Michael has talked with Mr. Hoffman there will be no problem to do this, accept the construction bond needs to be secured for deposit for Mr. Prock just like originally had been presented by Tippecanoe Development Corporation before the old one can be released and except new one from Mr. Prock. Mr. Hoffman stated they will have to present an agreement along with the Letter of Credit then the other can be released.

MEETING TIME CHANGE

Eugene Moore moved to change meeting time of the Drainage Board from 8:30 A.M. to 9:00 A.M., seconded by Sue W. Scholer, motion carried.

JOHN HOFFMAN DITCH

JOHN HOFFMAN DITCH

Bruce Osborn called the meeting to order at 9:15 A.M.

Tri-County Board representatives are Eugene R. Moore Tippecanoe County, William Lucas Clinton County, and Charles Sutton Carroll County.

Mr. Hoffman conducted election of officers.

William Lucas nominated Eugene R. Moore as Chairman, seconded by Charles Sutton, there being no other nominations Eugene Moore was elected Chairman.

Eugene R. Moore nominated William Lucas as Vice-Chairman, seconded by Charles Sutton, there being no other nominations William Lucas was elected Vice-Chairman.

Eugene R. Moore nominated Maralyn D. Turner as Secretary, seconded by Charles Sutton, there being no other nominations Maralyn D. Turner was elected Secretary.

Mr. Hoffman was chosen to serve as the Attorney for the board when the board was first formed, he will continue to serve.

Mr. Osborn thanked the property owners for coming to this informal meeting. He informed them that nothing would be decided officially, it is an opportunity for the property owner to see what has happened up to this time.

After Michael J. Spencer presents the project questions may be asked.

Michael J. Spencer, surveyor introduced those present Maralyn D. Turner, Secretary, J. Frederick Hoffman Attorney, Sue W. Scholer, Bruce V. Osborn, and Eugene R. Moore Tippecanoe County Commissioners, William Lucas Clinton County Commissioner and Neal Conner Clinton County Surveyor, Grover West Carroll County Surveyor, and Charles Sutton Carroll County Commissioners, and Mark Houck Tippecanoe County Drainage Consultant.

Mr. Spencer presented Construction Estimates in Phases I, Alternate I, Alternate II, Alternate III, and Alternate IV, and Phase II. This estimate was done by Robert Gross engineer with Stewart Kline and Associates.

Mr. Spencer asked for questions.

Bob Power asked if there was tile in there at the present time? Answer yes, Phase I the tile would come out. Alternate I would be to dig the tile out approximately 6" below the existing tile, under Alternate II lowering it 4'. This is to gain grade. The area being discussed on the ditch is at 900 E.

Lola Harner asked how are you digging 4' and stopping at 900 East wouldn't you have to continue on west? Michael answered they would have to continue west of 900 East, this wouldn't be to far west as the ravine system drops off.

Mr. Power asked if a bridge would have to be put across 900 East? Michael stated they

felt the culvert was the right size and would carry the water, it is just too high.

Mr. Power asked if a tile could be put in without tearing up the road? Michael stated he did not think this could be done without tearing up the road.

Mr. Moore asked how many acres in the watershed? Total acres 2420. There may be a difference of 80 acres, this would be checked.

Mr. Power asked how much is coming out of maintenance fund? There is no maintenance fund on the ditch at this time, if a tile hole breaks it is up to the landowner to do the repairs.

Jesse Barr asked would the soil change? Answer the dirt will not be changed, just better drainage. Mr. Barr asked if the ditch was going to be the same size at 1025 East. Answer at the road 1025 108" round pipe, two 72" round pipe, two 84" and at 900 East 14'10" X 9'1" structural plate pipe arch.

Neal Dexter asked how much water will come down into Coffee Run ditch. Michael stated the same amount of water would be coming down. Mrs. Harner and Mr. Dexter were concerned about the erosion and damage.

Mr. Hoffman asked if there was a positive outlet. Answer it goes into a ravine system that eventually gets to the Wildcat creek. Mr. Hoffman asked how far from the end of the legal drain to the Wildcat. Answer give or take one and half to two miles.

LaVonne Scheffee had concern of gravel and the culvert being closed shut. Michael stated this is the reason he has pointed out the culvert sizes at the different road crossings.

Elwood Burkle asked that the cost be discussed. Mr. Spencer pointed out that the last page of the estimate summarizes the cost.

Mr. Spencer explained the Indiana Drainage Codes to the landowners. The decision is made by the property owners.

Mr. Barr asked who is responsible for drainage on property? County is responsible for the road crossings, property owners is responsible for drainage on their own property.

Elwood Burkle asked what depth would tile be? Answer some of the cuts would be 10-11 feet deep from the existing ground. Banks would be a lot higher than they are now. Michael stated at 900 East 1/4 mile east it is 5 feet below the bottom of the existing water way.

Mr. Hoffman stated the property owners should consider extending the legal drain down to the Wildcat to maintain the valleys, as there is problems if you don't have a positive outlet especially one with this size. There is no control over the valleys as it is now. He felt this would not add that much to the cost.

Jerry Frey stated he is constantly fixing blow holes. It is getting continuously worse. They are finding that the tiles are shifting. He feels the major problem is at the outlet. It has been severely neglected. There are tree roots and tiles that have floated up out of the system. He feels the first thing to do would be fixing and opening up the outlet.

Mr. Power asked in the estimate has consideration been taken in the area west of 900 East? No. Mr. Power felt this would be essential. Michael answered until a legal drain is extended down that way they can't do anything with it, they can do some corrective measures directly downstream from the road. He has to work with the starting and stopping points of the ditch, this is what he had to work with.

At this point Mr. Hoffman explained the procedures of making legal drain west of 900 East.

Malcomb Miller stated he agrees with Jerry Frey's statement. Mr. Miller's concern is the hardship the assessments would make for the property owners.

Jerry Frey stated they can't seem to hold the blow holes, each spring they are back and bigger holes. Mr. Frey doesn't know what causes this except another ditch was added about four years ago this makes more pressure from the upland it's coming down in such a velocity causing the problem.

Debbie Lineback asked what kind of time frame are you talking about as she carried petition in 1982. Mr. Hoffman stated it probably wouldn't take the time that he did previously.

Mr. Moore asked the feeling of the property owner.

LaVonne Scheffee asked if there was any rules in regards to health and sanitation? Thirty years ago when they purchased their property you couldn't jump over the ditch, now there is refrigerators and other debris making the ditch level. She doesn't understand why the farmer doesn't have to keep it cleaned out. She complained about the road grader grading gravel making a wall at the ditch.

Mr. Osborn stated the board is powerless in regards to debris in the ditches until there is a maintenance fund set up. Maintenance fund is needed.

January 6, 1988 Drainage Board Meeting Continued

Jerry Frey asked who has authority? Mr. Hoffman explained the board is the authority.

Mr. Frey is for starting a legal drain with a maintenance fund, but he feels that the money should be brought forward to be spent on opening up the outlet and fixing the main tile. Try to get by with what they have with maintenance.

Malcomb Miller supports Mr. Frey's statement.

Mr. Moore asked Michael if a maintenance fund could be set up and just clean or does it come under reconstruction?

Michael stated they would be maintaining what there is now.

Mrs. Scheffee asked how this would help? Mr. Hoffman stated it would be taking the ditch back to it's original condition.

Mr. Lucas asked if there was an estimate for a maintenance clean out? NO. Michael felt it would just take a week to get an estimate put together. Mr. Lucas stated it would probably take two years to get a maintenance fund set up. Michael stated for a few years the fund could be set at a high figure and then lowered.

Debbie Lineback stated when she carried the petition around and 80-90% of the property owners stated it should be an open ditch, it never worked from day one.

Elwood Burkle stated that those living north and east of the Clinton and Carroll County line would receive no benefits by opening the bottom portion yet they would be paying for it. There are too many obstruction.

Dale Fossnock stated: His ancestors stated that when the ditch was put in, it never worked.

Glen Kelly stated there were six of them that worked on the ditch where the tile comes out. This was 30 years ago.

Mrs. Glen Kelly stated it cost her \$100.00 to get a petition in 1982 out of her pocket. She was informed that there is a standard petition form now and there would be no cost for the petition. Mrs. Kelly stated they have willows and to get rid of them the water has to be taken care of.

Glen Kelly stated there are two 6" raises in the ditch, one is on the Bogan property and the woods.

Question was asked was it constructed that way? Yes. When the ditch was built it was built by the people.

Michael stated the grade can be checked.

Mr. Barr would agree to keep the water going.

Mr. Scheffee stated when they first came to the area there were no problems he feels it has to be open all the way.

Mrs. Kelly stated they have two ponds on their property, water is over the road most of the time, getting out is a problem most of the time. Even when it was dry this summer it was wet.

Mrs. Harner stated this has been a problem for many years.

Mrs. Scheffee stated a lot of the problem was created when 900 East was reconstructed.

Grover West asked how many small acreages were in the watershed. His concern is the break down in lots and acreage.

Mrs. Harner stated the assessment doesn't seem fair.

Kenneth Walker stated there is peat in the area of the Ford property, reason for so much water in the area.

Neal Conner stated that it would be spring of 1989 to get a maintenance fund in to affect.

After much discussion Mr. Spencer asked for show of hands.

Phase I Alternate I, Phase II Dig Open ditch up to where the two branches come together and tile system. Approximate Cost \$200.00 acre. Vote 7.

Open Ditch all the way. Approximate Cost \$242.00 per acre. Vote 8.

Maintenance. Assessment per acre to be set possible classifications. Vote 5.

The vote going for an open ditch all the way Mr. Spencer will get estimates and hold another meeting to present findings to the property owners.

There being no further business the meeting adjourned at 10:30 A.M.

TIPPECANOE COUNTY DRAINAGE BOARD
WEDNESDAY, JANUARY 4, 1989

The Tippecanoe County Drainage Board met in regular session Wednesday, January 4, 1989 at 9:00 A.M. in the Community Meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana.

The meeting was called to order by J. Frederick Hoffman, County Attorney for the reorganization of the Drainage Board for 1989. Those present were: Bruce V. Osborn, Eugene R. Moore, Sue W. Scholer, Michael J. Spencer, J. Frederick Hoffman, and Maralyn D. Turner, others in attendance are on file.

Mr. Hoffman asked for nominations for Chairman of the Board. Bruce V. Osborn nominated Eugene R. Moore as Chairman seconded by Sue W. Scholer, there being no further nominations Eugene was elected Chairman of the Board.

Mr. Hoffman asked the newly elected Chairman Eugene R. Moore to preside over the meeting.

Eugene Moore asked for nominations for Vice-Chairman, Bruce V. Osborn nominated Sue W. Scholer for Vice-Chairman, seconded by Eugene R. Moore, there being no further nominations Sue W. Scholer was elected Vice-Chairman.

Eugene R. Moore asked for nominations for Secretary, Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Eugene R. Moore, no further nominations from the floor for secretary Maralyn D. Turner was elected.

Bruce V. Osborn moved to appoint J. Frederick Hoffman as Drainage Attorney for the year 1989, seconded by Sue W. Scholer, unanimous approval.

Mr. Hoffman read the Ditch Assessments for Active and Inactive ditches. The following ditches being Inactive for 1989 are: John Amstutz, Jesse Anderson, Dempsey Baker Newell Baker, Nellie Ball, A.P. Brown, Orrin Byers, Floyd Coe, Grant Cole, J.A. Cripe, Fannie DeVault, Jess Dickens, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Geo Ilgenfritz,

George Inskeep, Lewis Jakes, E.Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, John A. Kuhns, Calvin Lesley, Luther Lucas, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm. A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, Lena Wilder, J&J Wilson, Franklin Yoe.

The following ditches read are Active Ditches: E.W. Andrews, Delphine Anson, Juluis Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, N.W. Box, Buck Creek(Carroll County), Train Coe, County Farm, Darby Wetherill(Benton County), Marion Dunkin, Crist/Fassnacht, Issac Gowen(White County), Martin Gray, E. F. Haywood, Thomas Haywood, Harrison Meadows, Jenkins, James Kellerman, Frank Kirkpatrick, Mary McKinney, Wesley Mahin, Samuel Marsh(Montgomery County), Hester Motsinger, Aduley Oshier, Emmett Raymon(White County), Arthur Richerd, Abe Smith, Mary Southworth, Gustavel Swanson, Treece meadows, Wilson-Nixon(Fountain County), Simeon Yeager, S.W. Elliott, Dismal Creek, Shawnee Creek.

The following ditches read were made Active for 1989: Alfred Burkhalter(Clinton County), Charles Daugherty, Thomas Ellis, Fred Hafner, James Kirkpatrick, F. E. Morin, William Walters, and Kirkpatrick One. Michael Spencer wanted the Martin Gray to be included in the Active, it had been read as active, but for the records read in the Make Active. Sue W. Scholer moved to activate the ditches as read, seconded by Bruce V. Osborn, unanimous approval.

Alfred Burkhalter ditch joint with our County the Board secretary should send a letter to the Tippecanoe County Auditor and the Clinton County Auditor.

Michael stated in June 1987 a hearing was held to combine the Treece Meadows branch with S. W. Elliott ditch. These maintenance funds need to be combined and treated as the S.W. Elliott ditch. Sue W. Scholer moved to combine the maintenance funds on the Treece Meadows with the S. W. Elliott ditch treat them all as one, seconded by Bruce V. Osborn, unanimous approval.

J. Frederick Hoffman asked if the Treece Meadows was considered designated branch under the S. W. Elliott ditch? Michael answered it is; Treece Meadows has a beginning point and ending point.

Michael Spencer received a letter signed by two property owners, Malcomb Miller and Jerry Frey on the John Hoffman requesting that the board set up a maintenance fund. A hearing was held in 1988 for reconstruction, this did not go too well. Some were going to try to contact the downstream property owners to make it a legal drain all the way down to Coffee Run. Hearing nothing these property owners are requesting a maintenance fund.

Mr. Hoffman stated this is the ditch that does not have a positive outlet. Correct. They hope to make a positive outlet with the maintenance funds.

Michael will have to make a maintenance report before a hearing can be held. Discussion continued.

Jim Strother property owner 3876 Kensington Drive concerned about drainage of the Orchard Park Subdivision. Michael told Mr. Strother he had received Preliminary submittal that was requested from the engineer to supply with more information, but that

HOFFMAN
DITCH

information has not been received. Michael will notify Mr. Strother when he receives the information and when the project comes before the board.

Sue W. Scholer asked Don Sooby, of the Lafayette City Engineer office where are we on McCarty Lane, is it progressing. Mr. Sooby stated a public hearing will be held January 26, 1989, no other meeting has been set up.

There being no further business the meeting adjourned at 9:25 A.M. Next meeting will be February 1, 1989.

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR Meeting January 3, 1990

The TIPPECANOE County Drainage Board met Wednesday, January 3, 1990 in the Community Meeting room of the TIPPECANOE County Office Building 20 North Third Street, Lafayette, Indiana.

Those present were Bruce V. Osborn and Sue W. Scholer, Board Members; Michael J. Spencer, Surveyor; Todd Frauhiger, Drainage Consultant; J. Frederick Hoffman, Drainage Attorney; and Maralyn D. Turner, Executive Secretary, others present are on file.

The meeting was called to order at 9:00 a.m. by Drainage Attorney J. Frederick Hoffman. Mr. Hoffman stated that it is time for election of officers for a new year.

Bruce V. Osborn nominated Sue W. Scholer for chairman of the board, seconded by Sue W. Scholer, motion carried, there being no other nominations from the floor Sue was elected Chairman of the Board.

Sue W. Scholer chairman continued the meeting asking for nomination for Vice Chairman, Sue W. Scholer nominated Bruce V. Osborn as Vice-Chairman, seconded by Bruce, motion carried, there being no other nominations from the floor Bruce was elected Vice-Chairman.

Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Sue W. Scholer, there being no other nominations from the floor Maralyn was elected Executive Secretary.

Bruce V. Osborn moved to accept J. Frederick Hoffman's continued services as Drainage Attorney for the year 1990, seconded by Sue W. Scholer, motion carried.

Michael J. Spencer recommended to continue the services of the Chris Burke Engineering, LTD as Drainage Engineer Consultant for the year 1990. Bruce V. Osborn moved to accept Michael's recommendation, seconded by Sue W. Scholer, motion carried.
1990 DITCH ASSESSMENTS

Fred Hoffman read the following ditches to be made Active for assessments in May 1990. Jesse Anderson, A.P. Brown, Orrin Byers, John McFarland, Ann Montgomery, and the J. Kelly O'Neal.

Ditches that are In Active are: John Amstutz, Dempsey Baker, Nellie Ball, N.W. Box, Alfred Burkhalter, Floyd Coe, Grant, Cole, J. A. Cripe, Fannie Devault, Marion Dunkin, Jess Dickes, Martin V. Erwin, Crist/Fassnacht, Elijah Fugate, Rebecca Grimes, Harrison Meadows George Ilgenfritz, George Inskeep, Lewis Jakes, Jenkins, E. Eugene Johnson, F. S. Kerschmer, Amanda Kirkpatrick, James Kirkpatrick, John A. Kuhns, Calvin Lesley, John McCoy, Mary McKinney, Absalm Miller, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Arthur Richard, Alexander Ross, James Shepherdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, J. & J. Wilson, Franklin Yoe, and Shawnee Creek.

Ditches that are Active are: E. W. Andrews, Delphine Anson, Herman Beutler, Michael Binder, John Blickenstaff, Buck Creek (Carroll County), Train Coe, Darby Wetherill (Benton County), Thomas Ellis, Issac Gowen (White County), Martin Gray, Fred Hafner, E.F. Haywood, Thomas Haywood, James Kellerman, Frank Kirkpatrick, Wesley Mahin, Samuel Marsh (Montgomery County), Hester Motsinger, Audley Oshier, Emmett Raymon (White County), Abe Smith, Mary Southworth, William Walters, Wilson-Nixon (Fountain County), Simeon Yeager, S. W. Elliott, Dismal Creek, and Kirkpatrick One.

Bruce V. Osborn moved that the ditches that were read to be made active become active on the May 1990 Assessment, seconded by Sue W. Scholer, motion carried.

COUNTRY CHARMS

John Fisher asked that this be continued until next meeting February 7, 1990.

TRASH TRANSFER

John Fisher presented site drawings. Outlet goes into the Flood Plan. Mr. Hoffman asked who owns the Flood Plan? Leroy Barton. Question as to if it would increase the flow and the speed onto Barton. Question do you have permission from Mr. Barton? Answer - No. Mr. Hoffman stated that permission should be received from Leroy Barton. Mr. Fisher stated they are providing rip-rap, it will not increase the velocity. Mr. Fisher pointed out that they had met with the Soil Conservation and have worked out the one condition of erosion control. Mr. Hoffman asked if Mr. Barton knew about this meeting? NO. Presentation and discussion continued.

Bruce V. Osborn asked John Fisher to explain the plans to the Barton's.

Michael stated that the water is tributary to that area now, it will go through a pond now instead of sheet drainage.

Mr. Hoffman stated they should have their chance to object, so that they can't say we are damaging their property.

Sue W. Scholer stated there are two recommendations made.

1. The erosion control. 2. The calculations.

Bruce V. Osborn moved to give approval to the drainage control for the Trash Transfer with exception of #9 and the other recommendations as stated in the Christopher Burke

DIMENSION CABLE

CABLE

George Schulte engineer from Ticen and Associates presented site plans. Property is located in the Treece Drainage Watershed area. The water shed area was analyzed to determine the high water elevation that would be in the channel. Their detention storage volume that they calculated was above the high water elevation of the ditch along north property line. They did decrease the allowable release rate from 2.11 cfs down to .4 cfs, there is about 3.3 acres in the site. They are increasing the volume required for storage on site.

Sue W. Scholer asked about the plans for maintenance on that ditch? Basically they are assuming that the owner would maintain the entire site, this is reason for putting 3-1 slopes on the ditch.

Mr. Hoffman asked if it was a new ditch, George again stated it is an existing ditch. The ditch at this time is full of brush, weeds, etc, it is not a legal drain.

George stated they are asking for final drainage approval.

Mr. Hoffman asked if George's client would be willing to participate in the cost of a more substantial drainage improvement in the area. Mr. Shulte stated he could not answer that question, but he feels he would be willing.

Bruce asked if conditions had been met? Michael Spencer answered, no, there is one other conditions and that is that the City of Lafayette review this project, as of January 2, 1990 this area is in side the City Limits as is Wal-Mart.

Mr. Sooby has not seen the plans presented. Discussion continued.

Mr. Hoffman stated this is not a subdivision, but should have the same kind of restriction as subdivisions. Mr. Hoffman asked that a letter be received from the developer stating they will participate in their fair share of the improvement when the major improvement is made. Michael asked if he was talking about facility on site. Answer-yes. Maintenance on site and that they would assist in making that area a part of the legal drain, and that they will participate in the cost of improving the Wilson Branch. Michael asked if they should provide a letter stating that they will maintain their on site system. Mr. Hoffman stated he would like for it to be in form that can be recorded, so it will run with the land should the land be sold.

George asked what things are needed for approval? 1. Participate in the improvements of the Wilson Branch. 2. Cost of improvements. 3. Maintain the one on the premises, and if they don't the County would have the right to maintain it and assess the cost. Incorporate the existing drain on the north side of the site into the Treece drain or Wilson Branch.

A letter is needed from the owner for the above mentioned items to Michael. Michael asked that the city review and give their approval be added as they are involved.

Sue asked if the board understands correctly that the City still wants that maintenance to run to the County on the regulated drain. Mr. Sooby answered, he thinks that is correct.

Bruce V. Osborn moved to give approval with the four recommendations being met, seconded by Sue W. Scholer.

WAL-MART

WAL- MART

Clifford Norton representing Wal-Mart and George Davidson of Horne Properties presented drainage plans. Michael stated the plans meet the county restriction on the limited release rate. Michael pointed out at the last meeting Mr. Long was present and brought up the fact of emergency routing for drainage which is a problem in this area, and at that time Michael stated he had Christopher Burke Engineering LTD looking at the Wilson Branch from Ross Road where the Simon improvement would end with the 100 year design flow in the channel. He had him look all the way up through Treece Meadows on what design would be required or Channel section would be required to get from Ross Road up to Treece Meadows. Michael has received the report this morning. Basically what he says in his report is to properly move the 100 year storm event from the north end of Treece Meadows or where open channel turns and goes back west through the Subdivision, looking at approximately 40 foot bottom width on the channel and 2-1 side slopes from there down to the Wilson Branch in some fashion. They have had some preliminary locations for the channel so he would have some idea for lengths to work with as far as grades to get the water down there, basically at this time to pass the 100 year storm event is to provide a 40 foot bottom width channel with 2-1 side slopes down to the Wilson Branch, then continue down the Wilson Branch taking out the trees and re-grading the bottom and side slopes down to Ross Road in order to get the water to the regional detention facility that will be constructed. Michael stated this is a starting point as there are allot of alternatives that can be put in there. This is basically what Channel section they are looking at. The crossings of Creasey Lane and McCarty Lane will need bridge openings of approximately 600 square foot openings to pass the 100 year storm event. Bruce asked if this was visible? Mr. Norton stated anything is visible. Bruce asked if this was to go in during the other construction? Michael answered it would take a petition for re-construction of the Wilson Branch of the Elliott ditch. Michael feels that we are at the point now where a petition is needed from the watershed area. More study is needed. While the land is open is the time to get something started. Cost estimates and plans will have to be put together. Michael can not put a time element on it, the area is hot enough for development and something needs to be done. Discussion of petition.

WAL-MART CONTINUED
JANUARY 3, 1990 DRAINAGE BOARD MEETING

Mr. Davidson stated that Wal-Mart has no problem at all to work with the rest of the watershed and are willing to pay their fair share of the assessment.

Tom McCully representing Long Tree Limited went over what Long Tree Limited went through when they were developing Burberry Subdivision. The problem is at the South end at Treece drain and Wilson Branch, pipe put in 1978 creates constriction of everything upstream from there. Discussion of Cost in 1978, and the over all problem of the area. At that time the owners agreed to put an assessment based upon the cost, which amounted to approximately \$1,000.00 per acre. Today's presentation does try to address the problem all the way from the north end of Treece down to the Wilson Branch on down to the Elliott ditch. Tom stressed that if we don't look at an over all picture we are not going to get anything accomplished. What has to be done is as property is developed everybody agrees to participate to get the problem corrected. At this time we have an open ditch going into a 24" pipe. Discussion continued.

Tom McCully stated that probably this should be an Urban drain not a rural drain. Convert to Urban drain and reconstruct. Long Tree Limited is willing to cooperate. Again he stressed that everybody is going to have to be in agreement that the problem needs corrected and go from there. The longer this goes the more expense it is going to be. Discussion continued.

Michael stated that in the interim there is a plan that could be done temporarily to get the emergency routing out of the Subdivision. This is going to take cooperation from the people involved.

Bruce asked Mr. Norton if they are going to be asking for road cuts on Creasey, answer yes, they have two entrance, and one on Highway 26.

Mr. Hoffman stated Wal-Mart will have to have some type of document stating they will participate in and pay their fair share of the cost of the improvement, and maintain what else they will be putting in there, if they don't the county will have the right to go in and maintain, then assess them for the cost.

Sue Scholer suggested that Michael call a meeting with all property owners involved in the development.

Michael stated that Burke Engineering brought to his attention that this could be a lengthy project, but in the mean time the board should look at a temporary diversion swale, not a major structure. Mr. Hoffman asked if there was a place for it and Michael replied it can be done, however it will not be easy. Michael stated this would be everybody north of Treece Meadows who wants to develop. Michael wanted more time to think. Mr. Sooby was concerned about property owner saying let the other guy do it.

Mr. Davidson asked Michael if he was satisfied with their drainage analysis, answer - yes.

Mr. Norton stated there are two ways that Wal-Mart can go. He asked if the board could give approval subject to meeting the qualifications to avoid another meeting or bring up all the criteria that they need to submit and have another meeting.

Sue W. Scholer stated that the board would be requiring all the essential things stated and final approval passed would be subject to all things presented to Michael and approved by the attorney and the City of Lafayette. Sue stated possibly the board should make a requirement as Wal-Mart goes through the process of their development some of the other things needed will be based on getting a meeting and something temporary with all people involved who are developing in that area.

Mr. Davidson again stated they would agree in participating in what ever effort is made out in that area. They would like to leave the meeting this morning with some idea of construction cost so they can build their budget. He stated they could have a letter back to Michael tomorrow committing to the things the board is trying to accomplish.

Michael Spencer and Don Sooby will work together to come up with satisfactory proposals. Don stated that lionslyng share of the burden may fall on Wal-Mart to do something temporary, as no body wants to do anything until their development is ready to move. Wal-Mart wants to move ahead with their development and if the interim facilities are necessary for this to get board approval, but not the total cost is going to fall on Wal-Mart. Discussion continued.

Michael asked if a credit could be given back to Wal-Mart at a later date of what they would put in on the interim? Mr. Sooby stated that the interim facility is not going to contribute much toward the long term, it really isn't a down payment on the ultimate facilities.

Mr. Davidson asked how will the development fully affect the Treece Meadows. Michael answered hopefully up to a 100 year storm event by calculations it should reduce the downstream affect, its above the 100 year storm event that is of concern. Currently there is 80 cfs coming off for a 10 year storm. Discussion continued.

Sue W. Scholer asked what needs to be done to get the total process going?

Mr. Hoffman stated if Michael feels there is a need for reconstruction as an Urban drain Michael should report that to the Board and then the process can start for making it an Urban drain for reconstruction. That's on the long term. A Petition is not needed all that is necessary is a letter from Michael Spencer surveyor stating that it needs to be an Urban drain and it can be done as an Urban drain. Statement should state that if it is reconstructed as an Urban drain it will drain the area properly. Michael should present a letter to the Board.

Mr. Hoffman agreed with Mr. Sooby's statement that Wal-Mart is going to have to pay most of the cost of the temporary facility as the other property owners can say they are not ready to develop and we don't see the need for this until we develop. Discussion continued.

Items needed from Wal-Mart are: Letter of Commitment for Maintenance of the drain facilities that they build. In the letter a commitment for participation in the original program and that Wal-Mart pay their fair share of reconstruction and if they do not maintain the drainage on their property the county would have a right to come in and do the maintenance and make assessment for the cost. Mr. Hoffman wanted this to be in a recordable fashion so it will run with the land.

The Wal-Mart was asked to come back Tuesday January 9, 1990 at 9:30 A.M. for re-convened session. Due to not having a quorum of Board Members the January 9 meeting was postponed until Wednesday January 17, 1990 at 9:00 A.M..

STATE ROAD

STATE ROAD 38 PROJECT AGREEMENT

38 PROJECT AGREEMENT

Agreement with the State on Hwy 38 the detention pond and drainage. The County will receive \$50,000.00 if it is installed prior to the time the State goes to work on the 38 Project, if the County does not have it installed the County does not get the \$50,000.00 and the State puts it in. This is based on when the work starts. Discussion.

Fred stated that he and Michael had reviewed the agreement and it meets the standards. This goes along with the meeting held October 1988 on the Highway 38 Project. Agreement is on file.

Bruce V. Osborn moved to accept the agreement of State Highway 38 and the water problems, seconded by Sue W. Schuler, unanimous approval.

ORCHARD

ORCHARD PARK

PARK

Michael Spencer Surveyor, presented Fee Proposal prices to provide field survey for the Orchard Park Legal Ditch Project. Earlier two different companies had presented prices for doing surveying work for the project. There was quite a bit of difference in the prices submitted so a more defined scope of work was presented to different companies and Michael has received the following submittals.

Todd Frauhiger read the Companies and their figures this is for the entire watershed area. This would include aerial mapping, contour map for the watershed, all existing pipes within the water shed, their reaches and sizes, inverts, the ravine system all the way down to the Wildcat creek.

Ticen Shulte and Associates	\$31,900.00
John E. Fisher	\$22,372.00
MTA	\$21,680.00
Vester's and Associates	\$24,990.00

The services that were included are:

Aerial Control Survey. Vertical and Horizontal survey to provide control for aerial mapping will be provided.

Establish Baselines. Baselines will be established, referenced, and tied to the horizontal mapping control. These base lines will follow, as closely as possible, the flow lines of the defined ravines.

Investigation of Existing Storm Sewer Facilities. Existing storm sewers and culverts within the watershed will be located, identified and surveyed for length and elevation. This information will be provided in the form of survey field notes. Aerial Mapping of the ravine will be provided, scribed on mylar. Contours will be at one foot intervals, scale will be 1"=100' or as other wise specified. Baselines will be superimposed on the mapping.

THE ITEMS READ ARE NEEDED FOR THE ENTIRE WATERSHED

Descriptions of Easements. Descriptions of proposed easements from each land owner involved will be provided. Easements will most likely be described as a horizontal distance beyond a specified elevation on the bank of the ravine.

Todd stated the quicker the surveyors could get started the better they could get a proper survey, each would like to get to it as soon as possible and no later than February as leaves will be starting and they can not get a true picture. One of the figures presented is only good through February. After that date it may increase the aerial photography figure. If it is delayed longer it could be late 1990 before work could be completed.

Time is needed to go through the presentations, Michael will come back at the next meeting with findings.

Meeting recessed until Tuesday January 9, 1990, January 9, 1990 meeting was re-scheduled for Wednesday January 17, 1990.

**TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
FEBRUARY 5, 1992**

The Tippecanoe County Drainage Board met Wednesday, February 5, 1992 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Keith E. McMillin calling the meeting to order.

Those present were: Keith E. McMillin, Chairman, Nola J. Gentry and Hubert Yount, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Chris Burke Consulting Engineers, J. Frederick Hoffman, Drainage Board Attorney, and Dorothy M. Emerson, Executive Secretary Drainage Board.

The first item on the agenda was to approve to the minutes of the meeting for the last Drainage Board meeting on January 8, 1991. Nola Gentry moved to approve the minutes, seconded by Hubert Yount. Unanimously approved.

CARROLL COUNTY JOINT DRAIN

Mike Spencer, County Surveyor stated Keith McMillin and Hubert Yount needed to be appointed to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Nola Gentry motioned to appoint Keith McMillin and Hubert Yount to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Hubert Yount, seconded. Motion carried.

DRAINAGE BOARD ATTORNEY CONTRACT

Mike presented the Board with a contract for the Drainage Board Attorney J. Frederick Hoffman, that needed to be executed for 1992.

Hubert Yount moved to approve the contract between Tippecanoe County Drainage Board and J. Frederick Hoffman as Attorney for said group.

Nola J. Gentry, seconded. Motion carried.

ACTIVE AND INACTIVE DITCHES

Nola Gentry moved to include the active and inactive ditches into the February minutes and mail the appropriate notices to the surrounding counties. Hubert Yount, seconded. Motion carried.

The following is a list of the active and inactive ditch assessment list for 1992.

DRAINAGE BOARD ASSESSMENT LIST				
DITCH No.	DITCH	TOTAL 4 YEAR ASSESSMENT	1991	1992
1	Amstutz, John	\$5,008.00	Inactive	Inactive

DISCUSSION ON TILE BIDS

Mike Spencer presented a tile bid that had been inadvertently returned to the bidder. Fred Hoffman opened the bid.

Mike stated he had received two proposals for Professional Services on the Berlovitz Watershed Study, one from Christopher Burke Engineering and one from Ticen, Schulte and Associates. Mike recommended Christopher Burke Engineering the lowest bidder.

Nola moved to approve the proposal from Christopher Burke Engineering for the Berlovitz Ditch Study. Hubert, seconded. Motion carried.

JOHN HOFFMAN DRAIN

Mike stated to the Board that work will be done on the Hoffman Drain at a cost less than \$25,000.00. Since it was under \$25,000.00 Mike requested quotes be done on the project rather than bids since quotes are faster.

Mike read the proposal into the minutes.

TO WHOM IT MAY CONCERN:

The Tippecanoe County Drainage Board is interested in taking quotes for maintenance work on the John Hoffman Ditch, beginning at the tile outlet which is located along County Road 900 East just north of State Road 26 East.

Work will consist of dredging approximately 1000 feet of channel down stream of the tile outlet, cleaning out road culvert under 900 East. Then clearing trees over and along the tile for some 4000 feet to the east.

After the clearing all tile holes will be fixed and or wide joints patched, then the waterway over the tile will be graded as directed by the Surveyor. When all work is completed all disturbed areas will be seeded.

There will be a pre-quote site visit held at the site on February 19th, 1992 at 9:00 am.

Written quotes will be on a per foot basis for dredging, clearing and grading of waterway.

Tile repair will be on time and material basis. Seeding will be lump sum.

Quotes will be due on March 4th at 11:00 am in the Tippecanoe County Auditors Office.

For further information please contact the Tippecanoe County Surveyor, Mike Spencer at 423-9228.

Discussion followed.

Hubert Yount moved to accept quotes for the John Hoffman Drain. Nola, seconded. Motion carried.

HADLEY LAKE DRAIN

Mike stated that West Lafayette Wetland Delineation Study will be done on February 15. We need to have that before we advertise for the proposals for engineering work.

PINE VIEW FARMS

Roger Kottlowski, Weitzel Engineering and Tom Stafford, Melody Homes presented their drainage plans for Pine View Farms to the Drainage Board.

Discussion followed.

Mike Spencer recommended preliminary approval to the Board.

Nola moved to grant preliminary approval contingent on completion of restrictions and receipt of the recorded easements or agreements.

Hubert Yount, seconded. Motion carried.

Being no further business, Hubert Yount moved to adjourn the Drainage Board meeting. The next regular scheduled meeting will March 4 at 8:30 AM and will reconvene at 11:00 AM for quotes on the John Hoffman Drain.

Tippecanoe County Drainage Board
Minutes TRANSCRIPT
Regular Meeting
January 6, 1993

The Tippecanoe County Drainage Board met Wednesday, January 6, 1993 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana, with Nola Gentry calling the meeting to order for the re-organization of the Board. She then turned it over to J. Frederick Hoffman, Drainage Board Attorney to preside.

Those present were: Nola J. Gentry, Hubert Yount, Bill Haan, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Christopher Burke Consulting Engineer, J. Frederick Hoffman, Drainage Board Attorney, Hans Peterson, Paul Elling, Project Engineers SEC Donohue, Greg Griffith, Great Lakes Chemical Corporation, Josh Andrews, West Lafayette Development Director, Opal Kuhl, West Lafayette City Engineer, and Shelli Hoffine Drainage Board Executive Secretary.

J. Frederick Hoffman, Drainage Board Attorney asked for nominations from the floor for the Board President. Commissioner Gentry nominated Commissioner Haan for President, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman then turned the meeting over to Commissioner Haan to preside over the remainder of the meeting.

Commissioner Haan asked for nominations from the floor for the Board Vice President. Commissioner Haan nominated Commissioner Gentry for Vice President, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan asked for nominations from the floor for the Board Executive Secretary. Commissioner Gentry nominated Shelli Hoffine for Executive Secretary, seconded by Commissioner Yount. Unanimously approved.

The first item on the agenda was to approve the minutes of the meeting for the Drainage Board meeting on December 2, 1992. Hubert Yount moved to approve the minutes of December 2, 1992, seconded by Commissioner Gentry. Unanimously approved.

Hire the Attorney

Commissioner Gentry moved to appoint J. Frederick Hoffman as Attorney for the Drainage Board, seconded by Commissioner Yount. Motion carried.

Active and Inactive Ditches for 1993

Mr. Hoffman suggested putting the active and inactive ditches in the January minutes. Mr. Hoffman also read them aloud to the Board.

Storm Water Drainage Improvement Plan

Hans Peterson and Paul Elling from SEC Donohue presented the Stormwater Drainage Improvement Plan for the Cuppy-McClure watershed. Mr. Peterson discussed the project overview and objectives, project design criteria and constraints, hydrologic/hydraulic analysis, alternative improvements and recommendations, permits, and the schedule.

Mr Peterson discussed the alternative improvements.

Alternative #1 Low flow pipe and high flow channel.

The cost of the low flow pipe and high flow channel - \$930,000.00

The pipe in this alternative would be two to three feet deep under the ground from the Celery Bog to U.S. 52 then opens up and flows under US 52 with the existing pipe, then drops down into another pipe and flows on down to Hadley Lake.

Mr. Hoffman asked how big the pipe would be?

Mr. Peterson answered the pipe ranges in size from 36 inches to 42 inches.

Alternative #2 All pipe improvements.

The cost of all pipe improvements - \$1,570,000.00

Pipe size ranges from 54 inches to 60 inches.

This alternative would run completely under the ground from Celery Bog to Hadley Lake that is the main reason for the high cost. Mr. Peterson said this would look the nicest after it is complete.

Alternative #3 All channel improvements.

The cost of all channel improvements - \$755,000.00

This alternative does not have any pipe. It is a standard open channel all the way from Celery Bog down to Hadley Lake. There would have to be a concrete lining treatment at the bottom of the channel.

Mr. Peterson recommended alternative was #1 the low flow pipe and high flow channel.

Mr. Hoffman asked on these changes of easement are they giving and taking from the same landowners or taking from some landowners and giving others?

Mr. Peterson said based on the assessment map that we have, it is generally give and take on the same properties except for one parcel. Parcel #13 looks like we are taking.

Mr. Hoffman assumed there will be a petition for reconstruction to make those changes in easement.

Commissioner Gentry answered there will be a reconstruction hearing.

Discussion followed.

Bening no further business Commissioner Gentry moved to adjourn until February 3, 1993 at 8:30 a.m., seconded by Hubert Yount.

Meeting adjourned.

William D. Haan, President

Nola Gentry, Vice President

Hubert Yount, Member

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 5, 1994

The Tippecanoe County Drainage Board met Wednesday January 5, 1994 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Hubert D. Yount; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Jon Stolz and Drainage Board Secretary Shelli Hoffine.

ELECTION OF 1994 OFFICERS

Mr. Hoffman asked nominations for the President of the Tippecanoe County Drainage Board. Commissioner Haan nominated Commissioner Gentry, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman turned the meeting over to Commissioner Gentry to preside.

Commissioner Gentry asked nominations for Vice President of the Tippecanoe County Drainage Board. Commissioner Gentry nominated Commissioner Haan, seconded by Commissioner Yount. Unanimously approved.

-APPOINTMENTS-

Commissioner Haan moved to appoint Shelli Hoffine for Executive Secretary of the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan moved to appoint J. Frederick Hoffman as Attorney for the Tippecanoe County Drainage Board pending an agreement of a contract, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved to extend the existing contract into 1994 for Christopher Burke Engineering, LTD. to provide engineering services to the Tippecanoe County Drainage Board pending review of the contract, seconded by Commissioner Haan. Unanimously approved.

-MEETING DATES FOR 1994-

January 5, 1994	July 6, 1994
February 2, 1994	August 3, 1994
March 9, 1994	September 7, 1994
April 6, 1994	October 5, 1994
May 4, 1994	November 2, 1994
June 1, 1994	December 7, 1994

Commissioner Haan moved to accept the meeting dates for the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved approve the minutes from the last Drainage Board meeting held December 1, 1993. Seconded by Commissioner Haan. Unanimously approved.

Joe Bumbleburg asked the Board to approve a resolution for vacation of a drainage easement located on a part of lot 5 in Capilano By the Lake Subdivision, Phase I. The drainage easement ended up in the middle of lot 5 when it was replatted.

Mr. Spencer stated he has been out to the site, Mr. Cunningham of Vester and Associates checked the easement and it definitely will not cause a problem with the lot or any of the adjoining lots. Mr. Spencer recommended the vacation of the drainage easement in lot 5, Capilano By the Lake Subdivision, Phase I.

The petition and the resolution to vacate a portion of a drainage easement on lot 5, Capilano by the lake subdivision, Phase I is on file in the Tippecanoe County Surveyor's Office.

Commissioner Yount moved to approve the resolution to vacate a portion of an easement on lot number 5, Capilano by the Lake Subdivision, Phase I, seconded by Commissioner Haan. Unanimously approved

HAWKS NEST SUBDIVISION, PHASE I

Greg Hall, Intercon Engineering, asked the Board for final approval of Hawks Nest Subdivision, Phase I and the detention ponds for the entire project. Mr. Hall also, requested a variance for exceeding the four foot of depth in Basin A.

Mr. Spencer stated he recommended approval of Phase I and the detention ponds.

Mr. Hall stated there will be eighteen lots in Phase I, one detention basin will be located in this phase.

Commissioner Haan asked if the permits from the IDNR have been processed?

Mr. Stolz stated that the portion that was requiring a permit has been moved from the floodplain and no longer requires a permit.

Commissioner Yount moved to grant the variance to exceed the maximum four foot depth in Basin A, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to grant final approval of Hawks Nest Subdivision, Phase I and the detention basin for the entire project, seconded by Commissioner Haan. Unanimously approved.

TRIPLE J POINTE SUBDIVISION

Bob Grove, representing Smith Enterprises, asked for preliminary approval of Triple J Pointe Subdivision, which involves fifteen acres with 75 lots, located off Old Romney Road and County Road 250 South. The proposal is to detain the water offsite which will hold seventy two acres of offsite runoff, then take the ten year flow through the subdivision to a basin that will hold the 15 acres of developed subdivision, a pipe will carry the runoff from the basin to an existing structure of Ashton Woods Subdivision detention system. The ditch will be used as overflow for runoff that exceeds the 10 year flow.

Commissioner Yount asked if pipe along Old Romney Road would be in the road right-of-way if so, has the County Highway Department approved a permit for the pipe?

Mr. Grove stated yes, we are proposing to put the pipe in the right-of-way and no, we have not obtained a permit from the Highway Department.

Mr. Spencer stated the Highway Department has a set of plans, but he has not heard a report from them.

Commissioner Yount asked about the use of the pond offsite easement?

Mr. Grove stated that G. Mark Smith will be preparing an agreement for the easement.

Mr. Spencer stated John Fisher did a drainage study of the Wea-Ton drainage area, in the report it shows the watershed area delineated certain runoff values for sub-areas within the watershed area. Ashton Woods kept in compliance with the idea for sub-areas to be within the watershed area, at that time, the Board accepted the idea. Ashton Woods created an outlet for the Wea-Ton watershed area and during construction they have created the outlet channel and incorporated their storage area with Old Romney Heights storage area. In the study, there are recommendation about how water moves to the east as development progresses. A pipe was sized under Old Romney Road at the end of the channel to pick up water to the east. Triple J Pointe Subdivision does not comply with this idea as far as construction of proper pipe size under Old Romney Road to convey the water from the east.

Mr. Grove stated Smith Enterprises asked John Fisher for the drainage study, but were not able to obtain a copy. It was decided to make an alternate route from the project's outlet to go along the east side of Old Romney Road in an easement just outside the right-of-way, provide a manhole and a crossing based on a 10 year predeveloped flow from the Wea-Ton area.

Commissioner Gentry suggested getting a meeting set up between the Commissioners, the Surveyor, Smith Enterprises, Mr. Gloyeske, and Mr. Fisher.

Commissioner Yount moved to continue Triple J Pointe Subdivision with Mr. Grove's consent until after the above meeting has been held, seconded by Commissioner Haan. Unanimously approved.

HARRISON & MCCUTCHEON HIGH SCHOOLS IMPROVEMENTS

Kyle Miller, Triad and Associates, presented the Board with the plans to improve Harrison High School and McCutcheon High School. Harrison and McCutcheon will be adding approximately one acre of roof to the existing structures over what is now parking lot signifying no increase in the volume of runoff for either plan. Harrison's storm sewer pipes run around the perimeter of the school, some of the pipe are undersized and will be replaced along with all new pipe to go around the perimeter of the constructed area. All roof drainage will run into the storm sewer then to an existing pipe and discharge into the **Cole Ditch/"Burnett Creek"**. Mr. Miller indicated a portion of one existing outfall pipe will be replaced and a permit from the IDNR is required for construction in the floodway area.

Commissioner Gentry asked what the design is of the outfall pipe into the creek?

Mr. Miller stated there will an end section on the pipe and that rip-rap will be placed on both sides of the banks.

Mr. Miller explained that McCutcheon High School storm sewer pipes run the perimeter of the existing structure and outlets into the **Wea Creek**. The

improvements will replace what is now asphalt and the storm sewer pipe around the perimeter of the constructed area.

Commissioner Yount moved to approve Harrison High School's final improvement plan subject to the approval of the permit from the IDNR, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to approve McCutcheon High School's final drainage improvement plan, seconded by Commissioner Haan. Unanimously approved.

OTHER BUSINESS

Mr. Spencer asked if section six, letter F of the Drainage Ordinance, Submittal and Consideration of Plans, could be clarified to clear up questions pertain to the twenty days submittal deadline being twenty working days or twenty calendar days.

Commissioner Yount suggested changing the twenty days to thirty calendar days and requiring a review memo from the County Engineering Consultant to the petitioner, ten days prior to the hearing date.

Mr. Hoffman stated he will write an amendment to the Drainage Ordinance, letter F in section six, Submittal and Consideration of Plans, to change the twenty days submittal to thirty calendars days and the Surveyor will make a report to the petitioners not less than ten days prior to the hearing date.

GREAT LAKES CHEMICAL

Mr. Spencer stated all the landowners along the proposed channel have been informed of the Great Lakes project, the County has a complete set of construction plans, a drainage report, and Army Corp of Engineers permit. The County does not have IDNR or the IDEM, but those have been filed and should be approved soon. Ken Baldwin had some question for insurance reasons on fencing around the sediment basin before the water goes into **Hadley Lake**. The County will contribute \$700,000.00 dollars out of that the County has spent approx \$150,000.00 on Engineering, the Engineer's construction estimate is 1,040,000.00.

Commissioner Gentry asked what the time table is on advertising for reconstruction, and does the project have to be advertised before the bidding or concurrent with the bid process?

Mr. Hoffman stated the advertising has to be done before the bid processing. The County would have to give thirty to forty day notice and then have the hearing, if approved the bidding can go out, all that together would take about three months.

Judy Rhodes asked if there was any legal document showing West Lafayette committing to an agreement of participation in this project?

Commissioner Gentry stated that the County has a signed worksheet by Nola J. Gentry and Mayor Sonya Margerum showing the break down of contribution between the State of Indiana, Tippecanoe County and the City of West Lafayette for Great Lakes Chemical Corporation/**Cuppy McClure** watershed project

Ms. Rhodes asked and received a copy of the worksheet.

Being no further business Commissioner Yount moved to adjourn until February 2, 1994, seconded by Commissioner Haan. Unanimously approved.

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 1, 1995

The Tippecanoe County Drainage Board met Wednesday February 1, 1995 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney pro-tem David Luhman; and Drainage Board Secretary Shelli Muller.

The first item on the agenda was to approve the minutes from the last Drainage Board Meeting held January 4, 1995. Commissioner Gentry moved to approve the minutes, Seconded by Commissioner Jones. Motion carried.

ACTIVE AND INACTIVE DITCH LIST 1995

Mr. Luhman read the active ditch list into the minutes.

97	McLaughlin, John		
101	Hoffman, John	72105.03	55880.51

Mr. Spencer stated the John Hoffman Ditch is on a three year assessment which started in 1991 with a ten dollar an acre assessment. It is now necessary for the Board to schedule a meeting between Clinton, Carroll and Tippecanoe Counties to reduce the assessment.

Commissioner Haan appointed himself and Commissioner Gentry to serve on the Tri County Board.

CHRISTOPHER B. BURKE ENGINEERING CONTRACT

Mr. Luhman stated after reviewing the original contract from Christopher B. Burke Engineering a few items were discussed and changes were made. The contract was revised with one exception on page 6 paragraph 24. The suggested revision was if a contractor was doing work based upon the Engineers plans the contractor would indemnify Burke for any damages to Burke because of the contractors negligence. Also suggested was to include Burke as a named insured on the insurance policy. Mr. Luhman explained the main reason for the suggestion was so the County and Christopher B. Burke Engineering would not be held liable.

Commissioner Gentry moved to approve the contract with Christopher B. Burke Engineering, LTD., and authorize the President of the Board to sign the contract, seconded by Commissioner Jones. Motion carried.

OTHER BUSINESS

Mr. Spencer presented the Board with the reforestation proposal for the Cuppy-McClure Drain, which will comply with the DNR requirements for a 2 to 1 mitigation on tree removal. The Parks Department for the City of West Lafayette suggested sites for the trees replacement. Mr. Spencer explained he wanted the Board to be aware of the progress and that Mr. Ditzler of J.F. New will submit the plan to Dan Ernst of the Indiana Department of Natural Resources.

Being no further business, Commissioner Gentry moved to adjourn until March 1, 1995, seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 3, 1996

The Tippecanoe County Drainage Board met Wednesday January 3, 1996 in the Commissioners Meeting Room of the Tippecanoe County Courthouse, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, and Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Dave Eichelberger, and Drainage Board Secretary Shelli Muller.

ELECTION OF OFFICERS

The first item on the agenda was to elect new officers for 1996.

Mr. Hoffman opened the floor to nominations for President.

Commissioner Haan nominated Commissioner Gentry.

Commissioner Haan moved to close nominations for president, seconded by Commissioner Jones. Motion carried, Commissioner Gentry was elected.

Mr. Hoffman turned the meeting over to the President.

Commissioner Gentry asked for nominations for Vice President.

Commissioner Haan nominated Commissioner Jones for Vice President.

Commissioner Haan moved to close nominations for Vice President, Commissioner Gentry seconded. Motion carried, Commissioner Jones was elected.

APPOINTMENTS TO THE BOARD

The next item on the agenda is to renew the contracts with Hoffman, Luhman & Busch as the law firm.

Commissioner Haan moved to renew the 1995 contract with Hoffman, Luhman and Busch, seconded by Commissioner Jones. Motion carried.

Mr. Spencer presented the Board with two proposals for the contract with Christopher B. Burke Engineering Limited.

- 1) A proposal for professional engineering services on a varied rate depending on specified standard charges.
- 2) a proposal for professional engineering services on a fixed rate of \$50.00 per hour.

Commissioner Gentry asked for a report on the number of engineering review hours in 1995 for all the projects submitted in 1995. The discussion of which contract to be used will be continued at the February meeting.

Commissioner Haan moved to extend the 1995 contract with Christopher B. Burke Engineering Limited for one month into 1996, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to reappoint Shelli Muller as Drainage Board Secretary for 1996, seconded by Commissioner Jones. Motion carried.

1996 ACTIVE/INACTIVE DITCH LIST

Mr. Hoffman asked for the active and inactive ditches to be placed in the minutes.

Commissioner Haan moved to place the 1996 active/inactive ditch list the minutes, seconded by Commissioner Jones. Motion carried.

1996 - ACTIVE/INACTIVE DITCH LIST

ACTIVE

E.W. ANDREW, ANSON-DEPHINE, JULIUS BERLOWITZ, BEUTLER-GOSMA, ANDREW BROWN, TRAIN COE, COUNTY FARM, THOMAS ELLIS, FASSNACHT-CRIST, REBECCA GRIMES, HARRISON MEADOWS, EUGENE JOHNSON, JAMES KELLERMAN, AMANDA KIRKPATRICK, FRANK KIRKPATRICK, JAMES KIRKPATRICK, CALVIN LESLEY, MARY MCKINNEY, F.E. MORIN, KESTER MOTSINGER, J. KELLY O'NEAL, AUDLEY OSHIER, FRANKLIN RESER, SKINNER RAY, JOSEPH STERRETT, GUSTAV SWANSON, JACOB TAYLOR, JESSE DICKENS, DISMAL CREEK, SHAWNEE CREEK, SAMUEL ELLIOTT, JOHN HOFFMAN, BUCK CREEK, DARBY-WETHERHILL, ISSAC GOWEN, SAMUEL MARSH, EMMETT RAYMAN, WILSON-NIXON, SOPHIA BRUMM, H.W. MOORE, MARY THOMAS, ARBEGUST-YOUNG

INACTIVE

JOHN AMSTUZ, JESSE ANDERSON, DEMPSEY BAKER, BAKER VS NEWELL, NELLIE BALL, MICHAEL BINDER, JOHN BLICKENSTAFF, NATHANIEL BOX, ALFRED BURKHALTER, ORIN BYERS, FLOYD COE, GRANT COLE, JESSE CRIPE, CHARLES DAUGHERTY, FANNIE DEVAULT, MARION DUNKIN, MARTIN ERVIN, ELIJAH FUGATE, MARTIN GRAY, FRED HAFNER, E.F. HAYWOOD, THOMAS HAYWOOD, GEORGE INSKEEP, LEWIS JAKES, FLOYD KERSCHNER, JOHN KUHN, JOHN MCCOY, JOHN MCFARLAND, WESLEY MAHIN, ABSOLEM MILLER, ANN MONTGOMERY, PARKER LANE, CALVIN PETER, PETER RETTERETH, ARTHUR RICHERD, ALEXANDER ROSS, JAMES SHEPHERDSON, JOHN SALZMAN, ABE SMITH, MARY SOUTHWORTH, WILLIAM STEWART, ALONZO TAYLOR, JOHN TOOHEY, JOHN VANNATTA, HARRISON WALLACE, SUSSANA WALTERS, WILLIAM WALTERS, WAPLES-MCDILL, LENA WILDER, J&J WILSON, SIMEON YEAGER, FRANKLIN YOE, JENKINS, KIRKPATRICK ONE, MCLAUGHLIN, JOHN HOFFMAN

Commissioner Gentry mentioned the ditches that are in red:

COUNTY FARM, REBECCA GRIMES, FRANKLIN RESER, GUSTAV SWANSON

Mr. Spencer read a letter he received from Betty J. Michael.

"December 29, 1995

Nola J. Gentry, President
Board of Commissioners

Michael J. Spencer
County Surveyor

Re: Interest on Drainage Funds

At the Fall County Auditor's Conference held by the State Board of Accounts, a session was held concerning drainage ditches, charges, billings, investments, interest, etc.

The County Board of Accounts supervisors instructed the Auditors and personnel concerning the above issues. We were informed that most Counties put interest earned on Drainage funds into the County General Fund since County general pays for expenses such as tax bills, Surveyor and Drainage Board Budgets.

An alternative in some cases is to credit this interest to the County Drain Fund (unapportioned). When we inquired about the feasibility of apportioning the monthly interest into more than 100 separate drainage funds, the answer was a dead silence of incredibility that this was being done.

We have double-checked this information with District Board of Accounts personnel and have been told that there is nothing in the statutes that mandates interest should go into each Drain fund or even into the County General Drain Fund.

Therefore, as of January 1, 1996, we will be willing to allocate the monthly interest to either the General Drain Fund or to the County General Fund but NOT to each individual Drain account. Please let me know your preference.

Sincerely,

Betty J. Michael"

Mr. Hoffman stated the ditches are trust funds and the landowners in the watershed areas know the ditches are earning interest, it would not be appropriate to discontinue the investment.

Commissioner Haan moved to direct Mr. Hoffman to write a letter stating per the agreement that was made when the ditches were established the interest was to be allocated, but the Board is willing to distribute the interest on a semimonthly bases to coincide with the spring & fall settlements, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to approve the 1996 Drainage Board schedule, seconded by Commissioner Jones. Motion carried.

APPROVAL OF MINUTES

Commissioner Haan moved to approve the minutes from the December 6, 1995 Drainage Board meeting, seconded by Commissioner Jones. Motion carried.

BRENTWOOD COMMUNITY

Mr. Spencer stated Brentwood Manufacture Home Community is located off US52 West, South of the Elk's Country Club. They asked for preliminary drainage approval, which he recommended as long as the IDNR approved the construction within a floodway. There are approximately 280 lots on 60 acres with a dry bottom retention pond.

Mr. Spencer explained the retention pond does not comply with the Ordinance therefore the developer is asking for a variance. The Ordinance requires a 48 hour discharge time, the plans actual peak discharge is closer to 75 hours.

Commissioner Haan moved to grant preliminary approval to Brentwood Community contingent on the approval of construction in a floodway from IDNR, revised calculations and the request for the variance to the Ordinance, seconded by Commissioner Jones. Motion carried.

SOUTHERN MEADOWS

Mr. Spencer recommended granting Southern Meadows Subdivision final approval. The development is located at the corner of South 18th Street and 350 South within the City of Lafayette. Mr. Spencer explained the development needs approval from the County Drainage Board because it drains to the Elliott Ditch. At the Urban review meetings it was determined any development below the railroad tracks draining into Elliott Ditch would be allowed to direct release into the Ditch without onsite detention. The development includes a water amenity onsite, which water will flow into and out, but is not being planned as a detention pond and does not comply with the requirements of the Ordinance. Mr. Spencer had a question as to whether or not the pond would have to comply with the requirements of the Ordinance.

Mr. Hoffman stated the pond would not have to meet the Ordinance requirements as long as it does not affect the drainage.

Mr. Spencer explained the site drains to the pond.

Commissioner Haan stated if the majority of the site drains to the pond it is a retention pond and should meet the requirements of the Ordinance.

Ron Miller, Schneider Engineering, stated the current discharge in a one hour storm duration to Elliott is 2.7 hours. With the installation of a 42 inch pipe draining from the water amenity discharge into the Elliott in a one hour storm will be a little over an hour.

Commissioner Haan moved to grant final approval of Southern Meadows Subdivision with the condition the pond meets the Drainage Board Ordinance requirement for a non-fenced pond, seconded Commissioner Jones. Motion carried.

VILLAGE PANTRY #564R

Mr. Spencer introduced Village Pantry #564R, which is located at the corner of Brady and Concord, East of the existing Village Pantry. Weihe Engineering submitted final drainage plans and after the review it was recommended to grant final approval with the variance of a 12 inch pipe to a 10 inch concrete pipe for the outfall of the proposed detention area in order to limit the discharge.

Commissioner Haan moved to grant the variance of the Ordinance from a 12 inch required pipe to a 10 inch proposed pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to grant final approval of Village Pantry #564R, seconded by Commissioner Jones. Motion carried.

PETITION TO ESTABLISH O'FERRALL LEGAL DRAIN

Mr. Hoffman excused himself from the meeting 9:45 a.m.

Mr. Spencer asked the Board to acknowledge the petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch as a valid petition.

Commissioner Haan moved to acknowledge the petition as a valid petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch and the petition represents over 10 percent of the effect landowners, seconded by Commissioner Jones. Motion carried.

Mr. Hoffman returned to the meeting at 9:57 a.m.

ALEXANDER ROSS DITCH EASEMENT REDUCTION

Mr. Spencer explained on the Meijer site two branches of the Alexander Ross Ditch were described, one on the Southeast corner of the site and the other along the West side of the site. After the construction of the site it was discovered the pipe described along the West side of the site is not actually on the Meijer site. Meijer is asking the description of the pipe on the West side be corrected and the easement on the Southeast corner be reduced from 75 feet to 25 feet center of the pipe either side.

Mr. Hoffman stated Mr. Spencer will have to define the easement as only being on the Southeast corner of the site and redefine the easement on the West side of the property.

Commissioner Haan moved to reduce the easement of the Alexander Ross Ditch located at the Southeast corner of the Meijer site from 75 feet to 25 feet either side of the center of the pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to direct Mr. Spencer to correct the Survey maps to show the actual location of the Alexander Ross Ditch and document that the ditch does not run through the West side of the Meijer property, seconded by Commissioner Jones. Motion carried.

Commissioner Gentry asked Mr. Spencer to do a field check on the erosion of the Alexander Ross Ditch bank behind Meadowbrook Subdivision.

SANWIN APARTMENTS

Bob Grove presented the Board with Sanwin Apartments drainage plan and asked for preliminary approval. Located North of US52 West and East of County Road 250 West, the site consist of 3.11 acres and is planned to include a multi-family development with 63 units and a commercial area along the highway. After review from Christopher B. Burke Engineering consultant a revised preliminary plan was submitted addressing the concerns of the memo. The majority of the site, in the

revised plan, drains to the Northeast and Ken Baldwin will provide a 20 foot easement for a 12 inch outlet pipe that runs from the Northeast corner of the site to the existing McClure Ditch.

Commissioner Haan moved to grant preliminary approval of Sanwin Apartments, seconded by Commissioner Jones. Motion carried.

Cuppy-McClure - update

Mr. Spencer stated the notices for the hearing to be held February 7, 1996 on the reconstruction of the Cuppy-McClure Drain were sent January 2, 1996.

Mr. Spencer stated RUST Environmental & Infrastructure has submitted several proposals for construction inspection.

Commissioner Gentry suggested Mr. Spencer get other bids for the construction inspection or consider in-house inspections.

Being no further business Commissioner Haan moved to adjourn until February 7, 1996, seconded by Commissioner Jones. Meeting adjourned.

DRAINAGE BOARD MINUTES JANUARY 3, 1996 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 5, 1997

The Tippecanoe County Drainage Board met Wednesday February 5, 1997 in the Tippecanoe Room of the Tippecanoe County Office Building, Lafayette, Indiana with Commissioner Hudson calling the meeting to order.

Those present: Tippecanoe County Commissioners Kathleen Hudson and Gene Jones, Tippecanoe County Surveyor Michael J. Spencer, Tippecanoe County Drainage Board Attorney Cy Gerde, Engineering Consultant David Eichelberger, and Drainage Board Secretary Shelli Muller.

Commissioner Hudson stated Commissioner Chase resigned Monday February 3, 1997 which created a vacancy in the position of Vice President to the Drainage Board. She nominated Commissioner Jones to fill the vacancy, seconded by Commissioner Jones. Motion carried to elect Commissioner Jones as Drainage Board Vice President.

The first item on the agenda was to approve the minutes from the meeting held December 11, 1996. Commissioner Jones moved to approve the minutes, seconded by Commissioner Hudson. Motion carried.

Commissioner Jones moved to approve the minutes of the last meeting held January 8, 1997, seconded by Commissioner Hudson. Motion carried.

Mr. Gerde asked for the active and inactive ditch list to be placed in the minutes and a motion be made to approve the list.

ACTIVE DITCH LIST 1997

Commissioner Jones moved to approve the active and inactive ditches for 1997, seconded by Commissioner Hudson. Motion carried.

1997 CONTRACTS

ENGINEERING CONTRACT

Mr. Gerde stated he commends the contract written for Christopher B. Burke Engineering, Limited, but some verbiage was changed to better protect the County's interest.

Mr. Eichelberger stated the changes will be made and the contract ready for signature at the March meeting.

ATTORNEY CONTRACT

Mr. Gerde stated the contract for Drainage Board Attorney is ready for approval and the signature of the Drainage Board. The contract is the same format as Mr. Hoffman's contract with a few changes; date, name and hourly rate changed to \$140.00 per hour also, the last paragraph was added to the contract.

Commissioner Hudson read the paragraph that was added:

"All parties hereto agree not to discriminate against any employee or applicant for employment with respect to his hire tenure, terms, conditions or privileges of employment or any matter directly or indirectly related to employment, because of his race, religion, color, sex, disability, handicap, national origin or ancestry. Breach of this convenient may be regarded as a material breach of the contract."

Commissioner Jones moved to approve the contract for Drainage Board Attorney, seconded by Commissioner Hudson. Motion carried. The entire contract is on file in the County Surveyor's Office.

JAMES N. KIRKPATRICK DITCH

Mr. Spencer asked that the **James N. Kirkpatrick Ditch** proposal discussion be continued until the March meeting allowing time to fill the vacancy of the third Drainage Board member.

Commissioner Hudson moved to continue the discussion of the James N. Kirkpatrick Ditch proposals until the March Drainage Board Meeting, seconded by Commissioner Jones. Motion carried

OBSTRUCTION OF DRAINS

Mr. Spencer referred to the following "PETITION TO TIPPECANOE COUNTY DRAINAGE BOARD TO REMOVE OBSTRUCTION IN MUTUAL DRAIN OF MUTUAL SURFACE WATERCOURSE" the "DRAINAGE BOARDS POWER EXTENDED TO PRIVATE DRAINS" article in "Indiana Prairie Farmer" and Indiana Code amendment act No. 1277. All of these documents are on file in the County Surveyor's Office. Mr. Spencer wanted the Commissioners to be aware of and have a discussion on this issue. Mr. Spencer felt this law was to protect against man-made obstructions and asked Mr. Gerde to examine the possibility of the law including natural obstructions.

Mr. Gerde gave an example of where this law could be taken into effect. The first being on North 9th Street Road, north of Burnetts Road, the current condition causes water to travel across the road producing a hazardous condition. The reason for the water across the road is due to drainage problems outside the County Road Right-of-Way.

Mr. Steve Murray, Executive Director, Tippecanoe County Highway Department, stated another persistent problem is 200 South, east of the South fork of the Wildcat Creek. Mr. Murray explained no actual source of funding is available to work on obstruction of drains which do not have a maintenance fund. Mr. Murray asked the Drainage Board to consider creating a fund which would help the Surveyor's Office and the Highway Department to determine what action could be taken. Mr. Murray stated when a problem becomes severe enough the County Highway Department will clean out an obstruction that is off county road right-of-way to protect the road way, but the funds used for the clean-up are funds that could be used elsewhere.

Commissioner Jones stated Steve Wettschurack told him that FEMA was going to help out with the situation on North 9th Street.

Mr. Murray pointed out with the older residential subdivision the storm water system were allowed to outlet into privately owned ravines, there is no funding available to help with maintenance on these situations. If the storm water system becomes plugged or breaks down causing the streets to flood the County Highway Department has repaired the problem, using funds that were not intended for that type of repair.

Mr. Gerde's understanding is that in the majority of those situation the County does not have an easement, which cause a legal problem for the County.

Mr. Spencer stated in all cases where the County has worked out side the easement a complaint was filed therefore the landowners are willing to grant entry onto their land.

MARCH DRAINAGE BOARD MEETING DATE

Mr. Spencer explained the March 1997 Drainage Board meeting date needs to be changed, if possible. Mr. Gerde is going to be out of town on the scheduled meeting date of March 5, 1997.

Discussion of the next Drainage Board Meeting, after an agreed date and time, Commissioner Hudson stated the next Drainage Board meeting will be Tuesday, March 11, 1997 at 9:00 a.m.

Being no further business Commissioner Hudson moved to adjourn until Tuesday, March 11, 1997 at 9:00 a.m., seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD

February 4, 1998

regular meeting

Those present were:

Tippecanoe County Commissioners Ruth Shedd, and John Knochel, County Surveyor Mike Spencer, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Shelli Muller.

The Tippecanoe County Drainage Board met Wednesday, February 4, 1998, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Shedd calling the meeting to order.

The first item on the agenda was to approve the minutes from the October 15, 1997 and December 19, 1997 regular Drainage Board meetings. Commissioner Knochel moved to approve the minutes, seconded by Commissioner Shedd. Minutes Approved.

MIKE MADRID COMPANY

Bob Gross, and Craig Rodarmel of R.W. Gross and Associates, presented the Board with final drainage plans of Mike Madrid Company, located west of I-65, in the northeast portion of the intersection of Swisher Road and the Rail Road. Mr. Gross explained at the south end of the site an existing 15 inch culvert under Swisher Road is the outlet. In the post-developed condition the same 15 inch pipe will be used for the outlet of the site with two sub basin. The sub basin at the north and east sides of the site will outlet into a 12 inch pipe under the driveway and then flow into the 15 inch outlet pipe under Swisher Road. The second sub basin will be at the south end of the site and outlet through a 12 inch pipe with a 4.25 inch diameter orifice on the end to restrict the flow before outletting into the 15 inch pipe under Swisher Road. Mr. Gross explained neither of the two basins will be very deep, but they will be spread over a large area.

Mr. Spencer stated he recommends final approval with the condition the applicant receives approval from the County Highway Department for use of the road right-of-way as site detention.

Commissioner Shedd asked where the emergency overflow will go and who owns the property the overflow will go on?

Mr. Gross stated Mike Madrid Company owns the property for the proposed emergency overflow.

Commissioner Knochel moved to grant final approval of the Mike Madrid Company drainage plan with the condition the applicant receives approval from the County Highway Department, seconded by Commissioner Shedd. Motion carried.

DRAINAGE BOARD 1998 CONTRACTS

Attorney

Mr. Spencer presented the Board with a 1998 contract from Hoffman, Luhman and Busch Law Firm for their services to the Tippecanoe County Drainage Board.

Commissioner Knochel moved to approve the 1998 contract with Hoffman, Luhman and Busch Law Firm, seconded by Commissioner Shedd. Motion carried.

Engineering Consultant

Mr. Luhman presented the Board with a 1998 contract from Christopher B. Burke Engineering, LTD. for engineering consultant services for the Tippecanoe County Drainage Board.

Mr. Luhman suggested continuing the 1998 contract with Christopher B. Burke Engineering, Ltd. until some language is included, which is in the agreement from January 3, 1995 contract. Christopher B. Burke Engineering, Ltd. could copy the 1995 contract and update it to include the current rates.

Commissioner Knochel moved to continue the 1998 engineering consultant contract with Christopher B. Burke until the March 4, 1998 Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

1998 ACTIVE AND INACTIVE DITCH LIST

Mr. Luhman read the 1998 active and inactive ditch list.

Commissioner Knochel moved to approve the 1998 ditch assessment list, seconded by Commissioner Shedd. Motion carried.

OTHER BUSINESS

Mr. Spencer brought to the Board's attention a public notice from the Corp. of Engineers regarding the proposed wetland constructed above a county regulated tile drainage system the **John McCoy Ditch** located south of Wea School along County Road 200 East. Mr. Spencer explained there have been some concern from the property owners in the watershed area with what the Corp. has proposed. Mr. Spencer asked the Board if the County should have an informational meeting regarding the wetland?

Commissioner Knochel moved to have an information meeting with all the effected landowner in the area of the proposed wetland, seconded by Commissioner Shedd. Motion carried.

Mr. Spencer asked if the 30 day requirement for a public notice would be in affect with this meeting only being an informational meeting?

Mr. Luhman stated no, not for an informational meeting because it is not being reconstruted, the assessment is not going to change and there is not going to be any legal affect on the landowners.

MINUTE BOOK

Mr. Luhman explained that there was a question as to whether or not a ledger size minute book was required to be used, if not, than could the minute book be changed to a letter or legal size. Mr. Luhman stated he could not find any statue where a ledger size book had to be used.

Commissioner Shedd granted approval to change the size of the minute book from ledger to letter, beginning with the 1998 Drainage Board minutes.

Being no further business, Commissioner Knochel moved to adjourn until March 4, 1998, seconded by Commissioner Shedd. Meeting adjourned.

WATKINS GLEN SUBDIVISION, PHASE 4, PART 3

Tim Beyer of Vester and Associates, asked the Board for preliminary approval of Watkins Glen Subdivision, Phase 4, Part 3 located off County Road 400 East. The proposed subdivision consists of 9 lot on a 5 acre site. Mr. Beyer asked for a variance from the Drainage Ordinance that requires on-site detention. The majority of the proposed plan drains to an existing pipe and then to an existing detention facility for Watkins Glen South, Part V. The facility has the capacity to handle the additional runoff of Phase 4, Part 2.

Mr. Spencer recommended granting the variance for no on-site detention and preliminary approval of the drainage plan for Watkins Glen, Phase 4, Part 3.

Commissioner Knochel moved to grant preliminary approval of Watkins Glen, Phase 4, Part 3 and to grant the variance allowing no on-site detention, seconded by Commissioner Shedd. Motion carried.

SEASONS FOUR SUBDIVISION, PHASE III

Roger Fine, of John E. Fisher and Associates, asked the Board for approval of the outlet pipe for Seasons Four Subdivision, Phase III. The City of Lafayette requires the project to receive approval from the Tippecanoe County Drainage Board because of the outlet pipe into the **Elliott Ditch**. Mr. Fine informed the Board a DNR permit is pending for work in the floodway.

Mr. Spencer recommended approval of the outlet pipe, subject to the project receiving the DNR permit.

Commissioner Knochel moved to approve the outlet pipe into **the Elliott Ditch** for Seasons Four Subdivision, Phase III, subject to the approval of the DNR permit, seconded by Commissioner Shedd. Motion carried.

Being no further business, Commissioner Knochel moved to adjourn until March 3, 1999 at 10:00 a.m., seconded by Commissioner Shedd. Motion carried.

Ruth Shedd, President

Shelli Muller, Secretary

Kathleen Hudson, Vice President

John Knochel, Member

Tippecanoe County Drainage Board
Minutes
February 4, 2004
Regular Meeting

Those present were:

Tippecanoe County Drainage Board President John Knochel, Vice President KD Benson, member Ruth Shedd, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultants Dave Eichelberger and Kerry Daily from Christopher B. Burke Engineering Limited, Tim Wells County Highway Engineer, Drainage Board Secretary Brenda Garrison, and Shelli Muller GIS Technician.

Approval of January 7, 2004 Minutes

KD Benson moved to approve the January 7, 2004 minutes and Ruth Shedd seconded the motion. The minutes were approved.

2004 Engineering Service Contract

KD Benson made the motion to approve the 2004 Engineering Service Contract with Christopher B. Burke Engineering LTD. Ruth Shedd seconded the motion; therefore the 2004 Engineering Service Contract between the Tippecanoe County Drainage Board and Christopher B. Burke Engineering LTD was approved.

Brookfield Heights/Brookfield Farms Petition for Establishment of Regulated Drain

The Surveyor invited representatives from Brookfield Heights and Brookfield Farms to address the Board. Norman Arbuckle President of Brookfield Heights Home Owners Association and Karen Hall President of Brookfield Farms Homeowners Association stated their name and position for the official record of the meeting.

Utilizing the County's GIS Website, Steve reviewed the location of both subdivisions for the Board. Brookfield Heights was located north of State Road 26, west of 550 East and south of 50 North, while Brookfield Farms was located south of 26. The Surveyor informed the Board of the following; a review of the files and previous Drainage Board meetings, showed the intent during the development of both Brookfield Heights and Brookfield Farms, was to make the storm sewer system within the two subdivisions into a regulated drain. Due to an inadequate outlet for the site a detention pond and an offsite channel which ran to the flood plain of the Wildcat Creek was required. An Easement was acquired from the property owner North of 50N and dedicated to the County. After review of the files, the Surveyor found that while the intent was to establish the storm system into a County Regulated drain, the developer never filed a signed petition. Recently, the Brookfield Heights Homeowners Association sent out a questionnaire asking if landowners were in favor of establishing the storm sewer system into a County Regulated drain. Those signatures were attached to a petition and represented over ten percent (10%) of the owners within the watershed.

Steve then stated the offsite channel in particular was grown up with brush and beaver dams needed removed. With the exception of the need for the offsite channel to be cleaned the Surveyor was not aware of any other major problems. At this time, the Homeowners Association would be responsible for overseeing the work. As the County deals with this on a regular basis, the Surveyor felt it would be more efficient, once a maintenance fund was established and the assessments were collected, for the County to have the work done. The Surveyor then presented the original Petition with the attached signatures to the Board for acceptance. KD Benson made the motion to accept the Petition and refer it back to the Surveyor for a preliminary report. Ruth Shedd seconded the motion; the Petition was accepted and referred back to the Surveyor for a preliminary report. Steve stated after the report was presented to the Board a landowner hearing would be the next step for the establishment of the **Brookfield Heights/Brookfield Farms Regulated Drain**.

Fellure Foods

Mr. Don Fisher of Insight Engineering appeared before the Board and to present Fellure Foods for final approval. The site consisted of approximately 8.8 acres and was located between U.S. 52 and County Road 500 North approximately 0.3 mile east of County Road 900 West in Shelby Township. Two entrance drives would be constructed to provide access to U.S. 52 and County Road 500 North. Runoff would discharge into the Oshier County Regulated Drain.

In response to KD's inquiry, Mr. Fisher noted all pertinent information had been submitted to INDOT for approval. The Surveyor stated that condition was on an earlier memo and would be a condition for final approval as well.

The Surveyor stated it would be required that warning signs be placed at a reasonable distance around the pond. The plans show a safety ramp, however the location of the ramp needed to be adjacent to one of the parking lot areas. Mr. Fisher stated they would make the adjustment as required. The Surveyor was prepared to recommend final approval as stated on the January 30th, 2004 Burke Review memo deleting condition six and adding the condition of approval from Indiana Department of Transportation as well as the addition of warning signs and safety ramp for the pond.

KD Benson made the motion to grant final approval to Fellure Foods with the conditions as stated on the January 30, 2004 Burke memo as well as the warning signs as noted by the Surveyor. Ruth Shedd seconded the motion and final approval with conditions was granted to Fellure Foods.

Stonehenge Subdivision Phases 2 & 3

Mr. Tim Beyer of Vester & Associates appeared before the Board to present Stonehenge Subdivision Phases 2 & 3 for final approval. These phases would contain 63 lots. The site consisted of a 24.6-acre tract and was located on the south side of County Road 450 North and east of the intersection with County Road 375 West. Tim noted the Board had previously approved the existing detention facilities for the overall development. The proposed storm sewer system would tie into the existing Phase 1 storm structure and eventually discharge to Indian Creek located to the east of the development.

KD Benson asked if there would be a Phase 4 and Mr. Beyer responded the owner Stonehenge Development Corporation planned on additional phases in the future. In response to the Surveyor's inquiry, Mr. Beyer confirmed the conditions on the February 2, 2004 Christopher Burke memo were noted and understood. The Surveyor pointed out the area on the plans around lots 64 through 73. A temporary easement would be required for the record in the event the conveyance of runoff from the swales to the detention pond fell outside the platted easement.

The Surveyor recommended final approval with conditions as stated on the February 2, 2004 Burke memo. KD Benson motioned to grant final approval for Stonehenge Subdivision Phases 2 & 3 with the conditions as stated on the February 2, 2004 Burke memo as well as the requirement of the temporary easement. Ruth Shedd seconded the motion and Stonehenge Subdivision Phases 2 & 3 was granted final approval.

Water Safety Committee

KD Benson stated the following people have been asked to serve on the newly established Water Safety Committee.

Commissioners Representative - KD Benson

County Surveyor - Steve Murray

County Attorney - Dave Luhman

Surveyors' Representative - Pat Cunningham of Vester & Associates (or designee)

Engineers' Representative - Mike Wylie of Schneider Engineering (or designee)

Developers'/Builders' Representative - Scott Bowers of CP Morgan Communities (or designee)

Parent - Kathy Shedd (or designee)

Sheriff - Smokey Anderson

TEMA Representative- Steve Westtschurack

Red Cross Representative - Debbie Elsner (or designee)

School Representative - Alan Kemper

West Lafayette Representative - Jason Burks

Lafayette Representative - Mike Spencer

Vision 2020 Representative - Kathy Dale (or designee)

KD stated the first meeting would be held February 19th, 2004 at 12:00 and would be held in the Grand Prairie Room of the County Office Building. She then thanked Kathy Shedd for her perseverance. The Surveyor stated his office was in the process of determining the number of wet and dry detention facilities outside the city limits within the county. Ruth Shedd moved to approve the committee for the water safety program and John Knochel seconded the motion. The motion carried.

OTHER BUSINESS

Steve Murray

Irrevocable Letter of Credit

The Surveyor presented an Irrevocable Letter of Credit # 532 from Lafayette Bank & Trust in the amount of \$34,315.00 for Raineybrook Part 2 Section 1 for approval. KD Benson made the motion to approve the Irrevocable Letter of Credit as presented and Ruth Shedd seconded the motion. The Irrevocable Letter of Credit # 532 for Raineybrook Part 2 Section 1 in the amount of \$34,315.00 was approved.

2004 Active and Inactive Drains

The Surveyor presented the 2004 Inactive and Active Drain list for the Board’s acceptance and approval. KD Benson made the motion to accept the list as presented and Ruth Shedd seconded the motion. The 2004 active and inactive drain list as presented was approved. A copy of the list would be added to the minutes of this meeting and put in the official minutes record.

Steve then informed the Board that Shelli Muller, GIS Technician had been entering drain watersheds on the GIS system. Khalid Hassan from MITS was assisting the office with the development of a drainage layer. The layer among other things would highlight a parcel or tract of land that was not being assessed within a particular watershed. Steve stated this would be a more efficient process for assessment of the drains.

Berlowitz Reconstruction Project Phase 1

The Surveyor presented the cover sheet for the Berlowitz Reconstruction Project Phase 1 to the Board for signatures. The project ran from approximately 50 South to I-65. A final bid date had not been set at that time. The Surveyor estimated the project would cost two million dollars (\$2,000,000.00). The project had about 500,000 cubic yards of dirt to be removed. The Surveyor felt half of that amount had been accounted for as Mr. Sorenson from Eastland Development was working with the office on that issue. The last resort would be to stock pile it and offer it to the public at no charge.

KD Benson moved to approve the Berlowitz Regional Watershed Improvement plan as presented and Ruth Shedd seconded the motion. The plan was approved and cover sheet signed.

As there were no public comments John Knochel entertained a motion to adjourn. KD Benson motioned to adjourn and Ruth Shedd seconded the motion. The meeting was adjourned.

John Knochel, President

KD Benson, Vice President

Brenda Garrison, Secretary

Ruth Shedd, Member

Tippecanoe County Drainage Board
Minutes
March 24, 2006
SPECIAL Meeting

Those present were:

Tippecanoe County Drainage Board President KD Benson, Vice President John Knochel, member Ruth Shedd, County Surveyor Steve Murray and Drainage Board Secretary Brenda Garrison. Drainage Board Attorney Dave Luhman was absent.

Classification of Drains (Partial)

The Surveyor presented the Classification of Drains (Partial) report to the Board. A copy of which would be included (excluding Exhibit A- see file) in the official Drainage Board Minutes book. The Surveyor stated he has completed and presented a Classification of Drains (Partial) report to the Board previously in 2003 and 2005. He stated this year he had expanded it with more detailed information as "Exhibit A". He stated as it was not feasible for his office to know the condition of every regulated drain under County Maintenance, he relied on the farmer to report the condition of a drain .Often calling upon them for a review of the drain's condition and noted his office receives maintenance request calls in the fall and spring when farmers are in the field.

He reviewed his report with the Board as follows:

- 1.) Drains in need of Reconstruction
 - a. Berlovitz, Julius (#8) (Includes Felbaum Branch)
 1. Declared Drainage Impact Area by Resolution 2006-02-DB

The Surveyor stated the Board was very familiar with this Drain.

- b. Kirkpatrick, J.N.(#46) (Watershed above (east) of Concord Road)
 1. Declared Drainage Impact Area by Resolution 2006-01-DB

The Surveyor stated he had met with the landowners on the Upper JN Kirkpatrick Regulated Drain. It was decided they would provide their own regional detention and the County would construct a positive outlet. He noted the design would be completed within a couple of months and was hopeful to start the bidding process at that time. Right of Entries would be required from the landowners which they had verbally agreed to.

- c. Elliott, S.W. (#100)
 1. F-Lake Detention Facility

The Surveyor stated EDIT monies was planned for this facility, however the Berlovitz Regional facility would take precedence over F-Lake.

2. Branch #11 (at S.R.38 near Tractor Supply)

The Surveyor stated Branch#11 of the S.W. Elliott served the property north of State Road 38. Previously the Brands were told they would have to reconstruct Branch #11 themselves. The reconstruction cost proved too much- as two 60" inch pipes were required under State Road 38. INDOT would not agree to place the pipes at their expense. The Surveyor suggested a formal reconstruction to the owners as INDOT would then have to shoulder the expense for the pipe installation under State Road 38. A landowner meeting concerning the reconstruction would be organized as soon as time allows.

- d. Anderson, J.B. (#2) (Clarks Hill portion)

The Surveyor stated a conceptual reconstruction plan was completed by Christopher B. Burke through the Lauramie Creek Watershed study. The original estimate was in excess of two million dollars, however the Surveyor had reviewed costs and was able to decrease that to approximately half a million dollars.

- e. Kirkpatrick, Frank (#45) (Portion East of C.R. 450E)

The Surveyor stated the Frank Kirkpatrick Drain was located in the southeast portion of the County with a portion east of C.R. 450East. This portion was investigated and found to be purposely laid uphill. The Surveyor stated he felt the reconstruction cost would not be acceptable by the landowners. However he noted it would continue to deteriorate over time and would be in need of the reconstructed in spite of the cost.

- 2.) Hearing and rates established in 2005
 - a. Anson, Delphine (#4) Reconstruction rate, periodic maintenance rate and maintenance rate after reconstruction set by hearing on August 29, 2005
 - b. Jakes, Lewis (#40) Reconstruction rate, periodic maintenance rate and maintenance rate after reconstruction set by hearing on August 29, 2005

The Surveyor informed the Board there was a SEA 368 Review scheduled in the near future for the Lewis Jakes Drain. The drain outlet at Indian Creek. He explained if work was reconstruction and the length of a drain greater than ten miles on the USGS map, a review (SEA 368) by IDNR, IDEM and Army Corps of Engineers was required. They will walk the drain with the Surveyor and give their requirements for said reconstruction.

- 3.) Urban Drains (per I.C. 36-9-27-68 Urban Drains are classified as in need of Reconstruction)
 - a. S.W. Elliott (#100)
 - b. Berlowitz, J. (#8) (Include Filbaum Branch)
 - c. Kirkpatrick, J.N. (#46)
 - d. Ross, Alexander (#48)

The Surveyor noted extensive maintenance work on the Alexander Ross drain.

- 4.) Drains in need of Periodic Maintenance
Please see attached sheet Exhibit A

The Surveyor noted the Exhibit Sheet A indicated maintenance amounts from 1990 to date on each regulated drain and referred the Board members to the exhibit for review.

- 5.) Insufficient Funds
 - a. Blickenstaff, John (#11)
 - b. Crist Fassnacht (#29)
 - c. Grimes, Rebecca (#33)
 - d. Harrison Meadows (#37)
 - e. Kerschner, Floyd (#38)
 - f. Kirkpatrick, Frank (#40)
 - g. Lesley, Calvin (#48)
 - h. Morin, F.E. (#57)
 - i. O'Neal, Kelly (#59)
 - j. OShier, Audley (#60)
 - k. Saltzman, John (#70)
 - l. Dickens, Jesse (#91)

The Surveyor stated the most common reason for insufficient funds was the low originally established assessment rate. The rate was set many years ago and due to inflation did not meet present maintenance costs.

- 6.) Proposed Drains for hearing in 2006
(Request these drains be referred to Surveyor for preparation of maintenance report)
 - a. Brown, Andrew (#13)
 - b. Coe, Train (#18)
 - c. Haywood, E.F. (#35)
 - d. Harrison Meadows (#37)
 - e. Kirkpatrick, Frank (#45)
 - f. Morin, F.E. (#57)
 - g. Mottsinger, Hester (#58)
 - h. Parker, Lane (#61)
 - i. Resor, Franklin (#65)
 - j. Southworth, Mary (#73)
 - k. Vannatta, John (#81)
 - l. Yoe, Franklin (#90)
 - m. Dismal Creek (#93)
 - n. Beutler Gosma (#95)
 - o. Romney Stock Farm (#109)

The Surveyor stated these drains assessment rates were more critical in his view. There was a limited amount of monies within the General Fund available for general use. For example the Andrew Brown in the northeast portion of the County was tile and open ditch. A portion of the open ditch was cleaned this spring due to the submerged outlet at the headwall. (Generally open ditches should be cleaned or dipped and cleared an average of ten to twelve years.) The cost for a three thousand foot open ditch at \$6.00 per foot would be approximately \$18,000.00. It would take approximately 4-5 years to

repay the general fund. The Harrison Meadows Drain had maintenance work done in the mid nineteen-nineties and owed the General Fund over \$6000.00 to date. The four year total assessment for this drain was only \$1915.70.

- 7.) Drains recommended to be raised by 25%
 - a. E.F. Haywood (#35)
 - b. O'Neal Kelly (#59)
 - c. Oshier, Audley (#60)
 - d. Resor, Franklin (#65)
 - e. Yoe, Franklin (#90)
 - f. Kirkpatrick One (#96)

The Surveyor noted this recommendation was a temporary fix. Raising the maintenance assessment 25% in his opinion was a proactive action in the interim.

- 8.) Petitions for New Regulated Drain Referred to Surveyor
 - a. Fred Whaley/Norm Bennett
 - b. Todd Welch

The Surveyor noted additional investigation was required for the Fred Whaley/Norm Bennett Petition as the tile drain was submerged which made it difficult to evaluate properly. He felt the most cost effective way was to set up a maintenance fund before additional investigation was done. Investigation on the Todd Welch petition would be completed as time allowed.

- 9.) Existing Drains Referred to Surveyor for Report
 - c. Upper JN Kirkpatrick (#46)
 - d. J. Berlowitz (#8)

The Surveyor stated these drains had existing maintenance funds and was conferring with Christopher Burke on their reports.

- 10.) Drain that should be vacated
 - a. That portion of Branch #5 of the J.N. Kirkpatrick which runs along the East side of Promenade Drive in Stones Crossing Commercial Subdivision.

The Surveyor stated this portion of the tile was presently functioning as a storm sewer for Promenade Parkway on the west side of Wal-Mart and should be vacated as it no longer functions as a county regulated tile.

In summary the Surveyor stated a new drainage layer and map was close to completion and would eventually be available to the public. He reviewed the layer utilizing GIS for the Board. A red dash tile was a county tile or open ditch: a solid blue label indicated it had a maintenance fund, a green label indicated it did not have a maintenance fund. He added a database (individual drains historical information to date) was being maintained as well. He informed the Board he will give a presentation the first Wednesday of April to the District SWCD Board concerning County Drains.

As there was no additional information for the Board, John Knochel made a motion to adjourn. Ruth Shedd seconded the motion. The meeting was adjourned.

KD Benson, President

John Knochel, Vice President

Brenda Garrison, Secretary

Ruth Shedd, Member

**Tippecanoe County Drainage Board
Audley Oshier Regulated Drain #60
Maintenance Hearing
November 3, 2010**

Those present were:

Tippecanoe County Drainage Board President Thomas Murtaugh, Vice President David Byers, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, and Drainage Board Secretary Brenda Garrison. Member John Knochel was absent.

Audley Oshier Regulated Drain #60 Maintenance Hearing

Tom Murtaugh opened the Audley Oshier Regulated Drain #60 Maintenance Hearing and turned the floor over to the Surveyor. The Surveyor noted this hearing was requested by the landowners within the watershed themselves. He stated assessments collected for this drain would be placed in a fund to be used solely for maintenance on the Audley Oshier Regulated Drain. The Surveyor then presented his Maintenance Report which was filed on October 18, 2010 as follows:

The Audley Oshier Drain was originally established as part of the John A. McFarland ETAL Ditch by the Superior Court of Tippecanoe County, Indiana on July 2, 1928. The drain and its watershed is located in Section 26 and 27 of Township 24 North and Range 6 West in the political township of Shelby, Tippecanoe County, Indiana. By using information available in the 1970's the 1971 Maintenance Report indicates a watershed area totaling 808.89 acres and being totally within Tippecanoe County. It is the judgment of the Tippecanoe County Surveyor based on testimony from benefitted landowners and 2 foot contour information available in the year 2010 that the total benefitted watershed area is 1313.08 acres. There is approximately 8200 lineal feet of open ditch and zero (0) lineal feet of tile under maintenance. The Audley Oshier Drain Maintenance Fund was established by the Tippecanoe County Drainage Board on the 1st day of December 1971. It is the judgment of the Tippecanoe County Surveyor that a sum of \$30,000.00 is needed to maintain and improve the existing open ditch system. An assessment of \$7.50 per acre and a \$50.00 minimum over a four year period is recommended. This will generate \$40,531.88 over a four year period. Assuming the maintenance and improvements are completed at that time, the per acre assessment could be lowered to \$5.00 per acre and a \$35.00 minimum if the majority of the owners benefitted agreed. It is the opinion of the Tippecanoe County Surveyor to leave the rate set at \$7.50 per acre because of inflation in dredging costs and due to the minimal amount of acres within the watershed. Lowering the assessment rate will not guarantee that there will be adequate funds available to perform maintenance work in the future. The Surveyor then read a letter received from the Dan and Sharon Nykiel regarding the assessment proposed as follows:

Dated October 27, 2010; Dear Drainage Board members, we received a notice regarding your regular scheduled meeting on November 3, 2010 which a hearing will take place afterwards concerning the Audley Oshier #60 Regulated Drain Assessment. According to your survey (see accompanying letter), we have three parcels which are being affected by this drainage ditch. We are in favor of keeping drainage ditches open and functioning but feel that the minimum assessment of \$50.00 per parcel is a little excessive. The \$50.00 is being assigned to a parcel that is only 2.59 acres. We would be more than willing to pay \$19.43 (2.59x\$7.50) for this parcel. We would appreciate any consideration given to adjusting the assessment on this partial. (Note: letter stated partial) Thank you for your time and effort in reviewing this request. Sincerely, Dan and Sharon Nykiel 720 Emerald Drive Lafayette Indiana 47905. The Surveyor then turned the hearing over to the Board.

Tom Murtaugh asked for public comment. Gary Standiford 1338 East 510 South Lafayette Indiana represented DF Properties LLP as managing partner and stated he had installed 6 and 8inch tile recently and without the proposed cleanout of the ditch it would be a waste of money. He stated he hoped to have this cleanout approved and whatever the Board could do he would appreciate it. William Brost 4466 South 850 East Oxford Indiana approached the Board and stated he had 280 acres within the watershed and represented another 190 acres. He stated he was for the project as the tile outlets were approximately 18inches to 2 feet under water. He stated he had one request. He has a 35 acre field just south of U.S. 52 within the watershed and he did not believe it should be. He stated the following; "there is tile coming out of just north of U.S. 52 through the parcel and over toward the southwest corner running toward the Nursing Home. I believe the 35 acres should be in the other watershed. Thank You." Tom Murtaugh asked for public comment by those opposed to the maintenance. There was no comment. He then asked for Board questions. The Surveyor noted some of the landowners had installed tiles in anticipation of the project. He planned to borrow the money from the General Drain Improvement fund to proceed with the project as

soon as possible. He stated precedent had been set in the past and he had also spoken with the landowners about the assessment process. Anytime monies were borrowed from the General Drain fund, it would be paid back within the limits as the law provides. The new assessments would start in May of 2011 to repay the general fund monies owed and also build up the individual fund. Once the individual fund was at the allowed limit (4times greater than yearly assessment) it would automatically be taken off the assessment rolls. That was the intent at this point. He stated the fund currently had a balance of \$2179.66. The drain assessment was inactive at this time. The attorney then read the Findings and Order of the Board as follows:

**IN THE MATTER OF THE AUDLEY OSHIRE REGULATED DRAIN #60:
FINDINGS AND ORDER (ANNUAL MAINTENANCE)**

This matter came to be heard upon the maintenance report and schedule of assessments prepared by the Tippecanoe County Surveyor and filed on Audley Oshier #60 Regulated Drain. Certificate of mailing of notice of time and place of hearing, to all affected landowners filed. Notice of publication of time and place of hearing in the Lafayette Leader and Journal and Courier were filed. Remonstrances were filed. Evidence was presented by the Tippecanoe County Surveyor and many of those landowners affected were present. A list of those present is filed herewith. After consideration of all the evidence, the Board does now FIND THAT:

- (1) The maintenance report of the Tippecanoe County Surveyor and schedule of assessments were filed in the office of the Surveyor on October 15, 2010.
- (2) Notice of filing of the maintenance report and the schedule of assessments and their availability for inspection and the time and place of this hearing was mailed to all those landowners affected more than thirty (30) and less than forty (40) days before the date of this hearing.
- (3) Notice of the time and place of this hearing was given by publication in the Journal & Courier, The Lafayette Leader newspapers of general circulation in Tippecanoe County, Indiana more than ten (10) days prior to this hearing.
- (4) The legal drain consists of 8200 lineal feet of open ditch.
- (5) The present condition of the ditch is in need of repair and maintenance.
- (6) The ditch needs the following maintenance at present:
Dredging, clearing and seeding of the aforementioned 8200 lineal feet existing open ditch.
- (7) There is now \$0.00 owed to the General Drain Fund for past maintenance on this ditch.
- (8) The ditch drains 1313.08 acres total.
- (9) Estimated annual cost of maintenance is \$40,531.88 over a four year period.
- (10) Estimated annual benefits the land drained exceed the repairs and maintenance costs.
- (11) A fund for annual maintenance should be re-established.
- (12) In order to provide the necessary maintenance fund, the annual assessment per acre and minimum benefited should be: \$7.50 per acre with a \$50.00 minimum parcel assessment.
- (13) The assessment list filed herewith should not be amended as follows:
- (14) The assessment list filed herewith is fair and equitable and should be adopted.
- (15) The assessment should be collected with the May 2011 tax rolls.

NOW, THEREFORE, IT IS ORDERED THAT:

- (1) A maintenance fund shall be re-established for the Audley Oshier #60 Regulated Drain at the annual rate of \$7.50 per acre with a \$50.00 minimum parcel assessment.
- (2) The Schedule of Assessments filed herewith are adopted and made a part thereof.
- (3) The first annual assessment shall be collected with the May 2011 tax rolls.

Dated at Lafayette, Indiana this 3rd day of November 2010, with a signature line for the County Drainage Board.

Responding to Mr. Byers inquiry, Mr. Brost stated the tiles located within his 35 acre tract were routed south of U.S.52 on to the Kerhoff property. The Surveyor clarified, the area discussed was the parcel just south of U.S. 52 and just west of the gas station and grocery store. The parcel had been on assessment since the original watershed was established in 1971. The addition of Mr. Brost parcel, Fellure Foods parcel and Kyburz properties were all three included on the 1971 maintenance report. The Kerkhoff and FFR Cooperative parcels were placed in the watershed boundary based on the two foot contour mapping in Tippecanoe County current today. That was not a huge surprise as most drains were delineated using the information available in the 1970's. The 1971 maintenance report included approximate 800 acres and today based on the two foot contour information available there was approximately 1313 acres within the watershed. The Surveyor stated the roughly 500 additional acres today were located on the north, south and east side of the watershed, more specifically north of Co. Rd. 500 North and south of Co. Rd. 600 North just west of Co. Rd. 850 West. These parcels were left off the maintenance report in 1971. He did not know why as they should have been included at that time, however there was nothing on file which indicated why they were not included. Responding to Mr. Murtaugh's inquiry, the Surveyor noted according

to the present contour information the land south of U.S. 52 within the watershed naturally (sheet flow) flowed north. He noted the boundary along the south edge of the watershed was based on the two foot contour information as well as comparisons of the Otterbein Ditch watershed which adjoined the Oshier watershed. The comparison was done so there would be no overlap of assessments. He then reviewed the watershed boundaries for the Board. The Attorney noted if the 35 acre parcel in question was determined to be not benefitted by said drain and removed, then the maintenance report assessments would have to be recalculated overall. David Byers noted the county was also assessed for approximately 22 acres on this drain.

David Byers made a motion to accept the Findings and Order regarding the Audley Oshier Regulated Drain #60 Maintenance Assessments as presented by the Attorney. Tom Murtaugh seconded the motion. The Findings and Order regarding the Audley Oshier Regulated Drain #60 Maintenance Assessments were approved as presented.

David Byers made a motion to adjourn. The meeting was adjourned.

Thomas P. Murtaugh, President

David Byers, Vice President

Brenda Garrison, Secretary

John Knochel, Member

Tippecanoe County Drainage Board

Minutes

December 8, 2010

Regular Meeting

Those present were:

Tippecanoe County Drainage Board President Thomas Murtaugh, Vice President David Byers, member John Knochel, County Surveyor Zachariah Beasley, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering Limited, and Drainage Board Secretary Brenda Garrison.

Approval of Minutes

David Byers made a motion to approve the November 3, 2010 Regular Drainage Board minutes and the November 3, 2010 Audley Oshier Regulated Drain #60 Hearing minutes as written. John Knochel seconded the motion. The November 3, 2010 Regular Drainage Board meeting minutes and the November 3, 2010 Audley O'Shier hearing minutes were approved as written.

2011 Drainage Board Meeting Dates

David Byers made a motion to approve the 2011 Drainage Board meeting dates as presented. John Knochel seconded the motion. The 2011 Drainage Board meeting minutes were approved as submitted. The Secretary will post these dates on the website and send out to media.

Wea Substation /Tipmont R.E.M.C.

Jim Pence from Schneider Engineering appeared before the Board to present the Wea Substation/Tipmont R.E.M.C. for final approval. The site consisted of approximately 4.63 acres and located just north of County Road 450 South and west of the intersection of County Road 450 South and County Road 450 East. Access would be provided from County Road 450 South. The majority of the site's runoff outlet northwest into the existing JN Kirkpatrick Regulated Drain, and the remaining outlet to the County Road 450 South side ditch. Mr. Pence stated they agreed with conditions stated on the December 3, 2010 Burke memo. He requested final approval with the conditions as stated on the December 3, 2010 Burke memo. He stated Steve Traylor from Tipmont R.E.M.C. was in attendance today. Construction of the facility would start in the spring of 2011. Responding to Mr. Byers' inquiry, Jim stated the existing substation located approximately 0.5 miles from the site was owned by Duke Energy not R.E.M. C. He also noted a permit pending with the Highway department was for the access drive. David Byers made a motion to approve the Tipmont R.E.M.C. Wea Substation with conditions as stated on the December 3, 2010 Burke memo. John Knochel seconded the motion. David Byers withdrew the motions as stated to discuss the requested Variance and Encroachment Petition before the final approval was given. Mr. Pence requested a variance to the Stormwater Ordinance regarding Chapter 3 and more specifically as the required 30 feet easement to be reduced down to 10 feet. He stated due to the proposed 12 inch storm pipe to be located underground below and parallel to an existing overhead transmission line and high powered gas main utility easements, the requested 10 foot easement was sufficient to maintain the infrastructure when necessary. This was also at the request of Mr. Standiford the landowner. The Surveyor recommended approval of the variance. David Byers made a motion to approve lowering the required variance from 30 feet to 10 feet as requested. John Knochel seconded the motion. The requested easement variance was lowered to 10 feet as requested. A Petition to Encroach on the J. N. Kirkpatrick Regulated Drain was submitted for approval at that time. John Knochel made a motion to grant the petition to encroach on the J.N. Kirkpatrick Regulated Drain easement. David Byers seconded the motion. The Petition to Encroach on the J.N. Kirkpatrick Regulated Drain was approved as submitted. David Byers then made a motion to approve the Tipmont R.E.M.C. Wea Substation with conditions as stated on the December 3, 2010 Burke memo. John Knochel seconded the motion. The Wea Substation was granted final approval with the conditions as stated on the December 3, 2010 Burke memo.

Chapelgate Senior Apartments/Earthwork & Grading

Dan Teder Attorney with Reiling, Teder and Schrier appeared before the Board to present Chapelgate Senior Apartment Earthwork & Grading for final approval. He noted Art Kaser with Evergreen planners; Dave Tilman and Joe Whitsett owners of Chapelgate Apartments were in attendance today and would answer any questions the Board may have. The site consisted of approximately 6.90 acres and was located south of U.S. 52 west of County Road 300 West (Klondike Road). The site's grading and placement of fill would be located within the floodplain of Indian Creek. It would be used to construct on-

site floodplain compensation ponds (2) and prepare the site for future construction of buildings and parking areas. One of the ponds would be located within the floodway of the Indian Creek; however no fill would be placed within the floodway of the creek. He stated a Dept. of Natural Resource (D.N.R.) approval would be required for one pond and there would be no increase to the existing runoff. He reiterated at this time the approval was for the earthwork and grading only as they planned to return to the Board for approval of the detailed construction plans regarding the building and parking areas. Responding to Mr. Murtaugh inquiry, Mr. Teder stated they would be working closely with D.N.R. during the process of construction of the pond in question. Mr. Kaser stated there would be some fill in the floodplain area of the site. Responding to Mr. Knochel's inquiry, it was noted that all excavated materials would be used on site. Mr. Kaser stated they agreed with the conditions as set forth in the December 3, 2010 Burke memo and requested approval. Mr. Murtaugh stated the area had been discussed in length by the Drainage Board. A master drainage study was planned by the Board regarding the potential impact of development within Indian Creek watershed. Mr. Teder stated the owners understood the present conditions of the site and were willing to work closely with the Surveyor on this project to insure adequate drainage. Discussion was held regarding the release rate requirement for future building and parking area construction on site. The Surveyor reiterated historically this area has had problems with the drainage and his office was looking at this closely. A more restricted release rate would be required as one condition for any future planned construction approvals. Dave Eichelberger stated it would be prudent to use the most restrictive release rate from the Ordinance and Technical Standards of .07 cfs per acre for the 10 year and .23 cfs per acre for the 100 year in their calculations as they start to develop the site. He noted they should check with the Surveyor's office in case the master drainage study had been completed before submission. If it was completed at that time they would need to follow the master drainage study recommendation regarding release rates. Responding to Mr. Teder's inquiry, Mr. Luhman stated the area's landowners were presently circulating a petition to establish a new regulated drain regarding Indian Creek north of the railroad. It was not known when the petition would be submitted. He also noted any time there was a catastrophic flood in the area; the Board has heard multiple complaints etc. regarding the lack of drainage. He continued this area may well be declared a Drainage Impact Area if the study indicated it. Mr. Teder asked if his clients submitted a future building and parking area construction plan using .1 cfs rate before the study was completed, would they have to refigure and resubmit their plans. Mr. Luhman stated no they would not be required after the fact. Mr. Eichelberger noted if possible they should use .1 cfs release rate for their future development calculations. Boone County (as a result of a newly established master drainage study) cut their release rates to .1 and .25 cfs. Joe Whitsett owner of Chapelgate Apartments stated they had many conversations with the neighbors in the area. They certainly planned for drainage improvement of the area and being good neighbors. Mr. Eichelberger stated the existing pond was a constructed wetland put in as a BMP measure as well as the channel from past development. Due to flood elevations there was no way the ponds could be used as detention and the developer was fully aware of that. John Knochel made a motion to grant final approval with the conditions as stated on the December 3, 2010 Burke memo for Chapelgate Senior Apartments Earthwork & Grading only. David Byers seconded the motion. Chapelgate Senior Apartments Earthwork and Grading only was granted final approval with the conditions as stated on the December 3, 2010 Burke memo.

Industrial Pallet Master Drainage Study

Patrick Williams of TBird Designs Inc. appeared before the Board to submit Industrial Pallet Master Drainage Study for final approval. He noted Jay Wiegand was in attendance as well. The site consisted of approximately 26 acres and was located on the east side of U.S. 52 approximately a quarter mile just north of State Road 28. Currently the west side of the site was developed for business. This portion of the site drained west to east. The submitted Master Drainage Study would bring their current development into compliance as well as the eastern portion of the site. Two variances for the project were requested. A half acre of impervious area on the west side and a quarter acre of impervious area for the south side was planned to expand driveways and a small amount of business storage. A variance from the storm water quantity and quality was requested for these portions. In addition an emergency route was provided for offsite drainage on the south and east side of the site. There would be a small meadow or grass swale for some treatment in the area. No additional impervious area runoff would be sent to that area of the site. He stated he was available for questions at that time. Responding to Dave Byers inquiry, Mr. Williams noted they expect the storm water quality to be improved. There was presently a small amount of offsite runoff which ran to a natural depression/swale on the site. The development would impact this area of the site. The flow would bypass the pond because it was physically impossible to get the runoff into it. Hence it would be bypassed to its natural outlet and be used for emergency flow only. Storage would be provided within the swale. Discussion was held concerning the existing offsite runoff flow and the present conditions. From the culvert under the railroad the runoff crossed over the road into the ditch system. After construction instead of runoff routing through the property offsite runoff will be routed around the property. Pat Jarboe stated while the offsite runoff would be reduced it would be outlet to the same location at present. Responding to the Surveyor's inquiry, Pat Williams stated the existing onsite drainage tile would be abandoned and they would not be connecting to it. After the construction of the pond and new outlet the tile would remain in place and basically act as a farm tile for acreage to the north and noted there were private tiles tying into it. They were only proposing to obtain the Master Drainage Study approval only at this time. When the time came for construction to cross County Road

1075 South they would seek approval not only from the Surveyor Office but from County Highway as well. Pat Jarboe noted there had been discussion with the highway department regarding the culvert at that location. Regarding Dean Rusk's (5983 Broadview Road Colfax In.) inquiry, Mr. Williams stated the underdeveloped portion of the site would flow into and be contained in the pond. Marshall Palmer (10818 E 1075 S Clarks Hill In.) asked if the gas station, diner and lodge runoff flowed to his tract. Mr. Williams stated he believed it flowed south and into a depression area. The natural depression area straddled Industrial pallet's site and the south site. Mr. Weigand stated they have kept that area mowed however it was not owned by them. (small triangle tract) Pat Williams noted there would be no change on the Lincoln Lodge Property site and no investigation had been done regarding wetland etc of the depression area. Mr. Eichelberger stated when the project is submitted for approval a report would be required regarding the possible wetland issue. Kenny Johnson of Johnson Excavating (2105 S CR930W Clarks Hill In) responded to Mr. Murtaugh' inquiry and stated there was a 6 inch tile that went into an 8 inch tile in the undeveloped portion of the site. Mr. Palmer noted his property was directly north of the site. He has one area of his property which acts as a nice bio-filter full of willows, cat tails etc. and he did not want to see it destroyed. Mr. Williams stated any future expansion would be designed and based on a plan adhering to the Ordinance requirements. Tom Osborne (8536 E 1000S Clarks Hill In) asked if they had a Rule 6 permit. Jay Wiegand responded they had applied for a Rule 6 permit from Ind. Dept of Environmental Management (IDEM). He stated they were also required to do quarterly testing of any and all industrial contaminates specifically tailored to their business. He stated it was public information and could be obtained from IDEM. An engineer firm from Indianapolis performed the testing on a quarterly basis. He stated they have had a Rule 6 permit since 2006. A chain of custody of the samples was followed and they were submitted to IDEM for testing. He noted they have had no compliance issues to date. Mr. Eichelberger noted while a copy of the Rule 6 permit was on hand, a copy of the SWPPP was not. The Surveyor requested a copy of the report from IDEM (specifically the testing results) be submitted and recommended it to be a condition of approval today. Mr. Eichelberger suggested the developers submit a copy of their latest annual report from IDEM which includes testing data and any recent correspondence from IDEM as well. A current annual report would show key information from all the periods to date and would be sufficient. Mr. Wiegand noted they do have some industrial waste water which is totally separate from their storm water. They presently haul this waste offsite to a facility in Indianapolis as it is cheaper than to route the waste to the plant at present time. Eventually the industrial waste will be routed to the Clarks Hill Waste Water Plant. Currently only sewage from their restroom facilities are pumped to Clarks Hill Waste Water facility. He noted any and all industrial waste water was hauled off their site to a facility in Indianapolis. Responding to Dean Rusk's inquiry, Mr. Weigand stated their drinking water was tested by IDEM as well. Mr. Palmer stated at the present time there was a black sludge with the runoff from the site. Mr. Williams noted the pond was designed to treat for sediment, and approximately 80% of the sediment should be eliminated from the outflow. He also reiterated the release rate from the larger 2 acre pond would be restricted as the Ordinance allows. Responding to Mr. Murtaugh' inquiry, Pat stated presently the onsite ponds were undersized. Dave Luhman noted due to the additional onsite area retained in the pond the release rate would continue for a longer duration. Mr. Eichelberger stated it would create a higher volume, longer duration; the peak discharge would be about the same. During the 100 year storm the project site would produce 8 cfs (assuming fully developed) release rate, which was several times less than the contribution of the farm field at present. He also stated there were 10 year and 100 year flood restriction plates as well. Mr. Luhman, Board Attorney reiterated the developers were requesting approval for a master drainage study only for their future development plans. When they were ready to construct anything on site they would have to appear before the Board and plans would be reviewed for compliance to the Stormwater Ordinance. Action today would set the general ground rules however they would still be held to the standards as set in the Ordinance for the project at that time. Mr. Eichelberger stated that the two variance request would not be appropriate until the applicant submitted future plans for actual construction improvements on the site. David Byers made a motion to approve the Industrial Pallet Master Drainage Study with the conditions as stated on the December 3, 2010 Burke memo and the added condition of submission of the most recent IDEM report. John Knochel seconded the motion. The Industrial Pallet Master Drainage Study was approved with the conditions as stated on the Dec. 3, 2010 Burke memo and the added condition of submission of the most recent IDEM report.

Uniform Fee Schedule Ordinance/Amended for Alcohol Certification Permit Fees

The Surveyor presented the Uniform Fee Schedule amended to include a fee for the Alcohol Certification Permit Fees. He noted presently several counties were charging a fee for the process of said forms. In 2006 the law changed that businesses were to get annual renewal of their license which included obtaining a location certification permit from the County Surveyor office. The forms were more frequently submitted and required a significant amount of staff time and effort. Other County's fees for renewal were reviewed before setting the price at \$100.00. He noted the fee was for the service and costs associated with the renewal process. John Knochel made a motion to approve the Uniform Fee Schedule Ordinance/Amended for Alcohol Certification Permit Fees as presented. David Byers seconded the motion. The Uniform Fee Schedule was approved as amended.

J. Berlowitz Regulated Drain#08 / Partial Vacation request

The Surveyor presented an order to partially vacate a portion of the J. Berlowitz#08 regulated drain. He explained this was an item included within the previously submitted Clarian/Arnett/County Agreement regarding the Berlowitz Regional Storage Facility. The order involved the Berlowitz tile portion which was routed through the subject property only. He noted the agreement was previously approved by the Drainage Board and Commissioners. He requested approval at that time. David Byers made a motion to grant the vacation order as presented by the Surveyor. John Knochel seconded the motion. Order #2010-12-DB Vacating a Portion of the Berlowitz Regulated Drain in Tippecanoe County Indiana was approved as submitted. The Attorney noted a second condition of the agreement was to reduce the right of entry for the relocated Berlowitz drain to 25 feet and would be effective as of the deed transfer date was recorded. John Knochel made a motion to grant approval of the reduction of the right of entry on the J. Berlowitz regulated drain relocated portion to 25 feet. David Byers seconded the motion. The J. Berlowitz regulated drain right of entry was reduced to 25 feet as requested. (Relocated portion only)

Audley Oshier Regulated Drain

The Surveyor noted his office sent out request for quotes on the Audley Oshier regulated drain. Quotes were received and the job was awarded to Tony Garriott as lowest bidder. He will begin work as soon as weather permits.

Petition to Encroach on the John McCoy #50 Regulated Drain

The Surveyor presented a Petition to Encroach on the John McCoy #50 Regulated Drain submitted by Gary D. Kirkham. He stated the location was just south of the Wea School Road on Co. Rd. 200 East. The residence was located on the west side of the road with an existing driveway. The relocated drive would be over said drain. The county regulated tile would be replaced under the drive as well as an additional 10 feet to each side. (Approximate total - 40 feet.) David Byers made a motion to grant approval of the Petition to encroach on the J. McCoy Regulated Drain as presented. John Knochel seconded the motion. The Petition to encroach on the J. McCoy Regulated Drain #50 was approved as presented.

Petition to Reconstruct/Calvin Lesley Regulated Drain #48

The Surveyor presented a Petition to reconstruct on the Calvin Lesley Regulated Drain #48 submitted to the Surveyor office by Jack Buck and Paul Pence. The Lesley drain tile was located at Co. Rd. 750 East and north of Co. Rd. 300 North (just north of East Tipp. Middle School). It involved approximately 55 parcels and 900 acres within the watershed of this drain. He noted approximately 60-70% of the benefitted landowners signed the petition. John Knochel made a motion to approve the submission of the petition and direct the Surveyor to prepare a report for the Board. David Byers seconded the motion. The Petition to reconstruct on the Calvin Lesley Regulated Drain was approved as submitted and the Board referred the Petition back to the Surveyor to prepare a report.

Petition to Establish a New Regulated Drain Maintenance Fund/John Hengst Drain

The Surveyor presented a Petition to Establish a New Regulated Drain Maintenance Fund for the John Hengst Regulated Drain. Mr. Jack Buck submitted the petition. The Surveyor noted there was no maintenance fund set on this drain and stated approximately 60% of benefitted landowners signed the petition. John Knochel made a motion to refer the petition back to the Surveyor for a report. David Byers seconded the motion. The Petition to Establish a New Regulated Drain Maintenance Fund regarding the John Hengst Drain was approved as submitted and referred to the Surveyor for a report.

Petition to Establish a New Regulated Drain Maintenance Fund/Combs Tile

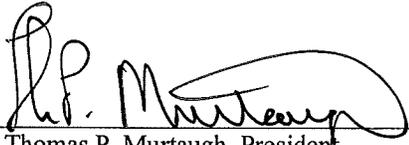

The Surveyor presented a Petition to Establish a New Regulated Drain and Maintenance Fund for the Combs tile Legal drain submitted by Jack Buck. The Surveyor stated this tile was NOT a County Regulated Drain and at this time was a private system. He stated approximately 72% of benefitted landowners signed the petition and were in agreement with Mr. Buck. The Attorney noted the requirement was 10% of the acreage or 25% of the value. David Byers made a motion to approve the petition as submitted and refer it back to the Surveyor for a report. John Knochel seconded the motion. The Petition to Establish a NEW Regulated Drain and Maintenance Fund regarding the Combs tile was approved as submitted and referred back to the Surveyor for a report.

Maintenance Bond/ Tipmont R.E.M.C/ Battleground Substation

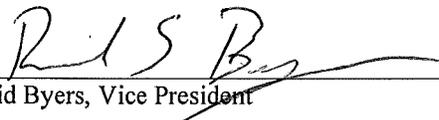

The Surveyor presented Maintenance Bond #929506906 in the amount of \$15,000.00 from Garmong Construction Services dated November 12, 2010 received from Tipmont R.E.M.C. Battleground for approval by the Board. He recommended Board approval. John Knochel made a motion to grant approval for the Maintenance Bond #929506906 in the amount of \$15,000.00 from Garmong Construction Services dated November 12, 2010 received from Tipmont R.E.M.C. Battleground. David Byers seconded the motion. Maintenance Bond #929506906 in the amount of \$15,000.00 from Garmong Construction Services dated November 12, 2010 received from Tipmont R.E.M.C. regarding the Battleground substation was approved as submitted.

Public Comment

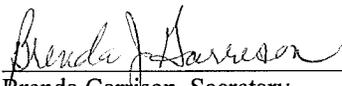

As there was no public comment John Knochel made a motion to adjourn. The meeting was adjourned.

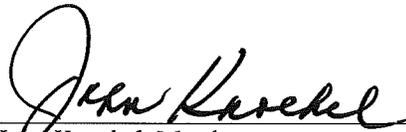

Thomas P. Murtaugh, President

David Byers, Vice President

Brenda Garrison, Secretary

John Knochel, Member

Tippecanoe County Drainage Board
February 1, 2017
Regular Meeting Minutes

Those present were:

Tippecanoe County Drainage Board Vice President David S. Byers, member Tracy Brown, County Surveyor Zachariah Beasley, Drainage Board Attorney Doug Masson, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Evan Warner-G.I.S. Technician and James Butcher-Project Manager, both with the Surveyor Office, were also in attendance. President Thomas P. Murtaugh was absent.

Approval of Minutes

Tracy Brown made a motion to approve the January 4, 2017 regular Drainage Board Minutes as written. David Byers seconded the motion. Motion carried.

Franklin Yoe #90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Opening

David Byers referred to the Attorney for the reading of the submitted bids regarding the Franklin Yoe #90 Regulated Drain and the G. Swanson #76 Regulated Drain Maintenance Projects. Attorney Masson read the following:
Regarding the Gustav Swanson Regulated Drain #76 Maintenance Project the bids were as follows:
Tony Garriott submitted a bid in the amount of \$49,595.80; ADI submitted a bid in the amount of \$14,594.00; Huey Excavating submitted a bid in the amount of \$24,672.00

Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once bids were reviewed for compliance by the Surveyor's office Project Manager, the Gustav Swanson #76 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

Attorney Masson read the Franklin Yoe Regulated Drain #90 Maintenance Project bids as follows:
ADI submitted a bid in the amount of \$18,563.00; Tony Garriott submitted a bid in the amount of \$33,234.56 Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once the bids were reviewed for compliance by the Surveyor's office Project Manager, the Franklin Yoe #90 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

Drainage Board 2017 Professional Engineering Assistance Contract

David Byers referred to the Surveyor regarding presentation of the 2017 Drainage Board Professional Engineering Assistance Contract. Surveyor Beasley noted he as well as Attorney Masson had reviewed the contract. He stated contract's rates had not changed from the past 3-4 years and he saw no additional changes. He recommended approval by the Board. Responding to Tracy Brown's inquiry, the Surveyor stated this was indeed at a cost savings to the county. He had previously in years past reviewed this issue. The cost for the services was approximately \$75,000 annually versus a minimum of \$130,000 cost for the exact work by an office staff member. Tracy Brown made a motion to approve the Drainage Board Engineering Assistance Contract as presented by the Surveyor. David Byers seconded the motion. Motion carried.

Lafayette YMCA

David Buck from BFS appeared before the Board to present the Lafayette YMCA for drainage approval. The site was located within the City of Lafayette at the existing Point East Mobile Home Park. The Board would review this project today for drainage purposes only. Mr. Buck stated a Petition to reduce the drainage easement on the S.W. Elliott Branch #13 was submitted for approval as well. The reduction in the drain maintenance easement would leave a 30 foot easement for maintenance of said branch. He noted they had received the January 12, 2017 Burke memo and was in agreement with the conditions as noted. He requested approval at that time for both the Petition and the project's drainage.

The Surveyor stated the Board's actions today were to approve the aforementioned Petition and the project's drainage only. He noted the project site drained to Branch #13 of the S.W. Elliott drain and continued southwest along Creasy Lane and eventually to the F-Lake Detention Basin. He recommended approval to the Board for the Petition to Reduce the Easement on the S.W. Elliott Branch #13 Drain as well as approval per the January 12, 2017 Burke memo recommendation. Tracy

presented. David Byers seconded the motion. Motion carried. Tracy Brown then made a motion to approve the Lafayette YMCA per the January 12, 2017 Burke memo recommendations. David Byers seconded the motion. Motion carried.

Belle Tire (Lot 4A 26 Crossing Subdivision)

Kyle Betz of Fisher and Associates appeared before the Board to request approval for the Belle Tire project. The site was located within the City of Lafayette and more specifically on Lot 4A in 26 Crossings Subdivision approximately ¼ mile from the interchange of I-65 and SR26. The site consisted of approximately 0.94 acres. This site was adjacent to the Alexander Ross Detention Basin. The site would drain entirely to the F-Lake detention facility. He stated they agreed with the January 25, 2017 Burke memo and requested approval for the project. The Surveyor stated the project had been reviewed and noted calculations were missing from their submittal. David Eichelberger stated calculations for the detention storage were not provided to date and that would need to be provided as soon as possible. The Surveyor agreed with the Consultant and reiterated those calculations should be provided and his recommendations were contingent on this. Mr. Betz agreed to review the report and provide those calculations to the Consultants as soon as possible. Tracy Brown made a motion to grant conditional approval as stated in the January 25, 2017 Burke memo. David Byers seconded the motion. Motion carried.

USGS Geological Stream Gages WREC Contract Support

Stan Lambert from Wabash River Enhancement Corp. (WREC) appeared before the Board to request financial and administrative support of the stream gages contract with the USGS Geological Services. He stated he was requesting to share the cost of the USGS Stream Gage Contract with the Tippecanoe County Partnership for Water Quality (TCPWQ). The streams were: Little Wea at Co. Rd. 800S, S.W. Elliott Ditch at old Romney Road and Little Pine Creek at Co. Rd. 850E with the contract covering the period of Jan. 23, 2017 through Sept. 30, 2017. He noted the data collected would be available on the USGS stream monitoring site on an hourly basis. This information was used as part of Water Quality monitoring by WREC and Purdue University. He noted Sara Peel from his office presented this to the TCPWQ and was given approval by their Board to go forward with support. The Surveyor stated he would review the TCPWQ Board minutes as the MS4 Coordinator to confirm the TCPWQ's intention was to contribute up to \$10,000.00 toward the overall cost of the contract. Tracy Brown made a motion to approve the contract amended \$10,000.00 amount as submitted with the condition the Surveyor as MS4 Coordinator confirms the TCPWQ support. David Byers seconded the motion. Motion carried.

Franklin Yoe#90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Award

Tracy Brown referred to Attorney Masson for the results of the submitted bids on the F. Yoe #90 and G. Swanson #76 Drain Maintenance Projects. Attorney Masson stated the bids were in order and the recommendation was to accept the low bid on each project. Tracy Brown made a motion to grant approval of the bid from ADI regarding the Gustav Swanson #76 and the F. Yoe Regulated Drain #90 Maintenance Projects as the low bidder on each project. David Byers seconded the motion. Motion carried.

2017 Classification Report/2017 Drain Assessment Activity Report

The Surveyor presented an active and inactive drain assessment list regarding county regulated drains with maintenance funds for approval by the Board. He reviewed the annual process for the Board. Tracy Brown made a motion to approve the Active Inactive Drain list as submitted by the Surveyor. David Byers seconded the motion. Tracy Brown made a motion to approve the 2017 Classification Report provided by the Surveyor. David Byers seconded the motion. Motion carried.

Zach Beasley/Other Business

Appointment of Drainage Board member to Tri-County Board

The Surveyor stated he was contacted by Benton County Surveyor David Fisher regarding the Sophia Brumm Joint Drain. The landowners have requested a joint meeting to discuss reconstruction of several lineal feet of the tile within the S. Brumm Drain watershed. The proposed time was February 21, 2017 at 10:00 a.m. at the Benton County Courthouse. An appointment from this Board was requested. David Byers noted there was a Commissioner Meeting at the same date and time. Tracy Brown made a motion to appoint Commissioner David Byers to the Sophia Brumm Tri-County Drainage Board as requested pending a new date and time is set due to conflict. David Byers seconded the motion. Motion carried.

Outstanding Reconstruction Assessments

The Surveyor informed the Board the five year reconstruction payment cycle was coming to a close on a few of the drain reconstruction projects. With that said there were a few landowners who had not paid any payments during this five year period. His understanding was these properties which had outstanding debt for the reconstruction of a drain should be included in the tax sale. He read Indiana Code 36-9-27-86 i.e. regarding the sale of the property due to outstanding drain

reconstruction assessments and referred to Attorney Masson for his direction. He stated he was seeking a recommendation from the Board to proceed as the code dictates in these situations. He noted financially, the deficit could adversely affect the General Drain Improvement Fund and future drain maintenance and reconstruction projects.

Attorney Masson clarified that only the land affected by the delinquency could be sold, that this was not a personal judgement but a liability which stayed with the land only. He would speak with the Auditor and Treasurer to clarify the issue and start utilizing the process in this county from which the code dictates. A lien on the property not the land would be sold. Attorney Masson would follow up on this issue and those landowners who may be affected by this code. He requested authorization to contact landowners who were affected by this regulation. He stated he would work with both the Treasurer and Auditor to set the process which this County can utilize to automatically go forward with the property lien sale when warranted. There was no public comment.

Tracy Brown made a motion to give authorization to the Attorney to begin the process by sending out delinquent reconstruction assessment letters to those landowners who were delinquent as well as listing them on the tax sale when appropriate. David Byers seconded the motion. Motion carried.

Tracy Brown made a motion to adjourn. The meeting was adjourned.

Below is the Surveyor's 2017 Classification Report less Exhibit A:

Classification of Drains

Per IC 36-9-27-34

February 2017

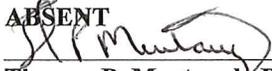

- 1.) Drains in need of Reconstruction
 - a. Elliott, S.W. (#100)
 - b. J.B. Anderson (#02) (Clarks Hill Portion)
 - c. Edwards (Not Maintained)
 - d. McBeth (Not Maintained)
 - e. F.E. Morin (#57)
 - f. Marion Dunkin (#25)
 - g. Huffman-Weimert (Not Maintained)
- 2.) Hearing and Rates Established in 2011, '12, '13, '14, '15 and 2016
 - a. Michael Binder (#10)
 - b. John Blickenstaff (#11)
 - c. Train Coe (#18)
 - d. Fred Haffner (#34)
 - e. E.F. Haywood (#35)
 - f. Mary Southworth (#73)
 - g. Franklin Yoe (#90)
 - h. Jess Dickens (#91)
 - i. Romney Stock Farm (#109)
 - j. John Hengst (#117)
 - k. Calvin Lesley (#48)
 - l. Audrey Oshier (#60)
 - m. Combs Ditch (#118)
 - n. Leader Newton (#115)
 - o. Thomas Ellis (#27)
 - p. John McFarland (#51)
 - q. Hester Mottsinger (#58)
 - r. J. Kelly O'Neal (#59)
 - s. Franklin Resor (#65)
 - t. Harrison Wallace (#82)
 - u. Eldora K. Lois (#119)
 - v. Frank Kirkpatrick (#45)
 - w. Elijah Fugate (#30)
 - x. Mary McKinney (#52)
 - y. Harrison Meadows (#37)
 - z. Shepherds Point (#121)

- aa. James Kellerman (#42)
 - bb. Alonzo Taylor (#77)
 - cc. Clymer Norris (#122)
 - dd. Crist Fassnacht (#29)
 - ee. Peter Rettereth (#66)
 - ff. Ann Montgomery (#56)
 - gg. Gustav Swanson (#76)
 - hh. Nathaniel W. Box (#12)
 - ii. Lydia Hopper (#124)
 - jj. Amanda Kirkpatrick (#44)
 - kk. John McLaughlin (#97)
 - ll. Martin Erwin (#28)
 - mm. Waples McDill (#85)
