Area Plan Commission (APC) Assistant Director John Thomas presented the sixth revision of the community long range transportation plan which is revised every five years. The plan recommends specific highway, bicycle, sidewalk, and trail improvements throughout the county. The highway recommendations are taken from the previous plan, the technical and administrative committees of APC, Commissioner's staff, and input from a cross section of the community, including the Wabash River Enhancement Corporation, the Community Bicycle Organization, and the Citizens Participation Committee. The plan differs from previous plans due to the inclusion of specific bicycle and pedestrian recommendations. There are two policies in the plan which further enhances the community livability: 1) a complete streets policy requiring every federal aid highway project to consider the needs of bicycles and pedestrians; and 2) set aside 10% of highway funds for sidewalk and trail construction.

PRESENTATION OF SALARY STATEMENTS

Auditor Weston said the salary calculations rather than signed Salary Statements was sent electronically to the Commissioners prior to the meeting. The salary calculations will show the positions by department; who is currently in the position; if there is longevity in the second half of this year or next year; and what the salary calculates to. Based on the Commissioner recommendation to use \$750,000 toward raises for 2013, most of the charts are at the market for 2008-2009 previous study. The PAT, COMOT, POLE, AND LTC charts, which are the ones with longevity, are at 98%. The COMOT and POLE charts are approximately a 5% increase; the PAT and LTC charts are approximately 3.5%. The Probation chart which is mandated by the state is 2.2% and they did not receive raises in 2012 as other employees did. Prior to the pay grids adjustment, 112 employee salaries were frozen. In 2012, 66 were still frozen. After these changes, there are 32, all of which fall on the PAT and LTC charts. If the recommendation is approved, the COMOT and POLE charts are completely unfrozen. The total is close to \$700,000 with a \$50,000 allowance for the Prosecutor DPA Attorney chart. In addition, there will be PERF and Social Security costs. The Villa request approved today is not included. There is a new position request by Superior Court 2 for a Court Administrator; however there was not a salary amount suggested. There are 13 positions that continue to be carried forward which are considered unfilled and unfunded. Auditor Weston asked the Commissioners to review those positions and possibly deauthorize them to remove them from the books.

The salary statements require presentation to the Commissioners today; however the deadline is August 20 for individual recommendations. The Commissioners were in agreement to take some time to review the salary statements and the 13 unfilled and unfunded positions.

RFP PARKING GARAGE MANAGEMENT

Attorney Luhman said soliciting proposals for management of the parking garage every few years is a good idea to ensure the County is receiving the best management services for its facility and to stay consistent with market rates. The current contract with Denison expires December 31, 2012 and only includes the parking garage. A consideration to include in a new contract would be the parking lot at 4th and Alabama which is utilized by jurors. 90 days notice is required to change or terminate the current contract with Denison. To begin the process and receive proposals, notice will be published in the newspaper and contact will be made to interested parties, including Denison. Proposals will be reviewed by the Commissioners, a vendor selected, and a contract negotiated. The contract recommendation then returns to the Commissioners for approval.

- Commissioner Knochel moved to approve the soliciting of proposals for management of the parking garage as presented, second by Commissioner Byers; motion carried.
