Recommendations for Events within Tippecanoe County – March 31, 2021

The Tippecanoe County Health Department advises the following measures for events to prevent transmission of COVID-19 and protect the health of event staff and attendees:

- 1) Require face coverings for staff, vendors, and attendees older than two years of age.
- 2) Reduce attendance capacity and de-densify the event setting to promote social distancing of 6 feet. Require tickets or reservations to control attendance. Consider dividing the event into multiple smaller sessions to de-densify.
- 3) Make hand sanitizer readily available or provide the means for frequent handwashing.
- 4) Actively encourage sick individuals to stay home.
- 5) Ensure that ventilation systems work properly and increase circulation of outdoor air.
- 6) Post signs reminding staff and attendees about face coverings, social distancing, and hand hygiene. Also utilize audio announcements, if possible.
- 7) Designate six-foot distances with signage, tape, or other means to maintain appropriate distance.
- 8) Utilize Plexi-Glass shields at customer service areas.
- 9) Consider separate hours for elderly and vulnerable attendees.
- 10) Frequently perform enhanced environmental cleaning of commonly touched surfaces.
