PUBLIC COMMENT

Paul Wright, West Point – He felt the WCSWD Director's new building proposal of \$250,000 was outrageous and questioned why the bids come in so much higher than anticipated. Commissioner Byers replied the initial figure was compiled without the aid of professional engineers qualified in all safety aspects for a building of this nature. Commissioner Murtaugh said the bids would be reviewed and could be rejected if there are not enough funds to cover the cost. Mr. Wright said he worked in hazardous waste

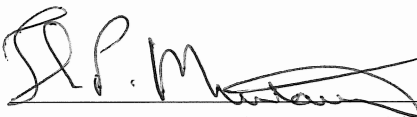

for 30 years and does not understand the need for such an expensive structure and set up. He feels like the District is spending money with little regard for taxpayers.

Commissioner Murtaugh moved to adjourn.
