Commissioner Byers said the Personnel Committee approved the full-time position due to the increased workload at the Fairgrounds. Roberta Crabtree said additional bookings are anticipated with the air conditioning update. Currently, a lot of overtime is incurred during July, increasing the staff from part-time to full-time and having two full-time employees will help with the workload.

RECORDER – Oneta Tolle

Eastern Engineering – Kip Maintenance Agreement

Vice President Knochel stated the Commissioners have reservations about the maintenance agreement and asked Recorder Tolle if the printer was old. Recorder Tolle said it was purchased in 2001 and gets used several times a day. Vice President Knochel questioned the agreement because it stated there would be no responsibility for repairs. Commissioner Byers asked why the County would pay \$175 per month if it wasn't going to be supported. Recorder Tolle said the County has paid for maintenance since 2001; it is cleaned and parts are replaced on a monthly basis. The printer is now so old that parts are becoming more difficult to find. When the time comes that parts are not obtainable, the agreement states the cost of parts will be out-of-pocket. Commissioner Byers suggested it could be time for a new printer. Recorder Tolle said she is trying to make the current one last as long as possible; however, she does have money in the budget for a new one. Commissioner Byers said discussions were held during the MITS meeting about CIO Dave Sturgeon handling all printer and copier contracts. The benefit would be to have all printers and copiers under one umbrella. Commissioner Byers stated he is uncomfortable renewing the contract for this particular printer. Recorder Tolle said she has received estimates to purchase a new printer.

- Commissioner Byers asked Recorder Tolle to converse with CIO Sturgeon and moved to table the Kip Maintenance Agreement to the January 7, 2013 meeting, second by Vice President Knochel; motion carried.
